CD - Reflections !!		SB 025	GER	
Alltime classic made by one of the best German heavy-progressive groups. Superb guitars, swirling hammond organs, trippy sound effects. This longplay CD combines all songs of the original album, an eleven minute version of "How do you feel" as well as several previously unreleased tracks. Digipak 2nd edition. Da die original Mastertapes lange unauffindbar waren, entschieden wir uns für eine Alternativ-Compilation mit früheren Versionen, die klangtechnisch absolut gleichwertig und zum Teil bedeutend länger waren. REFLECTIONS! enthält daher das komplette Repertoire der einstigen Mannheimer Progrocker mit Geff Harrison am Mikrofon. Digipak 2. Ausgabe.

3piece band from The Netherlands with a pretty intense brew of stoner rock, raunchy wah-wah propelled biker rock, sleazy hard rock and psychedelics.

CD - 49 th PARALLELL		Flashback 008	CDN	
Calgary pop-psych rock. Legendary Canadian band who delivered some seriously good psychedelic rock/pop gems such as "Close The Barn Door" (on 'Endless Journey') and the classic all time psych / punk top ten hit "Citizen Freak". Earlier UK pressing.				
49TH PARALLEL	1969	Lion / Pacemaker / US	Psych Rock	17,90 €
CD - 49TH PARALLEL		PACELN 48	CDN	
Their first 2 singles "Laborer" and "She says" are pieces of pouting prairie punk. In 1969 they had a hit in Canada and the US with "Twilight woman", a lovely song that sounded poppier and slightly folkier than the UK band Tomorrow. The succes of the singles resulted in a release of their one and only album on MGM. This is easily one of the best canadian rock albums ever released featuring excellent material and including pulsating psychedelia, ultra strange tracks as well as a quintessential punk edginess. Strong melodies, great playing and a sympathic production make for a very desirable collection of songs. Coming with a 12 page booklet.

CD - Cauldron		RRCD 141	USA	
Band hailing from San Francisco, and semi legendary in these days. One of the first psych band who mixed electronics in their music, a spacey feeling together with intensity lots of wilderness at time. Ahead of their time. Like a more drugged JEFFERSON AIRPLANE (or maybe more experimental).

CD - Under the burning sun		RRCD 084	USA	
If obscure albums were steak, they couldn't come any rarer than this! To the best of our knowledge, 15 copies of this 1978 U.S. private pressing were actually produced which suggests that fewer than 50 people have ever heard this album. A select group indeed. And more remarkably, this is a great recording, full of prog keyboards, synths and guitars. The lyrics are dark and mystical, and there's a brooding, ethereal feel to proceedings. At only just over 18 minutes the album's a tad on the short side, but what we do get to hear leaves the listener yearning for more. An obscure rarity and a musical gem rolled into one. Highly recommended

A FOOT IN COLDWATER CD - A Foot in coldwater The Canadian band, A Foot in Cold Water were formed in Toronto in 1971, evolving out of two bands, The Lords of London and Nucleus. The initial members were Greg Fitzpatrick on vocals (later replaced by Alex Machin, ex-Island), keyboard player Bob Horne, guitarist John Richardson (later replaced by Paul Naumann, also ex-Island), drummer Danny Taylor and bassist Hughie Leggat. Horne was from New York, Naumann from Frankfurt, Germany, Leggat and Machin both from Glasgow, Scotland and Taylor was from Toronto, Canada. Their debut single, "(Make me do) Anything you Want" gave them their first hit, and their debut album was musically competent and it attained a consistent standard throughout. A FOOT IN COLDWATER CD - The second foot in coldwater The second album, aptly titled "The Second Foot in Cold Water", released the following year and featuring the same line-up, was equally as good as the debut, but demonstrated a more melodic and refined brand of hard rock. A FOOT IN COLDWATER CD - All around us A third album, "All Around Us" came out in 1974 and a final album, "Breaking Through", was released in 1976. When the band folded in 1977, Leggat went on to form Thunder Road and then the Rolling Stones inspired Private Eye in 1979. He also formed a progressive outfit under his own name with his brother, Gordon. Machin later sang with Champion. ABACUS CD - ABACUS Abacus was founded in 1971 and publishing 4 LPs on the Polydor label before breaking up in 1976 due to musical differences. Some members regrouped again for 1982's Carribean Sun on the EMI label before once again splitting up. The music composition itself is oriented towards pop stylings, while the heavily symphonic orchestration and soloing are quite progressive in nature. Some of the songs, particularly Avalanche Part 1, reminds me of an arena rock band like Styx, while others are in a more AOR ballad style like Toto or maybe even some Steely Dan.	1971	Walhalla / EU WH 90337	Rock Prog GER	14,50 €

ABRAMIS BRAMA CD - NAR TYSTNADEN LAGT SIG The 2nd album from ABRAMIS BRAMA after the debut "Dansa tokjvlens vals". Again, this quartet gave us a 10 tracker that was mainly influenced by old Swedish band NOVEMBER, much due to the fact they sung in Swedish, but also musically. But we could also mention many American bands like MOUNTAIN and HIGHWAY ROBBERY as influences, which is quite obvious when listening. ABSTRACT TRUTH	1969-7	Fresh / ZA	Folk Psych Jazz	18,90 €
CD - TOTUM & Silver Trees		Fresh CD 146	ZA	
finally an official pressing of these 2 megarare albums from Southafrican band playing inventive mind stimulatn head-music. Abstract Truth was the brainchild of one Kenneth Edward Henson . The band Abstract Truth existed only for a very short time, but it was a time of super-creativity. They exploded on to the Durban music scene early in 1969, released 2 studio albums during 1970 (as well as a compilation in the same year!) and, after numerous line-up changes, imploded in 1971. Henson had been the guitarist in a band called the Leeman Ltd, which had formed in Durban in 1965. In 1966 he and the enigmatic Ramsay MacKay got together with ex-Navarones members Colin Pratley and Nic Martens to create Freedom's Children, arguably South Africa's greatest rock band. Henson was involved in the early single releases by Freedom's Children, which were unbelievably credited to "Fleadow's Children" because the government of the time considered the word "Freedom" as unacceptable! Henson then left Freedom's Children to join The Bats for a six-week sojourn. In 1969 Henson and sax-player Sean Bergin were in a jazz group called The Sounds. Henson says, "In February 1969 I was approached by the owner of a local hotel. He had heard that I played the sitar and asked if I could get together an exotic/Eastern-sounding outfit to back a belly dancer in the hotel's disco/pub." The pub was called "Totum" and was situated at the Palm Beach Hotel in Durban's Gillespie Street. Reporter Carl Coleman described their sound in a news article at the time as "totally unlike any other young group around Durban. They are probably the most advanced group in the country. Their music is exotic, progressive, and not commercial." The album 'Totum' was recorded in Johannesburg over a single weekend using a 4-track machine. The album was released in early 1970. "According to today's standards it's pretty rough," says Henson, "but I guess it was an honest interpretation of what we were doing."

CD - ACQUA FRAGILE		BMG 74321 980552	Italy	
Italian prog-rock at the very best! Acqua Fragile was formed in Parma by Bernardo Lanzetti (vocals, guitar), Franz Dondi (bass), Maurizio Mori (keyboards), Piero Canavera (drums) and Gino Campanini (guitar) in the early Seventies. Their same-titled debut album was released during 1973. Symphonic rock and classical british pop was the mainstream music of those years; Acqua Fragile's sound was a little different, still progressive but closer to west coast music than to italian bands as Banco or PFM. Nevertheless it was PFM (with the assistance of Claudio Fabi) that produced Acqua Fragile's second album "Mass Media Stars". The band's line-up changed during 1974: Joe Vescovi, keyboards player for Trip, played several shows with Acqua Fragile, but the band split shortly afterwards. The singer Bernardo Lanzetti went on to become PFM's vocalist in the highly successful mid-Seventies. Unfortunately the acclaimed Acqua Fragile second album "Mass Media Stars" is currently out of stock.

Limited numbered edition of 1000 only worldwide! From its inauguration as an exclusive and elitist clique centered in London and its immediate suburbs, the mod movement had by the early 60's germinated to a point where British groups were flourishing to entertain its growing legions. The mods' original musical palette oozed black soul and rhythm and blues and since in the less cosmopolitan world of the time its perpetrators rarely ventured beyond their home base of the U.S.A., a blossoming of indigenous talent to sate the demand for live R&B and soul was inevitable. The mod riots, 'Ready Steady Go' and the emergence of Tamla Motown as a commercially successful force exasperated the phenomenon and expanded mod into a national and indeed mercantile culture, which ignited a further engendering of mod or mod styled groups. Georgie Fame and the Blue Flames, Chris Farlowe and the Thunderbirds and Long John Baldry's Hoochie Coochie Men to name but a few had paved the way but in 1965, a genus of more visually appealing bands had or were achieving a profile. Despite their mostly manufactured mod image the Who were the movement's most distinctive standard bearers but from the ranks of mod itself there emerged two bands in particular who for many of their own and subsequent generations, defined and epitomized the British mod group - The Small Faces and The Action. The recordings: Five are T.V./Radio/Live versions of Action single (+ one from "Rolled Gold" era) tracks. Another five are totally unreleased, and appear here for the first time ever on any record! The C.D. version will be a double set: The first C.D. will contain all the material on the vinyl version. The second 'bonus' C.D. will have 16 live tracks from The Boston Arms/Dome, London - their second re-union gig in 1998. There are an additional two tracks compared to similar ones featured on the band's video tape of the occasion "In The Lap of the Mods". All copies will be individually machine-numbered, and will feature a 16-page colour (outer and centre spread) booklet. Tracklisting: Vinyl L.P. and CD1 Side One: 1. I'LL KEEP HOLDING ON (2:20) T.V. AERA CD - Humanum Est / Hand und Fuss	1975-7	Erlkoenig / GER Erl 4308	Prog Jazz Rock GER	16,00 €
Aera (not to be confused with the Italian band Area), were a long running German fusion band that recorded for the independent Erlkoenig label in the 70s and into the 80s. This CD collects their first two albums onto one disc. Although the band had a very active rhythm section the real energy came between the interplay of guitarist Muck Groh, violinist Christoph Krieger, and alto/flute player Klaus Kreuzeder. Both albums feature extended jamming that is quite reminiscent of Kraan and Embryo. Two gems with more reissues promised.

2 CD set featuring the 3rd and 4th albums from this overlooked German fusion band from the 70s. Aera shares much in common with Kraan minus that band's occasional lapse into comedic schtick. The main man behind Aera is soprano/alto saxist Klaus Kreuzeder who is the primary soloist. Turkis finds the band locking into a groove, at times bordering on funk (hey this was 1978!) and letting fly. The accompanying live album features Roman Bunka on guitar and kicks off to a roaring start and blazes along from there.

AGAMENON CD - TODOS RIEN DE MI Hippie group from Madrid, this is no doubt the most acid psychedelic rock album recorded in Spain in the 70's. It is their sole album, originally released in 1975 on the Explosion label and a very rare and collectable item. The group was formed by 2 Spanish female and 4 male and the brainhead was Carlos Garcia, who sadly passed away not long ago and to whom this reissue is dedicated. 10 Tracks, 8 of them in English and 2 in Spanish, all originals; there's lots of heavy acid fuzz guitar here, probably the wildest fuzz recorded in Spain ("Todos rien de mi", "Send me" or "I need money"), and also some great sunshine psych-pop ("Cuco go fly", "Al salir el sol"), and it's all very well packed with some of the best multi-vocal harmonies. CD has no poster but a booklet with pics and infos. Slimcase edition.	1975	Guerssen / E GUESSCD 05	Psych Prog. Hard E	17,50 €
AGAMON CD - Open Up Your Eyes Zappa influenced Swedish concept album formed around Matts Oberg and Morgan Agren (later of MATTS & MORGAN) here together with Simon Steensland. A beautiful progressive rock album with great arrangements	1993	Mellotronen / S Mello CD 006	Prog Rock S	15,90 €
AGAPE CD - GOSPEL HARDROCK CD-reissue of Agape's debut LP from 1971 (originals go for at least \$150 nowadays); heavy blues psych cooker with a Hendrix sound from brainchild Californian Fred Caban who wrote the lyrics, music and supplied the vocals on all the tracks; Agape was at the forefront of the Jesus Movement—dubbed by many as Jesus freaks: 'once high on acid, the Jesus freaks are now high on Jesus'—and the music shows the effects of both influences; check out the eerie 'Rejoice' which narrates tribulation prophecies against a back-drop of guitar-induced missiles and earthquakes; or 'Freedom' with its layers of effect-laden guitars darting around over a throbbing two-note bass beat, snare drums, and Fred singing a hymn in a different key; took me twenty minutes of looking at the original cover (only on the LP version), to see that it is an abstract image of the face of Christ—reportedly a photograph of a natural image of melting snow against a black background.	1971	Agape Communication AC 001	Psych Rock Hard USA	22,95 €
AGAPE CD - Victims of Tradition Second album (much rare than the debut, and therefore much more expensive to find) has a very different, but equally impressive sound; more complex song structure than with keyboards playing a bigger role, giving the proceedings something of a progressive feel, and delving into jazz fusion on several songs; 'Wouldn't It Be A Drag' is a seven minute outing with drum, bass, guitar, and electric piano solos before it culminates in cacophonous bursts of noise; on the beautiful 'The King Is Christ' it almost sounds like the guitar solo was recorded backwards; lyrics are clearly not secular, but they are not just God-loves-you slogans—this is the Gospel on acid; not that many records sound this unique and creative after thirty odd years have passed.	1972	Agape Communication AC 002	Psych Rock Hard USA	22,95 €
AGAPE CD - Live and Unreleased Collection of rare material, much of it only previously available on an extremely rare promo-only 8-track tape! Most of it is live from 1973, the stand-outs being a blazing acid jam versions of 'Wouldn't it Be a Drag' and 'Change of Heart' from "Victims of Tradition", live at Mount San Antonio College in Walnut, CA; some later material too (studio?)—two tracks from 1978, one from 1979, one from 1993—spanning a variety of styles, but all featuring Caban's distinctive guitar playing; excellent sound quality, especially considering the imperfect source (no master tapes for the live material).	1973-9	Hidden Visions / US AC 023	Psych Rock Hard USA	22,95 €
AGINCOURT CD - FLY AWAY 1974 UK private pressing megararity. AGUATURBIA CD - Complete Tracks all tracks from both albums ("S/T" from 1969 and "Volume 2" from 1970), by one of the best and most important psychedelic bands to emerge from South America in the late 60's/early 70's; very heavy fuzz guitar driven rock with fantastic female vocals (inviting the inevitable comparison to Jefferson Airplane) and English lyrics; impossible to indicate how revolutionary they were—but the fact that the band were naked on their debut, and crucified their singer on the cover of their second album may give you an idea; the addition of three bonus tracks from 1973 makes this the essential issue of the band's work; booklet comes with notes and photos from the band's archive.	1969-7	Record Runner / BRA RR 0410	Psych Rock Hard Chile	18,90 €

AHBEZ, Eden CD - Eden's Island Eden, along with Gypsy boots and a few others, were the original hippys, (although not called that). Their long hair, beards, as little clothing as possible, and adherence to a healthy, natural, non-materialistic way of life, began in the 1930's, and continued until their deaths in 1995(EA), and 2004(GB).. Eden wrote 'Nature boy', sung by Nat Cole and many others. If you wish to track the history of the movement that is still influencing our way of life from alternative health to the Grateful Dead, Eden Ahbez's contribution is a must. Eden's Island is music for the end of a stressful day. The soothing sound of musical seashells blended with soulful prose, lifts one's spirit from the mundane world of techno and transports it into Paradise. A glass of wine and an ocean breeze helps. Ahbez is a unique artist who reveals his soul without regret. This is a CD worthwhile having in your collection.	1960	collector's choice / US CCM-467-2	60's Folk Psych USA	11,90 €

AKBAYRAM, EDIP CD - EDIP AKBAYRAM - (2CD) Edip Akbayram is the top of the BIG 3 of Turkish delights (Erkin Koray, Baris Mancho & Edip). The best psych tracks from his first 2 albums and many singles (like in the other Shadoks release of Erkin Koray), 22 tracks, 90 minutes of music. His band DOSTLAR formed the songs into something which takes you on an eastern trip, full of fuzz guitar, electric saxes and great percussions. Edip's dark voice makes you shiver and you feel like dancing right away. This is as good as Erkin Koray with a deep spirit and very political words.	1972-7	Shadoks / GER SM 067 CD	Psych Folk TR	19,95 €
AKBAYRAM, Edip & DOSTLAR CD - Nedir Ne Degildir A very different take on the Anatolian rock sound (tracks date from 1975-76), with strange keyboard washes leading to arrangements that feature wah-wah fuzz guitar and (I think) wah-wah saz, Akbayram's powerful swirling vocals, all backed by funky drums; many of these tracks have a tough hashish rock sound that somehow meshes well with folk instruments, and/or the odd addition of Jethro Tull-esque flute; keyboards and arrangements from "genius" Murat Ses (Mogollar) supplement the Dostlar line-up; probably the most important non-Erkin Koray, 3 Hur El, or Mogollar album from Turkey; among the best that Turkey produced in the seventies—and that's saying something; lyrics and photos in 12-page booklet.	1975-7	World Psychedelic / U WPC6 8476	Psych Folk TR	17,00 €

AKRITAS CD - AKRITAS Amongst the most ambitious and best Greek progressive albums, this 1973 release is a tremendous concoction of dynamic and effortlessly shifting complex rhythm changes, multi-instrumental layers and musical textures. With individual segments ranging from Garcia-like guitar, pomp chuch organ, jazz, baroque, piano recital, thundering drums, soaring melodic vocals... And probably a kitchen sink, it is somewhat comparable with the finest ELP, Gentle Giant and Zappa, but at the same time totally unique! AKRON CD - IL TEMPO DI FERRO Second album by Italian dark progressive band, guided by former the BLACK bassplayer Enio Nicolini. This is a concept album, based on the Templars' legend, musically reminding of the most legendary Italian progressive bands of the 70s. The sound is dark and doomy progressive with great hammond organ, symphonic arrangements, theatrical male/female vocals, deep bass and ritual hypnotic drumming. A really dramatic opera with an original tragedy's feeling. Limited edition, coming with a 90 pages book "Il labirinto Ottogonale" by Eugenio Mucci.	2002	Black Widow / Italy BWR CD 067	Neo-Psych Prog Italy	16,00 €
AKTUAL CD - AN ASSAULT UPON THE CULTURE The CD an "Assault upon the Culture" contains the complete live recording of Aktuals performance in Music F club, and four demo songs recorded in the Aktual rehearsal room. There is yet another home recording from 1972 of unfortunately very low quality, which was used as a soundtrack to the silent film about the Aktual concert in Holubin. From it, only part of the Composition City Of The Aktuals was selected for this CD. The other songs on the 1972 recording are Coke, Yellow Martian and Rats into the Breach: higher-quality alternative versions of these have been included on the album. All recordings are monophonic. All of them are published for the first time, except for the two-minute fragment of the song "An Assault Upon The Culture" which appeared on Milan Knizaks album Obrad horici mysli and on the CD enclosure of the book Alternativni Kultura.	1972	Kissing Spell / UK KSCD 814	Folk Psych UK	19,95 €

AMIGOS DE MARIA, Los CD - Rock	1968	Underground Masters / UM 010	Rock Psych Chile	17,00 €
As the title says, this album really rocks! Absolutely incredible Chilean group who recorded this amazing album in 1968, though it wasn't released until 1973. The finest and purest garagey psychedelia you could have ever imagined, this record has it all. Opening 10 min track "Vuelve a comenzar" has wild, pounding drums, great aggressive guitar riffs plus weird and demented vocals. What a killer track! Rest of the album follows this track quite closer, including unbelievable cover versions of Box Tops "The letter" or Ray Charles "What I'd say" which are so wild that you'll hardly recognise them. Were not talking about lo-fi mid-60s garage sound, this is top-level, perfectly produced garagey psychedelia! Definitely one of the best South American albums from the psych era. Two tracks sung in Spanish, rest in English. First time on CD.

AMON DÜÜL 2 CD - Utopia Reissue of the superb 1972 album that was recorded as a side project to Amon Düül II but features most of that band. Here it is at last- the missing link betwixt the Attack and Atomic Rooster (John Du Cann obviously had a fixation with the letter 'A'). Originally recorded in 1968, the album was hacked to bits by the record company and never released in its original form- until now. This package features all ten original songs, two of which were left off because they were deemed too long, and in the original 'heavy' mix which the public never got to hear. A true lost classic of heavy psych, remastered from the acetates found lurking in Du Cann's loft. Sleeve notes by Rich Wilson. Due In: 03/10/2005				
ANDROMEDA CD - ANDROMEDA - (GER)	1970	Second Battle / GER SB 042	Prog. GER	15,00 €
This group called "Andromeda" started up during the early period of Krautrock. Its musical output was dominated by a heavy organ sound and came across much more professional than many other contemporary German groups, perhaps comparable to NOSFERATU (they were on the same label "Vogue") but not as jazzy. Also similar to Eloy (ca. 1973) or Waterloo. Certainly a reissue we would like to recommend to you, and what shame they only recorded this one album. Diese deutsche Andromeda-Formation war neben Nosferatu eine progressive Band auf dem deutschen Vogue-Label, die spielerisch eine Menge drauf hatte. Man präsentierte orgellastigen Hardrock mit guten progressiven Ideen - im Stil von Nosferatu, Eloy (1973) oder Waterloo. Schade, dass es damals nur bei diesem einen Album blieb. Im Digipak.

This 1969 British Hard Blues Rock TRIO's first self-titled album is a real rarity even in this format for they have only made a limited number of them! For those who are not familiar with this group, it features John Cann (aka Du Cann), pre-Atomic Rooster and pre Hard-Stuff! The CD is a one time release. - „Airmail Recordings“ is a fantastic reissue label from Japan. All their releases are mini-LP releases like the originals which means all covers are exactly like the original LP's artwork (with all gimmix...), furthermore you get all the usual Japanese additions like OBI and lyrics. The music itself is once again remastered to achieve best possible sound quality. For the true music lover these are essential releases.				
ANDWELLA CD - WORLDS END/PEOPLE'S PEOPLE	1970-7	Progressive Line / AU PL 537	Prog. UK	14,50 €
Two classic albums on one disc from 1970 by the band who were known on their debut album "Love & Poetry" as Andwella's Dream. Expensive, lush orchestral arrangements fill these discs as the band move into a more progressive sound (like early Traffic) whilst the electric guitars and flutes float and roar above these arrangements making a quite unique sound especially on tracks like "I Got A Woman" and the instrumental track "Michael Fitzhenry". Quality stuff indeed.				
ANEKDOTEN CD - Gravity	2003	VIRTA / S VIRTA 4	neo-Prog. S	17,90 €
New album by this leading swedish progressive band. While moving away from King Crimson influences the sound of the mellotron is still all over the place. There are catchy tracks, melancholy, strong guitar eruptions, psychedelic passages and instrumental tracks. Influenced by Porcupine Tree and Pink Floyd but above all it's Anekdoten in top condition. Also recommended by the leading Dutch sumpho magazine, the IO pages.				
ANGEL PAVEMENT CD - Maybe Tomorrow	1967-6	Wooden Hill / UK WHCD 014	60's Psych Pop UK	22,00 €
Recorded in 1969 but unreleased at the time, the sole album by baroque harmony popsike group Angel Pavement finally emerged in vinyl-only format in early 2003. This new CD release adds a further eight tracks, including five superb psychedelic pop demos recorded in Yorkshire in late 1967 before they came down to London to release two singles, all four sides of which are also included on this release. A rare treat for lovers of Honeybus/Zombies-style late 60s British pop, the 23 track Maybe Tomorrow includes revised and extended liner notes, quotes from group members, previously unpublished photos, substantially different artwork and improved sound quality to stand as the final word on a criminally underrated band.

ANNO DOMINI CD - ON THIS NEW DAY Strictly limited edition of 2.000 copies (you can receive a certificate via their website). Formed in Ireland by Taylor (ex-Eire Apparent) their mildly flavoured folksy album is surprisingly hard to find. Not that locating it would be a very rewarding musical experience. The music is gentle, almost bland and although it contains some nice melodic patterns, you're bound to have forgotten them quickly. They were obviously influenced by The Byrds. The album begins with a good version of their Rock And Roll Star and June Tremayne and The Badlands Of Ardguzth are full of ringing guitars. Best of the melodic, folk songs are The Trapper and The Good Life I Have Known. There's also a heavy rockin' version of Dion's Daddy Rollin'. Recommended for fans of melodic acoustic folk. John Jones and his brother Trevor had earlier played in the Australian band Sweatty Betty. When the group split, the Jones brothers formed Jonesy, Taylor joined Brown and O'Brien, Mercer went solo and Scott joined T.F. Much then Bruno AD."	1971	Repertoire / GER RepUK 1068	Prog. ANTONIUS REX CD - Neque Semper Arcum Tendit Rex ANTONIUS REX is a TRUE occult legend! We are proud to present their previously unreleased studio album recorded in 1974. "Neque Semper" takes you slowly down a long dark vortex. In 1974 Antonius Rex went to London where they met Albert Goodman, an aristocratic practioner of the occult, wealthy owner of country estates with his own castle and the independent record label Darkness. After ten days of intense rehearsal, the band, together with engineer Coldweiss, went into the Mondial Sound Studios in Milan, and recorded the third album (the first as Antonius Rex), entitled "Neque Semper Arcum Tendit Rex". Produced by Mr. Albert Goodman....The six recorded tracks are typically dark-progressive with some Black Sabbath influences. Albert was delighted with the result and spared no expense producing the album. Albert went back to London with the master tape, published a demo LP with a black and white cover featuring magical symbols and a "diabolical" letter dated 1624.	1974	Black Widow / Italy BWR CD 066	Prog. AORTA CD - AORTA 2 Aorta recorded two LP's. The first of these, the self-titled Aorta (their debut album for Columbia in 1969), is today highly acclaimed as a lite-psych album of some minor renown, and though it managed to chart on Billboard's album charts, it failed to do what was expected. A revised version of the group -- still led by Jim Donlinger and now featuring Michael Been on bass/guitar/vocals -- recorded the drastically different second album, Aorta 2, for the Happy Tiger label. Jim Donlinger -- who along with his brother and Jim Nyeholt (during a brief period between the two albums), had all played in the Rotary Connection -- later left Aorta to join Lovecraft (formerly H.P. Lovecraft, who were signed to Reprise at the time), while Billy Herman would eventually move on to join New Colony Six. Michael Been later played with Moby Grape members Jerry Millerand Bob Mosley in Fine Wine, and ultimately achieved his biggest success with the Call.	1969	BOD / GER BOD 126	60's Psych USA	14,50 €

APHRODITES CHILD CD - End of the World Surprise hit album that resulted when the hyper-talented Vangelis Papathanassiou, Demis Roussos and Lucas Sideras (Aphrodite's Child) fled from the Greek military junta to the relative safety of Paris and the 1968 student uprisings; the single 'Rain and Tears', based on Pachelbel's famous "Canon" became the song of the year... and careers outside of Greece became real for two of the three Aphrodite's members; beautiful and strange album—dream-like, baroque, carefully crafted pop/psych; very much in the style of English bands of the era, but with that little twist that makes it all even more special; six bonus tracks, which seem to be rare singles tracks round out this fine reissue; lyrics and photos too in 12-page booklet.	1968	World Psychedelic / U WPC6 8475	60's Psych GR	17,00 €
APHRODITES CHILD CD - 666 - (2CD) Rightfully acclaimed as the most psychedelic album ever to come from Greece, this 1971 concept album was based on biblical tales. Including the keyboard talents of Vangelis, and pre "Housewives Choice" Demis Roussos on vocals, this is a staggering epic of awesome proportions that is at once unhinged and inspired. Floyd like guitar work, weird sound collages, mystical lyrics...Don't miss out on this one!	1971	Vertigo / EU Vertigo 8384302	60's Psych GR	17,90 €

APOCALYPSE CD - APOCALYPSE (2ND ALBUM) Reissue of the second album (1969) by this "hitwonder" from Germany. The band developed and refined their music toward psychedelic rock without denying the psych pop roots. The tracks became longer, the instrumentation many sided (great sitar in "Let die"). Intelligent compositions with great vocals make this underrated album a true gem. Digitally remastered, coming with 2 bonus tracks and a 12 page booklet.	1969	Long Hair / GER LHC 024	Prog. APOCALYPSE/DIE ANDEREN CD - KANNIBAL KOMIX Reissue of the 1968 debut by one of Germany's finest pop/psychedelic bands. Catchy songs with intelligent arrangements played by well educated musicians displaying their abilities to the fullest. Every song could have been a huge hit, also due to the very convincing harmony vocals. All friends of psychedelic pop will love this record. Digitally remastered and coming with a 24 page full coloured booklet.	1968	Long Hair / GER LHC 023	Prog. Psych GER	15,50 €

APPALOOSA CD - APPALOOSA MA acoustic band who, as legend has it, were turned away by Al Kooper when they showed up at his office in 1968 hoping to show him their songs, only to be signed by him when he went out to his reception area and found the group performing for the Columbia office secretaries! In fact, Kooper was so taken by them (principally guitarist/songwriter John Compton and violinist Robin Batteau, who later turned up in the band Pierce Arrow) that this album featured appearances by members of Blood, Sweat & Tears and by Kooper himself! Were reissuing this lost 1969 classic with original artwork and new notes featuring quotes from John Compton himself...a 'Collectors Choice Music' exclusive! Includes 'Tulu Rogers; Thoughts of Polly; Feathers; Bi-Weekly; Glossolalia; Rivers Run to the Sea; Pascals Paradox; Yesterday's Roads; Now That I Want You; Georgia Street', and 'Rosalie'.	1969	Collectors Choice / US CCM 594	Rock Folk USA	12,90 €
APPICE, CARMINE / PAT TRAVERS CD - Superstition Put first-class guitarist Pat Travers (active since the early seventies) together with an extraordinary drummer like Carmine Appice (whose collaborations are far too numerous to list), bring in the full-bodied bass of Chuck Wright and Tony Franklin, and let them play the music they love (blues rock), and the result is one smokin' album! Featuring studio versions of their hottest tracks (i.e. "Boom Boom" and "Snortin' Whiskey"); new versions of classics like Pat's "Crash & Burn" and Carmine's "Evil" (a track from the Cactus days), plus sizzlin' covers of Stevie Wonder's "Superstition" and "Livin Alone," which Carmine played back in the days of "Beck, Bogert & Appice". Among the new tracks, "Babylon Baby," "Misfortunate One" and "Disappear" are standouts. As usual the experience and talent of Appice / Travers comes through loud and clear, and this work is definitely among their best.	2005	Akarma / Italy AK 353 CD	Rock Hard USA	15,50 €

ARCO IRIS CD - ARCO IRIS + 8 Band leader Gustavo Alfredo Santaolalla, had formed several bands in the 1960s (The Rovers, The Blackbyrds, The Crows) with with church fellows Ara Tokatlian and Guillermo Bordarampto; after recording a 3-song demo tape, they met producer Ricardo Kleinman, who agreed to sign them with the condition that they sing in Spanish... and change their name! Their first album (RCA, 1970) has some very beautiful songs penned by Santaolalla in a dreamy folk/psych style, although there is more vitality in the music than that description implies, as both acoustic and electric instruments are evident throughout the recordings, and it includes some swinging guitar jams.	1969-7	BMG / ARG BMG 6657282	Rock Blues Jazz Folk ARG	14,90 €

AREA CD - Event 76 Recorded live at the University of Milan with Steve Lacy and Paul Litton during the period in which Area were working on their experimental Maledetti. Many jazz critics saw an affinity between Area's experimentalism and that of the jazz avant-garde. Event 76 shows us the band's enormous live potential and puts an end to any idea that Area were a simple rock band. An important piece of Italian music history.	1976	Akarma / Italy AK 1038 CD	Jazz Avantgarde Italy	15,50 €
AREA CD - Maledetti Much loved 1976 album from Italy's premier progressive rock outfit area. ARGENT CD - In Deep / Nexus - (2CD) Double disc set of two albums from a much loved and quintessentially English prog band, formed out of the Zombies by its namesake keyboardist and bassist Chris White, and fronted by the charismatic Russ Ballard, whose hits for other artists have spread as far as Three Dog Night, Hot Chocolate, Rainbow and Magnum. 'In Deep' is more song oriented (and features 'God Gave Rock And Roll To You II' (which, with a few minor alterations, was a massive 90s hit for Kiss) as well as the superb ballad 'Losing Hold' and extended pieces 'Candles On The River' and 'It's Only Money'. 'Nexus', on the other hand, is far proggy (hence 'The Coming Of Kohoutek' 'Infinite Wanderer' and 'Music From The Spheres') and was the last thing Ballard did as a member of the band. The booklet includes recent interviews with all bandmembers including bassist Jim Rodford (now in a revamped Zombies with Argent and Colin Blunstone) and drummer Bob Henrit (later a Kink). ARZACHEL CD - ARZACHEL An excellent album from this British progressive group recorded in 1969 by a band of mysterious pseudonyms. In fact, this was a formation of some of the biggest names in UK progressive rock - Simeon Sasparella, Njerogi Gategaka, etc. were the guys Steve Hillage (who went on to play in Gong).. the other 3 members Dave Stewart, Clive Brooks and Mont Campbell formed Egg. Originally released on Evolution this heavy spacey keyboard driven album is often compared to "A Saucer Full of Secrets" by Pink Floyd, and quite deservingly so - the track "Garden of Earthly Delights" is an influential classic of early UK progressive psyche. ASGARD CD - In The Realm Of	1972	Progressive Line / AU PL 588	Prog. UK	14,50 €
Very little is know of English band ASGARD except that they were one of the first bands to be signed by MOODY BLUES label Threshold. The name 'Asgard', taken from ancient North European mythology, means 'castle of the gods'. Perhaps because of its Tolkien-esque resonance, it seems to be a popular one among progsters as it is shared by two other bands, one a 70's French folk outfit and the other a '90's Italian neo-prog group. English ASGARD consist of guitarist/vocalist Rod Harrison (ex-PLEASE and psych-pop band BULLDOG BREED), vocalist James Smith and drummer Ian Snow (who both later went on to join STONEHOUSE CREEK), vocalist Ted Bartlett, bassist Dave Cook and violinist Peter Orgil. They released a 45 in 1972 containing 4 tracks, and then a year later Threshold produced their one and only LP, entitled "In the Realm of Asgard". Rather mainstream, the album is made up of 8 relatively short tracks and could be described as a cross between early 70's MOODY BLUES and the warm, flowing symphonic prog of FANTASY, with vocals faintly reminiscent of Dennis deYoung (STYX).

The first, self-titled, Ash Ra Tempel album, from 1971, is a flat-out massive overdriven psych monster. Formed by Klaus Schulze (on drums & electronics, after having left Tangerine Dream), guitarist Manuel Gottsching (who would remain the one constant with Ash Ra), and Hartmut Enke (bass), this is the most intense recording in their discography & an absolute must if you're interested in the early glories of Krautrock bliss. Possibly the most psychedelic band to emerge from Germany in the '70s. ASHES CD - FEATURING PAT TAYLOR Formed in Santa Monica as The Young Swingers, bassist Alan Brackett, singer/guitarist Jim Cherniss, drummer Spencer Dryden, singer/guitarist John Merrill and singer Barbara Robinson began playing local clubs and released two, now obscure, singles in 1965. By 1966 the band had opted on a name change to the Ashes, along with a change in personnel - original bassist Cherniss dropping out, while drummer Dryden quit in order to join The Jefferson Airplane. The band continued on, signing a contract with Vault Records that saw them release two unsuccessful 45s and within a couple of months Brackett and Merrill had abandoned the project, instead forming The Peanut Butter Conspiracy.	1965-6	Radioactive / UK RRCD 173	60's Beat Psych USA	14,90 €

ASIN CD - MASDAN MO ANG KAPALIGIRAN	1978	Vicor music / PHI VCDK 73	Folk Philippines	19,50 €
Difficult to unravel this collection, but it definitely contains the bands rare debut album from 1978 (Asin "Asin") which is reason for excitement, as it contains their famous recording of Freddie Aguilar's Anak"-one of the top Philippine singles of all-time according to those who know such things; there also seem to be a couple of songs from "Himig ng Pag-Ibig" included for no apparent reason; fourteen tracks, most of which are sung by lovely Lolita Carbon, who enters the pantheon of all-time most attractive female vocalists; her Maddy Prior-esque voice is on display throughout the disc. Digitally remastered. Lyrics (in Tagalog) included.				
ASIN CD - HIMIG NG PAG-IBIG	1979	Vicor music / PHI BCD 158	Folk Philippines	19,50 €
The band had its beginnings in the Phillipine folk bloom of the late 70s. Official reissue of Asins rare second album (1979) which showcases the bands strengths-an environmental song (Hangin) with guitar soaring over strings, a vehicle for lovely Lolita Carbon (the title song) and a song about Mindanao, the Philippine heartland (Balita, sampled by the Black-Eyed Peas for their cut entitled The Apl Song.); harmonic arrangements and Tagalog language vocals sound strangely like English folk/psych bands like Steeleye Span, or Mellow Candle at times; great guitar at surprising moments (Kahapon At Pag-Inig); its easy to see why record collectors pay premium prices for this album-its very good from start to finish.				
ASIN CD - HIMIG KAYUMANGGI	1980	Vicor music / PHI BCD 111	Folk Philippines	19,50 €
Filipinian import! Another rare album debuts on compact disc, this one from 1980; "Himig Kayumanggi" found Asin adding more variety to their sound, although the smooth Tagalog language vocals of lovely Lolita Carbon are (as always) the main feature; crisper production might seem a drawback to some, but the ethereal melancholy of Ili Ili"-a truly special song-can surely make all of us forget the oddly placed club-Med reggae rhythm of Pamilinawen; Sarungbanggi and Ladtudun among other folk melodies make me realize that Asin (at least on this album) are the closest thing to Steeleye Span that all of Asia is ever likely to produce.				
ASOKA CD - ASOKA ++ (Digipak)	1971	Mellotronen / S Mello CD 019	Psych Rock Hard S	14,90 €
Finally an official reissue of this classic Swedish HEAVY PSYCH/PROG rock album originally from 1971!! Formed by the remnants of 60's white blues-boom band 'Taste Of Blues' (who made one fabulous album). HEAVY FUZZ guitars, rough gritty vocals, wailing organs and SPACED OUT echo-violins, make this a pure HEAVY PSYCH trip. This CD is taken from the original masters tapes, remastered for the occasion with lots of bonus tracks and if that's not enough housed in a nice Digipak. Truly a great album and must-have for all 70's buffs.				
ASSOCIATION CD - And Along comes		Collector's Choice / US CCM 0647	60's Psych Pop USA	12,90 €
One of the great pop-rock albums of the 60s, 'And Then Along Comes the Association' not only notched two Top 10 hits in 'Along Comes Mary' and 'Cherish', but also introduced the groups creamy harmony sound to the world. Curt Boettchers production still defines "sunshine pop" to this day, and the whole record just works.also includes 'Enter the Young; Your Own Love; Dont Blame It on Me; Blistered; Ill Be Your Man; Standing Still; Message of Our Love; Round Again; Remember', and 'Changes'. A classic				
ASSOCIATION CD - Renaissance	1966	Collector's Choice / US CCM 3802	60's Psych Pop USA	12,90 €
Reissue of 1966 album, one of the group's most varies releases. The single "Pandora's golden heebie jeebies" was oddly enough the strangest, most psychedelic track of the album. The rest veered from folk pop rock harmony to jazz to bubblegum pop.				
ASSOCIATION CD - Insight Out	1967	Collector's Choice / US CCM 3812	60's Psych Pop USA	12,90 €
Though this 1967 album boasted 2 massive hits "Windy" and "Never my love" the rest was no mere filler. They were always a more album oriented band. Including covers of P.F. Sloan's "On a quiet night" and Tim Hardin's "Reputation" etc. ending with the mabitious, anti-war "Requiem for the masses".				
ASSOCIATION CD - Birthday	1968	Collector's Choice / US CCM 3822	60's Psych Pop USA	12,90 €
Released in 1968, this was probably their most pop sounding album. Producer Bones Howe and the group polished their trademark harmony sound to a brilliant sheen.

ASSOCIATION CD - GOODBYE COLUMBUS	1969	Collector's Choice / US CCM 0648	60's Psych Pop USA	12,90 €
This Association album has long been the toughest of the groups releases to find, even though it went Top 100 in 1969. Thats probably because its both an Association album and a soundtrack album to the film starring Richard Benjamin and Ali MacGraw; about half the tracks are instrumentals composed by Charles Fox. Still, though, fans of the band wont want to miss this; its got the band originals 'Goodbye, Columbus; Its Gotta Be Real; So Kind to Me (Brendas Theme)', and even a wordless vocalized reprise of 'Goodbye Columbus', plus the tracks 'How Will I Know You; Dartmouth? Dartmouth!; Rons Reverie; Across the Field; Carmen, Ohio; A Moment to Share; Love Has a Way', and 'A Time for Love'. Great movie.great soundtrack!				
ASSOCIATION CD - ASSOCIATION	1969	Collector's Choice / US CCM 3832	60's Psych Pop USA	12,90 €
Some fans rank this as their favourite album. The group gained creative control and together with producer John Boylan they explored a more country rock sound as well as a dose of their usual eclecticism. The complete 1969 release.				
ASSOCIATION CD - LIVE	1971	Collector's Choice / US CCM 3842	Rock Country Folk USA	12,90 €
Reissue of this 74 minute double album on 1 CD. Showing to be able of hitting those incredible harmonies live as well as on their studio releases. Behind the note-perfect arrangements there lurks a pretty fine folk rock group as well.

Their last album for Warner Brothers was their least successful chart-wise, including Jimmy Webb's homage to fellow master songwriter P.F. Sloan plus some more tasty tunes in the country rock vein first explored. The complete 1971 release.				
ASTRAL NAVIGATIONS CD - THE WORKS - VOL. 4	1971	Kissing Spell / UK KSG 012	Psych Folk UK	19,95 €
Described by one collector as a "deeply evocative and enchanting album which really touches me", ASTRAL is seminal Holyground. The album has two complementary sides: side one features songs by Mike Levon and Brian Calvert, and by Chris Coombs: acoustic rock with Holyground's psych edge. The three Chris Coombs tracks also feature Bill Nelson on lead guitar. Side 2 showcases Thundermother, searing guitars in a progressive, acid-rock band featuring David John who had earlier recorded with Joe Meek as David John and the Mood. Standout tracks are Mike's innovative structuring of the song "Fourth Coming"; Chris Coombs' "Yesterday" with Bill Nelson's blistering guitar; and Thundermother's acid rock "Boogie Music".				
ASTRAL PROJECTION CD - Astral scene	1968	Gear Fab / US GF-153	60's Pop Psych USA	14,90 €
This 1968 Pop/Psychedelic Rock album is just chock full spacey instrumentation and utilizes horns, woodwind, and string sections very much like those used in Sgt. Peppers. The theme of this release is based upon the thoughts and feelings experienced if one were to leave the physical body (Astral Projection) and become the spiritual embodiment (Astral Body). The Astral Body begins to go back into the physical body and causes one to think about The Astral Scene.....There are some very nice male and female vocals which are backed up by the great orchestration and this LP is one to set the lights down low on and turn on the Lava Lamps!!!

ASUNCAO, RUBINHO & MAURO CD - RUBINHO & MAURO ASUNCAO	197	Lion Production / US MCDS 404	Psych Rock BRA	15,90 €
Super underground Brazilian group formed by Mauro Assumpao (voice), Rubinho (violao and keyboards), and friends in Rio De Janeiro in the early 1970s. Their lone album has long had a reputation for its West Coast psychedelic elements (the dreamy introspection of the opening track, for example), although weve also seen it described as soul/funk... a description supported by the funky second track, the bossa/groove of the third track, 'Os olhos', the lilting samba psychedelia of 'Ts a few others on this dic. The end result is compelling, with early Chico Buarque and maybe Black Merda as strange but plausible reference points.

ATLANTA RHYTHM SECTION CD - Third Annual Pipe Dream / A Rock And Roll Alterna	1974-7	Gott Discs / UK GOTTCD 013	Rock Country USA	15,50 €
Often described as a more radio-friendly version of Lynyrd Skynyrd or the Allman Brothers, the Atlanta Rhythm Section was one of many Southern Rock bands to hit the upper reaches of the charts during the late '70s. Hailing from the small town of Doraville, Georgia, the beginning of the Atlanta Rhythm Section can be traced back to 1970. These two albums were originally released in 1974 and 1976 on the Polydor Record label and now available for the first time as a 2 on 1 CD.				
ATLANTA RHYTHM SECTION CD - Dog Days/ Red Tape	1975-7	Gott Discs / UK GOTTCD 024	Rock Country USA	15,50 €
Due to the success of their first Atlanta Rhythm Section pairing, and because of exceptional demand for these two recordings, Gott Discs are now re-releasing the band's fourth & fifth albums. Recorded in 1975 and 1976 respectively, and originally on the Polydor record label, 'Dog Days' and 'Red Tape' are now appearing for the first time as a 2 on 1 CD on Gottdiscs. ? 'Dog Days' was the band's first true masterpiece – an album that still stands as one of their best. The band were beginning to display a growing array of musical styles and approaches very different to where the rest of 'Southern Rock' was headed.? With 'Red Tape' – another early classic and a much in demand title from fans and public alike – featured a harder rock approach with predominantly shorter pop-length songs.

ATLANTIS CD - ATLANTIS	1972	Repertoire / GER Rep 4145	Rock R & B GER	14,80 €
Atlantis were formed in 1972 by vocalist Inga Rumpf, bassist Karl-Heinz Schott and French keyboard player Jean Jacques Kravetz, all of whom had been in Frumpy, the German progressive/blues outfit. It would appear that the band wanted to follow a more "commercial hard rock" direction, and hence Atlantis was born. Recruiting seasoned session drummer Curt Cress (Epsilon, Emergency, Orange Peel,etc) and ex-Emergency/Armageddon/Agitation Free guitarist Frank Diez, they released their self-titled debut album in 1972. Recorded and mixed in London, this album contained one of the best progressive tracks of the day, the awesome "Living at the End of Time", immortalized on the double Vertigo 'Suck it and See' compilation The band's second album, "It's Getting Better", released in 1973, saw future Guru Guru and Touch guitarist, Dieter Bornschlegel and ex-Jeronimo drummer, Ringo Funk, replace Diez and Cress respectively.

ATOMIC WORKERS CD - Embryonic Suicide	2003	ACME / UK AC 8037 CD	neo-Psych UK	17,90 €
interesting new psych rock project from the guys in That's All Folks and Gary Ramon (Sundial). The band was the idea of bassists Michele Rossieloo (That's all Folks). They recorded their record at Gary Ramon's Third Eye studios in Hastings, England in 2003. A very 60's garage production and cool guitar playing. "No Reaction" is a quite hard hitting psych rocker that gets quite spaced out in the middle. "White" is nearly 9 minutes and finished the first side of the record. It is slow to get started but features a quite psyched out organ and guitar. Cool song. "Plastic Man" starts side 2 and built upon a heavy bass line and it kind of goes into a jam before dying out. Next is a good cover version of the "Hurdy Gurdy Man" (Donovan). "Down on Earth" is next and begins with a bit of a drone and quite spacey as the track begins to build. This is a total psychedelic head trip for the first 2½ minutes and then the band appears to snap out of it, but no... back to the freaking out. "Far Away" is next and is the last track and completely instrumental and a heavy psych track again. An untitled far out wah wah guitar jam freakout lasting 9 minutes ends the CD. Great stuff.

AUM CD - Resurrection One of the first acts to be signed to Bill Graham's Fillmore label, 1969's Resurrection teamed the band with producer David Rubinson. As one might have guessed from the album title (let alone the back cover which showed three crosses), their sophomore effort found the band pursuing a pseudo-religious agenda. In spite of occasionally clunky lyrics and an irritating degree of echo, Ceballos-penned material such as God Is Back In Town, the ballad Only I Know and Today And Tomorrow wasn't too bad. Boasting a nifty Ceballos guitar solo, the stately title track is the stand-out cut. Elsewhere, the driving Bye Bye Baby and Little Brown Hen recall Quicksilver Messenger Service. Certainly not likely to get top-40 airplay, but San Francisco certainly turned out worse sounding bands. Commercially the band did nothing; the trio calling it quits shortly thereafter. AUM CD - Bluesvibes Led by singer/multi-instrumentalist Wayne Ceballos, the little know Aum stand as also-rans in the lexicon of sixties San Francisco bands. With drummer Larry Martin and bassist Ken Newell rounding out the trio, the group's initial reputation stemmed from their jam-oriented concerts. Initially signed by the London-affiliated Sire label, as one would expect from the title, the group's 1969's Bluesvibes found them working in a distinctively blues-vein. Reflecting the band's live act, the Richard Gotthrer produced debut featured a series of seven extended jams, (the shortest song clocking in at four minutes). With Ceballos writing the majority of the material, in spite of period excesses (e.g. aimless soloing), originals such as Mississippi Mud and Chilli Woman weren't half bad. Moreover, Ceballos proved a decent singer, injecting considerable energy into his performances. Among the few short-comings, the band's ponderous cover of John Loudermilk's Tobacco Road would've been suitable for Vanilla Fudge.	1969	Red Fox / F RF 627	Psych Blues Rock USA	14,50 €

Loaded" (1972) saw the arrival of Bengt Jenssen, who brought in some classically-inclined organ style to counterbalance the progressive blues of the others. The songwriting was much better, as evident on the tough "Joinin' The Crowd" and "G-Flat Road", but many people forget Aunt Mary's softer side (influenced by the 1968 version of The Beatles) on "Delight" and "Farewell My Friend". "Blowin' Tiffany" represented Aunt Mary at their most progressive, hinting at things to come. This track also revealed hitherto-hidden Emerson, Lake & Palmer and King Crimson influences (spot the tightly-echoed, manipulated vocals and compare them to "Indoor Games" from "Lizard").				
AUNT MARY CD - JANUS	1973	Polydor / NOR Uni 842 970-2	Rock Hard NOR	16,00 €
"Janus" (1973) was no doubt their most accomplished album with some tracks forming mini-suites and more extended instrumental segments. The Beatlesque folkish songs merged in with impressive electric guitar and organ creating different textures on each track. This heavy progressive-plus-folk formula has similarities to the Danish groups Culpeper's Orchard and Old Man & The Sea, giving the impression that Aunt Mary adopted the Danish vibes of the Summer of '71! Unfortunately, they disbanded at the end of 1973 for the usual reasons (an indifferent public and lack of both money and motivation).				
AUNT MARY CD - REUNION LIVE	1980	Pan / NOR PACD 010	Prog. Hard NOR	16,00 €
Their 1980 "Live Reunion" was a very good comeback (with no Clapton imitations!) Indeed, it was their most powerful work, recorded as a trio.				
AUTOMATIC FINE TUNING CD - A.F.T.	1976	Sunrise Records / EU SR 4012001	Prog Jazz UK	14,50 €
their only LP was Automatic Fine Tuning The bulk of this is taken up by an extended psychedelic/progressive instrumental, "The Great Panjandrum Wheel," which features some nice guitar work from Paul A. MacDonald and Robert Cross. Not quite the monster it's sometimes described as, Automatic Fine Tuning is probably best compared to some of the early British progressive bands on the Vertigo label, like May Blitz or Beggar's Opera. If you like that sort of stuff you'll like this.				
AUTOSALVAGE CD - AUTOSALVAGE	1968	Acadia / UK ACA 8011	Psych USA	15,90 €
New York's Autosalvage merged rock lyrics with avant-garde music to great effect using Medieval instruments. Formed in 1966 and discovered by Frank Zappa, who reputedly had a hand in this one and only album by the band. Quirky fuzz guitars, odd lyrics and multi-layered harmonies create a strange brew that leans towards a West Coast sound rather than hinting at the bands East Coast origins. The LP was originally released in 1968 and is now available for the first time official on CD. This album is a great addition to collectors of 60's psychedelia. Classic '60's psych cover art.

Classic '60's psych cover art.				
AUTUMN PEOPLE CD - AUTUMN PEOPLE	1976	Radioactive / UK RRCD 030	Prog Rock USA	14,90 €
Reissue of 1976 album by obscure Arizona band. Originally released on the Soundtech label, the music fits somewhere between the AOR sounds of ASIA and mid 70s progressive rock with nice harmonies and decent melodies. The material is largely original what makes up for an interesting hippie progressive album with some swirling organ work and super guitar leads.

AXELROD, David CD - Songs Of Innocence David Axelrod forged a distinctive musical style while recording several of the most eccentric albums of the '70s. His sound, as immediately recognizable as it is sparse, combined cavernous, heavily mic'ed drums with baroque orchestration (just a step away from overblown) and ahead-of-his-time themes ranging from the environment to heightened mental awareness. Capitol released in 1968 Axelrod's solo debut, Songs of Innocence, a suite in 7 parts, based on the visionary, mystical poetry of William Blake (as was its follow-up Songs of Experience), the album sounded like nothing else from its era, with melodramatic strings tied to heavy, echoed breakbeats. AYERS, Kevin CD - The BBC Sessions 1970-1976 Kevin Ayers is one of Rock's most important innovators, helping to launch Soft Machine, as their original bassist/vocalist, and later working with noted progressive musicians like Mike Oldfield and Steve Hillage. This 2 CD set of BBC radio sessions, compiled with the help of the artist, tracks Kevin's discography from 1970 (when his band included his former Soft Machine friends as well as a nascent Mike Oldfield) through to 1976. Featured here are several previously unissued recordings, including the earliest surviving example of Kevin's post-Soft Machine output. Among the musicians featured with Ayers on this compilation include Robert Wyatt, Mike Oldfield, Mike Ratledge, Andy Summers, Hugh Hopper, Lol Coxhill, David Bedford, Elton Dean, Archie Leggett, Ollie Halsall & Zoot Money. BACHS CD - Out of the Bachs Less than 200 copies were originally pressed of this '68 garage / psych classic LP. The album by this Chicago 5 piece is full of both garage balads and fuzzed-out rockers. Chicago jangle guitar downer garage psych with gorgeous aching vocals. Masterful guitar work covering the spectrum from Beau Brummels chiming to anarchic Litter runs. Haunting poetic originals full of lost love and broken dreams - even moving into stream of consciousness territory on 'Minister to a Mind Diseased' and 'Tables of Grass Fields'. The closer, 'I'm a Little Boy', is an otherworldly dark feedback monster. Literally every track is a winner! Recorded in a butcher's shop by this high school group late 1967 and released January 1968. This group had a maturity and presence way beyond their years. For me, it comes down to this and the Litter's 'Distortions' for best US garage lp. This reissue comes with great unseen photos of the band + an unreleased live version of 'That's The Way It Goes'.	1967	Gear Fab / US GF-211	60's Psych USA	14,90 €
BACK DOOR CD - BACK DOOR Back Door were a unique jazz-rock three piece from a small remote town in the north of England. They were unique because their lead instruments were sax and bass both played spectacularly well. They created a soulful, earthy yet funky and powerful sound. Their base was a public house high on the Yorkshire moors. The band came to the notice of Chick Corea who took them to London to play at Ronnie Scott's jazz club. This album offered here is a reissue of 1973 debut album for British jazz-rock/blues act featuring innovative bass god Colin Hodgkinson (Spenser Davis Group, Whitesnake). Highlights include, 'Vienna Breakdown', 'Lieutenant Loose' and 'Slivadiv'. 2000 release. Standard jewel case.	1973	WEA / UK WEA 936247759-2	Prog. Jazz UK	13,90 €
BACK DOOR CD - 8th STREET NITES Back Door's second effort, this album is a must-buy for any bass player. Colin Hodgkinson gives a rather amazing, tour-de-force performance, sometimes sounding like two or three players at once. 32-20 Blues, in particular, is one of the greatest examples of bass playing ever recorded. A neglected genius, Back Door deserved better recognition. Perhaps the unusual setting of bass-sax-drums was simply too wierd for the general public, but that doesn't explain the neglect from musicians.	1973	WEA / UK WEA 936 247 761-2	Prog. Jazz UK	13,90 €
BACK DOOR CD - The Human Bed This jazz rock trio formed in Yorkshire in 1970 and comprised Colin Hodgkinson - ex Alexis Korner Band - (bass/vocals), Ron Aspery (sax/piano) & Tony Hicks (drums). The band attracted a great deal of interest as a result of Hodgkinson's unique full chording bass technique. A virtuoso style which has been hugely influential ever since. This album features three complete BBC Radio 1 sessions, from 1973-1974. Two of these were recorded for Bob Harris and one for John Peel.	1973-7	HUX / UK HUX 031	Prog. Jazz UK	16,35 €

BAKERY CD - Momento	1971	Radioactive / UK RRCD 028	Psych Rock AUS	14,90 €
Formed in Perth in 1970, this progressive rock outfit is generally regarded as one of the best of Australia's early '70s underground bands. Bakery included ex-New Zealand Avengers' rhythm section of Hank Davis (drums) and Eddie McDonald (bass) in their line-up, and their music blended hard rock and country with jazz, using complex arrangements. Their main strength was the variety of their music that could switch from gentle acoustic passages to booming heavy progressive assaults on the senses within the same song. Momento, which was released in 1971 on Australia's Astor label (ALPS 1035) was the group's second album, following the bizarre Rock Mass For Love (ALPS 1032), a live recording captured in a church. Rock journalist Ian McFarlane, writing in Freedom Train magazine, described the album as a European-influenced recording full of sprawling, moody progressive rock cuts like Faith To Sing A Song, the jazzy Living With A Memory and Holocaust. The track which really kills off any remaining brain cells is The Gift, an eight-minute barrage of bombastic riffs written by guitarist Peter Walker, which also features some arse-kicking solos and swirling Hammond organ in the vein of Deep Purple and Leafhound. For an underground band, Bakery actually achieved fairly reasonable success. Both their 45s were minor hits, and their Rock Mass For Love narrowly missed the Australian Top 20, and on the strength of this, was subsequently released by Decca in the US.

BAND OF LIGHT CD - TOTAL UNION	1973	AZTEC MUSIC / AUS AVSCD 012	Rock Hard AUS	20,00 €
Australian exclusive. Band Of Light were formed by in october 1972 by Phil Key (vocalist and rhythm guitarist from legendary new zealand band the La De Das). Ian Rilen (later a key member of both Rose Tattoo and X) replaced Peter Roberts (also ex-La De Das) on bass after just 3 gigs. Master slide guitarist Norm Roue (later to join Buffalo) and experienced drummer Tony Buettel (from the valentines) completed the line-up. Keys first mission was to ensure that roues stinging slide technique was put to good use. If you ever wondered what a nascent Rose Tattoo may have sounded like then this is a good place to start: on a good night, roue could be matched with the likes of sleepy Greg Lawrie from Carson and La De Das Kevin Borich as one of the best slide players in the country, and at the bottom end, Rilen and Buettel always kept the rhythm firm and funky. by the time the total union album appeared in august 1973, they were on a roll and it represented a definite peak in the bands career. Across the six tracks, the bands music is raucous and raw, yet simple and powerful, with roues unique slide explorations splashed liberally over the top. one Aztecs most anticipated reissues yet; total union is digitally remastered and has 5 bonus tracks. It is packaged in a 6 panel digipak, with rare photos and extensive liner notes from noted australian rock writer Ian McFarlane. tracklisting: 1. My first home 2. Free them from hunger 3. BARDENS, Peter CD - Write my name in the dust - (2CD) The Anthology - 1963-2002 - First all-encompassing career overview of this late, great, highly-acclaimed keyboards virtuoso. A double CD featuring tracks from Peter's bands The Cheynes, Peter B's Looners, Shotgun Express, Village and Camel as well as the best of his solo recordings, including his two collectable (and rather crazed) 70s Transatlantic LPs "The Answer" and "peter Bardens" in their entirety, plus a couple of previously unissued outtakes. BARDS CD - Moses lake The great Pacific Northwest band that released over a dozen 45s on both the Piccadilly, Parrot and Capitol labels. They opened for such national acts as THE TURTLES and PAUL REVERE & THE RAIDERS. This is their previously unreleased LP from 1968, produced by CURT BOETCHER and KEITH OLSEN, who teamed up on THE ASSOCIATION's recording and many others out of LA in the 60's. From the master tapes, this masterpiece is strikingly similar of AL KOOPER's style of music on the first BLOOD, SWEAT AND TEARS LP. Both experimental and psychedelic in nature, it features outstanding keyboard, vocals and fuzz-driven guitar work.	1968	Gear Fab / US GF-183	60's Psych USA	14,90 €

BAROQUES, Les CD - The Complete Collection 2CD. Thirty nine track compilation of one of Holland's oddest 60s beat groups. They played r'n'b pop rock with fuzz guitars, wild vocals, tinges of European folk and weird orchestral flourishes. Tracks include the early singles "Working On A Tsjing-Tsjang" and the excellent "Bottle Party".Excellent colour booklet that contains all the single sleeve.Good & twisted stuff.	196? BARRA CD - Eternal Magus. Late '80's album only just released by this Scottish band who updated the Celtic rock sound in a similar way to Runrig, but with a darker more mystical edge. Epic production and dreamy female vocals add to the atmosphere of this long lost Celtic rock album now finally available to all.	198?	English Garden / UK ENGCD 1025	Folk Psych UK	20,00 €
BARROCOS, Los CD - SIN TIEMPO NI ESPACIO Although they had been playing gigs since the early 70s, they released their only album in 1974. Sin tiempo ni espacio was an interesting record that mixed classical and progressive music. The b-side was more intense, with songs like "Siempre encontrar un lugar" (with excellent performances of both guitars and violin) or "Noche de Sol" (with a repeated riff and a great guitar solo). All and all, a unique album of great interest for collectors. (In a way, this LP relates to the first Ave Rock album, for the progressive sound of using two guitars).	1974	D&D / ARG	Rock Blues Jazz Folk ARG	14,90 €

BASS, Colin CD - In the meantime Colin Bass returns with his first studio album since the acclaimed "An Outcast of the Islands". Nine new compositions touching on a number of styles but all featuring his distinctive melodic touch. From the guitar-led rock of the opening track - "Dissident Song", inspired by the true story of one man's doomed protest in Tiananmen Square - through the bluesy reflection on the end of an affair "So Hard to Say Goodbye", and the gentle, bittersweet companion-piece "As We Say Goodbye", to the funky groove of the-morning-after-the-night-before lament "Slow Train Blues", the acoustic-guitar led ballad "Talk to Me" and the mysterious twists of the title track leading to the final 10-minute suite "The Bridge of Sighs" and "When Will You Ever Learn?" - a majestic, haunting journey from the reflective melancholy of the opening to a searing guitar solo from Maciek Meller before it rides optimistically off into the sunset. A post-script is provided by a new album mix of the beautiful ballad "One Small Moment" previously only available on last year's "Gently Kindly" CD-single.	2003	Kartini / GER Kart 09	Prog. UK	14,00 €

BATTIN, Skip CD - SKIP BATTIN Cult classic from 1972 by member of the BYRDS, NEW RIDERS OF THE PURPLE SAGE and FLYING BURRITO BROTHERS. Coming with liner notes by KIM FOWLEY, whose fingerprints are over the whole album as a lyricist and quasi producer. BYRDS-member ROGER MCGUINN and CLARENCE WHITE also play on this album. BEAT OF THE EARTH CD - BEAT OF THE EARTH Phil Pearlman, whose Relatively Clean Rivers album is well known to US '60's/70's psych collectors, assembled this 1967 free form outfit very much in the spirit of The Merry Pranksters and their legendary San Francisco Acid Tests. Made up of unstructured, stoned jams with a West Coast edge the two long tracks using a myriad assortment of acoustic and electronic instruments. This is an item of significance from the California '60s counter cultural rock scene and as the sleeve say's "If you are looking for psychedelic music, do not buy this record unless you are looking for psychedelic music". BEAU BRUMMELS CD - MAGIC HOLLOW - (4CD set) Magic Hollow's producers -- and major Brummels fans -- Andrew Sandoval and Alec Palao have left no stone unturned in making this lavish and exhaustive four-disc boxed set the last word on the Beau Brummels' legacy. Across 113 tracks, it traces the original groups career via hit singles, album tracks, B-sides and other rarities, from their very first studio demos, pre-Autumn Records, in 1964, to outtakes from the acts final acclaimed long-player, 1968's Bradley's Barn. Indeed, a full 42 cuts are unissued, many from the later Warner Bros. era, when the Brummels recorded a tremendous amount of stellar material that never saw the light of day. The music is accompanied by an extensive chronology and music guide by Alec Palao, assembled with the full co-operation of the band and their associates, in addition to many rare and unpublished photos from the archive. BEAUREGARD AJAX CD - DEAF PRISCILLA Here is one of the best albums we ever laid our hands on. Perhaps better than Public Nuisance and as good as Brain Police from Rockadelic. This album is a milestone such as Cold Sun-Dark Shadow. Not one track is losing energy (and there are 14 great ones). The album was recorded in April 1968 at Western Sound Recorders L.A. for a famous surf label, but was never released. Songs such as: Loneliness Is A Sometime Thing, Dead Woman Blues and Deaf Priscilla are outstanding but as highlights of this album we would vote all 14 tracks. Just perfect vocals, tons of fuzz guitar and tough lyrics.	1968	Shadoks / GER SM 068 CD	Psych Rock USA	14,90 €
BEAUSOLEIL, Bobby CD - LUCIFER RISING - (2CD) An incredible document of a lost avant-cinema classic -- Bobby BeauSoleil's lost soundtrack to the late Kenneth Anger film Lucifer Rising -- presented here with a huge amount of bonus material! The music, like the film, is incredibly spooky stuff -- long, moody guitar-based tracks that spin out into the darkness -- invoking the demonic magikal powers that Anger directed with his cinema, and performed in a spare, un-redemptive style that is incredibly chilling. Forget all the later 70s horror soundtracks that dominated the genre, because BeauSoleil pretty much set the whole tone himself in this recording! Not only that, the whole package features some great liner notes -- documenting the decline of the summer of love, BeauSoleil's ties to the Manson family, and his time in prison, where the music was recorded. The set also features a bonus disc with rehearsal performances of the music, and earlier tracks by The Orkustra, a group of Bobby's. Really great stuff -- and as chilling as can be! Titles include "Lucifer Rising", "Flash Gordon", and "Punjab's Barber".	1967-7	ARCANUM / USA AECD0001	Psych Rock USA	29,00 €
BEAUSOLEIL, Bobby CD - DREAMWAYS OF THE MYSTIC - (2CD) Following the long-awaited release last year of his often talked about (but rarely heard) psychedelic soundtrack to cult filmmaker Kenneth Anger's opus LUCIFER RISING, convicted Manson cohort presents "Dreamways". Drawing on explorations of the occult, the inner world and his ongoing search for truth from behind prison bars, BeauSoleil invokes the warriors mythic journey and hearkens to the spiritual mysteries of the shamans visionary quest. BeauSoleil makes psychedelic, symphonic rock in search for the tones, chords and rhythms that resonate at the deepest levels of human experience. Deluxe double digipak and booklet illustrated with BeauSoleil's own paintings.	1994-0	ARCANUM / USA AECD0002	Psych Rock USA	29,00 €

BEAVER & KRAUSE CD - IN A WILD SANCTUARY	1970	Collector's Choice / US CCM 0640	Electronics Psych USA	12,90 €
'In a Wild Sanctuary' was Beaver & Krauses first album for Warner Bros., and in its own way it was every bit as groundbreaking as their 'Nonesuch Guide to Electronic Music', using sounds found in nature (or, more accurately, in the city of San Francisco) as a compositional element for the first time. Nowadays, of course, the use of nature sounds is commonplace, especially in New Age recordings, but back in the late 60s the idea was revolutionary. And this was far from a New Age record, employing such serious sessionmen as Dave Grusin, Howard Roberts and Bud Shank. The song titles give a clue as to what kind of unique listening experience you're in for: 'Walking Green Algae Blues; Another Part of Time; Spaced; Aurora Hominis; So Long as the Waters Flow; Salute to the Vanishing Bald Eagle; Sanctuary; And There Was Morning', and 'Peoples Park'.				
BEAVER & KRAUSE CD - GANDHARVA	1970	Collector's Choice / US CCM 0641	Electronics Psych USA	12,90 €
'Gandharva' continued Beaver & Krauses quest for new sounds and forms in music, as the second side of the record was recorded live inside of San Franciscos magnificent Grace Cathedral. "We were looking for long reverb times," says Krause in the notes, and they sure got em! They also experiment with jazz, blues, rock and even gospel styles, as the list of guest musicians-Ronnie Montrose, Mike Bloomfield and Gerry Mulligan-demonstrates. In short, its another adventure in music from this most intrepid duo, finally on CD and ripe for rediscovery. Includes 'Soft White; Saga of the Blue Beaver; Nine Moons in Alaska; Walkin; Walkin by the River; Gandharva; By Your Grace; Good Places; Short Film for David', and 'Bright Shadows'.				
BEAVER & KRAUSE CD - ALL GOOD MEN	1972	Collector's Choice / US CCM 0642	Electronics Psych USA	12,90 €
This 1972 record marked yet another change of direction for electronic music pioneers Paul Beaver and Bernie Krause, and a most unexpected one at that: a pop album! Or at least as close to pop as this duo would ever get, with a number of songs featuring vocals, spiced with Moog and even ragtime. A typically idiosyncratic end to their stay at Warner Bros. Includes 'A Real Slow Drag; Legend Days Are Over; Loves of Col. Evol; Sweet William; Bluebird Canyon Stomp; Looking Back Now; Prelude; Child of the Morning Sun; Between the Sun and the Rain; All Good Men', and 'Waltz Me Around Again Willie/Real Slow Drag'				
BEAVER & KRAUSE CD - NONESUCH GUIDE TO	1975	Collector's Choice / US CCM 0643	Electronics Psych USA	12,90 €
Conceived by Bernie Krause and Elektra label founder Jac Holzman on a plane ride to the Monterey Pop Festival, where Beaver & Krause were slated to demonstrate the newfangled Moog synthesizer, this double-album was true to its title, an instructional record on how to create electronic sounds using the Moog, complete with a 16-page "syllabus" detailing signal generation, voltage control, modulation and filtering (a PDF of which you can view at www.ccmusic.com/room.cfm?id=127). And, as such, the record only included one actual composition, 'Peace Three'; the rest of the tracks had such titles as 'Triangular Waveform; White Sound Tuned Filters; Low-Frequency Sawtooth-Tuning Through Harmonics', and 'Series of Sub-Audible Constants'. Over the years, this 1968 release has for obvious reasons become quite the underground classic, an artifact from a time when anything in recorded music seemed possible and often was. Has to be heard!

UK import. After leaving the Yardbirds as lead guitarist in 1967, Jeff Beck formed The Jeff Beck Group featuring Rod Stewart on vocals and Ron Wood on bass, releasing two albums Truth in 1968 and Beck-Ola in 1969. On 9th May 2005, the long-awaited 24 bit digitally remastered version of Truth is released with 8 bonus tracks. This album was Rod Stewarts first-ever album-length lead vocal showcase as an artist, and is regarded, along with Beck-Ola as a musical touchstone for hard rockers in the years that followed. Collaborators on this album (and bonus tracks) include Keith Moon, Jimmy Page, John Paul Jones, Nicky Hopkins, Aynsley Dunbar and Madeline Bell. Beck's three singles Tallyman, Love Is Blue and Hi Ho Silver Lining are included in the bonus section along with the gorgeous ballad Ive Been Drinking (B-side on Love Is Blue) which was omitted from the original album. All tracks produced by Mickie Most.				
BECK, Joe CD - NATURE BOY	1969	Long Hair / GER LHC 047	Prog. Psych USA	15,50 €
Originally released 1969 on Verve this is a truly lost jewel, released for the first time on CD. Joe Beck, one of the most famous jazz guitar players, recorded this album with fellow Donald McDonald on drums and among guest musicians is Danny Whitten, guitar player of Crazy Horse before they worked together with Neil Young. On this album Beck, influenced by Eric Clapton and Jimi Hendrix, created a song-oriented psychedelic rock style with slightly jazz influences showing his remarkable guitar skills, including some fine Wah-Wah treatments. Really great stuff. CD comes with informative booklet. Highly recommended.

Denmarks 60's legends Beefeaters their Denmark Radio recordings from 1967 to 1968. The title is "Troels' Vanvittige Parkering" (=The Crazy (car-) Park of Troels). The recordings have been done by Denmark's Radio in Frederikshavn and probably in Islev Cinema during 67-68. Denmark Radio doesn't not have the mastertapes, so some old cassetetapes were cleaned up. This is a gold-stroke. Tapes are from around 1968. They were recorded privateley by af friend, and the sound is great due to the fact that it was reel-to reel and 2 mics: 1 at the soloist, another at the "group". Tapes are carefully cleaned up, and sound is matrixed in a way so there is both depth and wide stereo, plus the group plays superb.				
BEES MAKE HONEY - (2CD) CD - BACK ON TRACK - Anthology	1972-7	Acadia / UK ACAD 8053	Rock Blues UK	17,90 €
UK import. One of the pub rock bands from the 70's, along with bands like DR. FEELGOOD. Rounds up studio sessions from 1972-1975 and a live disc from 1976. This anthology consists of a live CD recorded at London's Nashville Rooms in December 1976 and a studio Cd featuring various different line ups of Bees Make Honey. The live set features Barry Richardson and Mick Molloy joined by Rod Demmick on guitar and drummer Paul Atkins. There are some nice sweet country rock type numbers like 'Tequila Sunrise' and some more feisty rock and rollers like 'Boogie Queen' and 'One More Saturday Night'-its a fun set balancing the laid back with some more energetic tracks. The studio Cd is fine too gathered from everywhere including their first test recording 'Livin' on the Road'featuring Gerry Hogan from Albert Lee's band on steel.'The Hobo Song' is produced by Nick Low and 'Friends of Dawn' features a line up including legendary guitarist Ed Deane and Kevin McAlea who later played with Kate Bush among others. The familiar Bees Make Honey line up gets some airings too and 'Boosterstown', 'Chinee's Dead' and 'Kneetrembler' bring back sweet memories. This is music from a bygone age, but how good it sounds, how simple, unapologetic and upfront. This is pure unfettered rock and roll played by a band that knew its stuff and left a huge gap on their sad demise.				
BEGGARS OPERA CD - ACT ONE - (Mini-LP-sleeve)	1970	Repertoire / GER RepUK 1036	Prog. UK	14,90 €
Scotland's Beggars Opera were formed in Glasgow in the late sixties as " System". Their early influences were Procol Harum and The Nice, and especially classical composers such as Franz Suppe, an Austrian citizen with an Italian mother and a Belgian father. They took their name from a successful play written in 1728 by English poet, John Gray. This debut album, released on the Vertigo "swirl" record label, was a milestone in progressive rock music, and ensured that the young Scots attracted good audiences wherever they performed, especially in Germany. The album was a classically inspired keyboard driven extravaganza of progressive rock that resembled ELP in its pomp and intricacy The initial line-up was Martin Griffiths on vocals, Alan Park on keyboards, Ricky Gardiner on guitars, Marshall Erskine on bass and Raymond Wilson on drums. This new remastered edition contains 2 bonus tracks and is housed in a square mini replica gatefold album sleeve plus fold out poster.

BEGGARS OPERA CD - Get your dog off me Ex- Writing on the Wall vocalist Linnie Patterson replaced Martin Griffiths for this fourth album, which was totally different in style to the band's previous three albums in that they'd adopted an almost Westcoast AOR style. Although very "un" Beggars Opera, this was actually a very good album, with some consistently high quality stuff from Gardiner especially. Drummer Colin Fairlie (String Driven Thing - another great Scottish act!) replaced Wilson, but the band split in 1974. Park had a short stint with Tiger (Nicky Moore) and The Bliss Band before becoming Cliff Richard's musical director. BETWEEN CD - And the waters opened ++ Finally official released for the first time and remastered from the original mastertapes. Added by 3 bonus tracks. A most unusual and unique group, the Munich combo Between (formed in 1970 as Between The Chairs) were the brainchild of musical theorist and experimentalist Peter Michael Hamel. As such, Between drew together a wide range of international musicians into a musical and cultural melting pot. Between were aptly in between everything, both musically and culturally. Featuring avant-garde tendencies within a music that blended the medieval, the ancient and the futuristic, with jazz and rock musics, the initial results on their debut EINSTIEG were most inspiring. Arguably a step on from The Third Ear Band (sans the mantric rhythms) Between were invention in the extreme, in a music that was melodic yet challenging. Not surprising for a band that featured such acclaimed musicians as James Galway, Roberto D��tr��e and Robert Eliscu. There are some extraordinary cosmic excursions here too, all amounting to a revolutionary mixture of psychedelic and world musics. EINSTIEG is still as remarkable and fresh now as when it was created. "And the waters opened" recorded in 1973 carries on improvisations and acoustic exploration, played in a rather "spacey" rock atmosphere, sometimes closed to krautrock, weird flavour; with its atmospheric dronings from D��tr��e's moto-cello is probably Between's most innovative and fascinating, it's an album that oozes beauty and mystery. It's almost chilling !!	1973	Intuition / A INT 3602-2	World ambient GER	16,50 €
BETWEEN CD - EINSTIEG In 1970, Peter Michael Hamel founded BETWEEN, an international band specialised in improvisational / « ethnic » rock music. The classical musician Robert Eliscu (born American), responsible of oboe parts in POPOL VUH can be considered as the major member of the musical tribe next to Peter Michael Hamel. With a small community of six members, BETWEEN recorded its first album "Einstieg" in 1971. It directly announces the musical orientation to come, timeless ethnic rock compositions, mixing together several acoustic instruments (bongo, flute...) to folk and jazz.	1973	Intuition / A INT 3601-2	World ambient GER	16,50 €

Black Widow's eponymous second album was a conscious attempt on the band's part to scale back the satanic trappings that had dominated its debut, and, in the process, redirect the media's focus away from the controversy and onto the group's music. On the heels of their debut album, Sacrifice, the group's music evolved into an original amalgam of progressive rock, folk, british blues and hard rock. Check out the beautiful "The Gypsy", which highlights Clive Jones' flute, and you'll realize why this album is a milestone of the genre. BLACKFEATHER CD - AT THE MOUNTAINS OF MADNESS Formed in Sydney in 1970 out of the DAVE MILLER SET, this was one of Australia's top early 70's acts. They played a sort of rock boogie with pulsating pano which was very welcomed at their live performances. On their debut album MOUNTAINS OF MADNESS they span a wide range from boogie rock to long hard progressive psychedelic tracks.	1971	Festival / AUS D 19716	Prog Psych AUS	14,90 €
BLACKFEATHER CD - At the mountains of madness The Australian Blackfeather began playing their unique style of guitar-powered psychedelic bluesrock in the Sydney area in 1970 and their energetic live performances soon catapulted them into the national spotlight. At The Mountains of Madness is the first of three full-length albums (all released between '71-'74) and by far their best. Contains 6 rather long tracks, one of which is a 5-part suite that shows Blackfeather at its best. The album opens with a decidedly spacey intro and continues with sustained rhythms, guitar solos and time changes, a great album.	1971	Akarma / Italy AK 223 CD	Rock Psych AUS	15,50 €

Other guest musicians on the album are the Illusion String Quartet and drummers Gavin Harrison, Chris Maitland (the current and previous drummer of Porcupine Tree respectively) and Yermi Kaplan. BLACKFOOT, J.D. CD - the ultimate prophecy J D Blackfoot's Ultimate Prophecy, originally released on the Mercury label (SR 61288) in 1970, is widely regarded as one of the top US psych albums of all time. The band, which was from Columbus, Ohio, began as a combination of two local groups, The Ebb Tide and Tree. Craig Fuller, later a founding member of Pure Prairie League, joined the band, which by this time had changed its name to J D Blackfoot. Ultimate Prophecy with its killer psych guitar sound, combined a strong British sound with the distinctive song-orientated California sound of Grateful Dead and Neil Young, two of the main inspirations for many an aspiring rock musician of the time. BLACKOUT CD - BLACKOUT At last a reissue of a great album that features some of the cheesiest organ sounds (meant in a good way) carved into wax in the 1960s; groovy and bizarre Hammond runs are present and accounted for, residing happily with the smart songs, the fine guitar playing, and the gravelly vocals of the bands singers (male and female), on the only album this Polish band ever saw released, just before they changed their name (to Breakout), and their sound (to progressive rock); they started as a beat band, albeit one addicted to the dark side of beat as demonstrated to them in person by Eric Burdon & the Animals; they developed their own weird sound, which was dubbed "Big Beat" by someone clever-a term that still exists in the former Eastern Bloc to describe this sort of offbeat (so to speak), wiggled-out and intense home grown music; after some radio success, Blackout apparently recorded a slew of singles, some of which appear here as bonus tracks; twenty songs in all, mostly written by underground novelist and poet Bogdan Loebl, plus liner notes that include an interview with band-leader Tadeusz Nalepa as well as an overview of the recording industry in Poland in the 1960s. BLONDE ON BLONDE CD - Contrasts Progressive popsters from Newport, South Wales, Blonde On Blonde were a part of the 1968 musical explosion (launched by the Isle of Wight Festival) that created an arena for so many bands in the late 60s British underground scene (Crazy World Of Arthur Brown, The Move, and Tyrannosaurus Rex, to name a few). Using a fusion of folk vocals, a post mod rhythm section and fuzz guitars, Blonde on Blonde created aura of freshness and inventive that gave new meaning to the term "progressive". Their 1969 Contrasts marks a beautiful debut and is still a nice piece of music that is definitely worth the reissue. Also featuring one of the most amazing cover versions of the Beatles' "Eleanor Rigby". This here is the out of print Repertoire release.	1969	Repertoire / GER Rep 4521	Prog. UK	11,80 €

BLOOD SWEAT & TEARS CD - Mirror Image	1974	Wounded Bird / US WOU 2929	Rock Jazz USA	15,50 €
„This recording has some really strong moments. The group adds Jerry La Croix on sax and vocals as well as Bill Tillman on Saxophones. Ron McClure replaces Big Jim Fielder on bass. Tony Klatka on Trumpet and the group goes with two saxes, trombone and one Trumpet sound as opposed to the sharper voiced Two trumpet, sax, trombone, horn section. The group takes a stab at some R&B with "Tell Me That I'm Wrong" and some out and out pop on the Jerry La Croix pieces with mixed success. Fisher is his usual powerful self and saves "Tell Me That I'm Wrong". It's his conviction and power that really makes the song work. The arrangement is more Philly studio than Blood, Sweat & Tears. Jerry La Croix has a multi octave range but frankly is not in Fisher's class. His voice suited more to pop than anything else. I'm not complaining just making an observation. Then the group hits its stride with "Are You Satisfied" and the Mirror Image Suite. Here the group returns to the strong form that was shown to such startling effect in "No Sweat" The addition of Tillman, La Croix, along with Wadenius, Willis and Fisher allows the group to sing harmonies quite well during "Are You Satisfied" they segue into a marvelous instrumental suite that shows off their new horn section, Larry Willis and Georg Wadenius best sides. This section of the recording ranks right up there. A real high point. They run the gamut of their influences well. Never at the expense of the song. No schizoid instrumental moments. They stay to the point throughout the suite. Wadenius plays both jazz and then when the moment comes takes off at a dead run, and he rocks. The last song is an unusual haunting ballad sung alone by Georg Wadenius. The arrangement is, to my ears, outstanding with unusual voicings.“ – amazon review

BLOOMFIELD, Mike CD - Live at the OLD WALDORF	1977	Columbia / A COL 4915752	Blues Rock USA	9,90 €
Although never a household name like Eric Clapton or Stevie Ray Vaughan, Mike Bloomfield was undoubtedly one of the greats of blues/rock guitar. Bloomfield is best known for his stints with the Paul Butterfield Blues Band and Bob Dylan; he played on such classic albums as Paul Butterfield's "East-West" and Dylan's "Highway 61 Revisited." "Live at the Old Waldorf" captures Mike Bloomfield in his element: onstage in his hometown, the San Francisco Bay Area. The Disc is a collection of beautifully re-mastered performances recorded between 1976 and 1977, along with a set of rare photos and extensive liner notes. The music on this disc is outstanding; old fans will be ecstatic and newcomers just may rush out to buy everything else Bloomfield recorded after listening to this disc. The mastery which Mike Bloomfield exhibited over his Gibson Les Paul guitar was amazing; he could churn out sweet, soulful BB King-style riffs or play biting, stinging lead lines reminiscent of a young Eric Clapton's work with John Mayall's Bluesbreakers. His solos on blues standards like "Sweet Little Angel" and "The Sky is Crying" are simply jaw-dropping. On several tracks Mike's old running buddy Nick Gravenites contributes his gruff voice and wry vocals; tunes like "Dancing Fool" and "Buried Alive in the Blues" are excellent examples of Nick's inimitable tongue in cheek songwriting. All the tracks on this disc have the loose, spontaneous feel of a great live recording. Listening to this disc, it is easy to understand why Bloomfield has always been so highly regarded by guitar players. His solos are like textbook examples of how the electric guitar should be played. Anyone with an interest in blues/rock guitar owes it to them selves to check out this disc by one of the lesser known heroes of electric guitar. Personnel includes: Mike Bloomfield (guitar); Nick Gravenites (vocals, guitar); Roger "Jelly Roll" Troy (vocals, electric bass); Bob Jones (vocals, drums); Mark Adams (harmonica); Mark Naftalin (piano); Barry Goldberg (organ); George Rains (drums). Recorded at the Old Waldorf, San Francisco, California between December 1976 and May 1977 & The Record Plant, Sausalito, California on November 10, 1974. Includes liner notes by Norman Dayron.

The Magoos's third and final album, by their original line up, is hailed by critics as the band's creative peak. More mature song writing, smoother harmonies and sophisticated arrangements are reflected in such songs as 'Sybil Green (Of The In Between)' and their excellent cover version of The Move classic 'I Can Hear The Grass Grow'. Absurd material like 'President's Council On Psychedelic Fitness' and the scary 'Scarecrow's Love Affair' complete a provocative original set of loony tunes, with six bonus tracks concluding this new re-release.

This white blues-band simply burst onto the New York music scene between 1965 and 1966. Founder Danny Kalb had contributed two acoustic guitar tracks to a 1964 Elektra blues/folk compilation album The Blues Project. After hearing Tim Hardin playing electric guitar in Greenwich Village soon after he decided to form his own band to play a similar combination of jazz, blues, R&B, and rock.

Often regarded as Blossom Toes 3rd LP, this is the most underrated album of the early 70ties (1971). So, it was not really a surprise, that the first re-release of the album on Vinyl (on Decal) in 1989 was credited to Blossom Toes 70. Brian Godding, Brian Belshaw and Kevin Westlake showed again their great talent to create songs beside the mainstream but always melodious and with clever lyrics. Great guitar work by Brian Godding and impressive vocals dominate the music. A lot of guest musicians supported the band, among others: Julie Driscoll, Mick Taylor. Released for the first time on CD, the album was digitally remastered and shows a brilliant sound. It also comes with comprehensive booklet including full band story, lyrics and photos never seen before. 2 Bonustracks.

BOND, BILLY - Y LA PESADA CD - BILLY BOND Y LA PESADA Reissue CD contains the entirety of the first two LPs from Billy Bond y La Pesada, featuring all the musicians responsible for the weird and wonderful records by Kubero Diaz, and La Cofradia de la Flor Solar. It seems that in 1970, Bond hit upon the idea to found "La Pesada del Rock and Roll", a loosely-affiliated group of like-minded musicians, featuring all of the best rock musicians in Argentina at the time. The idea behind "La Pesada" was simple-it was a band which everybody could join and leave whenever they wanted. Billy Bond y La Pesada released their first album on the Music Hall label late in 1970-hard hitting freaked-out rock n roll with psychotic touches, spiced up by funky rhythms. This debut includes some incredible tracks: Salgan al sol (written by Martnez, which features a brilliant Pappo wah-wah guitar solo); Divertido, Reventado, (credited to Pappo and Pedro Puj, sounding more or less like a spin-off on Hendrixs You Got Me Floatin); and El parque (written by Spinetta as a preview of his own band Pescado Rabioso, featuring himself on bass and Pappo on guitar). The second album is from 1972; another excellent record featuring remarkable tracks like La po Diaz, La m") sung by Medina, with Pappo on guitar "Blues para mis amigos", with lyrics describing the members of the band, and Para que nos sirven. All and all, this is a harder-edged LP than the first one-as the text on the cover says: rocks+blues+rocks+rocks=Billy Bond y La Pesada!	1970-7	CFR 401	Prog psych Hard ARG	19,50 €

BOND, Graham CD - Holy Magick /We put our magick on you Originally released in '70 and '71 respectively, these were the first two albums of an attempted trilogy thwarted by bond's untimely death in 1974. Beautiful jazz rock, inspired greatly by Bond's involvement in white magic and Celtic mysticism (for the first album) and Eastern, particularly Hindu and Aquarian, mysticism (for the second). Originally released on the esteemed Vertigo label both these albums brim over with mantras, rituals, and improvisational pieces that should interest any seeker of progressive musical enlightenment.	1970-7	BGO / UK BGOCD 483	Prog. BOREALIS CD - Sons of the sea + Professor Fuddle's Fantastic Fair here we have two somewhat related LP's combined into one mini-LP sleeve reissue; the first Borealis album is an extremely rare and high priced Canadian collector's item from around 1970, kind of a (post-Steppenwolf) 'desert countrybar' bluesrock driven piece, with howling vocals and good fuzz guitars—not quite Bent Wind, but very solid all the same; it's regarded as the first rock album in the Atlantic Provinces, in a style which wasn't really expected by the label... thus the obscurity. Borealis vocalist Paul Bradbury (whose master tapes are the source of the disc) created a play in 1974 for the Canada Arts Council about how computers work, with fairy tale characters showing the listener how to make the computer count, sing and talk. This strange artefact is more or less a soft rock opera, with analogue synthesizers (moogs) and piano, odd vocals by a "wizard", combined with electronic noises by the band. A nice oddity. An attractive psychedelic folded poster of the Professor Fuddle's Fantastic Fairy Tale Machine is added to the package.	1970-7	Beatball Records / US USA	Psych Rock Hard USA	18,00 €

BOSTON TEA PARTY CD - BOSTON TEA PARTY Formed in 1963 this band became based in Burbank, California. Their drummer, Novogroski, went on to play for The Edge, while Mike Stevens later fronted the highly rated heavy rock band Highway Robbery, who issued an album, For Love Or Money (RCA Victor LSP-4735) 1972.	1968	Mason Records / EU MR 56448	Psych Rock USA	14,50 €

BOYD, Eddie CD - EDDIE BOYD & HIS BLUES BAND This 1967 album was the product of Chicago-based Eddie Boyd's travels to Europe where he happened upon the "Blues Boom" that was in full flight at the time. BOYD, Eddie CD - Complete Blue Horizon sessions 2006 digitally remastered edition featuring all 18 tracks Boyd recorded for the Blue Horizon label, including 2 previously unreleased tracks: "The Stroller" and "No Place Like Home", both of which were recorded and produced prior to his tenure at the label. Includes a special booklet with photos and extensive liner notes by Mike Vernon, founder of Blue Horizon. The first two songs were cut as a single on 3/21/67 which includes the trio of John Mayall's Blues Breakers MINUS John Mayall. On this day Peter Green and John McVie were there. The drummer was Aynsley Dunbar of course. The album appears next, "7936 South Rhoads" which was previously released on a BGO UK CD minus bonus tracks but with the original album cover. The second single "The Big Boat b/w Sent For You Yesterday" was cut on the same ONE DAY SESSION as the album was (1/25/68). The album and the second single have Peter Green's Fleetwood Mac backing Eddie. The final two songs were recorded sometime in 1960 and when Eddie Boyd came to these Blue Horizon sessions, he handed Mike Vernon an acetate dub of these two titles to do with what he wishes to. For those of you out there who are avid fans of such exciting American blues piano players at the time they each visited Europe and recorded their respective recording sessions with (in this case) Peter Green's Fleetwood Mac in the prime of their life, don't miss this one! You will not be disappointed. The cover photo was taken from 1966 in Paris. Many other nice photos too. Very interesting reading and the record cooks! (Submitted by J. BRAIN POLICE CD - BRAIN POLICE A PREVIOUS ROCKADELIC RELEASE. Finally, the legendary and super rare album by this long lost US '60s band is out on CD! A classic example of West Coast pop-psych, this reissue is sonically improved and includes ten bonus tracks. This band from San Diego played many concerts with famous bands. They only released a testpressing and never made an official record. The music is absolutely perfect Fuzz guitar psych with great rhythm guitars, organs and St. Pepper-style vocals. With more luck this band could have been as famous as Strawberry Alarm Clock. They played on many bills together. The music is not as soft. It has a much stronger output than most of the famous bands they played together with. We know of 5 originals. Every song a hit.	1968	Shadoks / GER SM 008 CD	60's Psych USA	14,95 €

BRAM STOKER CD - Heavy Rock Spectacular Bram Stoker was a mysterious British formation that pressed their first and only album in 1972. Their name evokes macabre gothic atmospheres, and so does their music - fitting for a group so clearly inspired by the 'Prince of Darkness'. In the early seventies, groups like Black Widow, Atomic Rooster and Black Sabbath ruled the day, and the up-and-coming Bram Stoker apparently had everything it needed to make it big, except a bit of luck. The band would soon faded into decades of obscurity, but not before releasing their amazing "Heavy Rock Spectacular", a true pearl of original prog, dominated by the evocative tones of the Hammond organ (dexterously played by a keyboardist who has little to envy of the great Keith Emerson or Vincent Crane). Highlights include "Idiot" with its intense and insinuating vocal riffs, the psychedelic "Ants", and the heavyweight jazz instrumental "Fingals Cave", and "Poltergeist", with sounds that seem to come straight from the abyss, transporting us into a world where everything has a new end and a new beginning.	1972	Akarma / Italy AK 257 CD	Prog UK	12,90 €

BRAVE BELT - (2CD) CD - BRAVE BELT I & II After his departure from The Guess Who at the height of their success, Randy Bachman (from BTO) sought to reinvent his musical existence with the objective of distancing himself from the inevitable comparisons to his former band. He found a new musical direction, bringing his inventive guitar work and song writing talents to the country/folk/rock genre. With this double CD reissue of Brave Belt's complete output, the world finally gets to hear the harmony-laden country rock songs reminiscent of Buffalo Springfield that Randy created on Brave Belt I with former Guess Who vocalist Chad Allan. And on Brave Belt II, with the addition of vocalist Fred Turner, the songs are a blend of similar superbly crafted country-rock along with a more rockin' rough-edged sound that would soon become the foundation of Bachman-Turner Overdrive's gargantuan success. The CD package includes a 14-page booklet with some great vintage photos and in-depth liner notes penned by Winnipeg rock historian, writer and long-time friend of Randy's John Einarson.	1971-7	Privat / CDN BLRCD4054	Rock Country CDN	24,90 €

BRIGMAN, GEORGE CD - JUNGLE ROT The latest release on Radioactive is the legendary electric punk album Jungle Rot from guitarist George Brigman. Hailing from Baltimore, Maryland, Brigman and accomplices Jeff Barrett (drums) and Ron Collier (harp, conga) deliver an album of pounding Stooges-like punk which assaults the ear from beginning to end. The album is a private pressing which appeared on the Solid label (SR001) in 1975. Brigman's murky fuzz guitar attacks are remorseless, and his singular voice full of snarl and venom. This is electric punk at its rawest and the ten original compositions are delivered with such energy and power that it's impossible not to admire the band's total disregard for the listener's sensibilities. The sound is unabashedly lo-fi (it was probably recorded on cassette) but this only enhances the overall mood of menace and ferocity. Another rare album given the Radioactive treatment. Highly recommended.	1975	Radioactive / UK RRCD 091	Psych USA	14,90 €
BRIGMAN, GEORGE CD - JUNGLE ROT/ I CAN HEAR ANTS DANCING Reissue 2on1 CD of the one and only official album from 1975 called 'Jungle Rot' here together with the once official cassette 'I Can Hear The Ants Dancing' released way back in early 80's + 4 extra tracks. GEORGE BRIGMAN is mining the fertile Blues-Infused dark guitar territory of Tony McPhee's GROUNDHOGS for whom his admiration is obvious if you look at the name of his band. HEAVY PSYCHEDELIC FUZZ GUITARS, walls of heavy DISTORTION and eclipses of FEEDBACK rule the psychedelic waves of this ACID-OCEAN.	1975-8	Synton / EEC SN 1	Psych Rock USA	15,50 €
BRIGMAN, George CD - I Can Hear The Ants Dancing The original Ants Dancin is expanded by 10 extra songs which fully showcase the remarkable songwriting and guitar playing of a truly unique talent who earned his cult status. Quiet, dreamy songs alternate with flatout fuzz fried rockers to create a potent web of sound like no other. It is no wonder why the buzz continues to grow around George. This is especially true overseas, where the adulation has caused some unwanted attention. Now Bona Fide Records, inactive for 15 years or so, has been resurrected and is proud to present the first ever authorized cd reissues of George Brigman's amazing body of work! I Can Hear the Ants Dancin will be released on June 1st with the eagerly anticipated Jungle Rot to follow in a few weeks.	1982	Bona Fide / US BONA 2	Psych Rock USA	17,90 €

BRIMSTONE SOLAR RADIATION BAND CD - Solstice Out of Norway comes the band THE BRIMSTONE SOLAR RADIATION BAND. They play an original mix of retro progressive rock a la FLOWER KINGS and straight-ahead indefinable melancholic rock which reveals some 60s Rock influences. I was quite surprised by the sound of this CD, because it actually sounds like no other band. It is melodic, has a retro sound, but on the other hand it also sounding modern, so I guess you can say it is a timeless album which might have been released 30 years just as well as today. Imagine a mix between GOLDEN EARRING, THE KINKS, THE CURE and FLOWER KINGS, very bizarre, but that's what I would say about the CD of this band. Especially fans of 70s orientated experimental psychedelic/progressive rock this CD is a must-have.	2005	Big Dipper Records / N BDRCD056	neo Psych N	15,50 €

BRITISH NORTH AMERICAN ACT CD - In the beginning Another Montreal, Quebec-based band. Allen and Armstrong had both been born there in 1946. Bator was Hungarian, and McCall and Elger were both born in the U.K. - hence the name. Some of the album is rather lightweight but there's some pleasant harmony pop (Only A Dream and Corduroy Coat) and a few tracks (The World Would Understand and Don't Run Away) have a more psychedelic edge.	1969	ACID RAY / JAP ACID RAY 5505	60's Psych Pop CDN	20,00 €

BROKEN HOME CD - BROKEN HOME Broken Home was formed in 1979 by Dicken and Pete Crowther both formerly of Mr Big. Mr Big had broken up the year before when EMI decided not to release their third album 'Seppuku' (although it was finally released by Angel Air in 2001). With Rory Willson and Pete Barnacle they attracted the attention of one Robert John (Mutt) Lange who agreed to produce their upcoming debut album (his credits included Boomtown Rats, AC/DC and Graham Parker). They were ready to roll and by the end of 1979 Dicken had written about a dozen songs. During the early months of 1980 they started working on the album under Mutt Lange's guidance. The resulting album was well received on the Continent (especially Norway and Germany) when it was released in June 1980. The band made numerous live appearances to support the album including an appearance (their last ever) at Reading Festival. Shortly afterward, Rory and then Pete Barnacle left and Broken Home were no more. This CD is a must for fans of Mr Big and the work of Mutt Lange. The 12 page booklet features informative notes and unseen photos from Dickens' personal archive. BROUGHTON BAND, Edgar CD - BANDAGES Eclectic Discs are pleased to announce the release of two classic albums by the legendary and infamous Edgar Broughton Band. 1975s "Bandages" was the bands first release upon departing EMIs Harvest label (for whom they recorded five seminal albums and two UK top forty singles of the late psychedelic / early progressive era) and was a strong and highly regarded work featuring a guest appearance by Mike Oldfield. "Bandages" enjoyed a fleeting appearance on CD fourteen years ago, but has been unavailable in any form for over a decade.	1975	Eclectic / UK ECLCD 1033	Prog Rock Hard UK	14,90 €
BROUGHTON BAND, Edgar CD - LIVE HITS HARDER "Live Hits Harder" was recorded on the bands "farewell" tour of 1976 and secured a limited release in Switzerland in 1979. This atmospheric album makes its debut on CD with the Eclectic Discs release and features superb live renditions of such classic tracks as "Love in the Rain", "Hotel Room", "Evening Over Rooftops" and "Side by Side". The Edgar Broughton Band has been described as "proto-punk", "heavy rock" and "underground" throughout their career. They were recently (and aptly) described as "a bloody good rock band". These Eclectic Discs re-masters will be followed by the release of the remaining two albums in the Broughton catalogue, "Parlez Vous English" and "Superchip" and the first UK and European concerts by the original line up of The Edgar Broughton Band for over ten years.	1976	Eclectic / UK ECLCD 1032	Rock UK	14,90 €

BROWN, Pete CD - Living Life backwards - best of Harvest years One of the UK's most original and enduring musicians and lyricists, Pete Brown's career spans 40 years, starting with poetry performances at the Royal Albert Hall in 1965. He began his musical career in a song-writing partnership with Jack Bruce, where they penned songs for legendary super-group Cream. This 17 track collection highlights some of Brown's best work in his two Harvest label bands - His Battered Ornaments and Piblokto - a brave musical testament that was at the time a bit too leftfield for some, with its use of jazz improvisation mixed with rock and blues. Fully detailed fold-out booklet with informative sleeve notes and pictures from the period.	1968-7	EMI / UK EMI 338 8262	Prog. Jazz UK	9,90 €

BUCHANAN, Roy CD - Loading Zone DIGIPACK. ROY BUCHANAN has long been considered one of the finest, yet criminally overlooked guitarists of the blues rock genre whose lyrical leads and use of harmonics would later influence such guitar greats as Jeff Beck, his one-time student Robbie Robertson, and ZZ Top's Billy Gibbons. The extended jams on this album from 1972 are magnificent and will appeal to lover of acid blues guitar.	1977	Repertoire / GER RepUK 1065	Blues Rock USA	14,90 €
BUCHANAN, Roy CD - You're not alone If any guitarist has the right to be called "Master of the Telecaster", the late Roy Buchanan is your man. Born the son of a preacher in Ozark, Alabama in the US on 23rd September 1939, Buchanan first rose to fame on joining vocalist Dale Hawkins' band in 1958. He also featured with The Hawks, Freddie Cannon and Bob Luman and recorded a number of low key singles before retiring from the music scene in 1962. He resurfaced with his first solo venture a decade later, working with Steve Cropper (Booker T and The MG's), and, together, they recorded a stunning extra long cover version of the latter's classic "Green Onions" track. His trademark was a battered Fender Telecaster guitar, which gave a distinctive treble-sounding tone to his music. At times, he could play so fast that he could quite easily have been referred to as the Malmsteen of blues! He released albums of a consistently high standard throughout the seventies, but, despite enjoying the accolades of many contemporaries, he drifted out of the limelight, returning in 1986 with his promising "When a guitar plays the Blues" album. His final studio album, "Hot Wire", was released in 1987, the year before he died, having hung himself in a police cell following his arrest on a drunk driving charge. This release is perhaps not a collectable monster for early seventies progmaniacs, but highly recommended by us to all devotees of electric guitar fireworks. This is a psychy bluesrock attack in the best tradition of NEIL YOUNG's early solo projects with a mindblowing cover of "Down By The River". Nice Digipak release. Vielleicht kein legendäres Sammlerteil, aber das volle Gitarrenkaliber für ausgehungerte Blues- und Psychedelic-Freaks. Es ist wirklich unglaublich, welche Glanzklänge der Meister seinen Arbeitsinstrumenten zu entlocken wußte. BUCKINGHAMS CD - Kind of a drag In 1967, the Buckinghams laid waste to the Billboard charts with their mega-hit, "Kind Of A Drag." At last, Sundazed presents the group's first album from '66. Along with their launchpad hit and the complete U.S.A.-label stereo album, Sundazed added a single-only side and the group's lengthy fuzz-fest rave-up version of "I'm A Man," (which was included on only a mere handful of early vinyl pressings), a vintage radio spot, original and new notes, vintage photos/posters/handbill repros and more!	1967	Sundazed / US SC 6126	60's garage USA	15,90 €
BUCKINGHAMS CD - Made In Chicago Compilation on CD of double LP from 1975 containing 10 songs of „Time & Charges“, 4 songs from „Portraits“ and more. The hit songs on this compilation are only the tip of the iceberg for this band. "You Are Gone" and "And Our Love" are stunning; they could have been movie soundtrack music due to the inventive orchestrations and production by Guercio (who went on to produce Chicago). "Pitied Be The Dragon Hunter" is a lovely slice of late-60s fantasy, and "Foreign Policy" is a terrific montage of great orchestration and JFK excerpts(!). "The Married Life" is hilarious, and "Why Don't You Love Me" is a prime example of garage-band schlock, complete with cheesy-sounding Farfisa organ (or something that sounds very much like it). This is highly recommended; along with "In One Ear and Gone Tomorrow", a very good sample of highly evolved late-60s rock.	1967-6	Acadia / UK ACA 8019	60's garage USA	15,90 €

BUCKINGHAMS CD - Time & Charges / Portraits Fabulous two on one from the 1967 albums by Chicago's answer to the Beatles. BUDGIE CD - An ecstasy of Fumbling - (2-CD boxset) 2-CD box set designed by ROGER & MARTYN DEAN. Detailed booklet with Burke Shelley interview! The Definite ANTHOLOGY. A must!	1971-8	Repertoire / GER Rep 4435	Rock Hard UK	14,90 €
BUDGIE CD - Squawk - (Digipak) Definitive Budgie on this 1972 release. The first 3 albums (this being the 3rd) are a must have if you are a fan of Sabbath. This somewhat obscure British rock/metal outfit has inspired countless rock outfits and could be described as Sabbath meeting Rush in Wales! This CD includes the classic 'Hot as A Dockers Armpit'. Re-designed Digipak sleeve by Roger DEAN.	1972	Repertoire / GER Rep 4026	Rock Hard UK	14,80 €
BUDGIE CD - BBC RECORDINGS - (2CD) 2CD featuring recordings from 1972, 1976, 1980, 1981 and 1982. Including "Rape of the locks", "Rocking man", "Hot as a doctor's armpit", "Breaking all the houserules", "Wildfire", "Panzerdivision destroyed", "Forearm smash", "In the grip of a tyre fitter's hands" etc.	1972-8	Noteworthy / UK NP 14	Rock Hard UK	20,90 €
BUDGIE CD - In for the kill A UK top 30 album in 1974 and the bands first chart album and confirmed their consistent metal songwriting. Like past releases, the album features huge metal riffs courtesy of guitarist Tony Bourge and wailing vocals from bassist Burke Shelley. "Crash Course In Brain Surgery" (their second song to be covered by Metallica) contains a repetitive and continuous riff, while "Zoom Club" stresses the importance of the almighty power chord. The title track (covered by Van Halen back in their club days) is metal at its most vibrant, while the group balances the album by including a folk number with Beatles-like vocal harmonies ("Wondering What Everyone Knows"). "Living On Your Own" continues the band's tradition of lengthy closing numbers, ending another sadly overlooked album from this British band.	1974	Repertoire / GER Rep 4027	Rock Hard UK	14,50 €
BUDGIE CD - Bandolier Originally released in 1974 and a UK Top 40 hit, "Bandolier" was Budgie's fifth studio album and included the single "I Ain't No Mountain". Original copies of this CD came as a limited edition picture disc.	1975	Repertoire / GER Rep 4100	Rock Hard UK	14,50 €
BUDGIE CD - If I were Britannia I'd wave the rules Probably the album Budgie are best remembered for. Originally released by A&M in 1976 the 7 lengthy tracks include band classics like "Black Velvet Stallion" and "Anne Neggen" and the whole package comes complete with original artwork and a detailed history of this highly influential band.	1976	Repertoire / GER Rep 4372	Rock Hard UK	14,50 €
BUDGIE CD - Impeckable The band's seventh studio Lp, first released by A&M Records in 1978, appears on CD for the first time complete with original colourful artwork. Their only A&M single "Smile Boy Smile" is featured amongst the 9 tracks that also include the lengthy "Don't Dilute The Water".	1978	Repertoire / GER Rep 4371	Rock Hard UK	14,50 €
BUDGIE CD - Power supply 1980 classic from Budgie - the band were given a new lease of life because of the NWOBHM that was sweeping the country. This album had lost none of the heaviness and wit that the band had become so well known and loved for. As a bonus the ultra rare 4 track EP 'If Swallowed Do Not Induce Vomiting' has been added to this CD.	1980	Repertoire / GER Rep 4336	Rock Hard UK	14,50 €
BUDGIE CD - Nightflight First time on CD for Budgie's 1981 LP that hit the UK album charts when first issued by RCA records. Often thought of as a cross between Black Sabbath (due to their plodding, molten-heavy riffs) and Rush (due to their singer's high-pitch, Geddy Lee-esque wail), the somewhat obscure British metal outfit Budgie has influenced countless outfits, despite enduring countless lineup shifts throughout their history and this album still shows that later in the bands career they still had what it took.	1981	Repertoire / GER Rep 4306	Rock Hard UK	14,50 €
BUDGIE CD - Deliver us from evil The band's 10th and final studio album, originally released in 1982 by RCA, gives a further 10 reasons why Budgie have more than earned their place amongst British rock's elite. The single 'Bored With Russia' is featured on this CD. Complete discography included within the informative booklet.	1982	Repertoire / GER Rep 4335	Rock Hard UK	14,50 €

BUDGIE - (Digipak) CD - Never turn your back on a friend	1973	Repertoire / GER Rep 4013	Rock Hard UK	14,80 €
Budgie's third album, originally issued in 1973, includes "Breadfan" (covered Metallica) , Never Turn Your Back on a Friend, was another slab of the band's signature metal sound. Budgie's popularity flourished in the UK, yet their influence was eventually felt by many notable American bands (Metallica, Soundgarden, Alice In Chains, etc.). The mammoth riffs created by guitarist Tony Bourge are definitely on par with Black Sabbath riffmaster Tony Iommi, while vocalist/bassist Burke Shelley's voice is a cross between Robert Plant and early Geddy Lee. Highly recommended. Re-designed Digipak sleeve by Roger DEAN.

BUFFALO CD - DEAD FOREVER - (+ 5 bonus)	1972	AZTEC MUSIC / AUS AVSCD 010	Rock Hard AUS	20,00 €
Dead Forever..., the legendary 1972 debut by Buffalo was the first to be released outside the UK on the prestigious Vertigo label. It remains one of the first truly sinister albums from an Aussie band of the day. Highlights of this collection of heavy psychedelic blues included covers of Free's 'I'm a Mover' and the Blues Images' 'Pay My Dues', plus the band-penned tracks 'Leader', 'Suzie Sunshine', 'Bean Stew' and the melancholy, atmospheric ballad 'Forest Rain'. The album's centrepiece is the awe-inspiring title track; 'Dead Forever' – its dense, heavy riffing, multi-tracked solos, throbbing basslines, rasping vocals and a weird echoed sound to the drums created the 'definitive' Buffalo sound that would be fully unleashed on their subsequent classics Volcanic Rock and Only Want You For Your Body. The line-up for this album was: Dave Tice (vocals – later vocalist for UK R&B band The Count Bishops), Alan Milano (vocals), Paul Babli (drums), Peter Wells (bass – later guitarist for Rose Tattoo) and John Baxter (guitar). The 3rd. release in Aztec Music's reissue of all 5 Buffalo titles, dead forever... features 5 bonus tracks (2 by pre Buffalo band Head), new digital remaster, 24 page booklet with rare photos and liner notes by Ian McFarlane – packaged in a 6 panel digi-pak.				
BUFFALO CD - Volcanic Rock - (+ 2 bonus)	1973	AZTEC MUSIC / AUS AVSCD 006	Rock Hard AUS	20,00 €
One of the great lost classic Australian LP's from the 1970's is Buffalo's 2nd. LP: Volcanic Rock - one of the band's greatest records and essentially the first stoner rock album ever issued in Australia. The importance of Volcanic Rock can never be underestimated. This is the album that established the band's reputation for dispensing uncompromising heavy psych rock of monumental proportions; this is the album that continues to enthral aficionados of the genre the world over. It was this LP that established the classic line-up of: vocalist Dave Tice (who later joined UK R&B band The Count Bishops), guitarist John Baxter, bass player Pete Wells (who later switched to slide guitar in another legendary Aussie band: Rose Tattoo), and drummer Jimmy Economou. Aztec Music will be reissuing all 5 Buffalo titles in late 2005 / early 2006 - Dead Forever, Volcanic Rock, Only Want You For Your Body, Mother's Choice and Average Rock N' Roller Each release will be a deluxe version: newly remastered from the original master tapes with rare bonus tracks. They will be packaged in a 6-panel digi-pak with 24 page booklets – liner notes by Ian McFarlane, rare photos and recent interviews with key band members. Please note: there have been several unauthorised Buffalo CD's released over the past 10 years - Aztec Music's reissues of will be the first ones that are both fully licensed, and done with the full co-operation of the band themselves – look for the AVSCD catalogue number & Aztec Music logo. The bonus tracks on Volcanic Rock are the mono single version of Sunrise (come my way), and a live version of Shylock from 1973.				
BUFFALO CD - Volcanic Rock / only want you for your body	1973-7	Second Battle / GER SB 060	Rock Hard AUS	24,90 €
very few copies left of deleted 2 on 1 release in Digipak. Buffalo is probably one of the most legendary rock groups from Australia. Its musical output was full of heavy progressive sounds which were strongly influenced by BLACK SABBATH and early U.F.O. - especially these two albums from 1973 and 1974. Both were rereleased as pirate CDs in 1990, but Second Battle offers a far better edition now, which has been taken from the original mastertapes, digitally remastered and compiled on one CD together with a new digipak cover showing the two original covers, rare photos and a full coloured booklet containing all lyrics. Die australische Rocklegende schlechthin, die es aber ohne die Einflüsse von BLACK SABBATH und U.F.O wohl kaum gegeben hätte. Die beiden ultrararen Alben „VOLCANIC ROCK“ und „ONLY WANT YOU FOR YOU BODY“ boten atmosphärisch aufgeladenen Hardrock mit genialschleppendem Riffing und tollen Gitarren-Exkursionen. Unser Longplay-Reissue kommt von den Masterbändern, im Digipak, mit den original Covern und einem Text-Booklet.

BUFFALO CD - Only Want You For Your Body - (+ 2 bonus)	1974	AZTEC MUSIC / AUS AVSCD 007	Rock Hard AUS	20,00 €
Buffalo 's third album: Only Want You For Your Body, the last with the classic line-up of Dave Tice (Count Bishops), John Baxter, Pete Wells (Rose Tattoo) and Jimmy Economou, was released in 1974. The album sits comfortably next to Volcanic Rock as one of the most outrageously heavy and ground-breaking stoner rock albums ever released in Australia. With 6 further Tice/Baxter classics, including "I'm A Skirt Lifter, Not A Shirt Raiser" and "Kings Cross Ladies", the album cemented Buffalo's reputation as Australia's premier hard rock band. The wildly tasteless cover design featured an obese, screaming, semi-naked woman shackled to a torture rack. On the back cover, the band revelled in their role as leering, lascivious Aussie yob rockers, with Tice wearing a devilish grin while clad in his black leather strides 'n' braces and brandishing a bullwhip. It was just a bit of harmless fun, yet outraged record store managers across the land refused to stock the record, some eventually placing it in a brown paper bag to hide the offending images.				
BUFFALO CD - Dead Forever	1974	Repertoire / GER Rep 4141	Rock Hard AUS	20,00 €
This 1970s Australian hard rock band became very successful in Europe in the 1980s thanks to three heavy albums for the Vertigo label (becoming the first non-English group to record for the label) The first of the trio, 1972's "Dead Forever" sold 25,000 copies becoming an immediate classic of the genre. Upon the album's release the Vertigo office in Holland proclaimed "Dead Forever is better in quality, production and music-wise than Black Sabbath's Vol. 4 - which is by no means slouch: hear it, if you haven't already". Like Black Sabbath, Buffalo was also criticized for their controversial album covers and supposed satanic content (for the album cover of "Dead Forever" Buffalo chose a scarred, blood stained face, while the inside album features a rather macabre photo of the band in a Sidney cemetery), but also like their English cousins it was the band's hardrocking guitar heavy sound that would prevail. Tracks include a cover of Blues Image's "Pay My Dues" and Free's "Im A Mover". Some members of Buffalo went on to form Count Bishop - a blues rock band in the vein of Dr. Feelgood. Here's an original pressing of the long time out of print REPERTOIRE CD.

Extremely rare and sought after album showing a different side of the incredibly rich Turkish late 60s/early 70s band. Gravel vocals, introspective folk rock, mostly a calm album with beautiful songs and lyrics by songwriter Bulent Ortacgil. recorded in 1973/1974, it received 4 stars in Hans Pokora's Record Collector Dreams book.

BUNKA, Roman CD - Dein Kopf ist ein schlafendes Auto	1980	ATM / GER ATM 3818	Prog. Psych GER	15,50 €
Roman Bunka is one of the most prominent German ud players and guitarists. He was born in 1951. Bunka was a founding member of several of the most influential German rock bands, including avant garde rock bands like Embryo and Aera. He impressed fellow musicians with his oriental style of guitar playing. In 1976 he gave his first concert with Trilok Gurtu in India. While searching for a second stringed instrument more suited to his musical development in the direction of modal and microtonality, he discovered the Arabic lute, the fretless mother of the guitar, the ud. His first solo album, „Dein Kopf ist ein schlafendes Auto“, recorded in 1980 (re-released by ATM-records) presented a blend of avant-garde rock with Oriental melodies.

BUNN, Roger CD - Piece Of Mind Official re-print of this very trippy and generally stunning late 60s album by the UK bassist who was in legendary UFO band The Giant Sun Trolley and later played with Daevid Allen, Pete Brown's Piblokto, auditioned for Hendrix and jammed with Traffic. Originally issued on Major Minor it was recorded with the Dutch National Orchestra and various musicians and the overall result is a weird folky psychedelic pop/rock album filled with exotic eastern raga-rock excursions, jazzy flute tinged rock with exotic percussion, strange audio effects and a very eerie late '60's production. At times Dutch legends Group 1850 come to mind. Certainly the songs are mystical stream-of-consciousness, pop/folk-rock/psych compositions with some dark druggy-corners. Featuring a swirling psych sleeve typical of the period, a beautiful three fold mini card sleeve and a huge 36 page booklet (!) PLUS eight bonus tracks (!) this is a real psike discovery!	1970	Roller Coaster / UK RCCD 3055	Rock Jazz UK	18,90 €

BURTON, Lori CD - BREAKOUT !! An absolute gem this one- and thankfully available on CD after years of being 'hard to track down'. Believe it or not, there was an all-girl band even sleazier, tougher, grittier and darker in tone than the Shangri-Las (a squillion voices shout disbelief) They were the Whyte Boots, and Lori was their frontwoman and principal songwriter (like Jackie DeShannon, one of the groundbreaking women of the era who wrote their own material). Except they didn't exist!! Whereas the Ganser sisters and their cohorts actually lived and dwelt on the twilight streets of the Bronx, Lori and her co-writer, Englishwoman Pam Sawyer, were holed up safely in the Brill Building with some esteemed supersessioners, writing material for the Young Rascals among others, and it was in this environment that the Boots' masterpiece (and possibly the greatest US 'death disc' of all time) "Nightmare"- a tale of rival girl gang murders set to a chilling Mortonesque arrangement, was concocted. The scandal over this most wonderful of one-hit-wonders soon blew over, but not before Mercury had given Lori her own album, featuring not only said single but several of the Northern Soul stompers she had written for other artists cut in her own inimitable way. Several tracks here , such as 'Gotta Make You Love Me' are Mod dancefloor fillers of many years standing- the others are all equally worthy of discovery, so part with your pennies for some pop perfection. Never reissued before in ANY format, now featuring a bonus radio version of 'Nightmare' and liner notes from noted girl group expert Mick Patrick. BUTTERFIELD BLUES BAND CD - LIVE - (2CD)	1970	RHINO HANDMADE / RHM 2 7874	Blues Rock USA	38,00 €
An individually numbered, limited edition of 2500 copies from Rhino Handmade. By the time The Butterfield Blues Band released its groundbreaking 1966 sophomore album, East-West, Butterfield and his integrated band were moving way beyond their Chicago blues roots, laying the groundwork for acid rock with extended jazz workouts and Eastern song structures. In 1967, inspired by his idol Junior Parker, Butterfield formed a "big band" that featured a Gene Dinwiddie-arranged horn section and by the late '60s included Ralph Walsh (guitar), Rod Hicks (bass), Ted Harris (piano), and George Davidson (drums). Seasoned in blues, jazz, and R&B, the group assembled at L.A.'s Troubadour club in March of 1970 to play the gigs recorded for this release. Sophisticated yet free-ranging, this unclassifiable ensemble proved the perfect backing for Butterfield's "heavy feeling." In addition to the material from the original 1971 Todd Rundgren-produced double LP, this expanded release contains a second disc of previously unreleased performances from the same series of shows at The Troubadour. The Butterfield Blues Band Live is available as an individually numbered limited edition of 2,500 copies. 19 Tracks; 8 Unreleased; 2 Discs; nice Digipak release.

This album was released as a testpressing only and recorded in the US Midwest 1970. Nothing is known about this album, a mystery like JUNGLE. 10 great heavy tracks loaded with extra heavy fuzz-guitar, organ and soulful male vocals. The guy sings like a male Janis Joplin, the music sounds like a tough version of Big Brother & Holding Comp. Nothing for sweet Folkpsych fans.				
BWANA CD - BWANA	1970	Acid Symposium / US AS CD 03	Psych Hard Colombia	14,90 €
Reappearance on CD (with tasteless original cover art intact) of fantastic latin funk/psych rare-groove special from around 1970; as latin mavens Dusty Groove say, it's "an insanely wonderful bit of Latin funk! The groove is super heavy, and falls somewhere in between NuYoricain soul and Chicano Power rock—with a sound that's pretty close to Black Sugar, but a little bit more psychedelic, due to the heavy guitars and keyboards in the grooves. Hard congas take the lead on most of the tracks—especially the cut 'Chapumbambe', which starts with a nice breakbeat." We say: astral-planar Latin jams, with blazing guitar and organ, laid down over hot funk/psych grooves; leads off with the eight-minute runaway train 'Tema de Bwana'; what's next, you wonder? why it's the intricate twin-guitar progressive call and response jam of 'La Patada'; the rest gets better from there, with songs that shift and flow until they hit an acid freakout point—check out the end of 'Chapumbambe', or the second half of the thirteen-plus minute soul/psych style rave up 'Lolita' that closes the album.

CACTUS - (2CD) CD - BARELY CONTAINED/STUDIO SESSIONS With bassist Tim Bogert and drummer Carmine Appice from Vanilla Fudge, guitarist Jim McCarty of The Detroit Wheels, and singer Rusty Day of The Amboy Dukes, this erstwhile supergroup signed with Atco Records and served immediate notice that British bands like Led Zeppelin had better start looking over their shoulders. Cactus' 1970 self-titled debut -- referred to by McCarty as "the methedrine album" -- turns the blues up to 11 and lets the boogie commence. Recorded at Jimi Hendrix's Electric Lady studio with his engineer, Eddie Kramer, Cactus' 1971 follow-up One Way.Or Another offered a similar mix of R&B covers and originals like "Hometown Bust," a succulent slab of the band's drug 'n' drum-fueled lifestyle. With overdubs to a minimum, 1971's Restrictions was a let's-get-down-to-bidnezz affair and the last with the original line-up. When Bogert and Appice revamped Cactus for their final release, 1972's half-live/half-studio 'Ot 'N' Sweaty, they were accompanied by singer Peter French, guitarist Werner Fritzschilds, and keyboardist Duane Hitchings. This Rhino Handmade release presents these three-plus studio albums in their entirety, along with the previously unreleased songs "Rumblin' Man," "The Sun Is Shining," and "Hound Dog Sniffin'," drawn from sessions for the first two records. Russell H. Tice's liner notes to Barely Contained claim Cactus was one of the hardest rocking bands of all time, and the 33 tracks here (most new to CD) leave little doubt about that.	1970-7	RHINO HANDMADE / RHM 27872	Rock Hard UK	39,90 €

CAPTAIN BEYOND CD - CAPTAIN BEYOND The band was formed in the early seventies by two Iron Butterfly members, Larry "Rhino" Reinhardt on guitars and bassist Lee Dorman, vocalist Rod Evans, one of the founder members of Deep Purple in the late sixties, and drummer Bobby Caldwell, of Johnny Winter fame. Their first self-titled album, released in 1972, is undoubtedly one of the finest hard rock albums ever recorded, and is highly recommended. Anybody who professes to be a fan of 70's rock should have this classic album in his or her collection. It has everything you'd expect to hear from a band felt by many to be one of the best rock outfits of all time, from searing guitar breaks to moody, soulful passages.	1972	Universal / US UNIV 073145361072	Rock Hard USA	13,50 €

CAREY, LYNN/ MAMA LION CD - ROARS BACK Lynn was the actual voice of wild girl group The Carrie Nations, in director Russ Meyer's cult classic 1970 film: 'Beyond The Valley Of The Dolls'. After that she made a one-and only album with Psych Rock band C.K STRONG (Epic, 1970), after which event she teamed up with NEIL MERRYWEATHER to record the 'Vacuum Cleaner' album, and changing the name of that band into MAMA LION with which band she recorded 2 albums. This Cd features 9 UNRELEASED tracks from her MAMA LION period + brand new songs. 21 songs in total 2 of which are 'mystery' tracks. CAROL OF HARVEST CD - Carol Of Harvest It does not matter whether you see this kraut rock legend (for who's original releases you will sometimes have to pay around 500 Dollars and more) as a band version of EMTIDI around the "Saat" period, as a close relative to the english band MELLOW CANDLE which had similar folky songs and an equally enchanting female singer, or if you consider them a kraut rock version of JULIAN JAY SAVARIN - this re-release is more than justified by its own merits: a unique atmosphere, great songwriting and three previously unreleased extra tracks, including a cover version of JANE's "River". Es ist müßig zu diskutieren, ob diese weltweit gesuchte Deutschrock-Legende, deren Originale schon mal für über 1000 Marker den Besitzer wechseln, wie eine Band-Version von EMTIDI zur "Saat"-Zeit klingt, aufgrund ihrer folkig anmutenden Songs und des bezaubernden Frauengesangs den englischen MELLOW CANDLE am nächsten stehen, oder ob man CAROL Of HARVEST gar als eine Krautrock-Version von JULIAN JAY SAVARIN bezeichnen möchte. Für diese Wiederveröffentlichung spricht auf jeden Fall ihre einzigartige Atmosphäre, das tolle Songwriting und drei bislang unveröffentlichte Bonus-Tracks - inklusive eines Covers von JANEs "River".	1978	Second Battle / GER SB 064	Folk Psych Prog GER	15,00 €

CARPENBORG, STAFF & THE ELECTRIC CORONA CD - FANTASTIC PARTY (HEAVY NOODLES)	1970	DR 47102 NT	Psych Rock Hard GER	15,50 €
Listening to this record the very first time we thought that the history of Krautrock has to be rewritten. While this may have been some kind of over-enthusiastic, spontaneous reaction, it seems to be about time to share one of the last great Kraut secrets with the rest of the world. After more than a decade of countless re-releases in this field (and quite a couple of stinkers among them) you might be tempted to believe that there can hardly be any more undiscovered jewels out there which are worth your attention. But wait: some of the real stuff refused to catch your eye and ear because you wouldn't expect to look for it on conservative labels notorious for classical music only (e.g. 'Wired' on Deutsche Grammophon), in avantgarde-jazz surroundings (e.g. the first 'Et Cetera' Album) or like in this case hidden in an inconceivably disgusting cover on a cheapo label like Maritim, usually known for James Last impersonators and Humba-Tätära- Bierzeltmuzak. Although Maritim had done it all before a few months ago as they released the first Hairy Chapter-LP without the bands knowing under the title 'Electric Sounds For Dancing' as by 'The Chaparall Electric Sounds Inc.' with songtitles changed from 'Ilusions' to 'Hallucinations', 'Life' to 'Love' and so on, to avoid copyright troubles. The Electric Corona's 'Fantastic Party' was their strangest and most outrageous attempt to cash in with one of such party records in 1970. And while the average customer of that kind of crap has probably lost all his friends and the party was over soon as the needle hit the grooves, these weird sounds make perfect sense for more sophisticated party animals who could imagine to have a hell of a good time while Hapshash & The Coloured Coat are jamming with Can (or whatever your own associations may be. The heavy noodling of Staff Carpenborg defies description because nothing else really sounds like it.) This forgotten and overlooked artefact of Teutonic freakness would be regarded as a Krautrock classic nowadays had it been released on Ohr, Brain or Pilz. On Maritim it has gone down the drain unnoticed until the compilers of the 'Kraut! Demons! Kraut!' compilation- series dug it up in the mid-90's and popularized it a bit among the initiated. About 500 illuminati worldwide and half of them suspected the music to be a fake recorded by a 90's band. But no, dear doubting Thomases, this album exists! The most promising way to find an original copy is to go through the kind of bargain bins which you normally wouldn't touch with a bargepole on German streetmarkets. Absolutely nothing is known about the musicians except Staff Carpenborg's bourgeois name Paul Bucher, the writer of all tracks here. Is this a studio project gone berserk or do we listen to the output of a hopeful group who called it a day after seeing their opus being flogged for DM 5 at Woolworth's to buyers who expected to get some happy-go-lucky-tunes? We'll never know... but we found a similar track on another of these throwaway records and add it as an extra track here, although we're not absolutely sure whether this is the same band. 'Afro Rock' was the final (and definitely unconnected with the rest of the sounds) track on a 1970 LP by a Dixieland band called Ken James & The Rockers. Believe it or not they played 'Rock Around The Clock', 'Tutti Frutti' etc. on banjo, trombone and washboard. It comes from the same source as The Electric Corona and sounds good enough to be documented. To avoid the fate that killed the first release 35 years ago, we decided to throw together a new cover. Dirty job - but someone had to do it. Enough said, now loosen seatbelts, put your seat in a horizontal position and start smoking. You're on board of Carpenborg Airlines guaranteed to arrive without travelling.

The Carpet Knights have been described "A band with a big variability and a musical ability that takes the listener beyond his own mind and into a world that reigned by The Carpet Knights." From, at start, 20 songs now remains nine pieces that sums up what The Carpet Knights wants to express. Typical for the music is dynamics and tempo changes but also the monotonous and meditative melodies. The lyrics are following the spirit of the music and describes emotions and states of mind rather than actual events

CAUSA SUI CD - CAUSA SUI CAUSA SUI are a young four-piece band from Denmark. They describe their music as "untamed music picked up from the late 60ies, not looking back at zeitgeists and other limitations, picking up different trails on the way, wrapped in a complex, but soundwise warm and simple jacket". Kicking off with a sonic fuzzed out MC5-like groover the songs become more and more spacy, combined with long graceful instrumental passages, freaked out guitar works, super dynamic drums and frantic vivid vocals. This powerful journey culminates in the "Workings of the Great Blue Swells", an over 12 minutes long psychedelic space rock epic. Digipak CD	2005	Nasoni / GER NR 047 CD	Psych Rock DK	15,00 €

CETI CD - LAMIASTRATA This 2002 symphonice power metal release for Poland's CETI apparently was overlooked by most Western metal web sites as there is very little information available on the band or this release. Comparisons to bands such as Blue Murder, House Of Lords, Malmsteen's Rising Force and Pretty Maids would suffice. "Burning Fantasy" features some serious guitar shredding from Andrzej Lysow along with a Pretty Maids styled keyboard layer. Vocalist Grzegorz Kupczyk sounds like a cross between Ronnie Atkins on the early Pretty Maids releases and John Sykes. "The Priests Of Lie" would appeal to any neoclassical metal fan. "Hot Body And Hair" is purely mid 80's Rising Force, sans the title of the song. There is a certain amount of pomp so to speak within many of the tracks. This is not run of the mill power metal as the songs possess many changes in speed and tempo. As with any album recorded in one's secondary language, there are going to be some odd titles and vocal phrasings. Nonetheless, CETI prove that they can craft some pretty good tracks in English afterall.	2002	OSKAR / PL Oskar 1010 CD	Prog. Metal PL	10,00 €
CETI CD - SHADOW OF THE ANGEL ProgMetal act led by Grzegorz Kupczyk of TURBO and NON IRON fame. The band CETI, named after the NASA search for alien life 'Communication with Extraterrestrial Intelligence', was formulated during 1989. CHAIN CD - Towards the Blues Chain "Towards the Blues", released in 1971, was the second album from this Australian blues/rock band. Chain were one of the few bands playing "white" blues in Australia, a country better known for its great hard rock and prog bands. Formed in Melbourne in 1969, they had a fairly large hit with the track "Black and Blue", off this particular album, although they were more comfortable playing long, extended blues jams than three or four minute hits. They went through over a dozen line-up changes before finally calling it quits in 1974, although it does appear as if they reformed sometime in the eighties, as a number of albums were released at that time.	1972	Festival / AUS D 19718	Blues Rock AUS	14,90 €

CHAMPIGNONS CD - PREMIER CAPSULE Excellent mostly-instrumental combination of prog and psych served up by Champignons, a tight and experimental band from Quebec. Released in 1972, Premiere Capsule, resplendent in its trippy day-glo mushroom sleeve, is a succession of seven guitar driven original compositions that manage to maintain any incredibly high standard from start to finish. All the tracks are superb, but several in particular stand out including the 11-minute experimental jam, Le Chateau Hante (The Haunted Castle) and two instrumental number s, Folies Du Mercredi and Pop-Pino. There is extremely good fuzz guitar throughout, as well as some exceptional flute solos courtesy of flautist Emile Naud. Unfortunately this is the only known album from Les Champignons, and to say it gives us great pleasure to have released it on Radioactive is an understatement. CHAPTER THREE, Manfred Mann's - (JAP) CD - Manfred Mann's Chapter Three This is as much jazz as rock. There's hardly any guitar, but a swaggering horn section compensates. CHARIOT CD - CHARIOT This is the band's lone musical offering, an eponymous release coming with stunning artwork, originally on the National General label. The band evolved out of the KNACK (60s) and is often described as a Cream-influenced blues/psych trio, though their sound exhibits more than a hint of classic flower power groove with some decidedly progressive touches. CHICAGO BLUES REUNION CD - Buried Alive In The Blues - (CD + DVD) This just in, Buried Alive In The Blues has earned a 4 star review from Rolling Stone's David Fricke in the 11/19 issue. Read the review : „In 1969, Chess issued Fathers and Sons, a summit meeting of Chicago's black elders and white blues stars. Today, singer Nick Gravenites, organ/piano man Barry Goldberg, guitarist Harvey Mandel and harp blower Corky Siegel, all sons of that era, are old enough to be fathers themselves. But they were in sharp, seasoned form for this live 2004 homecoming, now a CD/DVD set. This time there's a mother too: Singer Tracy Nelson, who tears into Slim Harpo's "I'm Gonna Miss You Like the Devil" as if she's the one with horns and a pitchfork.“ „This album was recorded at FitzGerald's in Berwyn, Illinois, in November, 2004. I wasn't there, but I wish I had been there to see this band that includes: Nick Gravenites, Barry Goldberg, Harvey Mandel, Tracy Nelson, Corky Siegel, Sam Lay, Zach Wagner, Rick Reed and Gary Mallaber. The album begins with "Born in Chicago," which is a good song to get the feet moving and the blood pumping. It is followed by "Buried Alive in the Blues," a song that Nick Gravenites wrote for Janis Joplin. Unfortunately, Joplin died the day before she would have laid down the vocals for the song. Tracy Nelson takes the lead vocals on the third track "Walk Away" and really belts it out. This song alone would have been worth the priced of admission. Nick Gravenites at times sounds like Eric Clapton and at other times sounds more like Charlie Musselwhite ("Drinking Wine"). In addition to Gravenites and Nelson, there are two other vocalists on this album. Sam Lay provides the vocals for "Find My Baby" and "Hound Dog." Corky Siegel lays down the vocals on "King Bee." I'll tell you one thing, the vocals aren't lacking, no matter who sings on a given track. This album is full of all the things that make Chicago blues great: big guitars, harmonica, piano and organ. Not to mention, songs about drinking, lost love, Muddy Waters and trucks. If you love the blues, especially Chicago blues, you should have this album.“ (review by Gary Schwind). CHURCHILLS / JERICHO JONES - (2CD) CD - Churchills & Jericho Jones One of the top 10 psych albums of all time (fact). Only released in Israel in 1969, this is an incredible psych fest with superb tripped out songs in English, amazing multi-layered, phased freaked out acid guitar solos, weird effects and exotic arabian instruments. Genuine Middle Eastern psych. The band only made one album, but what an album and not only that this version has 6 bonus tracks! They then evolved into Jericho who feature on disc 2 of this magnificent set when their music showed a greater maturity in both songwriting and playing, featuring some excellent heavy blues/acid music. Contains 7 bonus tracks. Beautiful slipcase artwork and extensive booklet showing 7" sleeves and press shot. CIRCULUS CD - Lick On The Tip of an envelope yet to be sent	2005	Rise Above / UK RiseCD 063	Folk Psych medeaval UK	15,50 €
'The Lick On The Tip Of An Envelope Yet To Be Sent' is the debut album from UK based outfit Circulus. Managing to combine the sounds of Seventies prog rock, medieval chamber music, and avant-garde folk rock, the album has been described asa mix between Jethro Tull, Emerson, Lake, And Palmer, and Blackmore's Night. If you like your medieval folk music with more than just a hint of psychedelia, then this album is for you. The group's website suggests that you imagine what it would be like to accidentally slip into a medieval future when you thought it was 1972. Perfect! You only need to look at the pictures of the band to realise that they're going to be playing archaic musical instruments and singing songs about fair maidens and the summer a-coming-in. But add several layers of psychedelic sound effects and prog-rock guitar/keyboard noodlings then you have something of a whole different order. It has the potential to be a very silly album, but the songwriting and musicianship is of such a high order that Circulus have managed to manoeuvre themselves into a place that is one step removed from anything you'll have heard before. Maybe an odd mix of Van der Graaf Generator, King Crimson, Gentle Giant, Pentangle, Pink Floyd, Fairport Convention and Aphex Twin. But that would be a disservice -- there is the kernel of something highly innovative in Circulus' music that comes from the fusion of their musical influences. I also have a sneaky feeling that one or two of them may have been partaking in the consumption of certain mushrooms. They definitely like their fairies. Can't wait to see them on Top of the Pops. Their Loggins & Messina/Allman Brothers sound comes out loud and clear on their 1974 self-titled LP. Off the master tapes, this release also features bonus tracks not on the original LP.

CLIMAX BLUES BAND CD - Rich Man First released in 1972, 4 years before the Climax Blues Band became famous with "Couldn't Get It Right," Rich Man is an excellent release from the band's pre radio-friendly days. During this period their sound was a sort of energetic, yet refined, blues rock, led by the talented guitar playing of Pete Haycock, and refined sax and harmonica of Colin Cooper. Among the best tracks are "Shake Your Love," in perfect Bo Diddley style, and the Son House standard, "Don't You Mind People Grinning in Your Face." CLUSTER CD - CLUSTER '71 On the outer edge of German space rock, Cluster '71 stands as a testament to minimalist "cosmische" music. The three untitled tracks composed and performed by Moebius and Roedelius are exploratory, ever-changing pieces with focuses on guitar distortion and synthesizer wails, though each goes far beyond. This album deserves the many accolades it's been given, and holds up as an early landmark in the history of beatless ambience.	1971	Water / Italy Water 160	electronic GER	15,50 €
CLUSTER CD - Cluster II	1972	Spalax / F Spa 14864	electronic GER	14,35 €
CLUSTER CD - CLUSTER II - (Digipak) Cluster were key members during the formative years of the Krautrock movement. They initially released 2 LPs in '69/70 with the Kluster spelling that are amongst the earliest Teutonic pulse masterworks. Their first album with a "C" spelling was the s/t LP on Philips (currently o/p as a CD on Sky), before they moved over to the Brain label. This is their first of 2 for that label, from 1972, and is a great, confused space classic by this duo (Roedelius & Moebius). Utilizing primitive synthesizer whirls, hypnotic guitar/bass patterns, etc. The 12-minute "Im Suden" is especially masterful. Latest Digipak edition - no bonus tracks. Originally recorded and released in 1977, this pioneer ambient music album brought together several legends of progressive electronic music: Brian Eno, solo artist and collaborator with David Bowie, Robert Fripp, and Roxy Music; Dieter Moebius and Hans-Joachim Roedelius, both of whom had made dozens of ground-breaking recordings throughout the 70's and Michael Rother, of the hugely influential krautrock band Neu!. This album was the first of several celebrated collaborations between these artists, whose influence looms over many current artists such as Moby, Radiohead, Aphex Twin, Massive Attack, and Tortoise. The first in a series of Brian Eno/Cluster related collaborations to be reissued by Water in 2005

Crash Coffin, the man, the storyteller! The self titled debut album by this Ohio based songwriter was released privately on the Mus-i-Col label in 1970 backed by a full band. All copies that exist have unique sleeves made by Crash himself. The actual finished sleeves he claimed were destroyed by fire, but he likes a tale to tell! Truth is, the cost of producing finished sleeves proved to be too expensive! Reviews claim the music to be rural acid psychedelia. Well maybe...Really, hes a living history of American popular music! It's easy to hear how much he admires Elvis. Several of the songs, particularly the tender ballad Lilly, show the King is an influence, but theres also Dylan too, with his humorous take on the issues of the time. Womens Liberation, space travel, and religion all get the Crashtreatment, with the confident support of rock nroll, blues, country and jug band styles. Each of the ten tracks exhibit a fine grasp of song craft, are very musical, and certainly entertaining listening. The man himself remains an enigma, but this album wouldnt be the last wed hear from him. A second album, equally as rare, with the amazing title Crash Coffin and the United States Yahoo Funky Punky Jug Band followed in 1984 (seems he was in no rush!) and further explored his jug band roots. But thats another story. . . For now, sit back and enjoy the Crash Coffin experience, unearthed and digitalised for your listening pleasure.

This is the greatest Theremin album EVER!!!	1962	MN 1	60's Psych USA	19,50 €
COMUS CD - FIRST UTTERANCE Comus' first album contains an imaginative if elusive brand of experimental folk-rock, with a tense and sometimes distressed vibe. At times, this straddles the border between folk-rock and the kind of songs you'd expect to be sung at a witches' brew fest, the haunting supernatural atmosphere enhanced by bursts of what sound like a theramin-like violin, hand drums, flute, oboe, ghostly female backup vocals, and detours into almost tribal rhythms. Digipack + 2 bonus tracks : 8. Diana (single version) 9. In The Lost Queen's Eye 10. Winter Is A Coloured Bird - Tracks 8-9-10 originally releasead as a separate EP not included in the album.	1971	Breathless / Italy BM 52002	Prog UK	14,90 €
COMUS CD - FIRST UTTERANCE - (JAP paper sl.) One of the very few British folk LP's that creates a totally new, dangerous and utterly unique atmosphere. Obligatory music!! The opening cut Diana is very strange and very appealing (to these ears), The Herald is a beautifully fragile instrumental with strings and woodwind, Drip Drip is a decidedly weird series of rantings and ramblings. The four tracks on side two essentially continue the challenging tapestry of beautiful woodwind, strings and unorthodox vocals which at times recall a folky version of early CURVED AIR. This dark, haunting and at times bizarre psychedelic folk rock masterpiece is strongly recommended. Limited 20 k remastered Japanese release as "paper sleeve" Mini-LP edition. Already out of print - last copy.	1971	JVC / JAP VICP-62166	Psych Folk Rock UK	33,00 €
COMUS CD - SONG TO COMUS - (2CD) COMPLETE COLLECTION (2CD). At last, here is the entire output of this dark, mysterious 70s band (one of the most revered of all UK '70s acid folk acts) who created a sound somewhere between Love, Tyrannosaurus Rex, Family, Jethro Tull and Pentangle. The debut album 'First Utterance' originally released on Pye in 1971, is still scary and unsettling unto the ear today, with its phased vocals atonal cries, spiked, jagged guitars, chants and rustic rhythms (particularly evident on 'Diana' 'Drip, Drip' and 'Song To Comus') The lyrical themes are dark and menacing and became the blueprint for the material Current 93 recorded between 1987 and 1996, as well as an influence on modern dark metallers such as Witchcraft and Opeth (who even named their album 'My Arms Your Hearse' after a Comus lyric). The songs of Comus make the The Wicker Man soundtrack seem like The Spinners. The second album 'To Keep From Crying' (Virgin 1974) features a reworked, more electric lineup with guest musicians from Gong, Henry Cow and Esperanto, and features a less sinister poppy progressive rock sound. All of Comus' recordings brought together for the first time. Both LP's and the EP are highly collectable, changing hands for three figure sums.	1971-7	Castle / EU CMEDD 1121	Psych Folk UK	14,90 €
CONCRETE RUBBER BAND CD - RISEN SAVIOUR First ever reissue of rare release by this Missiouri based American Artists label. Only 2 copies in private colections are known to exist. Despite the songtitles this is a rather strange and unusual rock album which just happens to have religious undertones. It's christian psychedelia at its most extreme with sybntthesised bubbling lava pits, frequency oscillations, distorted sci-fi vocals and short wave static patters. The album is littered by some of the most extreme fuzz guitar you'll ever hear, loads of scatty electronic effects and a flying saucer sequence right out of Dark side of the moon. The whole project has an dense and murky feel. Recorded in the band's living room on a 2-track tape recorder.	197	Radioactive / UK RRCD 108	Psych Rock Hard USA	14,90 €

CONGRESO, EL CD - El Congreso There are 3 albums you need to hear from Chile: Kissing Spell, Embrujo and this amazingly rare El Congreso. On 5 original Kissing Spell you might find 1 El Congreso album. Original released on Odeon, the 3 brothers Gonzáles plus bass & drums recorded this album in 1971. Musicwise it goes in the same direction as Kissing Spell and Embrujo. Mellow underground psychy tracks, trippy jungle sounds, dreamy vocals, great guitar work just the kind of music you want to hear while reading Castaneda and trying out a few pleasure-cactuses.	1971	Record Runner / BRA RR 0460	Psych Chile	18,90 €

COSA NOSTRA CD - COSA NOSTRA Heavy duty rare Latin psych funk album, recorded in Mexico 1971. Their english language debut has heavy grooves right from the start, with hard guitar, bass, drums and organ kicking it and not letting up. COSMIC MICHAEL CD - AFTER A WHILE His first album was issued in New York. Its poorly produced piano/vocals - led rock music is an acquired taste. Some regard him as an ultimate hippy with songs of love, freedom & peace all delivered with just piano, vocals and kazoo. The 9 tracks are stoned DIY rock'n'roll, you can call it lo-fi but the message remains. His second album (this here) was a local California release made after he moved to Los Angeles to catch the wave and some call it awful.	1970	Radioactive / UK RRCD 166	Folk Psych USA	14,90 €
COTTONWOOD CD - CAMARADERIE From California, a short-lived outfit formed by the guitarist Gary Rowles after Love broke up. The music reflects the sleeve: bearded men running in the fields or meditating by the sea. It may sound quite naive and dated now. Coulson, Dean, McGuinness, Flint CD - LO & BEHOLD - (JAP) This off-shoot of McGuinness Flint, rechristened momentarily in the wake of the departure of songwriting members Benny Gallagher and Graham Lyle, left behind one major cult item, Lo and Behold, the best album of Dylan covers ever done by anyone. McGuinness Flint themselves played blues-based roots rock, close in spirit to but less jazz-inspired than the group from which Tom McGuinness had come, Manfred Mann; drummer Hughie Flint was an alumnus of the lineup of John Mayall's Bluesbreakers that everyone heard, featuring Eric Clapton. Dennis Coulson fronted the group vocally, and Dixie Dean joined up on bass after Gallagher and Lyle's departure. They later became known simply as McGuinness-Flint (Mark 2). limited Japanese remastered paper sleeve edition - looking exactly like the original sleeve in foldopen cover plus OBI	1972	Airmail Recordings / J AIRAC-1056	Folk Rock UK	29,00 €

COUSINS, Dave	1972	Witchwood Records /	Prog. Folk	17,90 €
CD - Two weeks last summer		SDRCD 010	UK	
Very welcome news indeed for Strawbs fans everywhere - Dave Cousins' superb 1972 solo album, with rock luminary guest stars Rick Wakeman, Roger Glover (Deep Purple), Jon Hiseman (Colosseum, Tempest), Miller Anderson, as well as Dave Lambert, and the original version of Blue Angel. Between Grave New World and Bursting At The Seams, Dave slipped away to make his long promised solo album. Whilst to some extent the album derives from songs which never quite made earlier albums, there are a few recent tracks too - the superb "Blue Angel" suite, and "Ways And Means". Surrounding himself with rock musicians, including Dave Lambert who would shortly join the band, he made an album which can easily stand up with many of the Strawbs' releases.

CD - Hummingbird		WMCD 2007	UK	
2002 release featuring 13 tracks, Rick Wakeman was member of the Strawbs with Dave Cousins before he went on to Join Yes. This is the first time the two have recorded together in 25 Years. Rick Wakeman plays keyboards and is backed by Dave Cousins with vocals, guitar, dulcimer and banjo. Four more musicians make up the entire band. The album is mainly acoustic, including some new songs as well as new versions of old material. A true masterpiece!				
COVEN	1970	Akarma / Italy	Rock Hard	15,50 €
CD - Witchcraft Destroys Minds and Reaps Souls		AK 271 CD	USA	
Coven's sound is inspired by the occult, as is immediately evident from their song titles and lyrics which speak of demons, witches and satanic rituals. This album, released in 1970, attracted many fans of the genre, in part because a track titled "Black Sabbath" and the presence of a bassist by the name of Oz Osborne gave the band an air of mystery, however, this American band is of no relation to their famous English counterparts. Coven nonetheless, bring us a high quality album, both from a musical and visual standpoint (thanks to the dramatic cover). Notable tracks include "Satanic Mass" (a full out black mass with all the trimmings).

COWSILLS CD - WE CAN FLY Yes, the Cowsill brothers were the real-life inspiration for the Partridge Family, but by this, their third album for MGM released in 1969, they had moved beyond the bubblegum into a whole new, art pop realm. You'll hear Kinks and especially Beatles influences on these lightly psychedelic songs, with great production touches, orchestral flourishes and, of course, superb harmonies. In short, this is a flat-out sunshine pop classic, here reissued with new notes featuring new Cowsills quotes...a Includes: 'We Can Fly; Gray, Sunny Day; Heaven Held; A Time for Remembrance; Gotta Get Away from It All; In Need of a Friend; Yesterdays Girl; Beautiful Beige; Mister Flynn', and 'One Man Show'.	1969	Collectors Choice / US CCM 612	60's Rock Pop USA	14,90 €

CREAM CD - DISRAELI GEARS - (2CD-Deluxe vers.)	1967	Polygram / EU Poly 9819312)	R&B, Rock, Blues Psyc UK	22,00 €
(Deluxe Version). Dble CD, Probably the most overtly 'out there' release by Cream inspired by collision of blues, jazz, folk and psychedelia that captured the heady atmosphere of the 60's. This was the album that brought Cream to mainstream attention in America, spawning a major hit single in "Sunshine of Your Love" and durable classic-rock standards in "Strange Brew," "Tales of Brave Ulysses" and "Swlabr." This package augments the stereo and mono mixes of the original album with an assortment of vintage demos, outtakes and radio sessions, including -"Weird of Hermiston," "The Clearout" and "Hey Now Princess"-that didn't make it to Disraeli Gears. Re-mastered version with enhanced sound quality.

This will be the first licensed CD version (and thus the first from the original tapes) of an album that is absolutely great from start to finish, loaded with organ and fuzz guitar and just oozing with an acid and sunshine vibe. Original copies of this LP almost never turn up for sale and when they do, expect a really nice copy to reach four figures-one of the (too) few rarities that can musically justify their price. Creation of Sunlight/Sunlight were one of the very few bands who could fuse psychedelia and pop hooks effectively, using virtually every instrument available in the day. The album originally came out in 1968 on the very mysterious Windi label (same label as Merkin Manor).

CRESSIDA CD - Cressida / Asylum - (2CD)	1970-7	Gott Discs / UK GOTTCD 002	Prog. UK	16,50 €
Now reissued in a 2 on 1 CD set, these two classic UK early '70's progressive albums, that sell for mega prices as originals, are available finally remastered and with new sleeve notes. First released in 1970, their debut was an amazing Vertigo release of one of the UK's finest early progressive rock bands. Along with bands such as Fantasy and T2 this is melodic and elaborate without ever becoming overbearing or pompous. In places orchestrated and decorated with beautiful vocals and Caravan like mellotron work, this is a fine example of what the term 'progressive' originally stood for and should be heard by anyone who thinks that Spock's Beard are the epitome of prog-rock. The UK progressive bands second album, this lush 1971 effort concentrates on some excellent instrumentals with elaborate arrangements and great keyboard and guitar interplay. The vocal style is at times surprisingly folksy, and the guitar style clean. Featuring highlight tracks like "Munich", "Lisa" and the magnificent "Let Them Come When They Will". True progressive rock without the overblown pomposity of hobbits and elves of later years.				
CRESSIDA CD - ASYLUM - (JAP paper sl.)	1971	Universal / JAP UICY 9051	Prog. UK	30,00 €
Both Cressida albums can be used as an example of what is interesting and worthwhile about British late sixties/early seventies progressive rock. They can quite easily be described as the next best thing to Spring, in that they borrowed from almost any style of music imaginable, creating a unique atmospheric blend of light-heartedness and seriousness. Their music is intelligent and melodic, with singer Angus Cullen having one of the most agreeable voices around at the time. Their first self-titled album, released on the Vertigo swirl label in 1970, is more song orientated, with "Depression" and it's stunning John Heyworth guitar solo being the stand out track.. This second album, though, was by far the better one, with long instrumental passages and more elaborate arrangements, as can be heard on the best track, "Let them come when they will". This album was also released on Vertigo, and is now available as a perfect remastered limited 'paper sleeve' release (as an exact LP repro). These latest Japanese editions are so well done that everyone who likes this kind of music should replace his older Repertoire CDs and enjoy that the Japanese are still the masters of perfection. Already out of print - last copy.

CRESSIDA CD - ASYLUM	1971	Akarma / Italy AK 229 CD	Prog. UK	12,90 €
Cressida was an excellent British progressive rock band, authors of two memorable and still much sought-after LP's. Their second album, Asylum, was even more successful as their first, thanks to the captivating atmospheres and the technical ability of the musicians. Angus Cullen's pleasing vocal style is at times surprisingly folksy, while Peter Jennings unveils enviable talent and class, especially in certain jazz passages. Guitarist John Culley does the rest with clean guitar solos that never sound dated. The whole album is high-quality, but tracks like "Munich", "Lisa" and the eleven minute "Let Them Come When They Will" are all time classics.

CROSSCUT SAW CD - Mad, Bad & Dangerous To Know	1975	Akarma / Italy AK 333 CD	Blues Rock USA	15,50 €
Almost completely unknown, but with a powerful sound that deserves rediscovery! Florida natives Crosscut Saw recorded one rare album for the independent Surprise label in 1975, which had never been digitally remastered until now! Pat Ramsey, vocals and harmonica, cut his teeth in the court of 'His Majesty' Johnny Winter, playing with him both live and on several albums. He is the real deal and amazes both for his technical ability and style - harmonica lovers be warned! Julien Kasper could be called a kind of Van Halen of the blues, not only for his talent and speed but also for his impeccable style. If you need proof just listen to the slow burning "Dead Shrimp Blues". This album is a concentrate of high voltage blues and boogie rock, and will surely appear to fans of Groundhogs, Killing Floor, Nighthawks, Taste and Johnny Winter... "Allergic To Work" is an unforgettable track!

CRYSTALUGUR CD - Terranaut The story of Crystalugur is a strange one: the obscure Native American band Crystalugur recorded this album in Singapore between 1972 and 1973, originally pressing a mere 200 copies for a private label (Warped Rec) and the ridiculously small pressing made the original album an unbelievable rarity. CURVED AIR CD - Aircut In 1970, original Curved Air member Darryl Way had given fresh prominence to the electric violin as a lead instrument in rock when he formed Curved Air with singer Sonja Kristina. After initial success, the original group line up was suspended for after a particularly gruelling US tour. Sonja Kristina then fronted a revamped version of the band that introduced two teenage prodigies, the violinist Eddie Jobson, who later found fame with Roxy Music, and Kirby Gregory, the guitarist who subsequently joined Stretch. This line up of Curved Air, with Jim Russell (drums) and Mike Wedgwood (bass), recorded 'Air Cut' with producer Martin Rushent in 1973. These eight prog rock classic tracks, including the 10 minute epic "Metamorphosis" alongside the beautiful "Easy" and Sonja's composition 'The Purple Speed Queen', show Curved Air didn't waste any time during Darryl's absence and maintained their dynamic and high standard of musicianship.	1973	Repertoire / EU RepUK 5061	Prog. CYBOTRON CD - Implosion	1980-8	AZTEC MUSIC / AUS AVSCD 008	Electronic AUS	20,00 €
"Cybotron is to Australia what Tangerine Dream is to Germany, Jean-Michel Jarre is to France, Neuronium is to Spain and Wavestar & Steve Hillman is to England ." (Jeff D., Sedalia MO) Formed in 1975 by Australian synth pioneer Steve Maxwell Von Braund with fellow musician Geoff Green, Cybotron paved a new musical path for Oz electronic music. Combining prog, kraut rock, and grafting an avant-garde darkness, Cybotron opened up a new sonic world to Aussie audiences. Von Braund found inspiration whilst living in England in 1970 having witnessed live bands like Pink Floyd, Hawkwind, Can etc., and brought these influences back with him upon his return to Melbourne when forming the band. Implosion was Cybotron's third full-length release. Unleashed in 1980 to melt people's minds, it featured Von Braund, Mark Jones and Gil 'Rats' Matthews (of Billy Thorpe & The Aztecs fame), who produced the album both at his home studio and at legendary Armstrong's Studios. It is a symphony of sound, ultra-dramatic and presents a super mind-bending inter-galactic journey. Lovers of Can, Neu, Faust, Amon Duul II, Kraftwerk, Tangerine Dream etc will find inspiration in Cybotron's Implosion. This deluxe version has been digitally remastered, with extensive liner notes containing new interviews and rare photos. It contains six bonus tracks – five from Cybotron's uncompleted and unreleased 1981 album Abbey Moor (one being a curious version of Mancini's Peter Gunn theme). The album is also packaged in Aztec Music's trademark six-panel digi-pak.

CD - DAKOTA Originally released on the infamous Tiger Lily label in 1976 (TL14006), the self-titled album by the melodic country-rock outfit Dakota is one of the most charming of 70s West Coast style albums, and finally receives a digital reissue here... Wait a second, infamous Tiger Lily label? Well, so they say, Tiger Lily was a tax scam label run by the head of Roulette, Morris Levy. Whatever the rumour, the label had taste, the Stonewall album for example, plus of course this hitherto overlooked gem. Reflective songs dominate, each one short and bittersweet. There's a hint of Neil Young, particularly in the vocals, but these guys can really play too. Check out the piano and guitar licks! You wanna hear ivories shine? Whether tugging at the ol heartstrings or setting those toes a-tapping, Dakota will take you on a West Coast ride worth remembering, and you can almost smell the jasmine in the air!		RRCD 171	USA

DAMNATION	1969	Akarma / Italy	Psych Rock	15,50 €
CD - Damnation of Adam Blessing... Plus Damnation, led by charismatic vocalist Bill Constable (aka Adam Blessing), was an extraordinary band, able to go head-to-head with their more illustrious counterparts. The sound is equal parts psychedelic rock, hard rock, garage and blues, mixed at will for maximum aural impact. Adam Blessing's vocals are sure-fire and aggressive, as evident in tracks like "Cookbook," while a certain likening to Jim Morrison can be drawn in "Morning Dew." The band's blues side comes out in "You Don't Love Me," while another well-executed cover is "Last Train To Clarksville," a track written for the Monkees and here transformed into a hard rocker. This Akarma reissue features two bonus tracks, directly from the archives of Damnation guitarist Jim Quinn. "Painter," was previously released only as a very early demo and "You Got Me Floatin'" is a re-elaboration of the Hendrix track, which here is drawn out into a 21-min. live jam.		AK 100 CD	USA

DAMNATION - (3-CD-BoxSet)	1969-7	Akarma / Italy	Psych Rock Hard	41,00 €
CD - Damnation of Adam Blessing / 2nd Damnation / wh		AK 102/3 CD	USA	
Now here was a band that had all the potential in the world but weren't given the acclaim and recognition they certainly deserved, except maybe in their native Cleveland, Ohio, where they were formed in the late sixties by vocalist Bill Constable (later changed to Adam Blessing, and, as a result, the band became known as "The Damnation of Adam Blessing"). Damnation of Adam Blessing had their roots in two Cleveland garage bands, "The Society" and "The Alarm Clocks" in the mid sixties. The initial line-up which featured on the band's debut album, "The Damnation of Adam Blessing", was Adam Blessing on vocals, Bob Kalamasz and Jim Quinn on guitars, Ray Benich on bass and Bill Schwark on drums, and this line-up would remain constant for all three of their albums. The follow-up album, was equally as good as the debut, with some really strong material. The band had, by now, built up a fairly good reputation as a fine live act and they also appeared on various TV shows with the likes of Ike and Tina Turner. The third album, "Which is the Justice, which is the Thief", came out in 1972, but it signalled the end of the band. Actually a brilliant album, it featured stunning orchestration on a number of tunes, and showed that Damnation (as the album was credited to) had matured and developed into a solid rock act. According to the extensive booklet that comes with the triple CD box set, elaborately and lovingly put together by Akarma Records, complete with original artwork and poster in an lp size box, the band members, whilst acknowledging that the third album had some good material, felt that it "wasn't as much fun to do" and that "other people did whatever they wanted and put the band's name on it". They had enough material for a fourth album, but split before that materialized. The Box contains all 3 albums plus lots of bonus tracks, booklet with rare photos, discography, a detailed biography and a poster.

Engineered by Tony Mcphee of Groundhogs fame, this never before released album finally sees the light of day. Featuring the then unknown Anthony Minghella (The English Patient) on keyboards and mellotron, the band split when Anthony decided to quit and go to film school immediately after the album was recorded. Managed under the same roof as Yes & Gentle Giant this album and the band were headed for the big time, and in the true spirit of Rock'n Roll, it never did happen. A fascinating sleeve note recounts this marvellous and so far, untold tale of the injustices of this trechorous business, written by Mike Jollife, (Shide And Acorne) who plays guitar on this superb progressive album. Imagine a cross between Fantasy, T2 Spring and Rare Bird! . Lashings of mellotron, quality harmony vocals, biting guitar work and well written and recorded songs. Highly recommended.

DANIEL CD - Daniel This album was a demo only release by Daniel in 1979 to send out to record companies. He started to write the music in 1971, recorded in 76-78 - only a few copies are known of this great and unique record. The music ranges from fantastic acid folk to full blown psychedelic creepers with heavy cello - and furious fuzz guitar assaults. His producer's voice: "Daniel plays the cello like Jimi Hendrix the guitar"!!! Now he is a movie actor and producer in Hollywood, known as Jason D. Holt. DANTALIANS CHARIOT CD - Chariot Rising When (ZOOT) MONEY broke up The Big Roll Band, he formed this suitably named psychedelic outfit who performed frequently at London's Middle Earth and UFO clubs. They were certainly a talented outfit. ANDY SUMMERS, of course, later played with THE POLICE, and Colin Allen went on to play with JOHN MAYALL and STONE THE CROWS. They recorded just one single for Columbia, The Madman Running Through The Fields. Penned by Money and Andy Summers it was perhaps one of the finest pieces of psychedelia recorded in the UK, this single is now very sought-after. The song was later covered by Eric Burdon and The Animals (with a line-up including Zoot Money and Andy Summers) on their Love Is album and is also on Transition (Direction 863231) 1968 by Zoot Money. In 1995 David Wells' Tenth Planet label pieced together an album of previously unreleased material by the band, plus both sides of their 45. Soma, which appeared in two parts, one on each side of the album, with Andy Summers (who co-wrote it with his tutor Narzir Jarazbhoy) on sitar, was a fine Eastern-sounding remnant from 1967. Fourpenny Bus Ride and, to a lesser degree, Four Firemen were reasonable examples of whimsical psychedelic pop, but of the previously unissued material the jarring World War Three and jazz-tinged High Flying Bird (not the popular US West Coast standard, although it is an ode to the beautiful people of San Francisco), both Money/Summers collaborations, are the high points. By contrast Coffee Song and Recapture The Thrill were inconsequential mainstream recordings. However, overall this album is recommended.	1967	Wooden Hill / UK WHCD 005	60's Psych UK	22,00 €

DARK CD - Teenage Angst (The Early Sessions) Tracks 1-5 are of good quality, recorded in 1971, when the band had refined their sound, the remaining material has been captured off 1/4 inch tape, recorded in 1969 and 1970 when the first line up were still at school, aged 15 to 16. The tracks display the melancholic nature of their later material, raw and unpolished in the extreme. "I'm not sad" is arguably the high point of the early sessions, a great song with wonderfully suppressed tension and power.	1969-7	Kissing Spell / UK KSCD 9402	Prog. Hard UK	19,95 €

DAVIS, BETTY CD - Betty Davis 1973 album of hard driving funk that features Betty's dirty vocals and some superb guitar work, the whole being reminiscent of early '70's Funkadelic but with a sexier edge. A red hot band that includes guitarist Neil Schon of Journey fame, drummer Greg Errico (who produces as well), the Tower of Power horns, keyboard player Merle Saunders, and the Pointer Sisters. An essential and overlooked funk title from the music style's '70s heyday.	1973	MPC Music / UK UFOXY2CD	Rock Soul USA	13,90 €

DAVIS, BETTY CD - They Say I'm Different 1974 album from the Funk Queen that was fresh, hip, risqué and raunchy. A Solid funky rock beat carries through eight songs and never let's up while Betty's vocals remain rough, powerful and streetwise. Cool keyboard work and ripping guitar and controversial lyrics about run away teenagers, bondage and other sexual deviations put this album in a class of it's own when it was first released. An album that was way ahead of its time and should be part of any serious funk collection.	1974	MPC Music / UK UFOXY3CD	Rock Soul USA	13,90 €
DAVIS, BETTY CD - Nasty Gal Third of three hard-edged acid funk albums made by Betty Davis in the 1970s. Great musicianship (being the former Mrs Miles Davis had it's advantages!) with wild wah-wah guitars and funky clavinetts battling over a tight jazz funk rhythm unit. But Betty's powerful vocals and hard-ass attitude steal the show. Fans of Parliament/Funkadelic, Sly Stone, (and even Jimi Hendrix) - prepare for a treat!	1975	MPC Music / UK UFOXY1CD	Rock Soul USA	13,90 €
DAWE, Tim CD - Penrod Reissue of 1969 album. Originally released on FRANK ZAPPA's Vanity label along with albums by Tim Buckley, Judy Henske and Captain Beefheart, regarded as a great psychedelic album. Stuffed full of folk rock, varied keyboards and inspired acid guitar, the album contains what are now regarded as 4 self penned classics. He contributed a number of songs to albums by IT'S A BEAUTIFUL DAY, ROD TAYLOR and even IRON BUTTERFLY. In every sense, from the idiosyncratic cover art to the incredible music, a psychedelic classic.	1969	Radioactive / UK RRCD 095	Rock Psych Folk USA	14,90 €
DAY BLINDNESS CD - Day Blindness Reissue on CD for the first time of the one and only album by this great San Francisco band from the 60's. Originally released on an obscure small label in 1969. Driving guitars and crunching organs throughout same great long jams. Strong DOORS-typesound.	1969	Gear Fab / US GF-184	60's Psych USA	14,90 €
DAY OF PHOENIX CD - Wide open N-Way & The neighbours son Fantastic two on one by this Danish band with an English vocalist, who made these two great albums in 1970 and 1972 respectively. The first album in particular is a stunning West Coast styled acid rock album with flashes of Quicksilver Messenger Service and Anthem Of The Sun era Grateful Dead. The trippy flowing guitar work is truly breathtaking ! Highly recommended.	1970-7	Universal / GER UMD 1596352	Prog. Jazz DK	17,90 €
DE DE LIND - (paper sleeve) CD - IO NON SO DA DOVE VENGO Very welcome reprint of the CD issue of this fantastic album by one of Italy's best ever progressive bands from the early 70's. Very impressive dynamic and innovative PROGRESSIVE rock with tons of mellotrons and guitars. Comes as special papersleeve edition. A MUST HAVE. The original LP was a true rarity on an unusual label for the italian prog (Mercury), and for sure one of the longest LP names ever conceived, „Io non so da dove vengo e non so dove mai andrò, uomo è il nome che mi han dato" is generally considered as one of the top albums in this style. A perfect record, very well played and sung by this band based in Milan. They began their career in 1969, the unusual name coming from a popular Playboy model of the early 60's, and only released three singles in their five years career, the first two closer to the italian beat of the time, while the third had a good rockier B-side in Torneremo ancora - though still far from their LP sound. The album came in 1973, the vocal parts are short but very well made by singer Paradiso, leaving plenty of room to acoustic atmospheres and the sudden assaults of guitarist Vitolli and flute/sax/keyboards player Trama, and the seven tracks on the album are all highly regarding, with a mention for Smarrimento with a sweet flute introduction, a furious guitar/flute interplay followed by the acoustic guitar based vocal parts that leads to a powerful guitar-driven end. Singer Vito Paradiso had a short solo career in 1978-80, while the rest of the band has totally disappeared.	1973	Vinyl Magic / Italy VM 083	Prog. Hard Italy	16,90 €

DEEP, The CD - Psychedelic Moods - A Mind Expanding Phenomen Finally, after 38 years here is the original unadulterated mix of this classic 1966 US album that many claim is the first true psychedelic record. Every other issue of this album has featured a horrible re-mix with all of the sound effects inexplicably removed. An insane mixture of trippy, driving garage weirdness, tape samples and audio effects, the album features surreal lyrics and tracks such as "Turned On" "Trip 76" "Pink Ether" and the much compiled "Color Dreams". The Deep was the brainchild of Rusty Evans (later of The Third Bardo and Freak Scene) and the album is certainly one of the essential '60's psych artefacts . Truly weird '60's US garage psychedlia with a dash of Acid Test madness.	1966	Radioactive / UK RRCD 071	60's Psych USA	14,90 €

DELFINI, I CD - I DELFINI Maybe the best beat album to emerge Italy, first issued on Disco CDB in 1966 (?) or 1967; I Delfini (or, "The Dolphins" as it translates) made a pretty good splash in their day, and why not? the lads from Padua wrote tight, punchy songs, had good production values (RCA studios), could sing (always a plus), and threw in a Beatles cover at the end in English, just for kicks; lyrics and band photos in 8-page booklet are great (but where's a band history?). Messed-up funky jazz from an obscure early 70s UK group -- an album that really lives up to its trippy cover! DENNY, Sandy CD - The North Star Grassman and The Ravens	1971	Island / EU IMCD 313	Folk Rock UK	10,90 €
The late Sandy denny remains the pre-eminent British folk-singer. This remaster of the album from 1971 was her first solo album proper and like all her subsequent efforts featured Richard Thompson on guitar who is joined here with members of Mighty Baby and of course the ubiquitous Barry and Robin Dransfield. Highlights on this album include 'Late November' & the lengthy 'John The Gun' alongside the heartbreaking 'Next Time Around' and the wintery 'Wretched Wilbur' - the latter of which feature the chilling strings of Harry Robinson to great effect. A legendary folk singer with a beautiful voice and an album that should be in everyone's collection. Slipcased and includes expanded booklet and 4 bonus tracks, two of which have never been before released.				
DENNY, Sandy CD - Sandy	1972	Island / EU IMCD 314	Folk Rock UK	10,90 €
The eponymous follow up to North Star Grassman is as good as her debut. A Song of real note is the haunting 'It'll Take A Long Time' which is sheer beauty. The album as a whole is certainly her most consistant solo venture This album was recorded in 1972 and is a worthy addition to any decent record collection. This edition contains the original LP + 5 Bonus tracks of Live recordings with Fairport Convention.				
DENNY, Sandy CD - Like An Old Fashioned Waltz	1973	Island / EU IMCD 315	Folk Rock UK	10,90 €
Digitally remastered copy and housed in a slipcase of the 1973 release from this unique singer songwriter that featured her cover of "Whispering Grass". Little did she know that her version would not become a hit, but also that a year later, comedians Windsor Davies and Don Estelle would take the same song to No.1 in the UK. No wonder she sought solace in the bottle!!! This was to be her last solo record for 4 years, as soon after she would become involved in an ill-fated attempt to rejoin Fairport and 'crack America'. Other key tracks: "No End," "Dark The Night," "Solo," and a barnstorming version of Sammy Cahn's "Until The Real Thing Comes Along" which is made even more poignant considering the life of the artist concerned. The first of her gradual steps away from folk. This edition has the original LP + 4 Bonus tracks.

DENNY, Sandy CD - Rendezvous	1977	Island / EU IMCD 316	Folk Rock UK	10,90 €
Digitally remastered copy and housed in a slipcase of the 1977 release from this unique singer songwriter. Includes a great cover of Richard Thompson's "Wish I Was a Fool for You", Elton John's "Candle in the Wind". With expanded booklet and five bonus tracks it's really nice to see this album available again. Not a folk album in any way whatsoever- instead a collection of textured, almost raunchy at times 70s pop-rock numbers, with denny's voice displaying interestig quirks, cracks and husks not previously inherent in her work: musically not dissimilar to Kiki Dee's output of the time but also showing the obvious influence of Stevie Nicks and Fleetwood Mac. Thgis edition contains the original album + 5 Bonus tracks.				
DENNY, Sandy & STRAWBS CD - all our own work	1967	Estrella Records / EU ER 42119	Folk UK	14,50 €
Reissue on CD of 1967 album (not issued in the UK on vinyl until 1973) that heralded the start of the recording careers of two names synonymous with the UK folk rock scene, and took the 'three blokes and a bird' harmony vocal blueprint of the Seekers et al and pushed it in an adventurous new direction. Although barely 20 years old at time of recording (and looking every inch the quintessential 60s coffehouse sex symbol, before the booze and drugs set in) the maturity Denny displays on this album is astonishing, both as a vocalist ('Tell Me What You See In Me' 'All I Need Is You' 'Stay Awhile') and composer (the original 'Who Knows Where The Time Goes'). Most of the credit, though, should go to Strawbs mainman Dave Cousins, who composed 80 percent of the material and takes lead on the unforgettable 'How Everyone But Sam Was A Hypocrite' and 'Nothing Else Will Do' the first signs of a major talent showing through. Tony Hooper also sings lead on two tracks, and the instrumental 'Wild Strawberries' harks back to their previous incarnation as Flatt & Scruggs-influenced bluegrassers The Strawberry Hill Boys. A quintessential album of its era, the one that showed more than any other the direction British folk-rock was heading in- although it still in no way prepares you for the full-on psychedelia of their Denny-less self titled debut a year later. Now, THAT must have been a shock!!

Brazilian import. Reissue of the debut album by KUBERO DIAZ Y LA PESADA from Argentina. Originally issued in 1973, this issue 2002 with 3 bonus tracks. The only album (Music Hall, 1973) released by this superb guitarist from Argentina, a key member of the legendary La Cofradia de Flor Solar; really psychotic stuff—heavy grunge riffs and emotional (demented) approach to all the songs; very good reissue of this extremely hard to get album, which features other Argentine legends Billy Bond (with whose backing band, La Pesada, Kubero played with) on vocals, Claudio Gabis on guitar, Alejandro Medina on bass, and Jorge Pinchevsky on violin. This guy is outstanding, don't miss this!! TRACKS: Todo Es Rock, Spirtrepus, Polvo He De Sacudir, Una Manera De Llegar, Algo Esta Por Suceder, Creciendo En Espiral, and Colgado De Las Nubes. BONUS TRACKS: Se Ama O No Se Ama, Nos Encontraremos En Alguna Parte, and La Palida Ciudad.				
DICE CD - 1979-1993	1979-9	Scene Records / GER S.R. 4601-3	neo-Prog. GER	9,90 €
The roots of cosmic rock veterans DICE go back to 1974, and this CD first and foremost presents the band's 1979 debut album, a highly praised rarity still recorded in Hamburg with the help of some well-known musicians from the German rock scene, e.g. Alto Pappert (Kraan), Ellen Meyer (ex-singer of Tomorrow's Gift) and George Kuchbeck (Joachim Kühn). Artistically, spheres as different as rythm'n'blues with slight jazz- rock influences and progressive wave experiments were touched. The whole thing is held together very convincingly however by the guitar work laid down by DICE-boss Christian NÓVÉ, and with its 8 added bonus tracks "DICE 79-93" gives both fans and newcomers a very good impression of what musical refinement the band has accomplished in 28 years. Die Cosmic-Rock-Band DICE besteht bereits seit 1974. Die CD präsentiert zunächst den längst in den Raritätenhimmel aufgestiegene LP-Erstling, welcher 1979 - damals noch in Hamburg - zusammen mit recht prominenten Szenemusikern eingespielt wurde. Dazu gehören Alto Pappert (Kraan), Ellen Meyer (ex-Sängerin von Tomorrow's Gift) und George Kuchbeck (Joachim Kühn). Künstlerisch bewegt sich das Ganze in unterschiedlichen Gefilden - angefangen von Rythm'n'Blues- und leichten Jazz-Rock-Einflüssen bis hin zu progressiven Wave-Experimenten. Als musikalische Klammer überzeugt dabei besonders die Gitarrenarbeit von DICE-Chef Christian NÓVÉ. Mit weiteren 8 Bonus Titeln verschafft DICE 79-93 Einsteigern und Fans einen guten Überblick über das, was die Band in 28 Jahren an musikalischen Feinheiten zuwege gebracht hat.				
DICE CD - Rauhe Konzerte	1983	Scene Records / GER S.R. 4612-3	neo-Prog. GER	9,90 €
This live concert has already been published before in 1983 and has to be viewed as a reissue that could also have made it into the Second Battle catalogue due to its rarity status. Especially as the vinyl original was released as a strictly limited picture disc much sought after by collectors willing to pay considerable amounts of money! But as DICE does in no way represent an example of the died out species of rock monsters and has stayed very active until this day, we decided to place this release in the Early Birds section. What you can listen to is a very convincing cross-section of the band's live set as it was back then. Dieses Live-Konzert wurde bereits 1983 veröffentlicht und ist ein Reissue, das aufgrund seines Raritätenstatus vielleicht ebensogut ins Second Battle-Programm gepasst hätte - zumal das Original einst als streng limitierte Picture-LP erschien, für die im Sammlermarkt heute beachtliche Preise erzielt werden. Da DICE aber nun mal nicht zu den ausgestorbenen Rockmonstern zählen, sondern bis heute quietschlembendig und aktiv geblieben sind, haben wir auch diese CD-Veröffentlichung lieber hier platziert. Zu hören gibt es einen überzeugend guten Querschnitt des damaligen Bühnenrepertoires.				
DICE CD - Nightmare	1994-9	Scene Records / GER S.R. 4604-3	neo-Prog. GER	9,90 €
After many years without record output the 1997 version of the band moved further into the direction of space rock. Time and again Pink Floyd-like guitar licks manage to break through solidly built walls of sound on their meandering ways while mastermind Christian NÓVÉ accompanies this sound with his slightly Bornemann-like vocals - which is meant as a compliment, of course! On "Nightmare", the band has finally succeeded in taking its progressive potential into a state of maturity never reached before. Receptive listeners can encounter musical dream worlds which almost seemed lost and still offer many newly entered fields to explore. Nach vielen Jahren ohne Tonträger-Output geht die 97er Ausgabe von DICE weiter in Richtung Space-Rock. Pinkfloydeske Gitarrenläufe bahnen sich auf verwinkelten Wegen durch die dicht verwobenen Soundteppiche. Dazu singt Mastermind Christian Nové in leicht Bornemannscher Manier, was auf keinen Fall als Kritik verstanden werden soll. Im Gegenteil - auf "Nightmare" gelingt es, das progressive Potential mehr denn je zur Reife zu bringen. Aufgeschlossene Hörer können in längst verschollen geglaubte musikalische Traumwelten eindringen, in denen es viel Aufregendes zu entdecken gibt.

DICE CD - Space Rock Live	1997	Scene Records / GER S.R. 4607-3	neo-Prog. GER	9,90 €
On this album, DICE show they are a perfect live act whose ensemble playing is immaculate. What could prove this better than the following entry in the "Lexikon der deutschen Live-Szene" ("Encyclopedia of the German Live Circuit", Charly Wilfer, published 2000 at Schwazkopf & Schwarzkopf, Berlin): "DICE themselves call their style space rock, which is represented without any overdubs on the 1998 CD "Space Rock Live", recorded in 1997 at a concert at the Moritzbastei in Leipzig. The press release mentions influences by LED ZEPPELIN and PINK FLOYD, while the author was immediately reminded of the GRATEFUL DEAD. Be that as it may, this is timeless rock in any case." Auf diesem Album zeigen DICE, dass sie eine perfekt eingespielte Live-Band sind. Wer könnte das besser bestätigen als das "Lexikon der deutschen Live-Szene (Charly Wilfer, erschienen 2000 im Verlag Schwazkopf & Schwarzkopf, Berlin)?" Hierzu die Pressestimme: "Dice selbst nennen ihren Stil Space-Rock. Dieser erklang dann ohne Overdubs auf der 98er CD "Space Rock Live", die 1997 bei einem Konzert in der Leipziger Moritzbastei mitgeschnitten wurde. Das Presseinfo entdeckte in der Musik Anleihen von LED ZEPPELIN und PINK FLOYD. Dem Autor fielen bei Hören spontan GRATEFUL DEAD ein. Wie auch immer, auf alle Fälle handelte es sich um zeitlosen Rock."				
DICE CD - Silvermoon	1999	Scene Records / GER S.R. 4610-3	neo-Prog. GER	9,90 €
This release represents a concept album with more than just a touch of science fiction. On this far out space rock trip Christian NÓVÉ and his band move from the "Mother of Time" on to the "Silver Moon", finally landing on a "Skyline World". This prog-rock feast with its almost sixty minutes of length shows the band at its best, sometimes with influences of PINK FLOYD, MARILLION and even late TALK TALK (who on their last albums had said a definite goodbye to chart-pop). And all of the time the music represents a never-drying fountain of delighting melodies and rousing guitar solos. People who appreciate real Krautrock-vocals as well, will soon be calling this album a sheer masterpiece of its genre. Mit diesem Werk liefern DICE ein Konzeptalbum im Science-Fiction Gewand ab. Auf dem bisweilen sehr spacerockigen Trip spielen sich Christian NÓVÉ und seine Band durch die "Mother of Time" vom "Silver Moon" zur "Skyline World". Ein fast sechzigminütiges Progrockspektakel, bei dem man Einflüsse von PINK FLOYD, MARILLION oder sogar den späten TALK TALK hört, die sich zuletzt völlig vom Chart-Pop verabschiedet hatten. Dennoch sprudeln stets wohlthuende Melodien und mitreißende Gitarrensolis aus der Musik. Wer obendrein auch etwas für echten Krautrock-Gesang übrig hat, wird das Album schon bald als ein kleines Meisterwerk seines Genres zu schätzen wissen.

The wait is over: German art rockers DICE have completed their sixth album! And again listeners can look forward to space rock at its best. This time DICE offer 13 tracks, six of which are first-rate classic rock songs. These in turn are linked with some shorter pieces adding elements from electronic and ambient music to the typical DICE sound of varied and well conceived melodies. A convincing concept! Endlich: Das sechste Album von DICE! Und wieder erwartet den Hörer auf Dreamland Spacerock vom Feinsten. Diesmal verteilt auf insgesamt 13 Tracks, sechs davon lupenreine Rocksongs, die jeweils mit kürzeren Stücken verbunden sind. Dabei wird die gewohnt abwechslungsreiche, durchdachte Musik sogar ab und an mit Elementen aus dem Electronic- und Ambient-Bereich durchsetzt. Überzeugendes Konzept - genial!				
DICE CD - In Space	2001	Scene Records / GER S.R. 4616-3	neo-Prog. GER	12,90 €
"The German Progressive Rockband DICE has been making music ever since the mid 70s. Musically the calmer progressive rock of DICE sounds very good and quite melodic. Songs like 'What Is Wrong With Me?', 'Three Dreams', 'No Return' and 'Hold On' are good calmer progressive rocksongs with a lot of good harmonic melodic vocals. Although you might compare them to 70s PINK FLOYD or a JADIS, DICE has a sound of their own that can impossibly be compared to any other band. For instance the song 'New Things In Space' which has a playing time of 17 minutes is a piece of instrumental space progressive pop/rock that has a pure sound of its own. Still the band is at their best on the songs 'What Is Wrong With Me?' and 'No return', the Progressive rocksongs." "Das Intro ist eine gute Minute lang, gewaltig, exzentrisch, etwas kitschig, ein fast unverträgliches Zeichen dafür, daß es sich hier um Prog-Rock handelt. Aber das ist bei einer DICE-Platte ja ohnehin klar... DICE bleiben sich auch auf der siebten Scheibe treu. Ohne Eile experimentiert das Quintett mit eingängigen Synthi-Melodien und komplexeren Rhythmen. Fast harmoniesüchtig spüren sie sphärischen Klängen nach. Bombastische Gitarren fehlen fast nie." DICE CD - Time in eleven pictures	2004	Scene Records / GER S.R. 4621-3	neo-Prog. GER	12,90 €
Das 11. der erhältlichen Dice-Alben (plus 1 DVD), das 8. Studio-Album dieses Katalogs und das 7. Studio-Album seit dem Comeback der altgedienten ostdeutschen Prog-Band im Jahr 1997. Der relaxte Spacerock der Band ruht hier wie auf Waterworld auf einer soliden Bluesrock-Basis mit gelegentlichen Neoprog-Anklängen. Der Vergleich mit Pink Floyd ergibt sich nicht dadurch, dass die Band wie Floyd klingen würde, sondern einfach durch die Gesamtstimmung der Musik, die die Band um Mastermind Christian Nové sehr eigenständig gestaltet. Der Spacerock der Band ist dabei nicht so heftig wie etwa bei Hawkwind, sondern eher weich. Der Sound wirkt nicht neu, sondern ist stark in den 70-ern verhaftet. Aber durch das melodische Zusammenspiel von Gitarre und Keyboards in immer neuen Variationen in den teilweise ausladenden Stücken kommt nie Langeweile auf. Die Melodien sind eingängig, aber wirken nie mainstreamig. Der insgesamt relaxte Grundton des Albums wird durch einige verspielte Passagen z.B. in Time Machine (viktorianisch!) oder Time is always ending gelungen angereichert. Auch Reggae-Einschübe wie bei Time-Game bereichern den Sound der Band. Das Time Machine outro beendet das durchgängig gelungene Album mit einer Art Space-Samba. Dice haben ihren Stil weiter verfeinert und abgerundet. Das reifste Album der Band bislang. (Auszug aus „babyblaue Progressive-Seiten“).

DOC THOMAS GROUP CD - Italian Job / Shotguneyes From the very tangled tree of about a dozen '60s bands that fed into the eventual formation of Mott the Hoople, the Doc Thomas Group were one of the most important, chiefly because they actually released an album. Future Hoople guitarist Mick Ralphs and bassist Pete Watts were both on board when the group recorded their sole LP (released only in Italy, where they were based for a time) in late 1966. Future Mott drummer Dale Griffin (aka Buffin) joined the band in the spring of 1967, although he doesn't appear on the album, which featured Stan Tippins as lead singer. The self-titled LP consisted entirely of R&B/soul covers, executed derivatively and just about competently, in the style of mod bands of the period such as the Small Faces. The Doc Thomas Group struggled on until 1968, changing their name to Silence with the addition of organist Terry (soon to become Verden) Allen; from that point, it was only a matter of recruiting Ian Hunter to replace Tippins to create Mott the Hoople in 1969. The extremely rare Doc Thomas Group album was reissued on CD in 1998, on a disc that also included a Silence "reunion" session recorded in 1990.	1966-9	Angel Air / UK SJPCD 020	Rock UK	12,90 €

Dogfeet were formed in the late sixty's as a heavy blues band, but after bagging a record deal, changed to a sound considered more "commercial". Their 1970's LP is a highly unusual beast, with subdued dual guitar, echoing vocals and atmospheric percussion and bass.... Sometimes reminiscent of early Fleetwood Mac. Their second single was to have been "Mr Sunshine", a cover of the legendary psychedelic track - but was withdrawn. A recent incarnation of Dogfeet perform a blistering rendition of Mr Sunshine on this CD.				
DOM CD - EDGE OF TIME	1971	Second Battle / GER SB 063	Folk Psych Prog GER	15,00 €
German trip album from 1970 by a bunch of freaks who had obviously been experimenting with powerful hallucinogenic drugs. This psychedelic journey carries you on waves of flute, acoustic instruments and pulsating organ/bass/percussion in a laid back voyage into space. The twisted choral church-styled organ, Pink Floyd like textures and surreal poetry at the end of the album is truly mind melting. A strange, spacious and innovative album fusing rock, folk, ethnic and the avant garde musics most uniquely, Edge of Time is perhaps one of those great albums that is extremely difficult to describe. It ranges from atmospheric Yahta Sidhra realms via electro-acoustic collages onto the chaotic psychedelic underground of Amon Düül. Wahnsinnsrares Krautrock-Trip-Album von 1970, das als Mix aus ethnischen Folk und sphärischem Sound-Psych mit prä-elektronischen Phantasmagorien wohl kaum Wünsche offen lässt. Dennoch: Was DOM ausmacht, kann in Worten wohl kaum erklärt werden. Und jeglicher Vergleich zu anderen zeitgenössischen Klangbildern geht daneben, da dieser Musikgeist, für den es keine Schubladen zu geben scheint, nur wieder banal in Schubladen gepackt würde. Wer offen ist für eigenwillige Botschaften aus dem Hippie-Zeitalter und auch noch so unberechenbare Klangwogen gerne über sich ergehen lässt, wird berauschende Momente zuhauf entdecken. Allen Langzeit-Jägern und -Sammlern sei gesagt, dass diese brilliant klingende und erstmalig offizielle CD-Veröffentlichung des Originals im Digi-Pak - mit 5 unveröffentlichten Bonus-Tracks und vielen unbekannten Fotos - jedes Bootleg von Dom ruckzuck der Sammlung verweisen wird.

DRAGONWYCK CD - DRAGONWYCK	1970	World In Sound / GER WIS 1023	60's Psych Rock USA	18,50 €
This CD-release is the first of a WIS - Dragonwyck trilogy. The group from Cleveland (OH) was one of the most promising bands in that area, opened shows for bands as Foghat, Golden Earring, Edgar Winter Group etc. The mood of the music is dark, mystic and strong influenced of the times' spirit, the hippie age....."anything goes"! - Shortly after highschool in 1970, the 5 guys recorded 7 tracks, released a test pressing on Pama Records in an edition of only 85 copies. It was reissued in the 1990's by Rockadelic Records as limited edition on LP and CD, since then this band is a milestone for all heavy/psychedelic music collectors. Jim Morrison and The Doors brought main inspiration to Dragonwyck's music, with the small difference; the songs are heavier and more progressive; the sound is not just dominated by great vocals, there are lots of freaked out heavy guitar solos and swirling Hammond B3 organ, which brings the individual note to the music. The core of musicians started as Sunrise in 1968 and released one 45 record. This CD is from the mastertape which seemed to be lost, contains 5 bonus tracks (3 unreleased), a bio, cool original artwork and photos. Comes in a high quality digipack cover (same material as the Mystic Siva CD) with an extra 8 page booklet. A true masterpiece!

Stunning 1976 UK electric folk rock album featuring both Barry and Robin dransfields and their short lived electric band. Easily on a par with Fairport and other UK folk rock acts in the same era, the brothers are accompanied by electric fuzz guitar drums and bass. Their beautiful, mysterious rustic harmonies blend together with Barry's excellent violin playing to create a masterpiece of '70's UK folk rock. The Fiddler's Dream is a collection of tales from a fictitious traveling fiddler, and the album is often considered a solo effort by Barry. Features a bonus disc with 13 tracks from BBC sessions and sleeve notes from Robin Dransfield.				
DRANSFIELD, Barry CD - Barry DRANSFIELD	1972	Spinney / UK SPINNEY 003 CD	Folk UK	17,50 €
Barry is an English folk fiddler & singer extraordinaire from North Yorkshire who was a leading light in the folk scene from the 70s onwards. He first came to prominence with the albums "The Rout Of The Blues" (1970 – Melody Maker Folk Album Of The Year) and "Lord Of All I Behold" (1971) recorded with his brother Robin and released on the outstanding folk label Trailer (set up by ex-Transatlantic engineer Bill Leader). Such was the success & influence garnered by these albums that a huge deal with Warner Bros was signed and their future looked secure until Barry had other thoughts & left his brother. The "big time", it seems, was not for him. Warner Bros subsequently tore up the contract and so he made his first eponymous solo recording for Folk Mill/Polydor in 1972 that is now released by Spinney on CD (and limited LP-500) for the first time. This album was described by "The Tapestry Of Delights" as "Along with Vashti Bunyan's "Just Another Diamond Day" (also available on Spinney – SPINNEY001CD) this debut solo album, full of beautiful and enchanting folk, is one of the two most sought-after major label folk albums". And by Record Hunter as "the rarest folk album". The songs on the album range from the traditional via music hall to contemporary but all share a similar spirit. It is this which makes the album such a long-lost classic. By this time, Barry had already instigated & appeared on the "Morris On" album for Island Records in the same year along with Ashley Hutchings, Richard Thompson, John Kirkpatrick & Shirley Collins among others and went on to record "The Fiddler's Dream" album with the band Dransfield which also included his brother for Transatlantic before completing three more solo albums and much television work (Mutiny On The Bounty, SOS Titanic, Samson & Delilah). Barry now restores violins in West Sussex but will be touring in the Spring 2003.

DREAMS CD - DREAMS Early fusion ensemble, perhaps more notable more for who was in it rather than for the music itself. The line-up on the earlier album was Billy Cobham, drums; John Abercrombie, lead guitar; Michael Brecker, sax and flute; Randy Brecker, trumpet and flugelhorn; Jeff Kent, keyboards, guitar and vocals; Doug Lubahn, bass and vocals; Barry Rogers, trombone and tuba; and, Edward Vernon, lead vocals. Side one consists mainly of jazzish/rockish pop songs, okay if you like that sort of thing, but there's nothing memorable there except for Abercrombie's solo in "Devil Lady." If side one was aimed at AM radio, side two was intended for the FM dial. It consists of the three-part "Dreams Suite" and "New York." The music here is indeed a fusion of rock and jazz, energetic and imaginative, and it is well worth listening to if you should come across the album. After some personnel changes, they released a second album, Imagine My Surprise, which I heard once many years ago and found disappointing. It may be better than I remember, but even so I doubt that it's anywhere near as good as much what the various members have done since then. -- Don McClane	1970	Scorpio Music / US A 28334	Jazz Rock USA	12,90 €

EARTHLING SOCIETY CD - albion Impressive debut from this Lancashire, UK based underground band. This album is a mind-bending spaced out psychedelic/ spacerock experience with an unmistakable dose of west coast psychedelia and patches of acid-drenched folk. The long tracks give enough time and space to enfold their improvisational psychedelic moods and mind-bending soundscapes with spacey distorted guitars and keyboards, pumping and sometimes really funky rhythm section and haunted vocals. " ALBION sounds like all my favourite music without the kack bits that annoy me. And it's current, too. And I dig it especially because it's psychedelic rather than just psychedelically styled ... Earthling Society is, in other words, pretty damn cool. " [Julian Cope] digipack + booklet, 500 copies, ltd.	2005	Nasoni / GER NR 041 CD	Psych Rock UK	15,00 €

A milestone in the birth of "progressive" rock, East of Eden's debut album, "Mercator Projected" has been cited by MOJO magazine as a minor masterpiece. Released on the legendary Deram label in 1969, the album established East of Eden as a major act, particularly in France, where the band had several Top Ten singles and major album success. An imaginative fusion of jazz, psychedelia and world music, "Mercator Projected" has now been remastered from the original master tapes and features twenty minutes of bonus material, including previously unreleased extended demo versions of "Waterways" and "In The Stable of the Sphinx" and East of Eden's take on The Byrds' classic "Eight Miles High". All original artwork has been restored and the booklet features an extensive essay with interviews and many unseen photographs.				
EAST OF EDEN CD - Snafu	1970	Eclectic Music / UK ECLCD 1013	Psych Prog Rock UK	19,00 €
East of Eden's second album, "Snafu" was originally released in 1970 by Deram Records and saw the band take their particular fusion of jazz, psychedelia, world music and even blue beat, one step further. As ever, the instrumental prowess of Dave Arbus on violin dominated the music, leading eventually to Arbus playing the infamous violin solo on "Baba O'Reilly" by The Who. "Snafu" was the result of many months in the studio, where a second album had been virtually completed before being shelved in favour of starting work on a fresh project. The Eclectic Discs reissue has been remastered from the original master tapes and features many unreleased bonus tracks, including five previously unreleased tracks from the aborted album sessions and alternate demo and single versions of their 1971 hit, "Jig-A-Jig". An extensive essay features interviews and previously unseen photographs.

Village Voice critic Robert Christgau wrote "Tight, melodic music that thrives somewhere in an uncharted region triangulated by rock, pop, and jazz. Beautifully engineered, too." EGG CD - EGG The now legendary debut album by Egg is finally available on CD for the first time in the UK for over ten years. Egg featured the talents of Dave Stewart on Keyboards, Mont Campbell on Bass and Clive Brooks on Drums and were associated with the so-called "Canterbury" style of rock music pioneered by artists such as Caravan and Soft Machine. The trio produced music of startling originality and energy, drawing on influences ranging from rock to jazz to psychedelia to classical. This fusion resulted in one of the most enduring releases to appear on Decca's short lived Nova imprint and is now critically regarded as one of the more unique albums of the early 1970's. Remastered from the original tapes, the Eclectic Discs reissue includes three bonus tracks, including both sides of the bands only single and "Movement 3" from the albums notorious opus "Symphony No. 2", now restored in its rightful place in this extended composition.	1970	Eclectic Music / UK ECLCD 1014	Psych Prog Rock UK	14,90 €

Eggs Over Easy CD - Good 'n' Cheap. Very scarce CD re-issue of 1972 album originally on A&M from these US pub rockers, relocated to the UK from 1970 onwards at the behest of Chas Chandler. Housed in a mini card sleeve with insert as per the original LP. This band band pretty much kickstarted the entire pub rock movement of the early '70s -- not just by sketching out the initial circuit of pubs throughout England, but by developing the signature blend of laid-back country-rock and straight-ahead, driving rock & roll that served as the template for the entire shebang. This album, however, was recorded as that time was coming to an end and they were being forced to return home- the result being that they split some time afterwards- but its songs (cherry picked, according to their close friend Brinsley Schwarz, from over 100 in their repertoire) sound far from downhearted. Very similar at times to Brinsley Schwarz, Clover (another band of expat Yanks), Ace & Mickey Jupp's Legend, this album was immaculately produced (and we do mean immaculately) by the late great Link Wray. Standout tracks include 'Face Down In The Meadow' 'Henry Morgan' and 'Song Is Born Of Riff And Tongue' but there are four very tasty bonus tracks to contend with (not listed on the sleeve, including a cover of 'Drink Myself To Death'). Very good indeed and worthy of repeated listens.	1972	HUX / UK HUX 006	Rock UK	16,90 €

ELECTRIC BOYS CD - Grovus maximus 3rd album from '92, and another funky metal release with Conny Bloom on excellent hardrock guitars. ELECTRIC BOYS CD - Freewheelin' 4th and final album by Swedish hardrockers. ELECTRIC FLAG CD - A Long Time Comin' Digi pack Cd version of the 1968 album from Mike Bloomfield's blues/jazz rockers which he formed after he was in Paul Butterfield Blues Band in 1967. Forming a band that combined blues, rock, soul, psychedelia, and jazz into something new this ambitious concept is displayed on this release with stunning drumming from Buddy Miles. Bloomfield knew for sure that he wanted a horn section in the band, which only add's to the power of the album. A classic 60's psychedelic sleeve as well. ELECTRIC PRUNES CD - CALIFORNIA The Electric Prunes return with copious amounts of their trademark fuzz 'n' feedback on their latest release, California (PruneTwang Music – 2004). These 13 tremolo-filled tracks take you on a trip with sonic stops that cover the spectrum of sounds that were borne on the West Coast in the sixties. The Electric Prunes have always been a California band. Screaming out of the late 60's their pulsating music captured the hope and angst of a drifting generation. Well the drifting is back, and so are the Electric Prunes! Perhaps to the rescue! From the minute you "come flying", as the lyric suggests on the introduction, this seminal band delivers the goods. 13 surprising new flame-laden psych tracks melt your speakers with "Prune" trademark fuzz, twang, tremolo and mayhem. For those that thought the 60's were over.....hang onto your wah wah! Not some rehash or recreation of a time past, this is the real thing played as only the "real people" can play it. The "California" of the 60's is found at the end of some gloriously simple songs, memorable riffs and a sense that each track is actually taking place in some cosmic vortex of a past time. This record sounds just like 1967! Legendary Moby Grapeist Peter Lewis joins the band for some vintage 60's guitar work on "Rickenbacker 12 String", an ode to that very special "California made" 12 string guitar. California mixes some cool Rudi Protrudi abstract guitar artwork on the cover, with a range of images from a touring musician losing his pants in France (49 SONGS), to a guy that can't leave his flipped out girlfriend because he just tattooed her name on his bum (Rosy made me crazy). Face it, all pertinent topics. "California" is Escapist Surfing, the Hollywood Movie Business, Famous Friends, even an ass kicking Tidal Wave. This CD leaves no doubt in what is left of anyone's mind that the Electric Prunes were, and are, anchors for a drifting generation. Man the lifeboats!	2004	PruneTwang / US PT 8-69697-0	Psych Rock USA	17,90 €

ELLIE POP CD - ELLIE POP eponymous 1968 Mainstream label album is definitely a pop/psychedelic classic-in-waiting, whose time has perhaps finally come; great songs right from the start, all oozing Beatles harmonics, with tracks such as 'Some Time Ago' and 'Caught In the Rain' especially thick with Beatles influence (thus explaining their appearance on the "Pepperisms" compilation); as with most Mainstream releases, there is precious little information on the band in the original LP notes, besides the fact that they were a quartet, with brothers S. and R. Dunn responsible for writing all tracks; this is really a wonderful set of catchy and commercial songs, not exactly psychedelic (but then, is Growing Concern psychedelic?), with an innovative edge—distorted guitars and odd time signatures—that makes every song worth hearing. Naturally the album vanished without a trace upon original release, followed soon by the band. Liner notes feature a few words from the band's guitarist, as well as some gig listings alongside some Michigan heavy-weights, leading one to think that the band were from that state. To our ears this reissue is simply too good to be ignored.	1968	World Psychedelic / K WPC6 8489	Psych Folk USA	17,00 €

ELLINGTON, Marc CD - Rains / Reins Of Changes English '70's singer songwriter who lived in the UK and released 5 albums sadly without much commercial success. This one from 1971 mixes country, bluegrass, folk and occasional touches of outrageous rocking to generally excellent result. The guest musicians include Sneaky Pete, Dave Mattocks, Ian Mathews, & Chris Hillman and the overall sound is in places very much in the '70's folk rock mould particularly on the excellent version of the folk standard "Yarrow".	1971	Talking Elephant / UK TECD 066	Folk Rock UK	12,90 €
ELLIOTT, Ron CD - CANDLESTICKMAKER Reissue on CD taken from original masters of the one and only solo album by BEAU BRUMMELS lead vocalist. A classic peacy from the late 60's. Featuring FLYING BURRITO member Chris Ethridge, jazzman Bud Shank and RY COORDER. Delving deeper into the rootsy, reflective vein of Beau Brummels. The album sunk as a stone when it was released, but as the most single ambitious effort by one of the most underrated 60s songwriters, it's essential listening	1970	Collectors Choice / US CCM 363-2	Rock Folk USA	12,90 €
ELLIS, Dave - (JAP) CD - Album Dave Ellis started playing guitar at the age of 14 and began his career in folk clubs around the Liverpool area. Bert Jansch's first album was Dave's main influence and eventually he headed for London in 1970. Here he made a name for himself amongst the second generation of demon acoustic guitarists - Gordon Giltrap, John Martyn, Keith Christmas etc. In 1974 he released a solo album, which gave him national exposure on the Whistle Test and In Concert. Folk club gigs then changed into college gigs, plus venues such as the Marquee or Roundhouse. Dave also found himself supporting such unlikely acts as the Edgar Broughton Band at the Rainbow, or Rod Stewart at Reading Festival. Limited remastered paper sleeve edition - looking exactly like the original sleeve plus insert and OBI.	1974	Airmail Recordings / J AIRAC-1036	Folk UK	29,00 €

ELONKORJUU CD - Harvest Time First time official release. Elonkorjuu came from Pori, Finland and was founded in 1969. At first the sessions were done in a rather dark cellar; the musicians were young, talented and highly motivated. Already in the same year Elonkorjuu won the second place at a competition at Helsinki's House of Culture. Short time after this the band's success grew very fast. They toured through whole of Finland and quickly were very well known. One of the band's highlights was the gig at the rock festival in Turku, where they did act big ahead of hundred thousands youths, who went wild about the phantastic band. At the end of the same year they decided to make an LP, titled "Harvest Time"; unfortunately this already was the only LP ever done by Elonkorjuu. The band outperformed by the compositorial qualities as well as by the professional instrumental playing, which was signed by a great effortlessness. Its album received cult status amongst progressive rock collectors. The spectrum reaches from real hardrock as in "Unfeeling" and "A Little Rock Song" to more sentimental sounds as in "Swords" or "Praise To Our Basement".	1972	EMI / EU EMI 724354086823	Prog. Featuring a core line-up of Mal Waldron (electric piano), Jimi Jackson (mellotron, organ), Dave King (bass), Christian Burchard (marimba, vibes), Edgar Hoffmann (violin) & Roman Bunka (guitar) -- this ventures into a similar brand of exotic "psychedelic fusion" as Rocksession, with long, streaming instrumental tracks. ERIK CD - Look Where I am Reissue of the solo album by this unknown hippy folk singer. Originally released on Vanguard in 1968. Featuring 11 tracks, covering the full range of psych/acid folk. From the strong opening track with flue, vibes, horns and bells to the voice/guitar of "Why come another day" to heavy fuzz guitar. "Lights across the fields" even features a long, soulful, Miles Davis-like trumpet passgae. The album has a dreamy Donovan-like feel with tons of acoustic guitar and ethereal flutes. EVERPRESENT FULLNESS CD - Fine & Dandy First time ever on CD for this legendary 'lost band' who were pitched between the Poor, Turtles, Buffalo Springfield with that poppy edge that should have brought a dozen hits. Features the early songwriting talents of Warren Zevon and Paul Williams this album was to be released by the White Whale label in 1966 but got lost as the band fell apart due to the usual 60's contracts, drugs, women scenes etc. Beautiful West Coast pop.	1966	REV-OLA / UK CR REV 039	Rock Country USA	14,50 €
EVOLUTION CD - EVOLUTION This Spain-established band (they came from Germany playing beat and R&B under the name of The Vampires in the mid-sixties) was one of the most interesting groups of its era. They blended soul music with progressive and jazz sounds, offering the listener loads of hammond grooves and psychedelic fuzz guitar. Their rare LP from 1970 is another one of the most sought-after records from Spain's rock heritage. The Wah Wah CD edition respects the bag-shaped sleeve of the original LP and features extensive information on the band, plus curious photos, memorabilia and 4 bonus tracks from a couple of 1971/1972 singles not on the original album.	1969	Wah Wah / E WCD 005	60's Psych GER	17,90 €
EXCEPTION CD - The Exceptional Exceptions Birmingham's Exceptions recorded a number of commercial hit singles and an LP in 1969, the exceptional (ahem!) talents of the individual members of the group should have determined their position in the hall of fame but alas it wasn't so, and its down to the inquisitive music lover to discover and fall in love with this hidden gem. Dave Pegg, influential member of the Uglys and the Ian Campbell Group, along with Fairport Convention and Fotheringay member Roger Hill and Buggy Eastwood together form this great and under heard band. This CD brings together 28 tracks from the psychedelic folk group including the scarce singles..	1969	Oxford / UK OX-CD TE 1026-03	Psych Folk UK	15,90 €
EXMAGMA CD - Same & Goldball Exmagma were a German trio who released two albums in 1973 & 74. A spacey mixture of jazzy rock and experimental exploration it's loaded with trippy effects, and electronic gadgets. Instrumental jazzy, progressive rock reminiscent of later Gong with plenty of freaky passages of expressive spacey music. Damn fine! EXTRADITION CD - HUSH CD issue of one and only album by the most fragile psych folk rock album (beside Vashti Bunyan) ever done. The rarest album from the Australian 70's. It was released before on Sweat Peach and it will tear you apart. Female and some male vocals, all electric instruments, effects, little weird things and songs (with some Canterbury sounds) that are just amazing. This CD version comes with 6 bonus LIVE tracks, recorded during the band's first public appearance at the Sydney folk festival in 1970.	1971	Vicious Sloth / AUS VSC 16	Folk Psych AUS	20,90 €
EXTREEM CD - From out of the sky (JAP) Issued for the very first time the shelved album by this PSYCHEDELIC/PROGRESSIVE band from West Midland, England who existed from 1966 to 1970. The 8 tracks of the album were recorded at the Decca studios in London and Zella studios in Birmingham and only 12 acetates of this album were pressed. The guitar sounds like ARCADIU and one the most impressive tracks on this album is the Hendrix influenced and wah-wah fuelled guitar monster 'From out Of The Sky'. Included on the CD are also the 2 single tracks officially released in the 60's on the STRIKE label. The band included member later to perform in BUDGIE (In For The Kill) and Steve Gibbons Band and has connections to the Al Atkins-are 'Judas Priest'. Cd comes with very informative and documented glossy inlay. A superb package!	1966-?	Birdman Records / JA BMRD 21001	60's Psych Prog. UK	29,00 €

Only a few months after Exuma's tremendous success with their eponymous debut album ('Exuma', also available on Repertoire REPUK 1006), charismatic singer Tony 'The Obeah Man' McKay and his band released their follow-up LP on the Mercury label. Based once again on intriguing Afro-American and Indian percussion and tribal chants, the seven-piece New York City based group landed another great album, that will now be available in the record stores for the first time on CD. A cult recording, like its predecessor, it will delight both rock and world music fans alike. Digipak release

Early prog crossover album from 1972 with some psyche influences. Produced by Teo Macero of Miles Davis fame. Creatively designed songs that show thoughtful experimentalism. The lead singer claims he hits the highest note ever recorded by a man on a rock rwecond. believe it or not, the girly sounding vocals work well in this context. An interesting album that rewards a few close listening sessions.

Reissue of this 1968 psychedelic album. Comparisons to "Sgt. Peppers" have been made for its use of sound effects and orchestrated arrangements. FAITHFUL BREATH CD - Fading Beauty	1973	Garden Of Delights / G GOD CD 112	Prog. Rock GER	16,00 €
Faithful Breath are well-known as an 80's hard-rock band, but in their early years they played symphonic rock (like Epidaurus, also from Bochum); with mellotron and 12-string guitar. Their debut, "Fading beauty" from 1974, had two long tracks of more than 20 minutes each. Especially "Tharsis" is their masterpiece. There already was a CD release on The Laser's Edge but the edition on Garden of Delights has a booklet full of photographs, a long band story, detailed discography, cover and label repros etc. Taken from the master tapes.				
FAITHFUL, Marianne CD - COME MY WAY	1965	Lilith Records / Italy LR 104	60's Pop Folk UK	16,50 €
In 1965 Marianne Faithful released two debut albums simultaneously, a self-titled pop album and an album called Come My Way comprised somewhat unexpectedly of folk tunes. While the first album generally reaffirmed her persona as she-devil and soulless poster child of that hedonistic generation, the latter gave listeners a fleeting glimpse of a hidden darker side, perhaps an unintentional foretelling of those black days that would soon follow. This reissue, available briefly in the UK and Japan, features four bonus tracks: her classic 1969 single "Sister Morphine", released prior to the Rolling Stones' version, the 1964 B-side "Blowin' in the Wind", "Et Maintenant," from a 1965 EP and the 1966 B-side "That's Right Baby".

Fronted by the manic but prolific vocalist ROGER CHAPMAN, Family were one of the most popular bands on the UK and European gig and festival circuit where their particular brand of "progressive art rock", backed by Chapman's on stage antics and a brilliant band excited audiences everywhere. FAMILY CD - Bandstand From 1972 comes this now completely re-vamped album from the outstanding UK rock outfit this album is more straight-ahead than its predecessor 'Fearless'. Featuring the hits "Burlesque" and "My Friend The Sun". Elsewhere, their original ideas continued to abound--"Bolero Babe," with its swirling violin, and the nostalgic "Coronation" showed that Chapman and Whitney had so much in store. Humour was much more prevalent in Family lyrics than any other band of this era, sometimes buried under the rock. FANNY - (4CD) CD - First Time In A Long Time: The Reprise Recordings	1969-7	RHINO HANDMADE / RHM2 7734	Rock USA	80,00 €
An all-girl rock band? Sure, what's the big deal? Well, prior to Fanny, it was a big deal. With few exceptions, "girl groups" didn't write their own material and play their own instruments. Signing to Reprise Records in 1969, Fanny became the first all-female group to record a full-length album for a major label. Sisters June and Jean Millington began rocking in Sacramento, California in the early '60s. In 1968, after years of touring the West Coast in the all-female The Svelts, the Millingtons assembled a new band, Wild Honey, and took to the stage with original songs and folk and Motown covers. A 1969 gig at The Troubadour club in Los Angeles brought Wild Honey to the attention of producer Richard Perry, who persuaded Warner's Mo Ostin to sign the band sight unseen. With Perry at the console and soon-to-be-permanent member Nicky Barclay on keyboards, the band now named Fanny recorded its eponymous debut in L.A. Released in December of 1970, the album combined textured, Beatle-esque pop with sweaty soul, beefy riffs, and proto-Riot Grrrl swagger. If women weren't supposed to rock with this level of chops and intensity, apparently nobody told Fanny. Their name might not be a household word, but if you want to know something of Fanny's influence, just ask The Runaways, The Go-Go's, or Hole. But don't listen to Fanny because they're a great female band. Listen to them because they're a great band. First In A Long Time is a four-CD boxed set containing Fanny's entire 1970-73 Reprise output, plus much more. The studio albums Fanny (1970), Charity Ball (1971), Fanny Hill (1972), and the Todd Rundgren-produced Mother's Pride (1973) have been remastered from original master tapes and are included in their entirety. Also included are exclusive songs from the highly sought-after Canadian version of Fanny, which was pressed from the wrong masters and issued in an initial run of a few thousand copies. Additional bonus tracks include Wild Honey demos from 1969, Reprise promo spots, informal "Kitchen Tapes" recordings, live tracks from 1972-73, and many outtakes and alternate versions. A special 52-page book includes an exclusive 2002 interview with June and Jean Millington and Alice de Buhr, plus rare photos and tributes by David Bowie, Bonnie Raitt, Jill Sobule, and others. An individually numbered limited edition of 5000 Copies. 4 Discs - 90 Tracks, 33 Previously Unreleased, 52-Page Booklet

Reissue on Cd of debut and only album by Miami band Fantasy. originally release on liberty in 1969. Strong West Coast influences rather in the direction of Big Brother then Jefferson Airplane, due to one helluva female vocalist (Ydia) screaming here lungs out. Some excellent searing guitars in a more hard-rocking way with more blues rather than folk influences. This CD version has 4 bonus tracks, 2 taken from non-lp single and 2 unreleased tracks recorded in 1970.

FANTASY FACTORY CD - PAINTINGS FROM INNER SPACE With their fifth regular release German based Fantasy Factory embrace the long forgotten concept-album. It is based on the paintings of the legendary Seventies surrealist Helmut Wenske, who did the covers of Nektar (Sounds Like This, A Tab In The Ocean, Remember The Future, Recycled), Steel Mill, Orange Peel or Dzyan for example. Alan Tepper composed the music for the pictures, which are depicted in an impressive gatefold sleeve. There are six songs where Fantasy Factory develop their authentic 70's psych-rock style (reminiscences range from Deep Purple to Jethro Tull) – you can hear lots of guitar work, expressive vocals, powerhouse drumming, rocking organ riffs and melodic flute-playing. The album comes in a high quality multi-foldopen Digipack sleeve.	2005	Ohrwaschl / GER OWR CD 011	neo-Psych Prog. GER	15,50 €

FARIA, Glenn CD - Glenn Faria First re-issue of this psychedelic/electric folk monster only issued as a promo in 1974 on the, by collectors well known "TIGER LILY" label and so Labelmate to the legendary "STONEWALL". Only one copy is known in collectors hands. Glenn is one of the best songwriters ever and when he starts to play the electric fuzz guitar together with his mindcreeping voice, then you will know why some call this one of the best five records anytime from anywhere in this genre. The song "LOVE IS CALLING" will take you to unexpected psych/folk heaven. The music was recorded in New York during 1970/71 after Glenn's departure from his psychedelic band the "HEADSTONE CIRCUS". There were two other great bands together in the studio with him, during the recording of his 1970 sessions, BOFFALONGO and OMNIBUS! The 3rd in the SWF-SESSIONS series. Recordings for South German Radio live in studio. The sessions took place in 1970 and 1971, by a band called FASHION PINK, made up by musicians who had experiences in many beat bands. Influences by contemporary musicians/bands like JETHRO TULL, CARAVAN, SOFT MACHINE, ZAPPA, HENDRIX, etc they created a varied and exciting PROGRESSIVE KRAUT ROCK style of their own. ANOTHER SUPRISE TO THE WORLD.				
FAT CD - FAT	1969	Radioactive / UK RRCD 138	60's Psych Rock USA	14,90 €
Reissue of extremely accomplished debut from this Massachusettes band. Following the eponymous album's success the band toured extensively as the opening act for the Allman Brothers. Fat's mix of east coast psychedelia, strongly influenced by Quicksilver Messenger Service etc. could have propelled the band into the big time but an unfortunate drug bust led RCA to cancel the follow up album. Over the years they toured with Grand Funk Railroad, Little Richard, Johnny Winter and Robin Trower but their success as a live band didn't translate into commercial success. This self titled effort is probably the finest of their recordings.				
FAT WATER CD - FAT WATER	1969	Radioactive / UK RRCD 140	60's Psych Rock USA	14,90 €
Group from Chicago, a mix of psychedelia and heavy rock, with good organ and guitars. Duo male/female vocals. The powerfull voice of their female singer who was obviously influenced by Janis Joplin. Musically the vocals are matched with acoustic guitars, a swirling organ gives a country feel flowing from boogie to blues.

The first and second album by German band Faust are perhaps their best. Released in 1971 and 1972 respectively they feature some of the weirdest music ever recorded. Mixing every possible musical style from pseudo psych through jazz, folk, rock, and electronic (plus genres that don't yet have a name yet!) these albums are both bewildering and mind blowing at the same time. File next to Kraftwerk, Can and Neu! as the originators of the German '70's sound. Landmarks!

FAY, Bill CD - Bill FAY	1967-7	Eclectic / UK ECLCD 1022	Folk Psych UK	19,00 €
Bill Fay is an enigmatic UK based singer, songwriter and pianist whose work is impossible to categorise. His late 60's early and 70's work has a strong cult following, and is highly regarded by many music journalists, and is dark and haunting with songs rarely going over 3 minutes. Bill was originally signed to Decca, and between 1967 and 1971 the label released a beautifully odd single ("Some Good Advice"/"Screams In The Ears") and two excellent albums (the lush orchestrated Bill Fay and the rawer Time Of The Last Persecution).). Bill's fantastic songs have touched and inspired many- his fans include country rockers Wilco, songwriter/producer Jim O'Rourke, Ben Chasny of Six Organs Of Admittance and David Michael of Current 93. He continues to record still. "Screams In the Ears" recently featured as the Film Four trailer music. Track Listing: "Bill Fay": Garden Song, The Sun Is Bored, We Want You To Stay, Narrow Way, We Have Laid Here, Sing Us One Your Songs May, Gentle Willie, Methane River, The Room, Goodnight Stan, Cannons Plain, Be Not So Fearful, Down To The Bridge. BONUS TRACKS: Some Good Advice, Screams in the Ears

FAY, Bill CD - FROM THE BOTTOM OF OLD GRANDFATHER.	1967-7	Wooden Hill / UK WHCD 012	60's Psych Pop UK	22,00 €
Recently described by Mojo as "Britain's pop Salinger", the reclusive Bill Fay cut the classic "Screams in the ears"/"Some good advice" single in 1967, before making 2 dark singer songwriter albums for Decca. This CD features 25 stunning demos and works-in-progress that were cut between 1967 and 1970. Apart from 3 tracks that were released on the vinyl only "Peter Eden" compilation, everything is previously unreleased. Among the highlights there are a few tracks on which he's backed by the HONEYBUS. Baroque 60s pop at it's finest coming with previously unpublished photos and extensive liner notes.

FEAR ITSELF CD - FEAR ITSELF	1969	World in Sound / GER WIS 1031	Psych Prog USA	16,50 €
The album was originally released in 1969 on Dot-Records but didnt receive too much attention - maybe it appeared as a "too" freaked out heavy version of Jefferson Airplane or Big Brother & the Holding Co. The group started back in Atlanta Georgia in 1967 as a quartet with 2 guitars and played true Psychedelic sound, recorded at the Record Plant in NYC, and moved to Woodstock (NY). Their 5 original tunes, 2 arrangements of traditional tunes and 3 others are electric heavy blues with a strong Hendrix feel with duelling guitarwork, an outstanding female voice/vocals/screams...lots of intense stereo effects. They performed at Woodstock Festival in 1968 (one year before...) and at the hottest locations of NYC as Filmore East. Ellen McIlwaine, the founder of the group made an international solo career as blues-singer and slide guitarist sharing the bill with Jimi Hendrix, Laura Nyro, Howlin' Wolf, Weather Report, Taj Mahal, George Thorogood, Tom Waits, Chicago, Bruce Springsteen and played a series of concerts with Johnny Winter. This release, is issued with stunning soundquality and includes a nice booklet with pictures and biographical background. - For all 60s collectors who are not familiar with this masterpiece - its a must - there a not many groups that were able to present the freewheelin' live on stage feeling on their studio album!				
FEATHER DA GAMBA CD - Like It Or Get Bent	1971	Beatball Records / KO BMRC 007	Psych Rock Hard USA	21,90 €
Ultra rare psych from the bayou (Louisiana), just a few hundred made way back then. Allman Brothers vibe at times if they were more psychy. Musically it is quite a varied album with songs like: 'The Armadillo', 'Surprise', and more. Somewhat of a Hickory Wind edge as well.				
FEDERAL DUCK CD - FEDERAL DUCK	1968	Radioactive / UK RRCD 160	60's Psych Rock Pop USA	14,90 €
Initially released on the Musicor label in 1968. Formed by banjo exponent George Stavis who produced also this lone musical effort. Once you get past the absurd cover what remains is a consistently good album, mildly jazzy and containing some fine bass and an ever present darkish vibe. There are some up-beat mold breaking songs but generally a soft psych feeling pervades throughout. An album deserving greater recognition than it has hitherto received.

FEVER TREE CD - SAN FRANCISCO GIRLS The great Houston, Texas band that had a slew of 45's, EP's and LPs out between 1967-1970. This collection contains ALL the original 10 tracks from their first self-titled LP on UNI + 5 previously UNRELEASED tracks. All material presented here was recorded between 1965-1968 and all are taken from the original mastertapes.	1965-6	Gear Fab / US GF-199	Psych Folk USA	14,90 €
FEVER TREE CD - FEVER TREE/ ANOTHER TIME, ANOTHER PLACE Though held in high esteem by 60s psych aficionados, this Houston band never met with much commercial success, only notching the #91 hit San Francisco Girls (Return of the Native) in 1968. But part of the reason for that is also the reason these albums, their first two and only essential releases, are so much fun to listen to; this was a band with big ambitions, working classical and jazz influences and unusual instrumentation into the rock format well before such a thing became commonplace, pointing the way towards the prog-rock movement to come. Weve added notes featuring quotes from multi-instrumentalist Rob Landes that set the scene. Includes Imitation Situation 1 (Toccata and Fugue)/Where Do You Go?; San Franciscan Girls (Return of the Native); Ninety-Nine and One-Half; Man Who Paints the Pictures; Filigree and Shadow; The Sun Also Rises; Day Tripper/We Can Work It Out; Nowadays Clancy Cant Even Sing; Unlock My Door; Come with Me (Rainsong); Man Who Paints the Pictures II; What Time Did You Say It Is in Salt Lake City?; Dont Come Crying to Me Girl; Fever; Grand Candy Young Sweet; Jokes are for Sad People; Ive Never Seen Evergreen; Peace of Mind, and Death Is the Dancer	1968	Collectors Choice / US CCM 709-2	60's Psych USA	15,50 €

FIFTH FLIGHT CD - Into Smoke Tree Village Century Records was a Californian custom record label which pressed ten of thousands of small-run records for schools, church groups and obscure local bands. This was one of those delightful garage/psych jewels that occasionally cropped up on the label. With its rustic mill cover this a garage psych album consisting mostly of covers, delivered with lashings of fuzz guitar and heavy, spooky organ. The stand-out track surely is the jaw droppingly awesome cover of Neil Young's "Sugar mountain".	197	Radioactive / UK RRCD 148	Psych Rock USA	14,90 €
FIFTH ORDER, The - Bonfire! CD - The Return Of ... Their 1966 garage classic Goin' Too Far b/w Walkin' Away was a tremendous regional success, at the time becoming the biggest selling seven-incher from Columbus, Ohio. Their second local hit, A Thousand Devils (Are Chasin' Me) b/w Today I Got A Letter, was picked up by Laurie for national release. These two records have long been recognized as sterling examples of Ohio's vibrant mid-60s garage rock scene. Break-A-Way now presents the first ever collection by this famous Ohio 60's teenband incl their two 45's, an incredible great third single release collectors were not aware of and a cache of unreleased recordings. While the ten track vinyl LP incl. the band's six single sides plus four unreleased studio recordings of exceptional quality, the CD release comes with the same tracks adding three more bonus cuts incl. two organ based demos of Walkin' Away and I Was A Fool plus a six minute 1967 TV appearance by the boys presenting a medley of Hit The Road Jack/SixteenTons. The vinyl version comes with a fantastic detailed insert incl loads of cool pics and the band's history told by former members Jim Hilditch and Billy Carroll. FIREBIRDS CD - Light My Fire A thoroughly intriguing (and engaging) album that appeared on the Crown label (CST 589) in 1969. Absolutely nothing is known about the band other than their albums have become highly sought-after for their over-the-top heavy psych-blues-rock mayhem that owes much to Hendrix, Iron Butterfly and Blue Cheer's Vincebus Eruptum. There's a loose, reoccurring fire-ish theme running throughout the album, starting with one of the hottest photos ever to grace an album cover - a stunning women in a red dress engulfed in flames...hot with a capitol H! Besides a number of "fire" tunes (including a great version of the Doors' Light My Fire), there's a little gem called Free Bass which features something you don't often hear on albums - a three-minute bass solo. Light My Fire, then, is another of those gold nuggets of psych that Radioactive is becoming renowned for. FIST CD - Round One Formed in 1977 by Ottawa-born Ron Chenier, the singer/guitarist recruited his younger brother John on drums, Ed Eagan on drums and Jeff Nystrom on bass and began honing their chops doing small clubs in and around the Toronto area. The band quickly graduated to the 'B circuit', touring the eastern-Canadian/US areas for the next year and a half. The group took their heavy approach to music into the studios and cut the independantly released ROUND ONE in the spring of '79. Raucous and raunchy, the band's sound was dominated by raw guitars with little studio-tampering. Produced by the Cheniers' brother Normand and done on the proverbial shoestring budget, the record failed to to gain the attention of radio execs. Held together by a tight drums/bass marriage, Eagan's keyboards rounded out what had become known live as one of Canada's most promising talents just the same. But with only a total of seven tracks, nothing from ROUND ONE was short enough to even be considered suitable for radio-play. Still, numbers like the lead-off "Too Late", The erie "Madness" and "Who Did You Love" showed the band's penchant for writing hard-driving, simple yet complex songs. Still, the album went unnoticed by the critics.	1979	Magada / CDN MAGHCD 008	Rock Hard USA	11,90 €

FIT & LIMO CD - The Serpent Unrolled	1998	September Gurls / GE SGCD 20	Folk Psych GER	15,00 €
3 years after Fit & Limo's last real album ("Autre Monde") the public is permitted another earful of their sound alchemy. Numerous well-known and strange instruments (new ones like church organ, Veeh harp and xylophone complement the usual F&L suspects such as violin, autoharp, sitar, mandolin, glockenspiel, piano, clay drums, bongos etc) pair up with nursery rhymes and cryptic messages. Beyond the "Traumtür" lies a medieval fairytale world of cranes and toads, basilisks and lions, spirals and stones, dew and cauldrons. A labyrinth of sounds, noises and harmonies unfolds. Fit & Limo playfully celebrate their unique mystic folk- incorporating elements of American acid/Middle Eastern/Celtic/British (Incredible String Band, Caedmon) folk- on the way to the 3rd millennium. Beside 12 originals "The Serpent Unrolled" contains 2 cover versions: Grateful Dead's "Dark Star" and "Images of April" by Tom Rapp/Pearls Before Swine.

We still hear their playfull exotic ACID-FOLK style they are know for, but this time more electric and enriched with pop-harmonies. thier songs expand into COSMIC folk and progressive space sounds, including a 21 minute hypnotising and mesmerising 'magnum opus' called 'GINNISTAN', a free improvisation session exploring the bounderies of their SUN RA influences and 70's KRAUT improvisations. GINNISTAN is a magic and phantastic dreamland.				
FIT & LIMO CD - TERRA INCOGNITA	2004	September Gurls / GE SGCD 31	Folk Psych GER	15,00 €
4th album for SG by Bavarian folk/psych/space/improv duo takes you on a voyage to an adventurous world of sound. Fit&Limo's trademark acid folk inspired by Incredible String Band and Pearls Before Swine is still there, but this time influences of the 70's progressive Krautfolk school are more present and the collaboration with other musicians adds new colours. The collaboration with Bernd Witthr, one half of legendary German 70's cosmic folk duo Witthr Westrup, almost marks a historic event, documented by a new version of their classic "Lasst uns auf die Reise gehn": the old Krautfolk school meets the folk adepts of the 21st century. The songs recorded with Miriam Goldberg & Jeffrey Alexander (from Providence, USA) veer towards psychedelic/mystic free folk and create a meditative, pastoral atmosphere. The collaboration with Timothy Renner (from Pennsylvania, USA) results in two fine tracks of gothic chamber folk, distinguished by Timothy's banjo and guitar play.

The LP+CD set is a limited edition of 318 copies. 5th release on September Gurls by adventurous psych folk duo from Altdorf, Bavaria is an LP+CD set featuring new songs, alternate takes and previously released (but unavailable in the respective formats) material. Tracklist of LP and CD is completely different. The LP contains a selected collection of pre-SG stuff (from "Angel Gopher" LP, Incredible String Band tribute EP, "Autre Monde" CD), focusing on their more psychedelic, song-orientated, British 60ies folk influenced face. An excellent psych/folk LP. The CD contains rare tracks from 7"es & compilations, an alternate take of the brilliant "Christian Alchemy" and 5 previously unreleased songs. The CD presents Fit & Limo's diversity and playfulness, encompassing US West Coast loner folk, wyrd folk, experimental, psychedelia, art. The CD includes cover versions of Tom Rapp and Syd Barrett songs and features Miriam Goldberg (Black Forest Black Sea) on cello on one track. Both LP and CD come in silkscreened sleeves.				
FITZGERALD, Gerry CD - Mouseproof	1970	Sunbeam / UK SBRCD 5016	Psych Folk Rock Jazz UK	16,95 €
One of the most unconventional albums ever recorded, this avant-garde psychedelic suite contains elements of folk, jazz, rock and electronica, but has a sound and atmosphere all of its own. Recorded in 1970, but barely released (despite the enthusiastic support of John Peel), original copies now sell for astronomical sums. This is its long-awaited debut on CD, and comes complete with comprehensive liner notes and rare photographs. Guest performers include Judy Dyble (Fairport Convention), Rik Kenton (Roxy Music) and Geoff Leigh (Gong, Kevin Ayers, Henry Cow) - "Though anchored in melody and form, Mouseproof is fundamentally experimental, and one of the more eccentric and unclassifiable recordings of its time" - Record Collector - "Psychedelic folk with progressive leanings - an interesting period piece. Recommended" - Tapestry Of Delights

FIVE DAY RAIN CD - FIVE DAY RAIN - (+ 5 bonus)	1970	NIGHT WINGS / Italy NWRCD 5	Prog. Psych UK	15,90 €
This band formed in late '68 as IRON PROPHET, a heavy trio comprising RICK SHARPE, CLIVE SHEPHERD and DICK HAWKES. They changed their name to Five Day Rain in early 1970, with the arrival of GRAHAM MAITLAND and the beginning of the recordings we are presenting here. The usual disagreement between musicians, management and producers led the album to be shelved (only a few acetates were pressed) and the band to split. Rick Sharpe, Shepherd and Maitland formed the short-lived STUDD PUMP before taking separate ways, with Sharpe joining glam rockers STREAK and Maitland resurfacing with GLENCOE. Five Day Rain was issued for the first time on CD a dozen years ago, with a nice JOHN HURFORD artwork made for International Times magazine, but without both musicians and illustrator permit. Our issue, made with the essential contribution of Rick Sharpe, uses the original running order and is enriched by a few bonus tracks: a Bob Dylan cover (Too Much Of Nothing) and four tracks recorded at the time but left off the purposed LP. These, which have been completed by Rick Sharpe with a few overdubs in November 2005, are the only recorded proof of the original heavier Iron Prophet sound. The 12 pages booklet features the band's detailed story, with never-seen-before photos and Sharpe's own funny anecdotes, while John Hurford has generously created a brand new artwork for our Five Day Rain cover.

FLAVIOLA AND THE FLOCK OF THE SUN CD - FLAVIOLA AND THE FLOCK OF THE SUN Another great example of Brazilian "psicodelia" from the collective of underground musicians in Recife, featuring Flávio Lira in the lead role, along with Lula Côrtes, Pablo Raphael, Robertinho de Recife, and Zé of the Flute. Of the crazy albums from this period, the Flaviola record FLAVIOLA E O BANDO DO SOL (Flaviola and the Flock of the Sun) is one of the rarest jewels. Although it was recorded the same year (1974) as Lula Côrtes and Zé Ramalho's "Paêbiru" album, and with most of the same musicians, this is mainly an acoustic album, rife with poetic language and regional instruments, but also demonstrating the abundant energy of people involved in making something fresh and new. The cauldron of influence in Recife resulted in some very intriguing music, and the Flaviola album is no exception—it's more intimate a trip than "Paêbiru", and more accessible an experience than "Satwa"; this is a brilliant album, full of strange moments (cellophane crinkled into the microphone as percussion), some deft acoustic guitar, and some of the prettiest songs this side of Vashti Bunyan. Notes are more or less in English, and hefty booklet includes lyrics too. \$12 each (CD)	1974	World Psychedelic / K WPC6 8491	Psych Folk BRA	17,00 €

Les Fleur De Lys were a one of the most talented British mod-psych groups of the 1960s, but due to frequent line-up changes and lack of chart success, they have remained one of the era's best kept secrets. This 22-track anthology uncovers the band's twisted journey - from their early Immediate recordings (with a young Jimmy Page manning the boards) through various side projects - to their final "Your Just A Liar" single. Also includes mod classics "Circles" and "Mud In Your Eye"; "Sugar Love" and "So Many Things" featuring John Bromley; "Hold On" and "Daughter Of The Sun" with Sharon Tandy; "Tick Tock" released under the Shyster pseudonym; The Chocolate Frog single and "I Like What I'm Trying To Do" by Waygood Ellis.				
FLEURS DE PAVOT, LES	1968	Underground Masters /	60's Psych Pop	17,00 €
CD - Les FLEURS DE PAVOT		UM 009	F	
Originally released in 1968, the now impossible to find self titled album by Les Fleurs De Pavot is considered as the first psychedelic/hippie record from France. A veil of mistery surrounded the real origins of the band at the time...according to their press release, they were formed by a couple of hippies, Groovy Pat from London and Jesus from San Francisco who met at some Soft Machine shows in Paris...the reality was more unglamorous: Les Fleurs De Pavot were in fact a twist band called Bourgeois De Calais, transformed into exploitation acid-eater hippies by their manager JP Rawson. The album was produced by the genius tandem of Jean Claude Vannier (famous for his involvement on Gainsbourg's "Melody Nelson" album) & Bernard Estardy (Nino Ferrer's organist / sound engineer). An explosive mix of psychedelic pop, yey music & bizarre studio experimentation featuring 12 superb tracks full of fuzz guitars, groovy vocals and swirling organ with very explicit drug related lyrics. Music ranges from mod psych dancefloor smashers like "A degager" to the final six minute lysergic freak-out "Le Rateau De La Meduse" and even one cool bossa track.

FLOOR CD - First Floor Reissue on CD of debut album (originally on Phillips) by Danish pop psych band from the 60's. They emerged from the remnants of the Hitmakers and used their american and british influences to considerable effect. From the groovy 'Penny lane' trumpets in the opening track to the Elanor Rigby-esque "Trusting Mr. Jones" with heavy harpsichord effects. they clearly loved the Beatle although the use of backward guitars gives their songs a more trippier and psychedelic feel. The evocative sitar-jangly like guitar style and the exotic finger cymbals take us on a trip to the Far East. Each of the album's self penned tracks is a 'one-off' with radically changing musical styles making up for a brief voyage round the 60s musical galaxy.	196	Radioactive / UK RRCD 151	Blues Rock Folk USA	14,90 €

Sweden's reigning progressive rock masters are back with a new double studio album. Featuring some of the best songs that Roine Stolt has written since his first Flower King release in 1994, it's a powerful and dazzling collection. Mixing the complexity of Yes and '70's Zappa, with the melody of The Moody Blues, and the power of early ELP this is a tour de force. Beautiful limited digi pak with lavish book style packaging with extensive lyric booklet enclosed.				
"Unfold The Future" ist gleichsam eine Fortentwicklung alter musikalischer Konzepte und eine Art Bestandsaufnahme der Flower Kings heute, mit Sicherheit ihr bestes Doppelalbum, wahrscheinlich ihre beste Veröffentlichung überhaupt. War "The Rainmaker" vor Jahresfrist zwar ordentlich, aber nicht begeisternd ausgefallen, so hat "Unfold The Future" alle Tugenden, um als Klassiker des Genres gelten zu können. Endlich schaffen es die Flower Kings ihr Material so weit zu verdichten, dass der Spannungsbogen über das gesamte Album erhalten bleibt. Die starke musikalische Präsenz dreier nahezu gleichwertiger, kreativer Charaktere (Stolt, Bodin und Reingold), die exquisiten Kompositionen und Improvisationen und nicht zuletzt eine perfekte, sich nicht anbietende Produktion, machen aus "Unfold The Future" eines der besten Alben der Prog-Szene des Jahres 2002.

CD - Out of the waste land		eb 004	GER	
Everyone with a weakness for a fully adequate 70ies diet is strongly advised check out FLYING CIRCUS immediately! On 'Out of the Waste Land', the German retro-artists again serve exquisite ingredients from the hard and progressive cuisine. And this is the recipe for the new album: On the one hand there are tracks with the spice of Led Zeppelin, on the other there is brilliantly flowing psychedelic rock with melody-infatuated flower-power vocals - everything seasoned perfectly with a distinct pinch of bombast. The instrumental passages (sometimes lively, sometimes spherical) sound no less successful and will start to paint many a colourful picture in your mind. As 'Out of the Waste Land' was also pepped up notably sound-wise, this second CD comes with an even more juicy flavour than their debut in 1998. Wer auf vollwertige 70er-Kost steht, schaut am besten gleich beim FLYING CIRCUS vorbei. Denn auf 'Out of the Waste Land' servieren die deutschen Retro-Artisten wieder edle Zutaten aus harten und progressiven Rock-Küchen. Und das macht die Rezeptur des neuen Albums aus: Einerseits Tracks mit dem Pfeffer von Led Zeppelin, anderseits genial-fließender Psychedelic mit Melodien-verliebten Flower-Power-Vocals - und alles perfekt abgeschmeckt mit einer kräftigen Dosis Bombast. Nicht weniger gelungen klingen auch die Instrumentalbeiträge, die - mal lebhaft, mal sphärisch - viele bunte Bilder im Kopf zum Laufen bringen. Auch soundtechnisch wurde 'Out of the Waste Land' spürbar aufgepeppt, so dass der zweite Silberling noch deutlich saftiger kommt als das Debüt von 1998.

FOCAL POINT CD - FIRST BITE OF THE APPLE Keen followers of the 1960s rock scene have become used to tales of long lost tapes and unissued recordings that have seemingly disappeared forever. Every so often, however, a cache of lost recordings does surface. In the process, little known groups who issued only one record before returning back to their day jobs are rediscovered and totally redefined. Liverpools Focal Point is one such group. Despite having secured the patronage of the Beatles and their manger, Brian Epstein, (who actually came up with the name Focal Point), the group released a solitary Deram single Love you Forever/Sycamore Sid, before they simply disappeared from the thriving London pop scene of 1968.	1968	Kissing Spell / UK KSCD 953	60's Rock Pop UK	19,95 €

FOLLY'S POOL CD - FOLLY'S POOL Here's another little musical gem, this time featuring the indisputable talents of guitarist and singer/songwriter Steve Ono and his chums aka Folly's Pool. Originally a private pressing released in 1977 on Century Records under the stewardship of Fresno-born Ono, the album sees the band take us on a tour de force of acoustic-based rural rock with folk, prog and country influences often in the background. At times Folly's Pool sounds like they're trying to be The Eagles or Loggins & Messina, but in many ways this does the band a disservice as they have successfully created an individual approach to their music which often turns the ordinary into the exceptional (the cunning transformation from folk to prog of "Jig In A" is worth the price of admission alone) and the high standard of everything the band plays (the stunning electric guitar solos are particularly fine) makes this album one to get one's teeth into! Unfortunately this was their only album. Folly's Pool is an unusual album which could have achieved some commercial success had it been released and promoted by a major label.	1968	Radioactive / UK RRCD 155	Prog Folk USA	14,90 €

FOOTCH KAPOOT CD - GOOD CLEAN FUN	1978	Radioactive / UK RRCD 111	Rock USA	14,90 €
Originally released in 1978 on the Cornball label, this is an album of whimsical eccentricity which defies musical categorisation. All 6 band members are virtuosos of their own chosen instrument. The album rocks at times, then leans back and gives us a soft shoe shuffle. There's incredible honky-tonk piano, crazy clarinet made stranger by the use of a reed modulator. The slide and lead guitars are slick and effortless, the drumming a tight as it comes and the harmonies blend together as one angelic voice. Beautiful recorded, strange and compelling.

FORD THEATRE CD - TRILOGY FOR THE MASSES	1968	Black Rose / EU BR 173	60's Psych USA	14,50 €
Ford Theatre is the place where Abraham Lincoln was assassinated and the liner notes explain that "the six musicians chose this name because it corresponds to what they are trying to create - a vision of America in all its present chaos and agony". Ford Theatre made two albums for ABC in the late '60s that were average period pieces, but respectable on that modest level. In their use of winding minor-key melodies, hard rock guitar-organ interplay, extended guitar soloing, and earnest, ambitious lyrics, they were similar to other Boston psychedelic bands of the time, but more authentic. They were not one of the bands gathered up and promoted as part of the Bosstown Sound hype, for one thing. Ford Theatre evolved out of the Boston band the Joyful Noise, and were signed by Bob Thiele of ABC Records after Thiele had been contacted on their behalf by a DJ at Boston's WBZ. Thiele produced Ford Theatre's first album, Trilogy for the Masses, which was centered around two lengthy multi-sectioned pieces, "101 Harrison Street (Who to Belong To)" and "From a Back Door Window (The Search)." Both excellent albums from 1969 and 1970 by this magical UK hippie folk band who made a sound somewhere between Comus and the Incredible String Band. Beautiful delicate arrangements and mysterious lyrics are held together with strange and haunting vocal harmonies. The second album is more electric whilst the first is delicate and fragile. Mossy, mushroom scented fairie folk. Fabulous!

FRED CD - FRED In 1971, as the war in Viet Nam continued, some college students in rural, central Pennsylvania formed a band and left school behind. That year, they published a 45 rpm single and recorded most of the music on the album available here for the first time. Influenced by the likes of Procol Harum, The Band, Traffic, Jethro Tull, Frank Zappa, and King Crimson, they bring a unique sensibility and style to their original pieces, uncannily as fresh today as they were when they were first recorded. The CD comes with notes and great photos added by one bonus track - the 45 rpm version of "a love song"! An absolutely outstanding release and a must for Westcoast and Psychedelic fans!	1971-7	World in Sound / GER WIS 1003	Psych USA	16,50 €
FRED CD - Notes on a picnic Their second album features the continued growth of their original and innovative sound. The master tapes were recorded in 1973/1974. There's lots of heavy electric guitar, progressive electric violin with fusion and classical overtones, massive drum and bass, swirling garage organ, funky piano and heavenly vocal harmonies. Influenced by Frank Zappa, King Crimson and Mahavishu, with echoes from Procol Harum, Traffic and Jethro Tull. 8 instrumental and 3 vocal tracks, 24-bit digitally remastered. The booklet contains informative liner notes, original Fred cartoons and plenty of photos. 64 Minutes of honest, dangerous and awesome music.	1973-7	World in Sound / GER WIS 1016	Psych USA	16,50 €
FRED CD - LIVE AT THE BITTER END Early 70's US band with their music on this album evolving into the nether realms of instrumental fusion featuring intricately scored parts, tight ensemble playing, sophisticated multi-tracking, and lots of room for inspired rock improvisation. This is an in-your-face live performance that blows you away: pulse pounding beat, wailing gutsy guitar and wild violin pyrotechnics. The music ranges from tender to tortured, demented to delirious always energetic, edgy and full of surprises. Influenced by Bela Bartok, Frank Zappa, King Crimson, Yes, Spirit etc. Exquisitely packaged with stunning original graphics that themselves are music for your mind's eye. FREEDOM CD - Through the years Through the Years, originally released in 1971, was definitely influenced by the heavy Cream-style blues rock typical of the period (evident on the opening track). After the group split Saunders became a member of the Gary Glitter band and Harrison went on to form the heavier Snafu. Two albums were released by Freedom in the 60's Black On White and Freedom At Last. Fast forward to 1970 and Freedom's heavy blues rock style was going down a storm in both USA and UK. Freedom, a better than average British hard rock band with psychedelic and blues leanings, formed around drummer Bobby Harrison (ex-Procol Harum) and with the help of guitarists Steve Jolly and Roger Saunders and singer/keyboardist Peter Dennis, were soon opening for the likes of Black Sabbath and Jethro Tull. They are also known for their work on the soundtrack of Italian filmmaker Dino De Laurentiis' Nero Su Bianco. Originally released in 1972, Is More Than A Word hails from the band's most mature period and is definitely worth rediscovery!				
FREEDOM - O.S.T CD - NERO SU BIANCO (BLACK ON WHITE)	1969	Moving Image / Italy MIE 012 CD	Prog. UK	9,95 €
Freedom recorded the soundtrack to this film by Dino De Laurentiis in 1968. At this time the band was still a foursome (they later became a trio) led by drummer Bobby Harrison, veteran of early Procol Harum. Freedom, a British psych band, characterized by the prominent organ playing of Mike Lease, became a very popular live act during the late sixties-early seventies. This soundtrack showcases the band's excellent songwriting talent (resembling early Traffic at some places on the album) and includes 3 bonus tracks (alternate takes of "The Better Side", "The Butt Of Deception" and "Born Again").

FREEMAN SOUND & FRIENDS CD - HEAVY TRIP	1970-7	World in Sound / GER WIS 1028	Psych Prog USA	16,50 €
Another group that represents the late 60s, early 70s heavy psychedelic era scene in northeast Ohio, USA (the same region that Dragonwyck is from). Having won the Starshine Productions' "Battle of the Bands" in 1970, the five-member FREEMAN SOUND was established as the most popular of several bands (including Morly Grey), that had records released on the Starshine label. This special collection of original songs and sounds is an exciting bit of rock history that documents some of the charm, wit and depth of talent that made FREEMAN SOUND the special local phenomenon they were. This release includes 12 great, quality tracks (LP-version is 180g vinyl and extra 7" 45 rpm record), with bio and photo inserts. You'll get stoned on some mind-bending vocals backed by instrumentation that includes some very intense, heavy fuzz and wah pedal guitar sounds, solid drums and a screaming organ (with flashes of famous British groups such as Free, Spooky Tooth or Arcadium). Prepare to get off on cuts like the 18 minute "Heavy Trip #70", the Hendrix-like "Tomorrow Is Plastic" and what we would venture to say is the heaviest version of Merle Travis' "16 Tons" ever recorded! This band broke up before they were able to make the most of their popularity. With this previously unreleased album, they may be taking up where they left off. For fans of intelligently executed psychedelic hard rock and pop with a message. Highly recommended!

FRESH MAGGOTS CD - FRESH MAGGOTS + 7 Long established as a cult classic and collector's grail, Mick Burgoyne and Leigh Dolphin's sole album is presented here with their full co-operation. Recorded in 1971 when they were just 19 years old and fresh to the studio, Fresh Maggots is one of the best distillations of folk and psychedelia ever recorded. Combining gentle, pastoral songs with violent fuzz guitar, it's a highly unusual and powerful record that enjoyed extravagant acclaim on release. Despite selling poorly, it has gone on to acquire a major reputation amongst acid folk fans, who will be especially eager to hear the seven bonus tracks included here (including the duo's rare non-album single and a previously unheard live radio session from 1971). The package is rounded off with rare photographs and detailed sleeve notes, making this is the most comprehensive collection of their music ever assembled. "There are no weak links on this consistent album, which is thoroughly recommended" - The Tapestry Of Delights - "Some songs are intense and serious, while others are more pastoral and romantic. The album's most remarkable feature, however, is the fiery fuzz guitar peppering several tracks, which lends a most unusual edge to what is ostensibly a folk record" - Record Collector	1971	Sunbeam / UK SBRCD 5002	Psych Folk UK	15,90 €

The rarest, and I would dare to say best, folk/psych album from Peter Howell and John Ferdinando, musical brainchildren behind Ithaca, Agincourt, Alice Through the Looking Glass, and Tomorrow Come Someday. This fifth Howell/Ferdinando album had just been completed in or around 1974 when the partnership came to an end. Howell had been working at the BBC as a studio manager since 1970 (he'd provided a stiff upper lip voiceover for John Peels Top Gear shows), but he was now offered a position with the BBC Radiophonic Workshop, which he accepted, and still holds. FUGS - (3CD) CD - Electromagnetic Steamboat: The Reprise Recordings	1967-7	RHINO HANDMADE / RHM2 7759	60's Psych Folk Rock USA	52,50 €
Let us now praise three men who not only survived the Sex, the Drugs and the Rock And Roll of the sixties, they helped invent it. Please join us in saluting Mr Ed Sanders, Mr Tuli Kupferberg, and Mr Ken Weaver, who are known collectively as The Fugs. And also please join us in celebrating the body of work they recorded between 1967 and 1970 with our 3-CD set Electromagnetic Steamboat: The Reprise Recordings. Mr Sanders, Mr Kupferberg and Mr Weaver originally came together for the purpose of performing for the grand opening of Mr Sanders' Peace Eye Bookstore And Scrounge Lounge, "a vegetarian literary zone," which was to be held on 24 February 1965. It should probably go without saying, but after their first performance at the Peace Eye, The Fugs were an immediate success. They became, arguably, the very first underground band to make the Top 100 album charts. They were a forerunner of future "folk-rock" bands. They were one of the first "proto-punk" bands too, anticipating the musical movement that came a good ten years later. Musically, The Fugs drew heavily from many different interests, influences and various musical genres, combining jug band music, smutty rock n' roll, scuttled-through country ballads, percussion-backed Gregorian chants, canticles, Hebraic-tinged sing-songs, and bawdy bohemian poetry. Lyrically, they were humorous, often somewhat shocking and outrageously celebrated the expression of "free love" and the freedom to use marijuana. The four albums The Fugs made for Reprise Records have been unavailable in the United States, and on most of Planet Earth, for more than a quarter of a century. And though most of the master tapes for the recordings The Fugs made for Atlantic Records were either reworked for use on the first Reprise album or, sadly, lost in a vault fire, a few of these unreleased Atlantic masters did, in fact, survive. Rhino Handmade has taken the four albums The Fugs made for Reprise Records -- 1967's <i>Tenderness Junction</i>, 1968's <i>It Crawled Into My Hand</i>, <i>Honest</i>, 1969's <i>The Belle Of Avenue A</i> and 1970's <i>Golden Filth</i> -- and combined them with a bonus disc of the surviving previously unreleased Atlantic Records recordings to create the 3-CD collection entitled <i>Electromagnetic Steamboat: The Reprise Recordings</i>. <i>Electromagnetic Steamboat: The Reprise Recordings</i> is available as an individually-numbered limited edition of 5,000 copies. 3-CD Set, 65 Tracks, 5 Previously Unreleased, 40-Page Booklet.

FUNKADELIC CD - FUNKADELIC	1970	Westbound Records / CDSEWM 210	Psych Funk Rock USA	12,90 €
Psychadelafunkify your mind with this debut album from 1970... If you thought 'funk' just meant disco dress then check your head and think again. This band took the psychedelic experience to their soul... raw and 'out there'. This album is not quite as strange as their 'Maggot Brain' and 'Free Your Mind' releases, but it cooks on tracks like 'I Got A Thing, You Got A Thing, Everybody's Got A Thing' and 'Mommy, What's A Funkadelic?'. Brilliant. This version contains the original 1970 LP + 7 Bonus tracks.				
FUNKADELIC CD - Maggot Brain	1971	Westbound Records / CDSEWM 202	Psych Funk USA	12,90 €
this is for all fans of the psychedelic guitar. Listen to the title song "Maggott Brain" and forget everything you thought about "FUNKADELIC". A real psych masterpiece.				
FUNKADELIC CD - One Nation Under a Groove	1978	Charly / UK SNAP 214 CD	Soul Funk USA	12,90 €
Pinnacle of the band's P-Funk career on this 1978 album. Combining funk, rock and psychedelia masterminded by the larger than life George Clinton. A staggering number of highlights, notably the nutty "Promentalshitbackwashpsychosis Enema Squad" and the unsurpassable title track. Comes in mini cardboard sleeve with fantastic artwork.				
FURBER, MIKE - & THE BOWERY BOYS CD - JUST A POOR BOY	1967	Radioactive / UK RRCD 147	60's Beat Psych AUS	14,90 €
Reissue of the band's one and only album. When released it achieved modest chart success. After 3 singles the BOWERY BOYS split up and only BARRY GIBB realized a career in the business. In october 1967 Mike Furber released "Bring your love back home", what he believed to be his finest effort so far. When it failed to attract the attention nervous breakdowns began. The irony of this saga is the BOWERY BOYS themselves were extremely tight and could have achieved greater things if not overshadowed by Furber. This superb album amply attests.				
FUREKAABEN CD - PRINSESSEVAERELSET - (JAP)	1970	Wounded Nurse / JAP WN 002	Psych DK	19,90 €
Drifting head music from early '70s Denmark. Exotic trippy dreamy textures with Tabla, zither, Indian flutes, acoustic guitar, cello etc. Released in 1970 it's somewhat bizarre, but highly entertaining filled with three long tracks. A real acid-psychedelic jewel in the Scandinavian psych scene...

FUSION ORCHESTRA CD - Skeleton in armour Formed in the early seventies, Fusion Orchestra were an unfortunately short-lived progressive jazz/rock outfit of immense potential. Joining the exceptionally talented Jill Saward on vocals, keyboards, flute, guitar and synthesizer, were guitarists Stan Land and Colin Dawson, bassist Dave Cowell and drummer Dave Bell. This is one of the finest bands to have ever come out of the UK, and their sole album release is an absolute masterpiece of sophisticated compositions with stunning female vocals and superb musicianship. When the band split, the members would fade into obscurity, with only Saward surfacing a number of years later as a backing singer in UK pop/jazz outfit Shakatak. She went on to become a fully fledged member of the band, playing keyboards and flute, and, of course, singing, much the same as she did when she was a member of Fusion Orchestra.	1973	Si-Wan / KOR SRMC 6003	Prog. FUZZY DUCK CD - FUZZY DUCK + 4 Fuzzy Duck were one of the many early UK progressive acts that showed tremendous potential but sadly didn't go very far. The band was formed in North London in 1970 by ex-Five Day Straw People and Andromeda bassist, Mick Hawksworth, guitarist Grahame White, ex-Tucky Buzzard drummer Paul Francis and ex-Spice and Arthur Brown keyboard player Roy Sharland. They signed to Decca subsidiary MAM Records and recorded this album that year (only 500 copies were pressed, which explains why it's fairly collectible today). White left to join Capability Brown just before the album was released and was replaced by Garth Watt-Roy, who featured on one or two subsequent singles before the band split in late 1971. Musically, the album is in the heavy progressive genre, with some good organ dominated instrumental passages. Garth Watt-Roy later teamed up with his brother Norman in The Greatest Show on Earth, while Mick Hawksworth later worked with the likes of Alvin Lee. Paul Francis worked with ex-Sharks and Nucleus guitarist Chris Spedding, and also featured on Tranquility's self-titled debut and "Silver" albums in 1972. GAFFEY, Paul CD - MEPHISTOPHELES In the tradition of Australian cosmic psyche folk comes this wonderful album by the obscure, Paul Gaffey. This gatefold album entitled Mephistopheles (which is one of 7 chief devils in medieval demonology) was released in 1974 on Australia's Festival label – L35312. This amazing album features many of Australia's finest progressive and jazz musicians – Peter Harris of the legendary Madden and Harris duo (Fools Paradise) plays the melletron. Other musicians include – The Johnny Rocco Band (Australia's top funk band of the 70's). Stan Wilson – piano; Doug Gallagher – drums (Ayers Rock, Patch); John Young – bass (Ayers Rock); Mark Punch – guitar (Johnny Rocco Band, Renee Geyer Band, Foreday Riders; Jim Kelly – guitar (Crossfire, SCRA, Levi Smith Clefs); Simon Heath – Moog; Tony Buchanan – Saxophone (Crossfire, Thunderbirds); Don Wright – Saxophone (SCRA, Ram Jam). A truly great example of psyche folk from a very under recorded musician of the 70's.	1975	Mason Records / EU MR 56447	Psych Folk Rock AUS	14,50 €
GAGALAKTYCA CD - THE WORKS This is mainly the follow-up album to the highly collectable "Astral Navigations" release from 1973. Mostly recorded with a similar line-up, this continues along the same vein of spacey progressive folk music, and now comes with half a dozen bonus tracks from Thundermother - some of which are also quite trippy.	1973	Kissing Spell / UK KSG 007	Prog. GALLEON - (2CD) CD - From The Land To The Ocean Very well received melodic progressive 2CD. Packed with keyboards in the vein of Saga, Marilion and Clepsydra. The second disc contains a 52 minute epic. Review from Progarchives: ""I cannot say enough about this 2cd release, only...this is the best Galleon release yet! The second disc titled simply 'The Ocean' is the quickest 52 minutes you'll ever feel. You just don't want to 'come down' from the progressive 'high' it puts you on. GALLIARD CD - New Dawn New Dawn is even more schizophrenic. Hosts of wind parts over a tight rocking backdrop are estranged with naggingly dissonant sitar on the highlight Ask For Nothing, a strongly philosophical number. This is the last remastered 2004 officially version re-issue of gentle giant's ground-breaking debut album from 1970 from Repertoire sounding fantastic, in fact the best available CD you can buy yet coming in a nice LP-like paper sleeve, housed in a beautiful gatefold replica sleeve. Alternatively searingly intense and subtly quiet, this album, along with King Crimson's "Court of..", blew down the barriers and creating musical paths that later, and far lesser, prog-bands would come to take for granted. A fantastic mixture of Rock & Jazz, an important and versatile album that has aged surprisingly well, if you haven't heard the remarkable "Nothing At All" then consider this album an essential purchase, if you have, well, I'm sure you'll agree it speaks for itself.

GERMAN OAK CD - GERMAN OAK Recorded in the summer of 1972 by the 5 man Duesseldorf instrumental outfit. Full of long, spacious guitar jams. The four long tracks were recorded in a Luftschutzbunker (Air Raid Shelter) it has a very strange feel to it. Aggressive rock with blues tinges and manic percussion like Keith Moon jamming with early Amon Duul. Tracks like "Third Reich", "Swastika Rising", & "1945-Out of the Ashes" show why this album had a very mysterious presence. Excellent.	GER	Radioactive / UK RRCD 090	Psych Rock GER	14,90 €

The record was produced by Barry Melton Country Joe & The Fish) & recorded at Mickey Hart's Rolling Thunder Ranch". GIANT CRAB CD - A Giant Crab Comes Forth Debut album from 1968 by this U.S. psych band who were promoted by the same production team behind the equally weirdly named Strawberry Alarm Clock. GILES, GILES & FRIPP CD - The Brondesbury Tapes reissue of important document of the origins of KING CRIMSON, the historic, lost 'heavy sequel' to the 'Cheerful Insanity Of...'. These are unbelievably pristine 'bedroom' recordings from 1968 by Robert Fripp's group with the Giles Brothers.	1968	Voiceprint / UK VPCD 235	Rock Folk Jazz UK	17,50 €
GILES, GILES & FRIPP CD - Cheerful Insanity Of This great album is where it all began for the King Crimson stalwarts and for a long time was an expensive out of print collector's item. Excellent late 60's psychedelic pop, sometimes similar to the early Syd Barrett Pink Floyd, but with a jazzy tinge. Fripp's guitar is already in top form and shows the shapes of things to come in '69 when he and Mike Giles added some guys named Lake and McDonald and became, we all know who. 'Python-esque' and very very English. This is without any doubt one of the best psychedelic pop albums of the period, it has a sound of its own that will appeal fans of the early Floyd, Blossom Toes, Rainbow Folly and the likes. This top-remastered CD release has an expanded booklet and contains the following bonus tracks "She is Loaded", "Thursday Morning" (stereo version), "Under the Sky", "One in A Million", "Elephant song"(alternate version) "Thursday Morning" (alternate version), "Elephant Song".	1968	Eclectic / UK ECLCD 1021	Prog Jazz Rock UK	19,00 €

GILLESPIE, Dana CD - FOOLISH SEASONS Dana's first album, recorded in 1967- several years before Bowie, blues or 'Ammer 'Orror were even glints on the horizon. At this point in her career Dana was a regular on the same folk circuit that spawned Sandy Denny, Bridget St John and the likes, and was much enamoured of Donovan and Cat Stevens. This debut, therefore, reflects her 'Swinging London'/soft pop sensibilities perfectly, and features the lady's own compositions alongside those of Billy Nicholls and the aforementioned Mr Leitch. Arranged by Mike Vickers, and produced by Beat god Wayne Bickerton, this album has never been released in the UK on ANY format anywhere, and features wonderful packaging including pictures of the lovely Dana (now one of the world's top blues singers) arranged by Gered Mankowitz.	1967	REV-OLA / UK CR REV 141	Blues Psych Rock UK	14,90 €

GOLGOTHA CD - OLD SEEDS BOOTLEG An album that's just about as home made as you can get. The original album was recorded for the Jubilee label, but only saw the light of day as a private pressing of about 100 copies. And we connected so strongly together out of the improvisations, we just improvised and recorded it and then at the end of the day, we would listen to the recordings and take the pieces out that we wanted to learn." GRAHAM, Ernie CD - Ernie Graham Ernie Graham began his musical career in the 1960s, when he formed EIRE APPARENT with Henry McCulloch. The band toured extensively, supporting Jimi Hendrix, Pink Floyd & Soft Machine. Eire Apparent disbanded at the end of the 60s and Henry McCulloch went on to form The Grease Band. Ernie then recorded his eponymous debut album in 1971, recruiting the members of BRINSLEY SCHWARZ (including Nick Lowe) and HELP YOURSELF as his backing band. At the time of it's original release, this album drew comparisons with Dylan, The Band and Crosby, Stills, Nash & Young. Ernie's complete solo recordings are now released here on CD for the first time; The 1971 album and both sides of the 1979 Stiff single.	1971-7	HUX / UK HUX 032	Rock Folk UK	16,35 €
GRAIL CD - GRAIL GRAIL (pre-ABACUS) spanned a wide musical blend. Attention: the Digipak-CD is available with the rare french cover in front but also shows in the inside the German cover. Produced by Rod Steward (who was a friend of the band manager). Das Album von GRAIL (pre-ABACUS) ist ein absolut eigenständiges Werk. Damn right it does, but not a simple tribute or a means to try and recreate the aforementioned decade. On the contrary, THE GRAND TRICK strives to create new and exciting music in a 70's style inspired by the great bands of that era. GREATEST SHOW ON EARTH CD - The Going's Easy - (Digipack)	1970	Repertoire / GER RepUK 5058	Prog. UK	14,90 €
Digipack. Rare bonus track: "Muntain Song". Liner notes by Chris Welch. Classic 2nd album from 1970, by this UK progressive outfit who had magical long slow building tracks with excellent guitar keyboard interplay. Borderline, taken off the second and final album from this talented British brass rock outfit, "The Going's Easy", released in 1970. The Greatest Show on Earth are the subject of this weeks' Dino Quiz. Even though the length of this awesome song ensured that it never reached "hit" status, it's still one of the best known "non-commercial" tracks of the seventies, next to Ramases' "Life Child" and Babe Ruth's "Wells Fargo". The band were formed by the Watt-Roy brothers, Norman on bass and Garth on guitar, in 1968. Their original vocalist was American Ozzie Lane. Lane left to return to the US, and was replaced by Colin Horton-Jennings, a man equally at home on the flute, guitar and bongos, in addition to being a very competent vocalist. They were signed to EMI's progressive Harvest label and released two excellent albums, both in 1970. On the bands' demise, the various members would later appear in a number of diverse bands, from Glencoe to East of Eden, from Fuzzy Duck to Graham Parker, from Marmalade to The Blockheads, backing band to Ian Dury.

GREENSLADE CD - Feathered Friends - (2CD) Greenslade, led by their namesake, ex-Colosseum member Dave Greenslade, were a vital part of the progressive movement in 1970s Britain. Unique in several ways, the most notable being their lack of lead guitar (except for a brief period when augmented by Clem Clempson) and twin keyboard sound, they released four great albums between 1973 and 1976 before splitting amid the furor of punk rock- and then reformed in 2000 and released another. This two disc set features a previously unreleased live recording from the 1970s, coupled with their reformation album 'Large Afternoon' onto which has been tagged several highlights of Dave G's solo album from the same period, 'Going South'. This live album is greatly welcome as, up till now, little recorded evidence of the classic lineup in action was available. Bassist Tony Reeves' solo runs are simply incredible, Dave Lawson's vocals are a peerless example of restraint and understatement, Andy McCulloch's drumming is technically tight yet lazily loose (perhaps the only comparison would be Van Der Graaf's Guy Evans) and the man himself, Dave Greenslade, really can widdle with the best of them.	1973-7	Snapper / UK SMDCD 560	Prog. GROSVENOR, Luther CD - Under Open Skies Having left Spooky Tooth and joined Mott The Hoople, Luther Grosvenor was very much in demand in 1971 and in response he crafted this fantastic solo album with friends and colleagues including Spooky Tooth's Mick Kellie, John Hawken, Jim Capaldi and Mick Ralphs (the man he replaced in Mott the Hoople). Having been originally released on Island, it formed part of a unique trilogy of discs by sidemen who crafted records more complete than some of the discs made by groups they played in (Traffic, Free and Spooky Tooth respectively). GROUNDHOGS CD - Solid Recorded in 1974, after a few changes in the line up that included Clive Brooks taking the place of Ken Pustelnik on drums (but still featuring Peter Cruickshank and Tony McPhee on bass and guitar), this is the Groundhogs' seventh album. Once again the band serves up original and aggressive blues rock with a big helping of long guitar jams that never sound tired or banal. Tony McPhee coined his own personal and characteristic vision of the blues with earlier albums like "Thank Christ For The Bomb". "Solid " continues in that vein to bring us more characteristically high-quality stomped-on blues. An important chapter in 70s British blues and hard rock.	1974	Akarma / Italy AK 331 CD	Blues Rock UK	12,90 €

GRUDZIEN, Peter CD - The UNICORN Originally released in 1974 (P.G. 101) The Unicorn is considered to be one of the prime examples of what is now known as 'Outsider Music'. It's creator New Yorker Peter Grudzien, grew up in the '50s listening to Hank Williams, Johnny Cash and other country music artists. By the '60s he was writing and recording his own country styled tunes and had added rising star Bob Dylan to his list of performers to aspire to. Comprising a selection of lo-fi home recordings made over several years (the earliest being from 1960), The Unicorn has songs of religious visions and redemption, life's struggles, and tales of romance gone wrong (brief references are made to Grudzien's own gay affairs, he 'came out' in song in the '60s). Predominantly rooted in country and bluegrass picking, the music also features electronic experiments, and borrows a few 'classic' tunes here and there in an early attempt at sampling. 'Intense', 'claustrophobic', 'eccentric', 'challenging', 'overwhelming' but above all, 'honest'. These are all words that have been used to describe this album. You can add 'unique' too. For all those who prefer their country music with a twist, Radioactive present The Unicorn.	1960-74	Radioactive / UK RRCD 167	Psych Folk USA	14,90 €

GRYPHON CD - Glastonbury Carol	1972-7	HUX / UK HUX 041	Folk UK	16,50 €
Gryphon were formed in 1971 and had a style which made them unique on the UK rock scene of the early 70s, with their Crumhorn solos making a refreshing change from the usual guitar sound of the day. By 1975, they had joined Yes on a successful tour of the USA and continued to develop their distinct sound, incorporating elements of medieval music, progressive rock, folk and jazz. Over 30 years later, they are now fondly remembered as one of the most interesting British bands of the Progressive Rock era. This album was compiled with full assistance from the band and features their two BBC Radio 1 sessions, recorded in 1972 & 1974. Also included here is their single, 'Glastonbury Carol', which was originally commissioned for the closing titles of the film, 'Glastonbury Fayre'. The master tapes to this track had been missing for the past 30 years and were only unearthed recently. The accompanying 8 page booklet features liner notes by Gryphon's Brian Gulland, plus rare photographs from the band's own archive.

Gryphon was an English all-instrumental electric folk band, originally similar to Pentangle in their eclecticism (and, not coincidentally, signed to the same label, Transatlantic). They subsequently developed a more intense playing style and went electric, eventually hooking up with Yes for one US tour. Wind and keyboard player Richard Harvey, who was classically trained and had a parallel career in movie music, was one of the more notable members, while guitarist Graeme Taylor's classically wrought elegance was another key element of the band's sound. - Bruce Eder, All Music Guide. Gryphon are fondly remembered as one of the most unique and interesting British bands of the Progressive Rock era. The five albums they produced between 1973 and 1977 showed their evolution from an all-acoustic mediaeval music quartet to a progressive pop band. This unique blend of mediaeval music and prog rock can be heard to wonderful effect on this new album. The CD features two previously unreleased BBC concerts, recorded in 1974 and 1975. The booklet includes many rare photographs and archive material with liner notes by Gryphon guitarist Graeme Taylor.

HACKAMORE BRICK CD - ONE KISS LEADS TO ANOTHER	1971	MN 6	Rock USA	19,50 €
Great odd album from 1971 that answers the question "what would the Velvet Underground sound like if they had come from a folk background?" They cant decide if theyre hippies or artsy weirdos, and this record makes one think they could have pulled off either if they really wanted to. It ranges from stark slow ballads that recall the third VU album to upbeat folk-rock to moody psych numbers with some great unhinged organ and guitar playing. Some of the lyrics are introspective. Others are ditties about bananas, the joys of radio, and drag races in which the drivers girlfriend falls out of the car window. Something here to appeal to every variation of freak out there. Given that so many 70s and 80s music hipsters cite it as an influence, why has it taken this long to re-issue? One can only guess. It also includes the non-LP "A" side, Searchin'.

HAMANA CD - HAMANA Hamana's debut album recorded in 1974, was issued on the local Phoenix label, Canyon Records. To most of the 60s psychedelic rock/folk fans this is almost an unknown album, original pressings seem to be disappeared, only a few copies are known in collectors hands. Bruce Hamana, a native American, is member of the Indian Hopi Tribe and went in 1969 to college near San Francisco to live "in the white mans world". Instead of traditional native American themes he felt like writing "modern, revolutionary, contemporary music" - the result you hear on this album is powerful and melodic, and expresses perfectly the sunny California peace, love & freedom feeling, but also contains a social-critical message."One of these days everything is gonna change, things you take for granted will be taken away from you.." - The music itself is emotive with strong vocals, lots of Westcoast psychedelic guitar flashes, a bit garage feeling but also loner folk style with native American elements. The appeal of this album reminds of Quicksilver Messenger Service, The Byrds, X.I.T, Neil Young, Buffalo Springfield, Garrett Lund . - Near unbelievable that on these recordings all instruments, bass, guitars, vocals and drums have been played by Hamana himself, to get overdubbed and to become finally a tasty and atmospheric stereo acoustic/electric mix. This CD-reissue is a mastertape release licensed by Canyon Records and contains an 8 page booklet + 2 previously unreleased bonustracks - highly recommended!	1974	World in Sound / GER WIS 1029	Psych Prog USA	16,50 €

HAMMOND, John CD - BLUESMAN Bluesman John Hammond Jr. has produced a steady flow of bona fide, top-quality blues since the mid-1960s, and has played an essential role in keeping alive blues classics by Robert Johnson, Sonny Boy Williamson, Willie Harris, Lightin' Hopkins, Eddie Boyd, Chester Burnett, Jimmy Reed, etc., along with many other all but forgotten great American blues songs from the 1930s-1950s. This CD collection includes 25 of Hammond's finest moments, featuring many of the musicians who have accompanied him over the years, including Roger Hawkins, Robbie Robertson, Levon Helm, Jimmy Lewis, Garth Hudson ("The Band"), Jimmy Thackery, Mark Wenner, Jan Zukowsky, Pete Ragusa ("The Nighthawks"), Michael Bloomfield, Charlie Musselwhite, Roosevelt Sykes, Eddie Hinton, and Duane Allman. HANGMEN CD - BITTER SWEET After appearing on several compilations in recent years (including Pebbles & Signed D.C.) the Hangmen finally have their sole album reissued on CD! Formerly known as The Reekers and based in Washington D.C., the Hangmen were centred around the talents of guitarist Tom Guernsey and put out three 45's, plus the album Bittersweet, in that groundbreaking year of 1966. Originally released on Monument (SLP 18077), the album is a fine example of the U.S. mid 60s sound whether its close harmony soft pop, or a stomp through some fuzzed Beat/garage/R&B. Their first two classic 45s (the harmonica driven punk of What a Girl Cant Do, and the gentle fuzz of Faces) are both reworked on the album, and included alongside cover versions of Dream Baby (psyched with a hint of sitar), Let It Be Me, and an extended workout of Van Morrisons Gloria. Elsewhere the British Invasion presence is evident as well as the closer to home sounds of The Byrds and Lovin Spoonful. Groovy listening from beginning to end! But in 1966, the times were still a-changing, musical boundaries too, leaving many bands including the Hangmen behind. Thankfully though, whats not been allowed to slip away here is this innocent reminder of that golden age...Bittersweet by the Hangmen!	1966	Radioactive / UK RRCD 168	60's Beat Psych USA	14,90 €

HAPSHASH & the coloured coat CD - feat. The Human Host & the Heavy Metal Kids Reissue of their 1968 classic first album which is something of a electric mayhem and freeform freakout. Art students/designers, whose striking graphics and many bright and trippy posters for 60s psychedelic UK clubs like Ufo and Middle earth in London, were the creative talent behind this band. Their sound incorporated flower power, love & peace, drop out, hippy and underground trends. They could not have existed in any other era than the late 60s. HARDAL CD - NEREDEN NEREYE! In Turkey's late 70's the psychedelic scene was over and there weren't many groups following the natural evolution to progressive rock...or maybe just one? However it was, HARDAL was the most important prog group and recorded this, their first album, in 1980. It's a very special album, as it really doesn't sound like any classic progressive group, we'd say. It has good fuzz guitar work, nice synths, even some piano and some pop hints. A very nice album that finally gets its CD reissue, for the first time.	1980	Underground Masters / UM 008	Psych Prog Rock TR	17,00 €

HARRIS, Shaun CD - Shaun HARRIS Bassist, singer and all-round driving force behind The West Coast Pop Art Experimental Band, one of the most collectable of Californian psych outfits. This album, recorded in 1973, and never before released on CD, leans toward a far more conventional sound than one was used to with the WCPAEB (although they all appear on the record)- drenched in Beach Boy harmonies and Burrito-esque steel guitars, the atmosphere evoked is one of carefree Californian summer nights, with the added melancholy of Harris' occasionally bleak lyric writing. Other musicians involved include ubiquitous Muscle Shoalers Larry Knechtel and Jim Gordon, and Beach Boy Bruce Johnston- and let's not forget the orchestrations by Sean's dad, the renowned composer and conductor Roy Harris. Stand out tracks include 'I'll Cry Out' and 'Canadian Ships' : the whole package is beautifully remastered and repackaged with liner notes including some contributions from Mr Harris 'imself. Some of you will know the Spooky Tooth reunion recordings from 1999 which seemed in some ways disapointing. But here is now the real stuff - a great singer backed by a fantastic tight playing band. HARTLEY BAND, Keef CD - The Time Is Near	1970	Eclectic Discs / UK ECLCD 1027	Blues Rock UK	14,90 €
Keefs earliest engagement was as the replacement for Ringo Starr in Rory Storm and the Hurricanes. After a move to London in 1964 he served in the Artwoods and John Mayalls Bluesbreakers. In 1968 he formed his own band with Miller Anderson recording a series of regarded albums for Decca. He was often remembered for his "red indian" stage persona. By the time of their performance at Woodstock the band had moved in the direction of hard jazz rock and achieved some success with this album now re-issued for the first time on CD Powerful rocking stuff indeed.				
HARTLEY BAND, Keef CD - Overdog	1971	Eclectic Discs / UK ECLCD 1026	Blues Rock UK	17,50 €
Another album worth investigating from the canon of this premier British jazz-rock drummer and bandleader, now retired. With a pedigree that includes Rory Storm and the Hurricanes, John Mayall's Bluesbreakers and the Artwoods, one would expect our man to have a talent worth shouting about, and like the other great drummer-bandleaders of the time- Jon Hiseman and Aynsley Dunbar- you'd be right. Hard-driving, uniquely British (North West London, to be specific) jazz-blues-psych-prog, not dissimilar to Colosseum, Air Force, G.B.O. or Snape, but with a bizarre Native American fixation. Very bizarre, when you consider that our man came from Lancashire!! Lead vocals as always supplied by former Ian Hunter/Marc Bolan alumni Miller Anderson. Originally released in 1971 and just as fresh today. Includes as a bonus the "Roundabout" 7" part's 1&2. Detailed booklet.

It was recorded with help from several VINEGAR JOE members (singers Elkie Brooks and Robert Palmer and guitarist Pete Gage), plus Jess Roden (vocals), Miller Anderson (guitar), Junior Kerr (guitar, vocals), Phil Chen (bass), Mick Weaver (keyboards), Jean Roussel (keyboards).

HARWOOD, Chris CD - Nice To Meet Miss Christine Christine Harwood's debut LP for the obscure British 'Birth' Label was the only record she ever made. No singles were ever released and it was seldom heard beyond these shores - the making of a record collector's holy grail. Alongside the obscure Vashti Bunyan LP and Julie Covington's early solo LP, 'Nice to Meet Miss Christine' remains one of the most sought after English female folk records ever released. You just have to listen to her cover of CSN&Y's 'Wooden Ships' to realise why. Miss Christine's naked vocals ride a rock-solid back beat with clavinet funk and a wash of luscious strings sending you into a trance-like state. Featuring a veritable whos who of rock and folk, including Yes guitarist Peter Banks, Strawbs guitarist Dave Lambert, Joe Cocker, /Juicy Lucy/Sensational Alex Harvey Band hammond organist Tommy Eyre Plummer, bass player Roger Sutton (Brain Auger & Julie Driscoll) - this rare-as-hens-teeth record (fetching in excess of 200 on internet auction sites) is on the wants list of any serious collector of any of the above bands.	1970	Finders Keepers / UK FKR005CD	Folk Rock UK	17,90 €
HASKELL, JIMMIE -& HIS ORCHESTRA CD - COUNT DOWN Legendary late '50s outer space rock & roll album with some theremin and other novel electronic and "talking alien" effects. A lot of novelty rock 45's with space themes were released during this era but very few full-length albums and this is undoubtedly the best of them all. Man, this thing is cool. Originals were released in both mono and stereo but the stereo version is watered down in comparison, so keep that in mind. This is the much superior MONO mix of the lp. That's Jimmie himself on the cover playing his own homemade synthesizer thingy. Far out man! Limited to 1000 copies.	1959	MN 2	60's Psych USA	19,50 €

HAWK CD - African day Finally officially, 2nd LP by one of Southafricas leading groups of the early 70's playing their own blend of Afro-Rock	1971	Fresh / ZA Fresh CD 108	Psych ZA	18,90 €
HAWK CD - Africa She Too Can Cry Hawk's second album is one of the most beloved albums from South Africa—exciting afro-progressive music of the highest quality—with a complicated history to match its pedigree. The album has seen release three times, but never in as complete a form as this version, which includes the LP version of the album, released in 1973 in the UK by Charisma under the name "Joburg Hawk" (and including the seventeen minute "African Day Suite"), plus five bonus tracks (two singles from 1972, and three tracks from the EMI/Parlophone album "Live and Well"). By the time of this album, Hawk had added the guitar of Freedom's Children member Julian Laxton to their hippy African tribal sound; the result was a wild mix of "traditional" progressive rock and ethnic African music. Singer Dave Ornellas' dark and rough voice perfectly fit with the agitated music and the wild images conjured by the lyrics, which the band say were commentary on their apartheid homeland. This revisionist view may or may not be true, but the band were interracial—a big no-no back at home, and they sported Zulu costumes and war-paint for their many European gigs. This officially sanctioned release includes all the original vinyl tracks, 2 songs from the "Live and well" album PLUS some rare gems.	1972	Fresh / ZA Fresh CD 137	Psych Rock ZA	18,90 €

HAWORTH, Bryn CD - Let The Days Go By/Sunny Side of the Street These two albums, remarkably now appearing for the first time ever as a 2 on 1 CD, were originally released in 1973 and 1974 on the Island record label. Bryn has been called a 'musician's musician' – a first class rock musician whose music has its roots in blues and r&b. He plays guitar and mandolin and is particularly recognised as a remarkable exponent of the slide (or bottleneck) guitar. His is a more gentle and mellow approach than others, which beautifully compliments his highly melodic songs. He came to London from Lancashire in the late sixties to join Fleur de Lys, a motown/soul band which became house band for Atlantic Records in England. When the band folded, Bryn travelled to California and from there toured extensively in the US in various American bands, including the Jackie Lomax Band, and Wolfgang, a band put together and managed by the legendary Bill Graham. In 1973 he returned to England and was signed to Island records where he made his first LP 'Let The Days Go By'. He recorded a further album for Island, ('Sunny Side Of The Street'), and then continued his career as a solo recording artist with A&M Records where he recorded 'Grand Arrival' (in Nashville with J.J.Cale's producer Audie Ashworth) and 'Keep The Ball Rolling'.	1973-7	Gott Discs / UK GOTTCD 003	Rock USA	15,50 €

HAYWARD, Justin CD - The View From the Hill Justin Hayward carries on the legend of the Moody Blues with his latest and best solo effort. As in most MB recordings the beginning starts with an eerie spiritual instrumental before launching into the upbeat "I Heard It". All the songs are also mixed and faded into each other, just like most MB albums. Stand-out cuts include, "Broken Dream" a melancholy look at days gone by and a coming of age; "The Promised Land" focuses on immigrants with a strong beat, clever, fast paced piano and uplifting lyrics and "Troubador", an upbeat rock/folk number speaks about love and hopeful futures. Two songs seem more stringently like storytelling. "Something To Believe In" speaks in a positive way about a family on the edge and "Billy" is one of the saddest, lonliest songs ever written by Hayward. Even with it's bleak outcome, the song never reaches the depths of depression, but one of hope - a common theme in most of his songs. All in all, this album hits on all levels and there isn't a dud in the set. Reaching all extremes in songwriting skills, guitar play and setting numerous moods, this solo effort will be one long remembered. HAZE CD - Color-Dia HAZE played excellent progressive rock with lots of impressive instrumental passages, but their lead-singer's voice sometimes sounded somewhat strange. Nevertheless it should be recommended for all fans of early 70s metal. Digipak CD-reissue with the original color-dia-gimmix-sleeve. Abwechslungsreicher Hardrock, der dem damaligen Zeitgeist Rechnung trug. Der etwas gewöhnungsbedürftige Gesang, wurde durch stark gespielte Instrumentalpassagen wieder wettgemacht. Zudem klangen die sechs Songs echt progressiv, was HAZE auch heute noch für aufgeschlossene Musikfreunde hörenswert macht. HEAD SHOP CD - HEAD SHOP "DO YOU WANT HEAD? BLOW YOUR MIND WITH THE HEAD SHOP ALBUM!" screams a commercial ad in New York's Screw magazine in 1969. Here's the CD reissue from the original mastertape, including bios, photos and 7 bonus tracks. The album was produced and arranged by Milan, aka Rick Rodell, and Max Ellen, both professionals in the music business. The band had garagy roots and evolved from Household Sponge to The Head Shop. Milans project that time was Licorice Schtik. Both outfits released a 45 record, which are 4 bonus tracks on this CD. This New York psychedelic underground project has its unique sound: soulful vocals, flying Hammond organ, fuzzy bass, distorted lead guitars, lots of percussive--and weird--rhythm instruments, plus several unexpected stereo effects. Larry Coryell features as "wailing" guest musician on the track, "I Feel Love Comin on". "Listen with the Third Ear," and this album and 9 musical chapters will lead you into new musical and audiophile dimensions of psychedelic art of music. Contains an 8-page booklet and poster. HEADSTONE CD - HEADSTONE This is the band formed by George Kinney after the break-up of texas psychedelic band GOLDEN DAWN. Joining on drums is 13TH FLOOR ELEVATORS' member Danny Thomas. Some of the rehearsal tapes were recently rediscovered and restored. The result is a brilliant CD with 11 storming tracks by the full band from 1970-1974, plus 5 George Kinney solo pieces. There's a cover of 13Th Floor Elevators' "She lives", all the other songs are previously unheard HEADSTONE originals. HEATHCLIFF, Justin CD - Justin Heathcliff One of the best-kept secrets of the Japanese psychedelic scene. HEAVEN CD - Brass Rock 1 Heaven - Morning Coffee (Theme to a movie), from "Brass Rock One", an awesome double debut album, released in 1971. The origins of this extremely powerful brass rock outfit seem to come from the UK, but we can't confirm this at this time. We can find absolutely no trace of them in any reference books (other than their inclusion in Terry Hounsomes' s Rock Record book), but it would seem as if they're from the UK based on some of the band's guest musicians. Anyway, that minor detail aside, this is an album of hard rock with a biting brass section. The band has two lead guitarists, which is quite different for a brass/rock outfit, but it works really well.. We can't even lie and tell you that we know anything about them because, quite frankly, we don't. It's just good, solid brass/rock with a heavy touch. You may find the vocals a bit heavy on the ear, but don't let that put you off. Take early Chicago (Transit Authority era, that is!), throw in a bit of Blodwyn Pig and CWT, and you have a pretty good idea of what they sound like. HELP YOURSELF CD - 5 Formed in London in 1969, help yourself released four very fine albums which drew heavily on the sound of West Coast outfits like Buffalo Springfield and Quicksilver Messenger Service. In 1973 they began recording their fifth album-however, these sessions were never completed, the album was never released, and the band split. Eventually, in the winter of 2002, the original Help Yourself band members, augmented by drummer Kevin Spacey, gathered once more to finally complete their fifth album. Appropriately titled '5', it is now released here for the first time and it's brilliant, sounding like it was released in 1973. HENDRIX, Jimi CD - Am I Blue - (2CD) Jimi hendrix's other attributes have long clouded the realization that he was a blues man at heart. He loved to write the blues, play the blues or simply jam around on an old blues hook. It is only in recent years that this side of his playing has been allowed to come to the fore and here we present nine superb extended examples of that genre. : Disc one: 1.Lord I sing the Blues for you and Me 2.Country Blues 3.Villanova Junction Blues 4.Stray Blues. Disc two: 1.Voodoo Chile 2.Three little bears/South saturn delta 3. Once I had a Women 4. Cherokee mist/In from the storm/Valleys of Neptune 5. HENDRIX, Jimi CD - No more a Rolling Stone - (2CD) 2 CD set that contains Live At Monterey (the full set) on disc 1and is an historical document as it was the first time he played with his Experience in front of the american public -it's no wonder the band played such a storming set of covers and their own material. The second disc "Live in Stockholm 1967" features a very rare live version of "The Burning of the Midnight Lamp" which he seldom performed. HENDRIX, Jimi CD - Axis Outtakes - (2CD) Originally released in the acid drenched year of 1967 this 21 track double CD set of outtakes allows the listener to hear different vocal takes,piano overdubs and an insight into the band's experimentation with sonic effects that were later removed when the album was produced.These recordings show how history might have been etc. Beautiful artwork adorns the package.	1967	Purple Haze / UK Haze 002 CD	Rock Blues Psych USA	19,50 €
HENDRIX, Jimi CD - Axis: bolder than love - (2CD) Axis: Bold As Love is often overlooked as merely the follow up to the Experience's explosive debut release or the album before hendrix's tour-de-force, Electric Ladyland. This is a huge mistake as the album contains some of rock's finest moments from the driving rock of "Little Miss Lover" to the sheer beauty of "Little Wing" to the psychedelia of "If 6 Was 9". The arrival of Roger Mayer and his startling bag of electronic tricks added to the other worldly feel of the disc. Disc 2 of this contains the Paris Olympia show from 29 January 1968 and despite Axis' presence close to the top of the charts, the set list that night still relied heavily on material from Are You Experienced and earlier. Opening with the explosive "Killing Floor" the rest of the set is very blues focussed including "Catfish Blues", "Red House" and "Driving South" tempered with the more melodic "Wind Cries Mary" and "Little Wing". The Hendrix faithful were catered for too by the inclusion of favourites Foxy Lady, Fire and the show's closer Purple Haze.	1968	Purple Haze / UK Haze 010 CD	Rock Blues Psych USA	19,50 €
HENDRIX, Jimi CD - Winterland Night - (2CD) By the time The Experience played six shows over three nights at the Winterland Ballroom, in S F (October 1968), they were a band in transition. They, particularly Jimi, had tired of banging out three-minute songs to a pop format and were experimenting with longer jams and improvisations, often inviting guests onto stage with them. Ironically many of these jams were based around the very songs that had been so successful as short, sharp shocks (a 13 minute version of "Are you Experienced" is a treat) Also added into the mix were instrumental versions of tracks like Cream's "Sunshine Of Your Love" and Hansson and Karlsson's "Tax Free". Other highlights include the seldom included "Manic Depression" (It is rare to find any live version of this number, let alone professionally recorded) and an early "Voodoo Chile (Slight Return)", which was to close the soon to be released Electric Ladyland. Bob Dylan's "Like A Rolling Stone" had been a rare inclusion, but it is also performed here. Although taken from different shows, these recordings give a flavour of what it was like on those hot October nights, in 1968.	1968	Purple Haze / UK Haze 008 CD	Rock Blues Psych USA	19,50 €

The Royal Albert Hall concert of 24th February 1969 has long been a favourite of Jimi hendrix fans despite a stream of consistently low quality releases of various parts of the show. For the first time ever the 24th concert complete and unedited, with all between song dialogues intact. 35 years on, this concert sounds as remarkable today, as it must have done for the lucky 5,000 who were present. As a bonus we are lucky to be able to hear some of what went on at that sound check in the form of three extraordinary tracks, which open up this set.This of course was the last performance the original experience line up played in the UK.

Limited edition restricted to only 1.500 copies world-wide.				
HENDRIX, Jimi CD - In The Studio - Vol. 4	1969-7	Reclamation / UK RECD 1004	Psych Rock USA	15,50 €
The music contained on this the fourth volume (including an alternate mix of "Bleeding Heart Blues In C Sharp", "Lover Man", a work in progress version of "Power of Soul takes nos.1 to 16" and more) comes from the period 7th November 1969 through to May 1970 and was recorded at The Record Plant in New York. During this period Jimi became involved in what would turn out to be the short-lived Band Of Gypsies project that featured drummer Buddy Miles and bassist Billy Cox. Billy had been playing with Jimi since the break up of the original Experience following a concert in Denver in June 1969. Many people have since claimed that The Band Of Gypsies were never meant to be a long term project but merely an opportunity to fulfil a contractual obligation. Whatever the reason halfway through an appearance at Madison Square Garden in early 1970 the Band Of Gypsies broke up rather spectacularly and Jimi once again began working with Billy Cox and Mitch Mitchell. Some of the key tracks recorded during this period would go on to appear in different forms on albums released following Jimi's death in September 1970 such as Rainbow Bridge, The Cry Of Love and Loose Ends.

HENDRIX, Jimi CD - Truth & Emotion - (2CD) Another great double CD set from the godfather of the modern rock guitar. Disc 1 contains a collection of studio cuts featuring rarely heard songs which never appeared on any albums as well as covers and collaborations. Highlights include a cover of Bob Dylan's "Drifters Escape", a jam through Elvis's "Blue Suede Shoes", "Freedom" a collaboration with the Allen twins & "Message To Love" a tune from the peak of his Band Of Gypsies line up. Disc 2 is a live set taken from the final tour by the original experience line up which as you might expect sees him performing through many of the tunes that he is best known for. Amazing psychedelic artwork adorns the package.	197	Purple Haze / UK Haze 009 CD	Rock Blues Psych USA	19,50 €
HENDRIX, Jimi CD - In The Studio - Vol. 3 Of the many sessions that took place at Electric Lady in the summer of 1970, some of the tracks featured here such as "Belly Button Window" (instrumental), "Freedom", "Angel" and "Drifting" would eventually become key tracks on 'The Cry Of Love' and familiar to the many people who own that particular album. The versions presented here are of course work in progress, however the development of the songs particularly "Angel" can be heard in detail over the course of the four versions included on this release including one full run through with vocals a complete instrumental run through and two break downs shortly after the intro of the song. It is these versions that give a real idea of how Jimi perfected his art in the studio environment. The all original album "HIGHWAY" was recorded in the spring of 1975 at Westminster Studio just outside Fort Dodge, Iowa. 500 copies were pressed and released in the mid-west. A psychedelic hard-rock trio from Mankato, Minnesota. The album consists of long tight songs with great vocals and extended, flowing guitar leads on the better tracks - Look Away, Meadow and Tomorrow. Some of the other tracks are rather more nondescript. Steve Murphy had earlier played with Minnesota's The Epicureans. Murphy incidentally is held in high esteem, nay reverential awe, by Midwest aficionados. The CD Includes four previously unreleased songs and never before seen pictures and is made to look like the original record.	1975	Highway / US 584 N11A	Psych Rock Hard USA	20,00 €

HIGNEY, Kenneth CD - ATTIC DEMONSTRATION Reissue on CD of very sought after, one and only album by Kenneth Higney, originally recorded as demo-album in 1976, not meant to be released at the time and only pressed for promotional purposes. An album full of punky 'Velvet Underground' type of songs, sung by Kenneth with a monotonic voice Lou Reed could only dream of!! Most of the tracks are drenched in, and blessed with, furious acid GUITAR breaks beyond belief, played by one Gordon Gaines (a genius). Taken from the original mastertapes and including 2 bonus tracks. This is an absolute must have for anyone diving deep in the early-mid 70's New York underground. A MUST HAVE FOR ALL DEMENTED HEADS!!	1976	KEBRUTNEY / US ADCD 516	Psych Folk USA	15,50 €
HILLOW HAMMET CD - Hillow Hammet's Hammer Reissue of the much sought after 1969 debut album by these members of the American school of heavy psychedelic rock. From Washington, D.C., the band expressed themselves with an aggressiveness that was uncommon for this genre, aided by the powerful and soulfully raw vocals of singer Chuck Bennett. Cover art anticipates what would become the graphic style of many metal bands in the years to come.	1969	Dodo / Italy DDR 510 CD	Psych Hard USA	15,50 €
HINKLEY'S HEROES CD - Vol. 1 Ex-Jody Grind member's album which is a bit of a Who's Who of UK rock bands. Guest musicians include Alvin Lee, Mel Collins, Mick Ralphs, Zoot Money, Mike Patto, Mitch Mitchell and Poli Palmer amongst others. Tim Hinkley plays keyboards, and this is an excellent set of rock 'n' roll played well with the odd blues and jazz influences tossed into the mix. New nice price jewel-case edition.	197	Akarma / Italy AK 080 CD	Prog UK	9,90 €
HOJAS CD - MIS SUENOS PIDEN Originally released in Uruguay in 1971, the best best band around for melodic rock in those days, what we now call powerpop plus the slow burn ballads. This year they also had hits with "El munda es una flor" and "Caminar en la lluvia". Subtle guitars, dream pop melodies and a driving rhythm section, topped of by the excellent vocals of Cesar Badin. This carefully researched reissue is supplemented by seven bonus tracks, including rare singles and a previously unreleased Badfinger cover. Coming with a detailed, 16 page, booklet, including a brief overview of the Sondor label.	1971	LION / US LION 606	Rock Uruguay	17,90 €

HOLLIER, Tim CD - best of One of the period's more distinctive singer-songwriters, Hollier usually co-wrote his songs, principally with Rory Fellowes. The songs explore isolation, nature, time, ancient landscapes and the world of dreams, but there are also a few pretty love songs. Such serious lyrical fare is uplifted by touches of woodwind and harp, conveying mystery and wonder rather than depression or fear. This compilation contains a selection of the best tracks from his 3 albums he recorded between 1968 and 1971. HOLMES, Jake CD - The Above Ground Sound of... When folk rock singer/songwriter Jake Holmes opened up for the Yardbirds in New York, August 1967, little did he suspect that one of his songs "Dazed and confused" would become one of Led Zeppelin's major live showpieces. Holmes had worked with the likes of Tim Rose before he made this solo recording, originally released on the Tower label in 1967. The album is considered a folk rock masterpiece and was described at the time as "a songwriter, three guitars and a mirror". The guitars are the only backing to his voice on this 10 short tracks.	1967	Radioactive / UK RRCD 049	Folk Psych Rock USA	15,50 €

HOMESTEAD & WOLFE CD - OUR TIMES Originally released in 1975, this lone and unknown privately pressed LP is an artifact so lost in time that it appears in no known catalogue, discography or list of rare records (not even the remarkable Fuzz, Acid and Flowers!!) A stunning folk-harmony group with 2 female lead vocalists, 1 male and a chorus of superb harmonies throughout. This is original, rich, melodic folk-rock country style, the harmonies and arrangements recall the Mamas & the Papas and the Carpenters, however, there's little sunshine in the albums themes which are refreshingly dark. Top flight studio musicianship from Hal Blaine, Ben Benay (Goldenrod, Darius), Al Casey, Ray Pohlman and one of the most renown pedal steel guitar players Jay Dee Maness (Buck Owens, Byrds' "Sweetheart of the Rodeo"). Includes 6 unreleased tracks along along with the original 9, plus a well-researched and detailed 16 page booklet.	1973-7	Anopheles / USA Anopheles 008	Psych Rock Pop USA	17,50 €

HOOK CD - Hookes & Will grab you 1968 debut album by this US heavy psych band featuring the guitar talents of Bobby Arlin (ex-The Leaves). Excellent heavy acid rock influenced by Hendrix and Cream but with a garage feel and the odd pop psych excursion. Tracks like "Plug Your Head In" have some great wah-wah acid fuzz guitar and suitably drugged lyrics. "Dimples" features a particularly wild guitar solo. A minor classic.	1970	Lizard / GER LR 0717-2	Rock Hard USA	14,90 €

This rare album, finally available on both CD and LP, features the amazing vocals of Linda Hoyle (of Affinity and Nucleus renown), often referred to as the "British Grace Slick". But even without these impressive credentials in her portfolio, Hoyle's beautiful solo album stands firmly on its own two feet. It includes several previously unreleased tracks, plus a cover of Nina Simone's "Backlash Blues" and Laura Nyro's "Lonely Woman". The album's line-up includes guitarist Chris Spedding (Nucleus) as well as drummer John Marshall and bassist Karl Jenkins (both of Soft Machine and Nucleus). Unfortunately Hoyle would soon part ways with the music scene, leaving this solo album behind as a final testimony to her amazing talent.

Two albums from the fertile musical mind of Lito Nebbia (former leader of Argentine beat rockers Los Gatos); Huinca recorded one album for RCA in 1972, a rare melodic prog/psych one-off that features more of Nebbia's electric guitar work than any other record of his; the Lito Nebbia album is his third solo record (1972), a highly regarded album demonstrating Nebbia's interest in combining Argentine folklore elements (plenty of acoustic guitar) with progressive-tinged musical explorations.

HURDY GURDY CD - HURDY GURDY This Danish trio (originally called the Boom Boom Brothers) began life as Hurdy Gurdy during a London performance in 1968; Their first and only eponymous album recorded in '71, is considered one of the top 10 Danish rock LPs of all time. The furious guitar playing of Claus Bohling is definitely the band's secret weapon, deftly maneuvering through heavy progressive, blues and jazz. The band brings to mind the first Jethro Tull album, and the influence of Led Zeppelin and Black Sabbath can also be heard, but Hurdy Gurdy are not mere 'sound-alikes', actually their sound is rather unique, particularly in the Eastern-influenced sitar-heavy tracks. 8 tracks.	1971	Akarma / Italy AK 224 CD	Rock Psych Hard DK	15,50 €

ID CD - The Inner Sounds Of	1967	World In Sound / GER WIS 1026	60's Psych Rock USA	16,50 €
"The Id", an incredible 1967 Los Angeles studio musician project. The members of the group were all playing with other groups, but, came together for rehearse, develop and build the album. In July and August of 1966 they recorded the "Inner Sounds of the ID" album, released in January of 1967, just when the new age of rock and roll had begun. The band ID was featured in a full-page advertisement in Billboard Magazine. The single of The Inner Sounds of the Id, "Short Circuit," along with the title cut, "The Id," and "Boil the Kettle Mother," became popular on the underground radio stations in L.A. - Billboard gave the song "Short Circuit" a Bullet and very favorable reviews. The executive producer of the group wanted to debut the band in Chicago. The musicians felt they should open in San Francisco, which was more open for "modern", experimental sound. But, The ID went to Chicago and played there for three weeks. Things did not work out and the band returned to Los Angeles. The musicians went their separate ways. "The Inner Sounds of the Id" features rock and roll with various sounds, oriental influences, played in various time signatures like 17/8, 20/8, and 7/4 time, as well as straight-ahead blues/rock in 4/4 time. The title track, longer than 10 minutes is build as a collage, meditative lyrics transmit the vibrations from the deep inside through a mystic, floating sound and cosmic sitar - rock and roll from inner space. The Inner Sounds of the ID, is always an intense and creative album on highest level of musicianship and proficiency. Here you hear the rocknroll roots drifting into psychedelic and progressive music - not comparable to others, it was ahead of its time and maybe it inspired the Beatles for their "Sgt. Pepper" album or Rolling Stones for "Their Satanic Majesties Request". For a brief look at the musicians in The Id: Bandleader, Jerry Cole started with, "The Champs", who had the hit "Tequila" in the early 60s and later worked together with Paul Revere and the Raiders, Steely Dan, Ray Charles, Chicago, The Byrds, Greg Allman and others. Drummer Don Dexter recorded and played with numerous name artists such as Glenn Yarbrough, Ricky Nelson, and Del Shannon, and performed on The Johnny Carson Tonight Show, Ed Sullivan Show and various other TV shows. Both Cole and Dexter are members of the Rockabilly Hall of Fame. Other members of the group are Rich Cliburn who became the lead guitar player in the hit band, Smith who had the hit, "Baby it's You." Glenn Cass played bass and went into country music and eventually had a TV Show. Norm Cass, Glenn's younger brother, played lead guitar and did arranging for more than 15 years with country music star Gene Watson. This CD contains an extended and informative booklet plus 10 bonus tracks.

ILLUSION CD - Illusion / Out Of The Mist	1977-7	Acadia / UK ACA 8062	Prog. Rock UK	16,90 €
... The ISLAND recordings - Illusion were formed from the remnants of Renaissance and included former Yardbirds/Renaissance member, Jim McCarty as well as Renaissance vocalist, Jane Relf (sister of Keith). The band released two albums for Island "Out of the Mist" & "Illusion" and both are featured in this re-mastered release. The music is centered around Hawken's lush keyboards and Jane Relf's beautiful vocals. The music is still very much the prototype of Renaissance despite the entirely different lineup from the Haslam-fronted band, and the family resemblance is striking. Hawken's use of cascading piano and Mellotron strings as an accompaniment to Jane Relf's lilting voice is bewitching and the albums often lean towards progressive folk-rock and are certainly a must-own for any serious fan of Renaissance.

INCREDIBLE STRING BAND (2CD) CD - U 2CD. "U" was the band's 1970 concept album recorded to go with a live theatre performance. It was at points baffling but nevertheless a masterpiece of work that now suits the re-mastered treatment down to the ground. Heron's "Rainbow" clocking in at 15 minutes is a real treat weaving rock elements into the psych-folk. Therefore, even if U is somewhat underrated, it's still a lot to take in at one time. On repeated listenings, however this whole album starts to make sense and it must have been amazing live! A real lost classic.	1970	Collectors choice / US CCM 288-2	Folk Psych UK	18,90 €
INCREDIBLE STRINGBAND - (2CD) CD - Incredible String Band / 5000 Spirits The debut 1966 album from the ISB was also their most simple. It is this minimalism that allowed the natural radiance of the band's (mostly) original material to be evident in the purist sense, and likewise without many of the somewhat intricate distractions and musical tangents that their future works would incorporate. Moving onto 5000 Spirits from 1967 explored mind expanding and surreal Eastern and Arabic influences. Now remastered and housed in deluxe packaging with new liner notes, rarely seen photographs and period ephemera.	1966-6	Elektra / EU EI 8122765042	Folk Psych UK	20,00 €

INDIAN SUMMER CD - Indian Summer	1971	Repertoire / GER Rep 4357	Prog. UK	14,80 €
INDIAN SUMMER CD - Indian Summer Indian Summer were a British progressive quartet with tremendous potential. Formed in Coventry in 1969, they were managed by Jim Simpson, of Black Sabbath and Bakerloo fame. The members were Malcolm Harker on bass, Paul Hooper on drums, Bob Jackson on keys and Colin Williams on guitar and vocals. The liner notes on the original RCA Neon label pressing, which is quite rare and collectable, we might add, mentioned that Indian Summer were in fact up against Sabbath for the opportunity of signing a record deal. The record company chose Sabbath and history shows us that they made a very intelligent choice. Indian Summer, however, were too good to be overlooked, and a year later, the record company execs were once again called to see how well the band had developed. They were signed immediately and this debut album was released. Immediately after the album's release, however, Harker left to take over his father's engineering firm. He was replaced by ex-Sorrows' Wez Price. They went on tour to promote the band but decided to call it a day when it all came to nothing. Williams retired from music altogether, Hooper joined Jackson in the Dodgers in 1978 and is currently a member of The Fortunes. Jackson would go on to join Moon and later Badfinger, and he also featured with ex-Uriah Heep vocalist David Byron on his "On the Rocks" album. He's also featured with the likes of The Motors, Jeff Beck and Jack Bruce. Indian Summer were a really good band that deserved so much more than what they received.	1971	Akarma / Italy AK 197 CD	Prog. UK	9,90 €

The band introduced a psychedelic/progressive pop sound, previously not heard, with a driving Hammond organ plus the bands unique harmonies. INNES, Neil CD - Taking Off & The Innes Book Of Records Massive 2 on 1 by Neil Innes who is one of the most important figures in British musical comedy/song. He has the rare ability of a side-splitting satirist who can also write, catchy pop songs. After the demise of the Bonzos, he went on to work with, among others, Eric Idle and Monty Python. This CD includes two of his best loved solo albums, released together on one CD for the first time. "Taking Off" from 1977 and is a collection of songs ranging from the corny country of 'Crystal Balls', to the sugar coated offering of 'La Vie En Rose'. In between we have songs about love, death, sex, murder, fantastic places, God and religion. The "Innes Book of Records" was from 1979 which contained the very lovely instrumental 'Theme', plus tales of teenage love in 'Kenny and Liza', and married life in 'Love is Getting Deeper'. JAN DUKES De GREY CD - Sorcerers Finally out on CD! Welcome issue of this rare and superb UK psychedelic folk rarity from 1969. The songs are suitably beautiful introspective, reflective, and mystical. Similar to early INCREDIBLE STRING BAND and MARK FRY it's a mixture of trippy stoned instrumentals with eastern feel. But mostly songs are unique. Nothing compares with this album!	1970	Wounded Nurse / JAP WN 001	Psych Folk UK	19,00 €
JAN DUKES De GREY CD - Mice & Rats in the Loft Rare second album by one of the most legendary underground acoustic folk bands to come out of the UK in this era. Although the band released just two LPs, it achieved cult status and is considered responsible for spawning a whole new genre. Recorded for Transatlantic in 1971, Jan Dukes De Grey's second album was (despite the addition of drummer Denis Conlan) much more free-form than the first. While still essentially a folk album, the band's progressive leanings are far more pronounced, dissolving song structure and taking the audience on a wild, semi-improvised journey. Liner notes by David Tibet (Current 93)! The new label „Breathless“ will re-release on digipack CD some of the most shining jewels of 60s and 70s underground prog-rock, folk and jazz... Here's the first acclaimed title, out on November 18.	1971	Breathless / Italy BM 52001	Folk Prog UK	14,90 €

JANKEL, Chas CD - Chas JANKEL A long overdue CD appearance for the first album from the Blockheads' versatile keyboardist, whose style ranges from jazz rock to funkified Latin pop to good old fashioned Cockney music hall rock and roll. Still leading the Blockheads to this day even after the death of the godlike Ian Dury, Chas's is a superior songwriter whose abilities first came to public attention on this album. The most famous track here is 'Ai No Corrida' (co-written by Yellow Dog frontman/ 'Under The Boardwalk' composer Kenny Young, and later covered by Quincy Jones) which has little connection with the film of the same title (Thankfully! Ouch!!): the album is boosted here by the inclusion of the bonus track 'Little Eva'. The lineup features such luminaries as Stackridge/ Walker Brothers/ Rock Folies drummer Peter Van Hooke (who later composed TV themes with Rod Argent), new age trumpet supremo Mark Isham and Brit jazzier Chris Hunter on tenor sax: a mouthwatering combination. Informative sleevenotes by BBC's Stephen Foster included. Due In: 05/09/2005	1978	Angel Air / UK SJPCD202	Rock Funk Latin UK	16,90 €
JANSCH, Bert CD - THE RIVER SESSIONS Currently basking in the renewed affection of critics and fellow musicians alike, this album is from a live concert in 1974. The bulk of the songs performed here are from his seminal L.A Turnaround album and Santa Barbara Honeymoon, the (currently unavailable on CD) albums immediately before and after this session. What makes this album unique is not only have these tracks never been released on CD before, the songs were originally recorded in a band context, while The River Sessions sees Bert Jansch performing them solo, something he rarely did. Bert tours the UK from June through to The Edinburgh Festival in August. A truly magnificent album !	1974	River Records / UK RiverCD 006	Folk UK	12,90 €

JASPER CD - Liberation In the crowded underbrush of the late sixties British psych/blues scene Jasper was definitely at the head of its class. The quintet's personalized blues style, with Steve Radford's excellent lead-guitar lighting the way (punctuated also by their keen use of flute and harpsichord) is well expressed in the inspired version of "Baby Please Don't Go" and "Ain't no Peace". JONESY CD - Sudden Prayers Make God Jump	1974	NIGHT WINGS / Italy NWRCD 1	Prog. UK	15,90 €
Fourth and previously unreleased JONESY album recorded in 1974. It's a stormer with touches of Yes, VDGG, Gnidoilog and King Crimson but the Jonesy sound throughout. The album was a concept based on a guy experiencing a mental breakdown and the stages he goes through in a mental hospital, (Dark Room) the next track (Running) goes through a nightmarish chase through his own identity and the epic (Bad Dreams) which shows the experiences of every conceivable side-effect of the drugs that he'd been treated with and that's only the first part of the album! This release will be appreciated by prog-rock enthusiasts of the early 70s throughout the world. . Remastered and coming with a poster plus a booklet filled with lyrics, notes and pictures.

JUAN DE LA CRUZ CD - Himig Natin first release of this essential album (1973) by hard-rock powerhouse power trio (a band, not a man) from the Philippines, who flourished in the 1970's—their first studio only album. Totally rocked out bluesy stoner jams, with sex and party obsessed lyrics—"get drunk all day, get down all night"; "I'll just wait for you down in the alley / and I'll show you how it can be"—that are pure rock 'n' roll. It's not clear who's singing (probably the drummer, American Joseph Smith, who previously played in the equally primal Japanese psych/rock band Speed, Glue, & Shinki), but he's got the perfect delivery for this stuff, which includes the garage-psych great, 'I Wanna Say Yeah'. "Himij Natin" features the classic band line-up of Wally Gonzales (guitar), Mike Hanopol (bass), and Smith (drums, acoustic guitar). It's got the aforementioned 'I Wanna Say Yeah', as well as 'Take You Home' (also recorded by Speed Glue & Shinki)—the song with the "down in the alley" lyrics), and the epochal 'Shake Your Brains', among other highlights. No-frills packaging, but still the only way to acquire some of the best stuff by these heavy rock legends. Digitally remastered.	1973	Vicor music / PHI BCD-170	Psych Hard Philippines	19,50 €

JUMBLE LANE CD - THE WORKS, VOL. 6 Described accurately by one reviewer as "going through so many unexpected and bizarre changes as to be completely un-categorisable", JUMBLE LANE was recorded by friends and local students in the summer of 1971. JUNIOR'S EYES CD - BATTERSEA POWER STATION A rather short-lived heavy rock band, whose members backed David Bowie on his first album. Their album, which features some fine guitar work from Mick Wayne, is well worth hearing. They sound like they're enjoying themselves on this collection of imaginative songs with plenty of weirdness. Side one is the sidelong suite Battersea Power Station, actually more an unbanded collection of songs, that evokes a great amount of different atmospheres and yet manages to sound quite coherent. Great guitar work is to be found on Imagination. Side two consists of four tracks, all with an interesting bend to them. Listen to the lyrics of the Tyrannosaurus Rex soundalike I'm Drowning and the musical diversity of White Light. Undoubtedly this comes recommended. Wayne, who'd earlier been with The Hullaballoos, The Bunch Of Fives and The Tickle went on to The Pink Fairies briefly. Renwick was later in Quiver and then The Sutherland Brothers and Quiver, whilst John Cambridge went on to drum for Dib Cochrane and The Earwigs. Mick Wayne died in the USA in 1994. An underrated band who deserve more credit.	1969	Aural Delights / UK Aural 692	Prog Rock UK	14,90 €

JUSTINE CD - Justine First time on CD for this highly individualistic folk album dating from 1970. KAY, John CD - Heretics & Privateers John Kay, leader of one of rock's most venerable bands, Steppenwolf, has returned to the folk/blues roots of his troubador days with the release of his fourth solo recording "Heretics and Privateers". The musical subtlety and emotional depth of the album's 12 compositions feature provocative lyrics which offer a gritty view of contemporary life, surveying the human toll of institutional callousness with unflinching clarity. Kay's lyrics aren't the gripes of a chronic malcontent but the deeply felt observations of a first-generation American whose appreciation of his adopted country's promise and potential is balanced by an awareness of its lapses. On both the album's title track, which pays tribute to those among us who reject society's proscribed roles in favor of more humane value systems, and the spare, acoustic closing track "Te Back Page" which celebrate those whose everyday acts of kindness demonstrate the human race's capacity for selflessness, Kay's ultimate sense of hope and faith in humanity shines through.	2000	Crosscut Records / G ccd 12004	Folk Rock CDN	15,90 €

KHAN CD - Space Shanties (rem. + 2) An excellent bluesy/hard rock album with some jazzy Canterbury influence. The album is centered around the mind-blowing guitar work of Steve Hillage, who would later go on to define jazzy space-rock with Gong. Also present is Canterbury keyboard God Dave Stewart, who at the time was playing in the seminal Egg, but would later be featured in both Hatfield & The North and National Health. Both players are in fine form, making for a great mixture of space-rock and Canterbury influence. There is also a good amount of straight-up hard rock on the album, helped out especially by the very cool vocals of Nick Greenwood, whose timbre reminds me of Rob Halford's lower registers. Most of the songs have a huge vocal presence, and much of the album is based on a repetitive verse/chorus/verse cycle, however in every song the band breaks out into some extended soloing highlighted by some masterful interplay between Stewart and Hillage. Originally released in 1972 by Deram Records, the Eclectic Discs reissue is the album's first appearance on CD in Britain for over ten years and has been remastered from the original master tapes. This expanded edition includes two previously unreleased bonus tracks and extensive liner notes and is sure to appeal to all fans of Steve Hillage.	1972	Eclectic Music / UK ECLCD 1016	Psych Prog Rock UK	14,90 €

KILLING FLOOR CD - KILLING FLOOR Reissue of ultra rare debut album by British blues rockers Killing Floor, originally released on Spark in 1969. The original British cover art (used for this reissue) - depicting a jail cell covered in blood - was changed for its US release making the original album an immediate collector's item. The band released only one more album in 1970 ("Out of Uranus") before going their separate ways. Blues pianist Lou Martin went on to play with Rory Gallagher and guitarist Mick Clarke went on to form Salt in 1974.	1970	Akarma / Italy AK 212 CD	Blues Rock UK	15,50 €

KILLING FLOOR CD - Out of Uranus Killing Floor's second album. That Killing Floor came from the harder side of the late-sixties British blues scene, had already been established on their first album, which featured a crushing style of blues rock that made many of their more illustrious colleagues pale by comparison; Mick Clark's devastating guitar solos managed to set the tracks ablaze, while still staying faithful to the traditional 12 beats. „OUT OF URANUS“ the band's second album, is faster and more rock-oriented than the first, with a few psychedelic forays, that was characteristic of many of the more politicized bands of the time, including: Edgar Broughton, Pink Fairies, and Third World War. "Karma-book" edition now for nice-price.	1971	Akarma / Italy AK 99232 CD	Blues Rock UK	9,90 €
KILLING FLOOR CD - ZERO TOLERANCE Mick's (Clarke) first band, originally formed in 1968, have just released their first new album in 32 years! Over one hour of powerful blues rock featuring twelve brand new band compositions and two blues standards - Slim Harpo's Strange Love and the classic Bring it on Home. Mick's powerful and eloquent guitar and slide blend with Bill Thorndycraft's deep gut vocals and swamp harp. Acoustic guitars add extra texture, complemented by Lou Martin's world class piano. The unique bass guitar style of Mac McDonald drives the band along with Chris Sharley or Bazz Smith providing the percussive power. A unique and unforgettable slab of pure British Blues Rock Class.	2003	Appaloosa / Italy AP 144-2	Blues Rock UK	16,00 €
KILLING FLOOR - (JAP) CD - Out Of Uranus Second album from UK progressive blues-rockers killing floor dating from 1971. KIM JUNG MI CD - NOW Legendary femme acid folk masterpiece available again, now in a jewel box edition; this an elusive album, difficult to explain, an album that seems to require a couple of listens before its excellence can be fully appreciated; Korean fuzz guitar master Shin Jung Hyun and his band The Men are the backing band, with their solid presence (and Shin Jung Hyun's guitar) evident throughout, sustaining a spacey west coast psychedelia vibe; every song has a similar tone, yet I would never accuse the music of being too much the same—a neat trick; if Francoise Hardy is the Marianne Faithful of France, then Kim Jung Mi is, I suppose, the Francoise Hardy of Korea—moody, melancholic, and sexy at the same time; original LPs cost a heady \$1000 each! (not that there are any floating around). A random note: one song from this album featured on the 'Peace, Love and Dreams' series—maybe you've heard it, and wondered where to find the album. And now you know.	197	World Psychedelic / K WPC6 8484	Psych Folk KOR	17,00 €

KING, Reg CD - Missing In Action - (10" LP) A limited edition 10" numbered vinyl EP from the mighty Reg King. This EP captures some pre "Reg King LP" recording sessions which resulted in alternative recordings of some familiar tracks (10,00 Miles, Must Be Something Else Around) and three unreleased songs. Recorded in the summer Of '69 between Reg leaving Action and his first LP, this is a loose attempt at capturing some new songs, strikingly different to how they would eventually appear. The unreleased tracks highlight what a promising songwriter Reg had become, "Merry Go Round" in particular has a glorious late Beatles (or recent Noel Gallagher) feel. Only just out of his Action phase, it's no surprise that "So Full Of Love" shares their jazzy chords and eastern/psychedelic vibe. "Magenta" is wonderfully gentle that builds perfectly to an emotional climax. Restored and remastered recordings. Recommended for vinyl freaks, as this will only appear once in this format, the first run limited to 500 copies. Front cover based on the classic Action poster design, packaged in black/white 60's style EP. Sleeve notes by Mark Raison.	1969	Circle Records / UK CRW E10-101	Prog Psych Rock UK	18,00 €
KING, Reg CD - Reg KING - (CD Ltd Ed 500) CD Ltd Ed 500. Never re-issued before, on either Vinyl or Compact disc, Circle Records take great pleasure in presenting former lead singer of The Action, Reg King's self-titled album. Originally released on the "United Artists" label in 1971 (although it's earlier recordings date from 1969), via production company "Sahara Records", the 'Reg King' album is a neglected 'lost classic'. Long sought-after by collectors, with original copies regularly achieving three-figure sums, this record features all original King/Dale material, with backing from the highly-respected musicians of "B.B. Blunder" (ex-Blossom Toes) and "Mighty Baby" (ex-The Action). Other 'stellar' names making their musical contributions to this album include Mick Taylor, Steve Winwood, Elton Dean and Brian Auger. In addition, a whole host of other musicians at the cutting edge of the British Jazz and Underground Rock scenes of the time assist in different places. A particularly essential purchase for any fan of The Action or Mighty Baby: Check-out the musicianship and Reg's emotive, soulful voice on this, the final stage of his professional career. Remastered for Vinyl and C.D. from the sole-surviving 1/4" masters, this album keeps the original production and mix as intended by Reg, but adds a clarity and 'punch' previously unheard. This is an official release in conjunction with "Rolled Gold Productions" who own the copyright and masters: Anything else you may be offered is a BOOTLEG that pays nothing to Reg. Don't even consider buying anything else until you see this edition! 16-track CD - Featuring the full original album, plus 7 bonus tracks of different versions (early/demo etc.) of album tracks from the sessions, some of which are quite radically different to the 'final' ones! A fascinating look at how the tracks evolved in themselves. Out of the bonus tracks, only "10,000 Miles" with Mighty Baby is common to our vinyl re-issue. Also, the C.D. version of "Nobody Knows Where We Are" is longer/un-edited. Packaging in colour, with 8-page booklet and "UA" label-styled disc. 500 numbered copies on first run.	1969	Circle Records / UK CPWC 106	Prog Psych Rock UK	24,90 €

KIZILOK, FIKRET CD - FIKRET KIZILOK collection of singles by Turkish protest singer much-beloved by young musicians in the underground scene in Turkey, but virtually unknown anywhere else; Fikret started his career playing electric guitar for Cahit Oben Dörtlüsü, which led to appearances in the Golden Microphone song contests that also spotlighted the talents of Erkin Koray, Mogollar and the brothers Hür El; Kizilok frequently collaborated with Bülent Ortaçgil (whose own "Benimle Oynar Misin" album is a lovely artefact of the Turkish scene), and no surprise—it was Fikret's involvement with prominent folk poets as a result of their shared interest in traditional Anatolian folk music which was the foundation of his storied solo career; the fifteen tracks included here (all from 1970-1974) sport some heavy grooves ('Leylim, Leylim', 'Gözlerinden Bellidir', 'Gün Ola Devran Döne', and the fuzz-guitar heavy 'Koyverdin Gittin Beni'), but also tantalizes with moody, introspective musings in an Eastern vein ('Akyin Vari, Akyin', 'Haberin Var Mi, and the sitar-laced 'Köroğlu Dağları'. Hard to say more than to say that this is one of the best discs we have heard in a long time. But then we don't get around as much as most of you. KLENCZON, KRZYSZTOF CD - TRZY KORONY French release. Krzysztof Klenczon was one of the most important musicians in the Polish 60's & 70's rock scene. He was a member of well-known psychedelic 60's group CZERWONE GITARY indeed, and after the group disbanded he soon released some solo albums. This is by far his best, and it's a total masterpiece of Eastern Europe's rock scene. KONG LAVRING CD - KONG LAVRING	1977	Pan / NOR PACD 019	Folk Rock Psych NOR	16,00 €
Once upon a time, in the midst of the 1970's, there was a king, Kong Lavring. Far up north, in the realm of the Norsemen, he ruled. Well, actually he was a band, playing Norwegian folkrock, like few others have done. Not many before them have done so except bands like Convivium and Folque, and then later Ym-Stammen, Storm and Gåte. Kong Lavring was different from them all, as they were digging deep into our treasure of ancient Norwegian folksongs. Although electrified, the national tonality of the folksongs was kept, as well as the pure and local language. The band released two heavily overlooked albums in the midst of the punk/new-wave explosion, on a small label, in a small quantity. These two albums are much coveted and sought after by the international collecting scene today and commands rather high prices whenever offered for sale. Pan Records are proud to re-introduce this beautiful music to the world for the first time on CD. The return of the king, long live Kong Lavring !

Debut on CD for this more advanced fusion of ethnic music and eastern music from Turkish psychedelic master Koray; this is actually his third album (second for the Dogan label), and is the 1976 follow-up to the immensely excellent "Elektronik Turkuler"; the album tracks themselves were recorded (from what I can find out) between 1972-1976, and were first issued as singles; five bonus tracks are great! and come from 1967, 1968, and 1971... as well as an undocumented acoustic version of 'Yalnizar Rihimi' from "Turkuler"; lyrics and photos in 8-page booklet				
KORAY, Erkin CD - ERKIN KORAY	1968-7	World Psychedelic / K WPC6 8494	60's Psych TR	17,00 €
First proper reissue of Korays first album, an absolutely over the top debut album by the Turkish psychedelic guitar guru, which is not only the rarest of all of his albums, but also the rarest Turkish psychedelic album of them all; the record was released in 1973, but is actually culled from Korays singles from the previous five years. This wide range of dates (1968-73) encompasses a pretty potent period in music, and makes for great variety; some tracks have a kind of pre-psychedelic vibe, while others have the swirling hashish heaviness of that most elusive thing, a sound that one might deem "pure psychedelia"; in any case, every track has that unique Eastern feel that Koray brings to all his recordings. The end result is definitely on a par of greatness with "Elektronik Turkuler", which makes this a must have album for any psychedelic head! And as if that wasn't enough, there are eight incredible bonus cuts from the same period as the album tracks, only ever released as singles, that include some of the most blistering material Koray ever recorded. Wow! Liner notes have plentiful information on Erkin Korays early career, as well as lyrics for some songs... alas, only in Turkish.

He was never a superstar or a household name, but his voice was familiar to millions and few men have ever had a bigger influence on the history of British rock. KROKODIL CD - KROKODIL	1969	Second Battle / GER SB 052	Rock Blues Psych CH	15,00 €
During the early 70's this Swiss KROKODIL was one of the most exciting imports in the German rock scene. Its debut album which was released in 1969, contained blues-inspired rock with many progressive touches. No wonder that KROKODIL was often seen as a Swiss version of the GROUNDHOGS. This album is mega-rare now and hasn't been re-released before. This digipak-CD designed by ex-member Düde Dürst features three bonus-tracks and a fantastic poster as well that show many previously unseen photographs from the early days of the band. Vinyl-freaks should note that an LP version will follow soon In den frühen 70igern zählte das schweizerische KROKODIL hierzulande zu den beliebtesten Rockimporten. Das Debütalbum von 1969 - es erschien auf UA-Liberty - hatte bluesorientierten Hardrock mit differenziert-progressiven Arrangements aufzuweisen. Kein Wunder also, daß KROKODIL gerne als die Krautrock-Antwort auf die GROUNDHOGS verkauft wurde. Da es die LP schon lange nicht mehr gibt, ist das erstklassige Repertoire eine ganz besondere Bereicherung des Second-Battle-Angebots. Die Digipak-CD hat dazu noch 3 frühe non-LP-Titel als Bonustracks und ein tolles Poster mit vielen bisher ungesehenen Fotos aus der Frühzeit der Band. Gestaltet wurde dieses Reissue übrigens vom Schlagzeuger der Band „DÜDE DÜRST“. Vinyl freaks aufgepasst : In Kürze erscheint auch eine Vinyl Ausgabe.				
KROKODIL CD - SWAMP	1970	Second Battle / GER SB 053	Prog CH	15,00 €
Compared to the band's debut album, "Swamp" presents a less blues orientated sound. This time the Swiss KROKODILes put much more emphasis on virtuosity. Thus Hardy Hepp's violin and far-eastern sitar sounds gained more importance. The timeless melodic writing also brought a different kind of appeal. A great artistic development for the band without ever drifting into the mellow waters of pop clichés! All recordings are digitally remastered, and in addition there are 2 unreleased tracks and a rare soundtrack title as a bonus. 6 page Digipak and 12 page booklet with bandstory. "Swamp" präsentiert einen weniger bluesorientierten Sound als der Erstling. Die KROKODILE legten diesmal mehr Wert auf virtuose Feinheiten. So rückten Hardy Hepps Geige und fernöstliche Sitarklänge weiter in den Vordergrund. Dazu bot das zeitlos melodische Songwriting viele neue Reize. Eine tolle künstlerische Weiterentwicklung, ohne dass die Band jemals in seichte Pop-Klischees abdriftete. Alle Aufnahmen sind digital remastered Bonus-Tracks, dazu gibt es 2 unveröffentlichte Songs und einen raren Soundtracktitel. 6 seitiges Digipak und 12 Seiten booklet mit der Bandstory.

KROKODIL CD - An invisible world revealed	1971	Second Battle / GER SB 054	Prog. Psych CH	15,00 €
KROKODIL goes progressive rock: This album isn't called a 70's milestone for nothing! You can hardly describe in detail what the band, working closely with sound wizard Dieter Dierks, accomplished here. To put it short: "Invisible World" simply contains each and every trademark of the genre - great song writing, absolutely far out arrangements, highly imaginative solos and psychedelic mellotron and sitar sounds. Digitally remastered and with two long sessions as bonus tracks (22 minutes) - all in high quality sound. 6 page Digipak and 12 page booklet with band story. KROKODIL goes Progressive Rock. Nicht umsonst wird das Album weltweit als ein Meilenstein der frühen Siebziger bezeichnet. Was die Band hier in enger Zusammenarbeit mit Soundtütfler Dieter Dierks zuwege gebracht hatte, ist im Detail kaum zu beschreiben. Kurz gesagt, enthält "Invisible World" einfach alle Trade-Marks des Genres: tolles Songwriting, völlig abgefahrene Arrangements, fantasievolle Soli und psychedelische Mellotron- und Sitarklänge. Digital remastered und mit zwei langen Sessions (22 Minuten) in exzellenter Qualität als Bonustracks. 6 seitiges Digipak und 12 seitiges booklet mit Bandstory.

LA IRA DE DIOS CD - Hacia el sol rojo First album by a three-piece band from Lima, Peru. Like many other south-american bands they sing in spanish. Instrumentally the band combines early 70's space rock elements and kraut attitude with recent stoner power in a very natural and unique way. The intensive psychedelic guitars and the mighty pumping bass and drums create a very close, hypnotical jamin' and sometimes dark glowing spiritual atmosphere. Some quiet psychedelic passages change with mighty spaced soundscapes which build up like a heavy thunderstorm over the Macchu Picchu. compact disc: digipack + booklet.	2005	Nasoni / GER NR 039 CD	Psych Rock Peru	15,00 €

LAGHONIA CD - Unglue	1967-7	Recycled / EU REPSYCH 1001	Psych Prog Peru	22,00 €
This release is one of " these" hidden treasures, 100% unreleased material by one of the best 60s & 70_ South American Rock bands, Laghonia, known for their two legendary and rare collectible albums, " Glue" & " Etcetera" , just re- released by World In Sound (CD & LP). Laghonia is a unique Peruvian band, one of a few in South America that sing English lyrics and used Hammond B2 organ in the studio and live performances, playing only original compositions influenced by The Beatles, The Kinks, The Yardbirds, Cream and many others. Their first album, Glue is one of the top collectibles from South America. Now, you can even listen what was behind that album in this release. Its 54 minutes of music, recorded at rehearsal sessions for their first album between 1967 and 1970, contains two unreleased tracks and amazing alternative versions of Glue album tracks. This release is licensed by the band, comes in a good quality mini- lp foldout package, includes an insert (cool photos) and original artwork by Manuel Cornejo. It is the first release of the Peruvian label Re- Psych- Led - and there are lots of surprising and intense and authentic moments, highly recommended for psychedelic beat / garage fans!				
LAGHONIA CD - Glue	1969-7	World in Sound / GER WIS 1022	Psych Prog Peru	18,50 €
The core of Laghonia is a combination of Peruvian and US members, Saul Cornejo Vocals, Guitar, Manuel Cornejo on Drums, and David Levene on Lead Guitar and Vocals. All eight album tunes were released on 45's under the group name New Juggler Sound. When the band changed name into Laghonia in 1970 the Glue album came out as a kind of New Juggler Sound 45 rpm compilation. The music is catchy psychedelic Rock'n'Roll stuff, with lyrics in English, intense fuzz, wah-wah Guitars, Hammond B-2 organ and a massive, variative percussion sounds. The songwriting is Beatles/Yardbirds-influenced and the music goes into Santana, Cream, Hendrix and other different directions. 4 bonustracks and a bio round off this masterpiece of the complete New Juggler Sound recordings perfectly. Comes in a high quality digipack cover (same material as the Mystic Siva CD) with an extra 8 page booklet and amazing original artwork by M. Cornejo. Both Laghonia albums, "Glue" and "EtCetera" belong to most legendary and best South American psychedelic collector albums, besides "La Revolucion de Emiliano Zapata", "Modulo 1000", "Toncho Pilatos", "Traffic Sound".. - Soon you will see the second World In Sound release of Laghonia, the "EtCetera" album with outstanding original artwork. Both a must for Sixties Garage- and Psychedelic- Rock freaks.				
LAGHONIA CD - Etcetera	1971	World in Sound / GER WIS 1027	Psych Prog Peru	18,50 €
This is Laghonia's second album, originally released in 1971. The band improved their songwriting, got more complex, and reminds sometimes of early Jethro Tull, King Crimson music, sometimes progressive, sometimes folkie or mystic, but always intense and catchy, excellent fuzz and wah-wah guitars, magic Hammond organ and a variety of rhythms, all english vocals. Comes in an extra-thick Digipack cover, with an extra 8-page booklet, plus 4 Bonustracks (incl. 2 previously unreleased songs).				
LAGUARDA, Pep & Tapineria CD - Brossa D'Ahir - (Digipak)	1978	DISCMEDI / E DM 899	Folk Rock E	15,90 €
New, cheaper, digipack edition of this fantastic Spanish folk-rock record. This, the only album released by Pep Laguarda, was originally released in 1978 on the Ocre label (a sublabel of the infamous Belter), and today more than ever gets amazing reviews and feedbacks everywhere. Pep was helped by people like Daevid Allen and Pau Riba on this legendary album. Musically, it's the very highlight in the Spanish folk-rock history; melodic, hippie, well-crafted and with a strong Mediterranean feel, all these songs seem to be as young as they were in 1978.				
LAMP OF THE UNIVERSE CD - EARTH, SPIRIT & SKY	2005	Hand-Eye / NZ HECD 021	neo-Psych NZ	14,50 €
New Zealander, Craig Williamson's Lamp of the Universe project has brought forth two albums since its inception in 1999, "The Cosmic Union" and "Echo in Light" (three albums if you count his first solo album, "Lotus of a Thousand Petals" released under his own name). However, "Earth, Spirit, and Sky" finds the Lamp of the Universe shining brightly in a more heartfelt, song-oriented, and stripped back effort. "Earth, Spirit, and Sky" reaches the heights of psychedelic folk - driven by sitar, acoustic and electric guitars, flute, and voice into epic zones inhabited by the likes of The Incredible String Band and Fit & Limo. "Earth, Spirit, and Sky" is beyond "new weird america" or some 60s nostalgia - it lies within the heart of timeless psychedelia and explorative music. Wonderfully packaged in 100% recycled cardstock 'arigato pak.'				
LANDSLIDE CD - Two sided fantasy	1972	Akarma / Italy AK 238 CD	Psych USA	9,95 €
In 1972, five Italian Americans from NYC came together to produce this album for Capitol, to drop of the radar without a trace soon after. The album is immediately convincing for its freshness and for the originality of the material presented. In the liner notes the band indicates influences like Led Zeppelin, Cream, Johnny Winter, Allman Brothers and Ravi Shankar. Perhaps the best Johnny Winter can be heard in tracks like "Doin' what I want" and "Creepy feeling".

LANGSYNE CD - LANGSYNE According to the sleeve of their eponymous album, "langsyne" means "for a long time". Lang'syne's elusive private pressing was released in 1976, and is now practically impossible to find. That's a shame, as it contained seven songs of excellent folk-rock! Their sound was different from many other German folk-rock artists - they sang in English, and overall there was a mystical atmosphere like that of the British (& Irish) groups Calinnan & Flynn, Isolation, Moonkyte, Stone Angel, Trees, etc. Remastered Digipak version incl. 1 Bonus track.	1976	Rebirth / GER Rebirth CD 001	Prog. LEARY, Timothy - The Psychedelic Experience CD - A Manual Based On The Tibetan Book Of The Dead	1966	Locust / Italy Locust 27	Psych USA	16,50 €
"The readings presented here can best be regarded as radio-signals sent out from a satellite tracking station to the explorers floating freely through space. The instructions can be attended to or ignored but at least they provide a kind of basic signal around which the voyager can orient his explorations. We dedicate this recording to the many men and women whose accounts and reports of their explorations in the interior universe have helped us prepare these maps." - Timothy Leary and Ralph Metzner. The Psychedelic Experience is a rare, early document of the emergent hippie era issued in 1966 on Moe Asch's Broadside records. Join the legendary father of LSD with Ralph Metzner & Richard Alpert (aka Ram Das) as they indulge in the fruits of their "research". Two extended tracks of spoken meditations accompanied by occasional Tibetan Bell: "Going Out" and "Coming Back" naturally line this journey. Two guys, half American, half German + two guys from Munich recorded this album for CBS in 1971, produced by Julius Schittenhelm (famous for OHR-productions). Not unlike 'Sitting Bull' they played an American stylish music with a West-Coast feel, combined with typical krautrock influences. Occasional flute and trippy guitar playing and great vocals. This relative unknown album is a real revelation. Taken from mastertapes with informative booklet.				
LIFT CD - MOMENT OF HEARING	1972-7	Syn-Phonic / US SYNCND 19	Psych Prog. USA	16,90 €
US import. Their 'Cavern Of Your Brain' LP is a sought after US progressive rarity but this collection of 70's recordings is actually way better. Issued by the band itself, taken from original masters. Excellent example of the early seventies progressive scene. Featuring incredible keyboard work that is very reminiscent of early Wakeman (Strawbs, Fragile, Six Wives) as well as Tony Banks circa "The Knife." Originated in New Orleans. Lift is a good American progressive band who recorded on album's worth of material in 1974 that was never officially released until Syn-phonic released it on CD. The music is keyboard dominated. At times you will be reminded of Tony Banks and other times you'll be reminded of Emerson or Wakeman. The music is pretty good for a first attempt. Four long tracks that are well developed. These guys might have really been something had things worked out. Overall, this is solid music and definitely worth an audition.

This is the second official CD release by the German psychedelic rock band from Berlin in three years. Their other releases have been on vinyl only and either cover songs or long freakout jams. This also features quite a new line up of the band from the previous recorded material. The digipack CD has great psychedelic artwork and contains a picture of the band and all the lyrics. "State Of Mind" starts the CD and stays in the tradition of the band in that they successfully create good melodies and a 60's music vibe while retaining a more modern sound. Some great freakout guitar and studio effects. Clearly, the first two songs are targeted for a broader listening audience as they are in the 5 minute range, while all the rest of the songs on the CD are 7 to 15 minutes long. This is a great CD and for sure the best thing the band has ever recorded. Strong songs with good melodies but still plenty of psychedelia for the fans and some really experimental stuff at times as well. I was really taken by the almost heavy metal guitar riff in Paralyzed at the end. Great spaced out song. One of the best psychedelic CDs of the year for sure! See also ZONE SIX.

This 27 track collection includes everything he recorded during that time bar the odd alternate take. Also included are six bonus titles on which he featured prominently as a guitarist. Three of these with pianist Willie Love predate his Sun recordings, whilst the other three feature Milton accompanying singer Houston Boines on his only ever Sun recording. CD - LOADING ZONE This is the debut album from San Francisco 60's band, LOADING ZONE, originally released in 1968 and now available on CD for the first time. Built around the vocal talents of Linda Tillery they recorded this one album for RCA and, like many bands of that era, disappeared from sight by the early 70's. The band's Patrick O'Hara went on to play with Boz Scaggs. Linda Tillery later recorded as "Sweet Linda Divine" with Al Kooper and is now a member of the highly respected modern accapella group, "Cultural Heritage Choir".		ACA 9012	USA

WUN is a superb example displaying Gerry's talent as a folk and blues singer. The album originally released in 1972 on Polydor.		HMP CD 029	UK	
LOCOMOTIVE	1969	Eclectic / UK	60's Psych Prog	18,00 €
CD - We Are Everything You See Recorded at EMI's Abbey Road Studio, Birmingham-based Locomotive's We Are Everything You See, which appeared on the Parlophone label in 1969, gave an opportunity to producer Gus Dudgeon to score another commercial success after his Space Oddity collaboration with David Bowie and, more surprisingly, his and Locomotive's ska-influenced Rudi's In Love that became a Top 20 hit in 1967. Although the track helped to propel Dudgeon into the big time, it saddled Locomotive with a hit so far removed from their natural style of psychedelic prog rock with soul, jazz and even classical influences, that the band was never really able to move on. Featuring writer/arranger, vocalist and keyboard player Norman Haines, as well as the legendary sax player Dick Heckstall-Smith and flautist Chris Wood, We Are Everything abounds with swirling organ, distorted vocals, phased drumming and jazzy tempo changes which bass player Mick Hincks and the rest of the band evidently delight in. Although the album was brilliantly recorded and featured several outstanding tracks (including the truly excellent Mr Armageddon which was to appear on EMI's '90s CD release, Psychedelia At Abbey Road), it did not achieve the degree of success that all the participants had hoped for. Dudgeon went off to establish his long-standing and financially rewarding relationship with Elton John, Chris Wood left to join Traffic, and Norman Haines promptly disappeared. By a strange quirk of fate Parlophone did release an album of the ensembles' additional recordings. Under the Norman Haines Band banner, the bastard child, entitled Den Of Iniquity, was to become one of the rarest and most highly collectable psych-prog albums of all time! Radioactive Records has returned We Are Everything to its spiritual roots at Abbey Road where it was mastered from the original analogue 1/4 tapes by Steve Rooke for this 2004 180g reissue. Limited edition.		ECLCD 1006	UK

LOYDE, Lobby CD - LIVE WITH DUBS Lobby is an undisputed legend of aussie rock and our first real guitar hero. His body of work, featuring the Purple Hearts, the Wild Cherries, the Aztecs and the Coloured Balls, is unrivalled - these are bands that helped to change the face of aussie music in the sixties and seventies. the first Lobby Loyde reissue is the mega rare 1980 title: live with dubs. By and large something of an unknown quantity, live with dubs is now considered by aussie guitar rock aficionados to be one of the best albums of its type released at the time. The redoubtable Lobby Loyde has long been considered one of Australias master guitarists. A player of considerable confidence, proficiency and technique, by the time he came to record live with dubs, Loyde was a near 20-year veteran of the local scene. In 1979, after spending 2 years in UK, Loyde returned to australia. On the way, he stopped off in la in order to catch up with his old Aztec mates Billy Thorpe and drummer Gil Matthews, then preparing for the release of Thorpies first American album children of the sun. Loyde had a few ideas up his sleeve for a new three-piece touring band, and he knew matthews would fit the bill. Within weeks of his arrival back in melbourne, and with matthews available for a month, Loyde had embarked on a 28-date national tour. The bass player was Gavin Carroll who had previously worked with the Sinclair Brothers and hush. Radio 2-jj (the precursor to radio nationals youth oriented triple j) recorded a gig at the manly flicks for a live-to-air broadcast. When it came to mixing the album it was found that the vocal mics had malfunctioned, so Lobby got Mandu (from Lobby Loydes southern electric) and Angry Anderson (Rose Tattoo) into the studio to record the vocal tracks. The resulting lp was released in 1980 (as a very limited pressing) and has always been difficult to find. live with dubs has been remastered from the original master tapes, has 7 bonus tracks and an extensive booklet with rare photos & liner notes by noted aussie rock writer Ian Mcfarlane - all packaged together in a deluxe 6 panel digipak. the bonus material, sub-titled live without dubs, was recorded 20 years later. With stalwart bass player Gavin Carroll on hand, the band (christened Ball Power) played a mix of coloured balls and southern electric material. The sound was as dynamic as loydes previous Aggregations, as demonstrated by the four live tracks: familiar "balls" songs g.o.d., flash and human being plus a radically rearranged version of the Elvis Presley standard heartbreak hotel.	197	AZTEC MUSIC / AUS AVSCD 013	Rock Hard AUS	20,00 €

LUCAS, Tom CD - Red Letter Day Originally only available on a private press this New York electric folk/rock singer-songwriter made an extremely fine album which had tight song writing and occasionally politically motivated (particularly the title track with its eye glancing towards Woody Guthrie's tribute to Sacco and Vanzetti), and the music often risky and experimental. Lucas's vocal style is almost pure Neil Young (although on Broken Wheel his New York roots do make him sound very similar to Lou Reed), and at times Red Letter Day feels almost like the album Young never got around to making. Originally released in 1976 this then, is the first real opportunity for a great album to be enjoyed by the wider audience it surely deserves.	1976	Radioactive / UK RRCD 075	Folk Rock USA	14,90 €

LUCIFER CD - LUCIFER Reissue of rare (\$1500!) and heavy garage rock from 1970 by this New York band. Sounding at times like early Grand Funk Railroad and Iron Butterfly it's a storming album with strong guitar work, and tight vocal harmonies. At times the pace is more laid back such as during the excellent version of "Get Together". Overall high quality late '60's rock with a psych edge and all the right guitar moves! Housed in a mini-card gatefold LP sleeve.	1970	Akarma / Italy AK 044 CD	Psych USA	12,90 €
LUCIFER CD - Big Gun digipak CD. Who is Lucifer? According to the liner notes (and photos), the group were four musicians who often played together in a cave in Arizona, and perhaps in the acid-ravaged mind of Peter "Lucifer" Walker (ex-Purple Gang) this version was a reality. But for the rest of us, Lucifer was Walker's solo project (meaning, he invented the other guys). Recorded in 1972 in the UK (and thankfully not in a cave), and originally released on Private Press. Like the original release, the LP and CD are all black, with a poster insert with photos and track listing. This is an essential cult item! (And the moral of the story: just say no to drugs!)	1972	Dyna 030 CD	Psych Rock UK	15,90 €

LUCIFER WAS CD - BLUES FROM HELLAH This third album from the Norwegian progressive legends LUCIFER WAS offers a well though album that contains a little more blues influenced style. It is also more symphonic as they add more orchestration than before. The flutes and dreamy vocals are as present as always, with a clear JETHRO TULL influence. Mr Axeman delivers some excellent bleeding guitar solos, especially in the CAPTAIN BEYOND cover "Armworth". This is a release filled with magic and love for the 70's scene – a time when music had no limits. Highly recommended!	2004	Transubstans / S TS 001	Rock Hard NOR	14,90 €
LUCIFER WAS CD - Underground and Beyond Reissue in digipak format, coming with 2 bonus tracks from the early days, definitely part of their heaviest material. They are an original hard psych/prog/rock band of the 70's with a mellower DARK PROGRESSIVE touch. They can be described as a cross between classic BLACK SABBATH & classic JETHRO TULL, which is nowonder, knowing this band already existed in the 70's were they toured with the likes of AUNT MARY, FLAX, and HOST. Including here is a HEAVY/PROG version of Grieg's 'Hall Of The Mountain King'. It's a shame they never made an album back then.	2004	Transubstans / S TS 006	Rock Hard NOR	14,90 €

LUCIFER'S FRIEND CD - LUCIFER'S FRIEND The history of this Hamburg based progressive hard rock outfit is complex, confused and not that well documented. What is known is that the band evolved from two Hamburg 60's bands, The Giants and German Bonds. Around 1969, a consistent nucleus of five members established a band called Asterix, which was an early incarnation of Lucifer's Friend, various members of the band can also be found on records by the likes of „Electric Food“, „Pink Mice“, etc.... Once established, Lucifer's Friend were primarily a studio band, as all the musicians had other careers within the music industry. Indeed, a number of the band members were also used as backing musicians in the James Last band! The band was formed by Peter Hecht on keyboards, Dieter Horns on bass and vocals, Peter Hesslein on guitars, Joachim Reitenbach on drums and English vocalist John Lawton. This debut album, released in November 1970, is generally believed to be the best debut album of any of the German bands at the time. MAD DOG CD - 617 Heavy bluesy power trio with smoking leads and a punkish sludge sound. This is a weird minimalist hard rock album. The cover is a b/w drawing of an outer space scene with a bunch of headless naked female bodies, and the record is just as stark and mysterious. Though the cover says the songs were recorded between 1974 and 1976 the music has an early punk rock feel with thick distortion on the rhythm guitars and no apparent instrumental overdubs. The drumming is nice and frantic, This is a curiosity because it's completely bleak, it sounds like nothing else and appears to have no specific influences. Limited to 1000 copies.	1974-7	Mister Nobody / US MN 3	Rock Hard USA	19,50 €

MADDEN & HARRIS CD - FOOL'S PARADISE This Australian duo is responsible for an exceptional fusion of progressive rock and folk, as the grooves of this album, originally released in a limited edition of 500 copies, prove. Published by Jasmine Records in 1975, Fools Paradise manages to raise from its folkish background to a fuller rock experience, with the addition of mellotron and vintage keyboards. Dave Madden and Peter Harris are here backed up by a great rhythm section composed by Paul Baker (bass) and Doug Gallagher (drums) for an amazing session that reaches its apex in the suite that gives the name to the album. MAGIC MIXTURE CD - This is the Magic Mixture Available again! 1968 UK heavy-psych classic, originally released on the budget Saga label. The modest cover art and relative band anonymity betray an accomplished collection of twelve original tracks, with solo guitar blasts and zonked harmonies a'plenty, anchored by some thunderous Hammond. A blanket of warm, hazy production makes this every bit the equal of labelmates The Five Day Week Straw People, and both nestle comfortably next to the filler-free full-lengths of "underground" icons Second Hand, Open Mind, The Art, etc.	1968	SkyF Zol / US DP 2125	60's Psych Rock UK	19,50 €
MAGIC PIE CD - MOTIONS OF DESIRE Here's what some reviews say: The norwegian answer to a fusion between Pink Floyd, Dream Theater, Flower Kings, Ayreon, and x numbers of 70's proggers...Motions of Desire sets a new standard for Norwegian melodic progrock.....progressive sound of the 70's meeting the modern progstructure in an enourmous style variety fitting the magic cake...a very beautiful progrock disc which ended much too soon despite the 75 minutes playtime.... Even though choosing a very severe style, they decently bring both their complex and uncomplicated music to a successful conclusion...with the actual contents of the sound they have managed to achieve a great deal of the "genuine" sound which we recognize from the "seventies classics".. a mixture of The Flower Kings with Spock's Beard and some Symphony X elements in the bands personal sound.	2005	Progressive Records / PRCD 015	neo Prog Psych NOR	14,90 €

Released in 1978, this album is one of their most popular, vibrant and accessible. With the emphasis on rhythm and rumbling bass, driven along by the drumming talents of Christian Vander. Including the explosive opening track, 'The Last Seven Minutes', and some amazing H.R. Giger artwork, this is something of a masterpiece. MAGMA CD - K.A - Kohntarkosz Anteria After 20 years of evading the point Christian Vander has finally deigned to the return to the masterwork style which brought us all to his door in the first place. The hypnotic tension, the explosive climaxes, the fantastic pyrotechnic drumming, the massive and intricate vocal arrangements, the gut-wrenching bass lines and the classical pomposity fused with almost jungle-strength R n' B - all the hallmarks of Christian Vander's special genius are found here intact.	2004	Seventh Records / F SR A 34	Rock Avantgarde F	22,00 €

MAINHORSE CD - MAINHORSE The Mainhorse album is an unabashed progressive rock album and over the years has built up a sizeable fan base although its scarcity ensures that the price it commands puts it beyond the casual listener. Tracks featured are "Pale Sky", "Passing Years" and the extended "God" which is considered a highlight of the album and a good showcase for the style that Patrick Moraz would go on to popularise in Refugee, Yes and his solo work. The album has never been commercially available on CD making this release its debut in that format. Strong demand in the collectors market will ensure sales for this release allied with demand from the large and dedicated Patrick Moraz fan base and fans of progressive rock for which the album has long been a cherished release. The album has been re-mastered personally by Patrick Moraz for this release.	1971	I-DISK / UK IDVPCD 1	Prog. Rock UK	16,90 €
MAIRS, Julie & Chris STOWELL CD - Soft Sea Blue Julie came to the Midlands from Gloucester in 1975. She soon became resident artiste at the very popular Cherry Tree Motel Folk Club, Alcester and there she joined forces with Chris Stowell who had just recently arrived in the Midlands from London where he had been studying the piano and clarinet at the Royal College of Music. He has since become proficient on guitar, banjo and saxophone. Julie has a beautiful voice and sings with exceptional control, clarity and feeling while Chris is a brilliant instrumentalist and a very talented songwriter. Their talents blend perfectly and make them one of the most exciting duos currently on the folk scene. Now spending much more time on the road and getting ecstatic receptions wherever they go. Recorded by a freak who hung out with members of The Beach Boys and the Monkees (he actually wrote the song Salesman) Maitreya Kali (Craig Smith) recorded these tracks between '67-'71 in between travelling in Peru and the Far East. The result is an incredible set of songs that explore trippy '60s styled psych and bonged out hippy folk, all of which is laced with a weird, mystical vibe.	1967-7	Shadoks / GER SM 005 CD	Psych Folk USA	19,95 €

MAJORITY ONE CD - Rainbow Rocking Chair	1965-7	RPM / EEC RPM 307	Rock Pop UK	15,50 €
Originally known as late 60s Hull-based popside act The Majority, who released eight collectable Decca singles betwixt 1965 and 1968, and were Barry Ryan's backing group on 'Eloise', Majority One came to be when the band relocated to France in 1971, where they enjoyed their greatest popularity. Their biggest hit 'Because I Love' entered the Top Ten in Italy, Holland, Belgium and Brazil, sporting a sound somewhere between classic Moody Blues, Bee Gees and McCartney, which sounded three years out of date but somehow totally contemporary. No wonder it's so highly sought after by psych collectors everywhere- as are the tracks by their alter ego Black Label, also included here. With full sleeve notes by the bandmembers. Recorded live at the Roundhouse on 13 February 1972, The Greasy Truckers was a vaguely charitable organization; this was from one of two events; similarly minded bands also appeared on stage and on the original vinyl (Camel). The band had recently lost organist Clive John, but the four piece Jones - Leonard - Ace - Williams lineup nevertheless was a convincing, cohesive unit.

MANDEL, Harvey CD - Cristo Redentor & Selected Sessions 1968 debut from Detroit guitar wizard and it's a psych rock classic! Fluid guitar lines over a varied selection of tunes ranging from jazzy blues-rock (similar to Electric Flag) to orchestrated, haunting songs and even a bit or rural country rock (Steel guitarist Pete Drake appears). Mandel later went on to replace Henry Vestine in Canned Heat and even auditioned for the Rolling Stones in the 70s (he appeared on 'Black & Blue') only to be beaten out by Ron Wood. MANY BRIGHT THINGS CD - Many Bright Friends The CD opens with the twenty-second title track, followed by the twenty-minute centerpiece: The Paul Butterfield Band's John Coltrane/Ravi Shankar-inspired masterpiece, "East West." Across its twenty minutes and forty-four seconds no fewer than five guitarists step into the center ring with solos that begin with Larry Demyr (Windopane) and include back-to-back fiery electric sermons by Nick Saloman (Bevis Frond) and Al Simones. Add to all of that Florida blues harpist, Michael "Byrd" Birocco channeling the late Paul Butterfield and you are in for a wild ride. "The Silver Witch" is written and performed by Alisha Sufit (Magic Carpet) accompanied by Frank DeFina on a beautiful Stephen Gilchrist F-5 mandolin. We think this song opens the second side of the vinyl as nicely as "Within You Without You" opened side two of Sgt. Pepper. Alisha's voice reminds us of our dreams of angels. A tamboura drone and tabla accompaniment are the foundation for "Minor Parade for 18 Strings" and a duet between Stan Denski's acoustic 12-string Guild guitar and Paul Major's lead electric. Stan Denski & Larry Demyer play guitars, David Clough (Zero Boys) adds bass and Lon Paul (Marmoset) adds percussion, all of which form the ground upon which Jello Biafra (The Dead Kennedys) improvises observations on "rare psychedelic music" on "I Am Not A Collector Potato!" We guarantee you've never heard anything quite like this. The CD adds the ambient bonus track "There Will Be a Slight Delay."	2005	Wild Places / US WILD 015	Folk Psych USA	17,90 €
MANZAREK, RAY CD - THE WHOLE THING STARTED WITH... ...Rock 'n' Roll'. Second solo album from the Doors keyboarder (and some might say, the true creator of their sound as opposed to ol' Jim whatsisface) Never released on CD before and much sought after by collectors. Features Eagles/James Gang axe hero Joe Walsh and Lou Reed collaborator Dick Wagner- and for those of you still eager for the presence of Lord Jim, his spirit looms large on the track 'Wake Up Screaming' for which he wrote the lyric, here recited by Pattil Smith in her own imitable style.	1974	Cherry Red / UK CDLEM 071	Rock USA	14,50 €

CD contains 2 bonus tracks: a medley of two traditional + "Lagan Love".				
MARY JANE CD - The Gates of Silent Memory	1999	September Gurls / GE SGCD 21	neo-Psych Folk UK	15,50 €
Magic 2nd album by Southampton, UK based folk rock band. Celtic/British folk interwoven with 60's/70's psych rock, resulting in a dreamlike atmosphere which invites you to a sojourn among the mystic ruins of Olde England. Timeless album in the spirit of Trees, Fairport Convention, Stone Angel, at times even Jethro Tull.... Mary Jane was formed in 1993 by Paul Alan Taylor (acoustic, electric & 12-string guitars, banjo, bouzari) around the considerable feminine vocal talents of Jo Quinn (also flute, flageolets, fiddle) - both are also active in Zaney Janey. Martin Griffin (bass) and Nick B. Davies (drums, percussion) complete the band. "The Gates of Silent Memory" also features guest appearances from Chris Lilley (fiddle, viola) and Gail Holliman (vocals). "The Gates of Silent Memory", entitled after a drawing by Edwardian artist Austin Osman Spare, contains both traditional English folk songs ("Boys of Bedlam", "The Silver Whistle", "Janey Picking Cockles", "Oxford City" in a more complex version than on the "Isle of Wight" EP) and original material written by Paul and Jo, successfully fusing the inherent musical styles. Compared with the debut "Hazy Days" Mary Jane's 2nd album is distinguished by its ethereal atmosphere and documents the band's continuing drive towards an unpretentious, distinctly British sound.

MATADORS CD - MATADORS	196	World Psychedelic / K WPC6 8496	60's Psych CZ	17,00 €
Behind the Iron Curtain in the late 1960s, rock music was viewed as downright dangerous. The Matadors, from the former Czechoslovakia, were luckier than most, having enough artistic freedom to be able to sing in English, and even cover Western songs. This nicely packaged reissue includes their only album, as well as singles and other miscellaneous tracks, adding up to twenty-four songs in total. The material ranges from beat to psychedelia, and includes instrumentals, as well as vocal tracks sung in both Czech and English. While the covers are undeniably good, the original material is great. Songs like "Hate Everything except of Hattered", "Indolence," and "Get Down from the Tree" (which was featured on Rhinos Nuggets II compilation) are intense rock performances propelled by Radim Hladks sharp lead guitar work, and made mysterious by Jan "Farmer" Obermajers dark organ and Viktor Sodomias accented vocals. Songs like the instrumental Extraction, are more psychedelic, begging comparison to Pink Floyd instrumentals like Interstellar Overdrive and A Saucerful of Secrets, sounding like both at times during its five minutes and fifty-one seconds. Terrific collection of one of the greatest of all bands trapped behind the Iron Curtain. Liner notes have band history, as well as some nice photos.

CD - MAXWELLS		LHC 028	DK	
Originally released on MPS in 1969. This is a truly jewel for all progressive music enthusiasts. Ahead of its time the album is an eclectic mixture of beat, psychedelia and little hints of jazzrock. Dag Erik Asbjornsen compares it with the similarly styled debut of BURNIN' RED IVANHOE. 14 Minutes title song 'Maxwells Street' sounds like a continuation of the ROLLING STONES' 'Their Satanic Majesty's Requests'. Lars Bisgaard and Bent Hesselmann later played with RAINBOW BAND. Comes with bonus tracks, digitally remastered from the original tapes and with informative booklet. Highly recommended!

MAYALL, John & The Bluesbreakers CD - A HARD ROAD - (2CD)	1967	Universal / USA Uni 060249809641	Blues Rock Psych UK	31,90 €
Review : some John Mayall fans might be disappointed to find that the radically expanded two-CD edition of A Hard Road actually includes no previously unreleased material, even though it tacks on a whopping 22 additional tracks. It's more a complete document of the Bluesbreakers' recordings with Peter Green, of which A Hard Road was just the most prominent part. It might be an awkward fit for Mayall completists, since much of the bonus material also appears on other Mayall releases, particularly the Looking Back and Thru the Years compilations. For those just looking for a comprehensive overview of the Green-Mayall era, though, it's excellent, with the extra tracks including several non-LP singles (among them the 1967 B-side "Rubber Duck," which had never before appeared on CD); the A Hard Road outtakes that first showed up on the 1971 Thru the Years LP; the Green-sung and -composed "Evil Woman Blues," which was placed on the Raw Blues various-artists anthology; "First Time Alone," the Blues From Laurel Canyon track on which Green guested; and all four tracks from the 1967 EP that paired John Mayall's Bluesbreakers with Paul Butterfield. A Hard Road itself was a good if uneven blues-rock album, highlighted by Green's incredible sustain on the instrumental "Supernatural" (a clear influence on Carlos Santana). Green also took some of the lead vocal and songwriting duties, though Mayall remained the dominant singer, whether on covers (the best of them being Freddie King's "Someday After a While (You'll Be Sorry)") or originals (highlighted by the uncharacteristically frantic "Leaping Christine" and the moody "Living Alone"). But some of the non-LP tracks are among the best recordings the Bluesbreakers did with Green in the lineup, like the supremely downbeat Green-written and -sung B-side "Out of Reach"; the quality outtake (again written and sung by Green) "Missing You"; the hard-edged outtake "Please Don't Tell," cut in March 1967 months after the A Hard Road sessions; and the haunting 1968 B-side "Jenny," actually done in late 1967 after Green had left for Fleetwood Mac, but featuring a return visit from him on lead guitar. Other extra tracks are duller and more routine, but at least it accounts for everything done by the Bluesbreakers with Green in tow, with the unimportant exception of a 1967 session on which they backed Eddie Boyd. Note, incidentally, that while Green and Mick Fleetwood briefly played together in the same Bluesbreakers lineup, just two tracks here (the 1967 single "Double Trouble"/"It Hurts Me Too") feature Fleetwood on drums. ~ Richie Unterberger, All Music Guide.

MAYFIELD, Curtis CD - Curtis - (Digipak)	1970	Charly / UK SNAP 233 CD	Funk Soul USA	9,90 €
Classic debut by one of the seminal names almost synonymous with the word 'soul' recorded within months of leaving The Impressions. One doesn't need to be told of the importance of tracks like 'Move On Up' 'Miss Black America' and 'We The People Who Are Darker Than Blue', but if you don't know-then buy it!! Soul anoraks may wish to note that the political and topical nature of this album predates Marvin Gaye's 'What's Going On' and Gil Scott Heron's 'Pieces Of a Man' by a year. Its orchestral sound, whilst for some too similar to Isaac Hayes' 'Hot Buttered Soul' is yet to be bettered in its genre. Now reissued in stylish digipak.				
MAYFIELD, Curtis CD - Curtis	1970	Sunspots / Italy SPOT 508	Funk Soul USA	15,50 €
First solo album by the former leader of the Impressions and one of the genre's top recordings. Originally released in 1970, this quintessential 'music with a message' provided the soundtrack for the ongoing civil rights struggle, while masterfully and elegantly bringing together the hottest soul and R&B sounds of the era. Included the very funky and socially conscious "Move On Up", "Miss Black America" and "We the People Who Are Darker than Blue". Limited edition of 1500 copies in original LP-look-alike replica sleeve.

MAYFIELD, Curtis CD - Roots	1971	Sunspots / Italy SPOT 526	Funk Soul USA	15,50 €
Originally released in 1971, just months before his legendary Superfly. Mayfield's second release as a solo artist, Roots delivers everything that we expect vintage Curtis to deliver - non-stop, back-to-back, soul-drenched R&B - but Curtis was not just a R&B singer. He was a talented producer, songwriter, label owner, and perhaps most importantly, a man with a message - a message of black pride and peace - openly criticizing the war in Vietnam the abhorrent condition of America's inner cities. 7 tracks including: "Keep On Keeping On", "Beautiful Brother of Mine", "Get Down", "Underground", "Get Down", and "We Got to Have Peace". Limited edition of 1500 copies in original LP-look-alike replica sleeve.

An album from 1970 that merges several musical genres to considerable effect. MCCARTY, JIM -BAND CD - TWO STEPS AHEAD	1993	Kissing Spell / UK KSCD 932	Rock UK	19,95 €
Recorded in 1993, though due to pressures of endless touring and sufficient interest from other quarters, the album was permanently shelved. That is, until now. Includes original and covers material, including WARREN ZEVON's 'Lawyers, Guns and Money', GREG ALLMAN's 'Black Hearted Woman' and JAMES BROWN's 'I'll Go Crazy'. JOHN MCCARTY, CHRIS DREJA, JOHN IDHAN, RAY MAJORS (MOTT THE HOOPLE) and ALAN GLEN (HARMONICA) continue to carry on the fine tradition of the YARDBIRDS with an extensive concert itinerary. 'Two Steps Ahead' is the missing piece of the puzzle that connects JIM MCCARTY's late re-entry into the music scene to the revitalized YARDBIRDS.

MCDONALD AND SHERBY CD - CATHARSIS	1969	Radioactive / UK RRCD 116	Prog Rock USA	14,90 €
"Latest offering in Radioactive's series of Christian titles, this time from those noted style gurus, McDonald & Sherby, whose sole contribution to the canon of 20th century music was Catharsis, an album which originally appeared on the appropriately-named Omniscient label (Omniscient Records 1426S) Some have speculated that given the band's prog/psych leanings, Catharsis was probably recorded in the '70s, although the accepted wisdom is that the album was made at Minneapolis's Sound 80 Studios on 1969. The album consists of six long tracks with a decidedly heavy guitar-based vibe, all well- recorded and delivered with considerable aplomb."

McDONALD, Shelag CD - Let No Man Steal Your Thyme - The Collection - (2C) This two CD set is a fantastic collection from a wonderful and little known English folk singer, lyricist and guitarist. Such was her talent that this set collects together both of her B&C LP's (from 1970 & 71) and various outtakes from the same sessions. Very much in the classic UK '70's folk rock mould the albums are filled with eclectic and acoustic music resplendent with laid back jamming melodic West Coast elements and an atmospheric production that ties together the overall rustic English Folk sensibilities. The second album includes some breathtaking orchestral/choir arrangements and overall the effect is somewhere between Sandy Denny and Judy Collins. These recordings are highly recommended to anyone into the folk rock genre (Jade, Fairport, Trees, Sandy Denny etc) By disappearing in early 1972 - shortly after the release of the S/T second album - Shelagh guaranteed herself serious cult status and with string arrangements by Robert Kirby, the involvement of a few Fairports, some Mighty Baby members and bass playing by Danny Thompson you know you are onto a winner!	1970-7	Castle / UK CMDDD1065	Folk UK	14,90 €
MCGREGOR, CHRIS CD - BROTHERHOOD OF BREATH Reissue of JOE BOYD produced album from 1971. South African McGregor formed the racially mixed BLUE NOTES in the 60s the BROTHERHOOD OF BREATH big band. They were truly one of the most legendary modern jazz big bands as they had a tremendous impact on other European bands. They incorporated the spirit of African music into an ecstatic trance of jazz and rock stylings. The culmination of the explosive group sound reaches a peak in the 20 minute 'Night poem'.	1971	Akarma / Italy AK 200 CD	Jazz Rock UK	15,50 €

McGUINNESS FLINT CD - Malt & Barley Blues Tom McGuinness (ex-Manfred Mann) and Hughie Flint (ex-John Mayall) formed McGuinness Flint in 1969 . Songwriters Benny Gallagher & Graham Lyle, and vocalist Dennis Coulson completed the original line-up. In later years, the band went through various personnel changes and were joined for a period by Neil Innes, amongst others. McGuinness Flint enjoyed immediate success, with their first two singles, 'When I'm Dead And Gone' (1970) and 'Malt And Barley Blues' (1971), both reaching the top 5 in the UK charts. Unique recordings of both of these songs are included on this album. They enjoyed further chart success with the release of their eponymous debut album, which reached number 9 in the UK charts in January 1971. After a succession of excellent albums, the band eventually split in 1975 and Tom & Hughie went on to enjoy success with Paul Jones in The Blues Band. Between 1970 & 1974, McGuinness Flint recorded several sessions for BBC Radio 1. The best of these are now released here for the first time, as compiled by Tom McGuinness. Tom has also written the extensive liner notes for the accompanying 8 page booklet, which also features several rare photographs from his own archive.	1970-7	HUX / UK HUX 029	Rock UK	16,90 €
McKENNA MENDELSON MAINLINE CD - STINK Last copies on earth of this official reissue of the first McKenna Mendelson Mainline album, which was received not just as a great album of electric blues, but as some sort of revelation when it appeared in the second half of 1969. This progressive blues outfit operated out of Toronto, Ontario, between 1968-70. They were formed by Mike McKenna (gtr) formerly with the „UGLY DUCKLINGS“, Joe Mendelson (gtr. & voc), Tony Nolasco (drms) and Danie Gerard on bass from The „PAUPERS“ who was 3 months later replaced by Mike Harrison on bass. Having established themselves in Toronto , the band switched bases to England in 1968 and recorded this, their second and classic album "STINK" during their stay in the UK. The CD has some shorter and two longer tracks : the 6:40 min. long title "Mainline" and the 12:20 minute long "BAD WOMEN" This is classic progressive blues rock and a must have album for all fans of this genre.	1969	EMI / CDN EMI C2 26590	Blues Rock CDN	11,90 €

MECKI MARK MEN CD - RUNNING IN THE NIGHT Mindbending heavy acid space rock from Sweden 1969! Mecki Mark Men was (together with Hansson and Karlsson) Jimi Hendrix' favourite Swedish band. When Jimi came back from his Swedish tours he probably told tales about the wild Swedish organ tormentor Mecki Bodemark who did the same things with his grinding Organ as Jimi did with his guitar. They sound like a mix of Teargas, High Tide and Jimi Hendrix but with a wild organ player in glittering space costume. The mighty guitar wizard Kenny Hakansson has never been more psychedelic than this!!! "While I was searching for the master tape to Mecki Mark Mens 2nd album titled "Running in the Summer Night" I discovered the original master which was originally meant to be released as the Swedish version of the album. Mecki Mark Men was contracted by Philips in Sweden but it was Limelight records in the USA who released the album in 1969. I compared the Limelight tapes and the newly discovered Philips tapes. Basically it was the same album but sound wise it was two totally different ones. Musically it is still brain melting Heavy Acid Space Rock driven by the fury of demons, but now with a fantastic pure and dynamic sound! The CD includes the album plus bonus material from the US version as well as short conversations from the studio. MESSAGE CD - The Dawn Anew is coming - (remast.) German-British band led by Allan Murdoch. The story of Message is quite similar to that one of Nektar: in the early seventies they released some excellent, refined progressive rock albums, spanning from lyrical, melodic folk-rock over to heavy guitar outbursts. Their music was supervised by the well-known Bacillus recording team of Peter Hauke (label manager, producer) and Dieter Dierks (studio owner, engineer). Only the rhythm section of this group was German! Taff Freeman from Nektar contributed with vocals and mellotron on one track. Overall, their first LP „The Dawn A New Is Coming“ was an excellent album with the title track and "When I'm Home" being the highlights - a very obviously British melodic progressive rock. The fold-out cover contained a notable psychedelic artwork by Klaus Holtzka. Remastered release of their first LP.	1971	CMP / GER CMP CD 6062	Prog. GER	15,00 €
MESSAGE CD - From books and dreams - (remast.) Remastered second album from 1973 by the German/British band with an English vocalist, who were in many ways similar to Nektar. Stunning production by Dieter Dierks helps this inventive psychedelic/ progressive rock jump up into the major league of German '70's rock albums. Powerful, menacing varied and surprising at every turn. Contains 1 bonus track.	1973	CMP / GER CMPCD 6072	Prog. GER	15,00 €
MESSAGE CD - MESSAGE Their third and self-titled album was released by Nova in 1975. Message now had a much more conventional style, possible due to pressure from their new record company (Nova/ Teldec). Their music lacked the energy and instrumental interludes of the two previous albums. The mellotrons and complex arrangements were also abandoned in an ill-failed attempt to gain more commercial success. Some tracks are still great, such as "Thoughts" with a stunning guitar solo. Manfred von Bohr was their drum player for this album. Last copies of meanwhile deleted CD.	1975	Telefunken / GER Tel 3984 22478-2	Prog. GER	14,90 €

Also several guests were featured on the recordings: Thomas Engel (drums), Veit Marvos, 'Davy Crockett' (bass), Rainer Marz, Jan van Rosendaal (guitar) and Peter Hauke (drums, percussion!). The musical style on the album was a typical Bacillus-rock as Hauke's other productions. MIGHTY BABY CD - MIGHTY BABY + 5	1967-6	Big Beat / UK CDWIKD 120	Psych Prog. Rock UK	16,90 €
This hour-long CD is one of the best bodies of British psychedelia ever released. It contains the complete Mighty Baby album from Head Records, expanded to 13 tracks with the addition of five tracks cut by the Action during its 1967 transition period. The opening number, "Egyptian Tomb," sets the tone for the entire album - in terms of content, structure, and beat, it sounds like the early Allman Brothers, or maybe the Grateful Dead in one of their harder-rocking moments, jamming with Crosby, Stills, Nash & Young on an impromptu version of CSN's "Pre-Road Downs." The beauty of the original Mighty Baby album tracks is that they're psychedelia with a solid beat, none of that noodle-rock that drugged-up Brits usually engaged in. "A Friend You Know But Never See" might have passed muster on the Byrds' Notorious Byrd Brothers album. Other songs noodle around too much, but overall this is some of the most energetic psychedelia to come out of England, and anyone who enjoys psychedelic guitar will love Martin Stone's and Alan King's work on this album. The bonus tracks, all "lost" demos, are even better: highly rhythmic, driving rock (check out "Understanding Love") with lots of spacy guitar and tougher-than-normal flower-power introspective lyrics, with some gorgeous harmonies dressing it all up — a near perfect meld of garage rock and psychedelic sensibilities. — Bruce Eder. This is the original official Big Beat release - no counterfeit.				
MIGHTY BABY CDR - Live In The Attic - (CD-R)	1969	Rolled Gold Production RGP 002	Psych Prog. Rock UK	17,90 €
"Dubbed the English Grateful Dead at the time, Live In The Attic is their concept album (of sorts), containing just two tracks, both of which rework John Coltrane's classic free jazz odyssey 'India' and both of which are previously unreleased. The first track, 'Now You See it', was recorded live during their 1969 Love support slot at Lancaster University, a 26-minute elongated guitar-led jam which, while lacking the original's oboe and contrabassoon warbling, is nevertheless a worthy rendition. 'Now You Don't', however, is the stand-out track -- a 40-minute epic of free-wheeling flute freneticism, fervent bongo bashing and discordant sax squawking à la Pharoah Sanders. The brew is definitely not for the faint-hearted." -- Mojo. Note: this is a CDR release with lo-grade color xerox sleeve.				
MIKAEL, S.T. CD - Visions of the unknown - (2CD)	1989-9	Gallium Arsenide / US GaAs 2504	neo-Psych S	28,00 €
Reissue of the first 2 S.T. Mikeal albums from 1989-91: Visions of the Trespasser & The Unknown. Originally issued by Xotic Mind Productions, on limited LPs only. This double CD adds 48 minutes of unreleased tracks (some of which are rather terrible), detailed notes and illustrations from Mikeal as well. Bedroom loner-psych with a brooding, melancholic vibe and very nicely phased, recorded by one man in Sweden against the tides of time. Eastern-tinged, cardboard drums, the works. It might not exactly be innovative enough to redefine the world of sound, but it makes a relative peer like Bevis sound like the greatest hack in the history of recorded information. That alone is worth something. Xotic Mind made it a real pain in the ass to attempt to hear this music when it was happening, but now you can lounge back in complete leisure and bath in the Mr. Mikael's primitive cosmic vibe anytime you'd like.

MOBY GRAPE CD - Vintage - best of - (2CD) 2CD - One of the best '60s San Francisco bands, Moby Grape were also one of the most versatile. Although they are most often identified with the psychedelic scene, their specialty was combining all sorts of roots music folk, blues, country, and classic rock & roll with some Summer of Love vibes and multi-layered, triple-guitar arrangements as this double CD retrospective shows.The Grape made rock 'n' roll that remains as viable today as the day it was recorded. MOBY GRAPE CD - CROSS TALK: BEST OF Possible one of the greatest bands that emerged from the psychedelic scene in San Francisco towards the end of the Sixties, Moby Grape were more than just a one genre band. Fusing rock 'n' roll with folk, blues, country and of course a touch of psychedelia, they created a unique, solid and enduring sound. Shaped around the genius of multi instrumentalist Skip Spence, fellow guitarists Jerry Miller and Peter Lewis crafted a unique method of playing, a three guitar harmonising known as 'crosstalk', although all five members of the band (drummer Don Stevenson, bassist BobMosley) were talented song writers and performers. Their first self titled album was released to critical acclaim in 1967, followed by 'Wow' (1968), 'Truly Fine Citizen' (1969) and 'Moby Grape'(1969). This CD compiles all the best recordings from their three 60s albums.	1967-6	Sony / EU Sony 5124182	60's Psych Rock Blues USA	9,90 €

MOBY GRAPE CD - LEGENDARY GRAPE The Mighty MOBY GRAPE (beset by various and protracted legal problems since their famous debut release back in 1967) resorted to recording in secret. A limited release on cassette issued under the name THE MELVILLES appeared briefly and became legendary amongst followers of San Francisco rock and MOBY GRAPE fanatics when it appeared in 1990. Ten previously un-issued tracks recorded around the same time as the cassette have been added and all the original members were involved in the making of "Legendary Grape". Follows hot-on-the heels of the Sony (Best of) "Crosstalk" that received critical acclaim earlier this year. MOCK DUCK CD - Test Record There were only 14 acetates made of their live recordings at The Village Bistro in Vancouver, B.C. in October 1968. But never fear, for Gear Fab has unearthed the master Tapes from those sessions plus a lot more unreleased live and Studio recordings from this same period, including the 12 minute long studio session of June, 1968. Rising from the ashes of such famous Vancouver bands as The United Empire Loyalists, Cement City Cowboys and Six Cylinder, this band played a style of music that crossed between a fuzzed out John Coltrane sound to one of hard driving rock with Farfisa organ and blazing guitars and hard-edged vocals. Includes all their 45s releases plus other unreleased studio tracks. Don't pay \$2,000 for an original copy of the acetate....just buy this release!!!	1968	Gear Fab / US GF-154	Rock Hard USA	14,90 €
MOCKERS, Los CD - COMPLETE RECORDINGS Spanish import. If Los Shakers were the Beatles of the South American 60s garage beat scene, LOS MOCKERS were the Rolling Stones of that time and place. Formed in 1964 like Los Encadenados (the Chained Ones), they emigrated from Uruguay to Buenos Aires and got signed to Odeon, EMI's subsidiary, where they cut a couple of non-LP singles and their fantastic debut album. Later they did 2 singles, at least one of them for CBS. This collection is their definitive, including all their cool material mastered from the original sources. Includes detailed information and stories narrated by Los Mockers' harmonica and keyboard player Esteban Hirschfeld.	1965	Munster / E MRCD 231	60's Beat ARG	15,50 €
MODULO 1000 CD - Nao Fale Com Paredes Modulo 1000 is one of Brasils famous progressive rock bands of the early 1970s, their only album became legendary in the collectors scene, as one of the best South American records of all times, besides Laghonia, Emiliano Zapata, Psiglo, Opus Alfa. As Luiz Simas (organ) remembers: "The music of Modulo 1000 had its own appeal to an audience that wanted a heavy, raw, experimental, psychedelic sound. Our kind of music did not make it to the radio stations. It was too wild. The distribution of the record was done in a very limited way. The record label directors, which probably didn't understand or even didn't like our music, did zero promotion for the LP." This CD-issue contains 8 bonus tracks and comes with the original cover artwork, an outstanding psychedelic painting, presented in a triple fold hardcover (as Mystic Siva) plus a 16 page booklet with, bio and lots of photos. Highly recommended because of its individual and intense sound!	1970	World In Sound / GER WIS 1025	Psych Rock BRA	17,90 €

MOONSTONE CD - MOONSTONE Eponymous 1973 album by dreamy folk outfit Moonstone, and what a discovery this is! Privately released on the obscure Kotai label (KOT3003), the album features predominantly female vocals and crystal clear male-female harmony singing. Imagine the meeting of U.S. West Coast acoustic songwriting and esoteric U.K. folk from the early 70s. This is it! Intimate, compelling...magical! The songs really are exquisite. Musical accompaniment minimum. Only acoustic guitar features throughout, with piano and flute occasionally. There's the hint of a gentle electric guitar in there too, but its those intricate, ethereal vocal harmonies that draw the listener. Those who enjoy late night/early morning listening, Linda Perhacs, CSNY, Trader Horne, and 70s folk music in general.	1973	Radioactive / UK RRCD 170	Folk Psych UK	15,50 €

MORAZ', Patrick - MAINHORE CD - MAINHORSE The Mainhorse album is an unabashed progressive rock album and over the years has built up a sizeable fan base although its scarcity ensures that the price it commands puts it beyond the casual listener. Tracks featured are "Pale Sky", "Passing Years" and the extended "God" which is considered a highlight of the album and a good showcase for the style that Patrick Moraz would go on to popularise in Refugee, Yes and his solo work. The album has never been commercially available on CD making this release its debut in that format. Strong demand in the collectors market will ensure sales for this release allied with demand from the large and dedicated Patrick Moraz fan base and fans of progressive rock for which the album has long been a cherished release. MORGEN CD - MORGEN + 2 ABC Record's valiant attempt at the 'hip/youth' market, Probe, released many memorable LP's by such groups as Saint Steven and The Litter along with debut offerings by Zephyr, Soft Machine and Rare Bird, but none generate the frenzy at this late date quite like the quartet led by guitarist/vocalist Steve Morgen, first unleashed in 1969. Even before dropping needle on groove, the stark black-and-white sleeve with inset Edvard Munch lithograph, in contrast to the multicoloured hues so prevalent then, makes an immediate statement. And then the music makes another immediate statement... A foreboding bass riff and staccato drumming introduce 'Welcome To The Void', and for the next thirty-eight minutes one is hurled headlong into a vortex of dual-guitar overload, lyrically woven with romantic and Victorian imagery residing on a tab of microdot. World Psychedelia has at last given this near-perfect album a proper presentation, reproducing the original insert with new transcriptions of the handwritten lyrics and, for the first time, including the rare 7" mono versions of 'She's The Nitetime' and 'Of Dreams'. Radio stations didn't bite on the single, Probe closed up shop, and the world became a decidedly sadder place." WPC6-8480	1969	World Psychedelic / K WPC6 8480	Psych Rock USA	17,00 €

MORLEY, Malcolm CD - Lost & Found	1976	HUX / UK HUX 034	Prog Psych Rock UK	15,90 €
Malcolm Morley was an original member of Sam Apple Pie, before forming Help Yourself, who recorded 4 superb albums between 1971 & 1973. He subsequently joined Man for a brief period, appearing on one of their finest sets, 'Rhinos, Winos & Lunatics'. In 1976, he recorded his only solo album, backed by Ian Gomm (ex-Brinsley Schwarz) and Plummet Airlines. These master tapes were lost for over 25 years and were unearthed recently by Ian Gomm (who also produced the album) and are now released here for the first time. The accompanying 8 page booklet features comprehensive liner notes, including an interview with Malcolm, and several rare photographs from Malcolm's own archive. Literally a lost gem, this album hearkens back to the unpretentiousness and honesty of the first Help Yourself and Ernie Graham albums. Its release is another step back towards the public eye for a songwriter whose melancholic poetry can plumb the very depths of the human soul as movingly as other more recognised troubadours such as Gram Parsons or Nick Drake. The accompanying 8 page booklet features comprehensive liner notes, including an interview with Malcolm, and several rare photographs from Malcolm's own archive.

Magic Lady is one of the best albums of the talented Ms. Morton, who was active between 1976 and 1983 with six LPs. A true prog folk star, Mandy Morton's distinctive voice makes this reissue a sure delight for collectors and obscure albums searchers. Bright, melodious and accessible, ten out of the thirteen tracks of the album can be easily described as songs of light Neo Progressive that can gladden a lot of Neo fans. As for the other three out of thirteen, According to Mathew, Goodbye the Day, and Witchfinder (tracks 3, 5 & 9 respectively), these wonderful songs contain really rich and large-scale instrumental arrangements, characteristic for Classic Art Rock. So they, as real progressive champions here, are absolute winners on the album.

MOS GENERATOR CD - The Late Great Planet Earth	2004-0	Nasoni / GER NR 051 CD	Psych Hard USA	15,00 €
The three veteran musicians projects through the years reads like a dirty laundry list of influential, but perhaps not so well known groups. They have been in bands such as popular punk rock groups from the late 1980s and early 90s Hester Pryne, Treepeople and 12:30 Dreamtime. More recent projects include Good Bye Harry, which featured former ALL lead singer Scott Reynolds and VooDoo Gearshift of CZ records fame. The trios latest band, Mos Generator, is a bit of a throwback. They play mid-up tempo rock that is often categorized as stoner rock, although their songs are more melodic and focused than a typical group in that genre. According to Reed, Mos Generator is a place where Black Sabbath meets Pink Floyd, which must be somewhere in the 1970s.

Including their 1977 demo tape as additional bonus.

NOW ALSO ON CD! 1970. LA MOSCA (The fly in English) released their sole album that year, and though being the musicians Spanish (and one French, we believe), the whole album is sung in perfect English. The content of this wonderful album (which was also released in Brazil at the time) is psychedelic rock, sometimes groovy, sometimes soft, always very well executed and with great Hammond organ work along with fantastic guitar and vocals. All tracks are written by Alfonso Sainz who was not in the group but was the producer, and include the terrific "Once upon a time", a ferocious six minute psychedelic dancer, as well as the Hammond instrumental "Dreamy sleeper" and the cool soft psych track "Warning signals" among others. First time ever reissue of this rare and obscure psychedelic gem, with fully remastered sound. Slimcase packaging!

MOTHER TUCKERS YELLOW DUCK CD - HOME GROWN STUFF Very hard to find official and very limited reissue on EMI Canada of the killer first album by this legendary Candian '60's psych band with Guess Who connections. A mixture of West Coast melodic acid rock/pop (similar to Moby Grape) and rural hippy psych (Quicksilver/Dead) this 1969 album features amazing sustained guitar work on tracks like "Times Are Changing" and the scorching "One Ring Jane". Things get spacey and mellow during the dreamy psych of "Elevated Platform" and, overall, this album is a gem from start to finish. MOUNTAIN CD - LIVE IN SAN BERNARDINO 1971 Recorded december the 20th, San Berdino, CA. The performances contained on the Mountain Bootleg Series are drawn from various stages of the bands career from the very early years when the band first formed through to recent gigs undertaken by the band. All the performances come from the personal archives of both Leslie West and Corky Laing and whilst some of the performances are not sonically perfect the quality of the performances are never in question and as Corky Laing says "Some of the performances are real interesting". This performance has been re mastered for release from the original tape that has been in the bands archive for more than thirty years.	1971	Voiceprint / UK VPTMQCD 10	Rock Hard USA	17,90 €

MOUNTAIN CD - LIVE IN SHEPHERDS BUSH 1997 Following this momentous performance however the band decided on a change in personnel and Canadian drummer Corky Laing was in at the expense of ND Smart. Their debut album, 1970's Mountain Climbing, went gold, thanks in part to the hard rock classic "Mississippi Queen." There was however other tracks such as Yasgurs Farm, Never In My Life and a cover of the Jack Bruce song Theme For An Imaginary Western that would all form the backbone of the bands live set for the next thirty years. Despite the comings and goings of various members over the years including the tragic murder of founder member Felix Pappalardi the core of West and Laing has continued to work as Mountain and in a live situation the band have rarely been bettered	1997	Voiceprint / UK VPTMQCD 11	Rock Hard USA	17,90 €
MOUNTAIN - (Digipak) CD - Nantucket Sleighride One of the heaviest and loudest U.S guitar bands of the early seventies, Mountain are your very own sleighride to hard rock heaven. Starring Leslie West, Felix Pappalardi and Corky Laing the Mountain line-up is enough to cause a bloodclot in the wrong mind, and that's before West's guitar is plugged in, Pappalardi's bass begins to shake or Laing's kit takes a battering and remember the amps go all the way up to 11. Exciting and important rock music from amazing musicians whose influence is now being felt in the current heavy rock revival. Grow your hair and shake your head to the monolithic sounds of the Mountain men. This great looking digipack reissue CD also features 3 bonus tracks. An great album with freaky powerfull PORGRESSIVE ROCK with PSYCHEDELIC leaning, featuring the haunting flute and sax of composer and vocalist Bertus Borgers. Their musical style was quite original and reminds sometimes of COLOSSEUM with frenetic sax and FUZZ GUITAR riffing, also good use of rgan and piano. MR. BROWN CD - MELLAN TRE OGON	2005	Transubstans / S TS 015	Prog Psych S	14,90 €
Sweden's Mr. Brown is another wonderful little gem they have unearthed for us, and the first appearance of this album on CD. This happened to be the only release from Mr. Brown, and that's a sad thing, because the album is filled with plenty of elements that most fans of the genre love, and it would have been interesting to see if they could have built upon this foundation further. The opening song "Suicide" recalls many of the giants in prog rock history, namely Pink Floyd, Eloy, Yes, Genesis, and PFM. Dreamy, melodic guitar passages permeate the thick wall of keyboards (ARP Synthesizer, Logan string machine, Hammond organ, and piano), while a lazy sax meanders its way through the mix underneath some thickly accented but effective English vocals. I'm again reminded of early PFM or even Nektar on "Recall the Future", a song that features some stinging guitar, majestic piano, melodic flute lines, and wonderful Moog and Mellotron sounds. "Resan till Ixtlan" is a short showcase for keyboard player Anders Nilsson, and "Universe" is like a charming mix of Genesis and ELO, with plenty of string machine washes and piano, plus some nice melodic vocals. The band kicks it up a notch on the Jethro Tull & Focus inspired flute/piano romp "Kharma 74", a more upbeat piece but still very majestic sounding and quite melodic. I'm again hearing some Genesis influence on "Liv i stad utan liv", a song that has some really rich sounding synth waves as well as pastoral guitar. It is one of those long lost classics that you listen to today and wonder why it has been kept locked away for so many years. Fans of lush and symphonic 70's progressive rock are going to simply love this album, now available on CD for the first time. Don't be fooled by the fact that the band was Swedish, as their music was more influenced by the great British and Italian bands, although you can also hear some similarities to vintage Kaipa here as well. Either way, this is highly recommended stuff!

MR. FOX CD - Join Us In our Game	1970-7	Castle / EU CMRCD 1049	Folk Rock UK	12,90 €
The Transatlantic recordings. An anthology of the band led by Yorkshire based folk/rock duo Bob and Carolanne Pegg who recorded two albums for Transatlantic in 1970 and 1971 creating a small piece of British folk history. This CD contains the complete recordings including the albums Mr. Fox and The Gypsy. The former is a dark mysterious and bleak recording and the latter a gem of 70's folk music with all the requisite ingredients including gently lilting female vocals and a mystical folk/rock backing. Beautifully packaged with some great photos this CD is highly recommended.

MU CD - MU	1971	Akarma / Italy AK 209 CD	Rock USA	15,50 €
Reissue of their only album. Both inventive and well structured often mystical songs with some tasty laid back guitarwork by MERRELL FANKHAUSER and Jeff Cotton. A gem of the late hippie era, combining the fractured blues based talents of Beefheart with the loose flow and stoned lyricism of bands like the late 60s Grateful Dead. One of the most impossible to classify records of that time. Coming with 4 bonus tracks and original artwork.				
MU CD - The Last album	1974	Akarma / Italy AK 258 CD	Rock USA	12,90 €
Recorded in 1974, Mu's second album never saw the light of day because the band broke up soon after recording. Finally released as a limited Italian-only edition in 1982, the music transmits a delicate mix of soundscapes, in which elements of blues, folk and West Coast psychedelia meld together thanks to a solid guitar base and the incisive vocals of 70s cult icon Merrell Frankhauser. 20 tracks (bonus tracks!)

Featuring JOHN CIPOLLINA (QUICKSILVER MESSENGER SERVICE) JAY FERGUSON and ED CASSIDY (SPIRIT), JOHN Mc EUEN (NITTY GRITTY DIRT BAND) and NICKY HOPKINS (ROLLING STONES/KINKS). MURPHY BLEND CD - First Loss Berlin band Murphy Blend were a bit of a mystery. Named after a pipe tobacco, they were a rarity in early German rock, combining the early psychedelic Krautrock sound with heavy rock, classical and blues. Apart from the fact that they sounded a bit like early Jane and Pell Mell, they were pretty unique, with a strongly accented vocalist in Wolf -Rudiger Uhlig (who sang in English and also played a heavy, chunky Hammond organ).The guitarist was Wolfgang Rumler, Achim Schmidt occupied the drum stool, and solid bass lines came from Andreas Scholz. They had the potential to go far, but they unfortunately split shortly after the album's release, with Uhlig moving to Hanuman and Scholz to Blackwater Park.	1970	Ohrwaschl / GER OW 001	Prog. MURPLE CD - IO SONO MURPLE Reissue of the only album they ever made, dating from 1974. This is definitely an obscure classic of the 70s Italian progressive rock scene. MUSHROOM CD - Early One Morning Original copies of this incredible album by Mushroom, the Dublin duo consisting of Pat Collins (violin) and Joe O'Donnell (everything else), fetch hundreds of pounds on the rare occasions that they actually come up for sale. Musically, Early One Morning, originally released in 1973 on the Hawk label (HALPX 116) is a real one off, combining rock and psychedelic Irish folk, with tasty guitar leads battling with fiddle attacks. The results are awesome, fully justifying the hefty price tag of an original. A monster of an album!!! – Now something to this CD itself : Unfortunately this CD was taken obviously from a not correct centered LP as it jawks in some parts so awful you can not listen to. It's a pity these guys didn't use for the mastering the CD released some years ago by German label "LITTLE WING" which sounds compared to this release much better.	1973	Radioactive / UK RRCD 053	Folk Rock IRE	14,90 €
MUSHROOM CD - Alive and in full bloom Debut CD release from SAN FRANCISCO band 'Mushroom'. All instrumental, and strongly influenced by the 70's KRAUT-ROCK movement from Germany (FAUST/CAN), the USA PSYCHEDELIC scene of the 60's and bands like SOFT MACHINE. In sound similar to TORTOISE aswell. 7 tracks with a 20 minute highlight called '(DINGER & ROTHER VISIT) THE REEPERBAHN', the connection to NEU/DUSSELDORF is obvious here. A trip beyond belief. It's hard to understand how somebody can play a repetative bassline like this for 20 minutes long, crazy and brilliant. 2 guitarists one of which used to be in SLOVENLY and the other is so influenced by ROBERT FRIPP that his playing is called 'The Snake-guitar'. The bassman ALEC PALEO also played with members of RAINPARADE and FLAMING GROOVIES and is involved in many CD reissue projects of 60's material like the ZOMBIES BOXSET and the recent OXFORD CIRCLE release. AN ESSENTIAL ALBUM and remember it's a DUTCH ONLY!!!! release.	1998	RCD 1	neo Psych USA	15,30 €

MUSICA URBANA CD - MUSICA URBANA This Catalan outfit was founded in 1975 by two original members of MAQUINA!, together with Carles Benavent & Joan Albert Amargós, who actually wrote all of these compositions. Musica Urbana was an eclectic Spanish fusion band who recorded this gem in 1976. With its sudden rhythmic and melodic changes and rapid alternation between composed ensemble sections and improvisational sections, their music will instantly remind one of such experimental fusion greats as The Muffins, Samla Mammás Manna, and maybe even fellow Spanish group Fusioon. Joan Albert Amargós, the leader of the quartet, plays an impressive assortment of instruments, covering a variety of keyboards, woodwinds, trombone, and violin. He is accompanied by electric and acoustic guitar, electric and acoustic bass, and a variety of percussion. Together they meander through an assortment of styles, from darker, more serious jams, to quirky and unusual melodic ensemble themes, to zany and humorous sections. At times one can hear a slight Canterbury feel, calling to mind Hatfield And The North or National Health. Through it all, the top-notch playing and writing are dynamic and well orchestrated, and despite the frequent and sudden changes, the music still flows very well. All six of the tracks on this disc are delightful, and it's no exaggeration to say this is one of the best experimental, RIO-tinged fusion albums ever recorded. Anyone who is a fan of the above mentioned groups should definitely check this out. Announced : 01-05-2004	1976	PDI / E PDI 80331	Prog. Jazz E	14,50 €

NATURAL ACOUSTIC BAND CD - Learning To Live / Branching In. Twofer including the first two albums from acoustic folk trio, originally released on RCA in the early 1970s. Hailing, like their contemporaries Lindisfarne and Hedgehog Pie, from the North East of England, the band were a firm favourite on the college circuit- but their albums have been obscure and difficult to find until now. From songtitles like 'There's Nothing Unnatural About Electricity' 'Subway Cinderella' and 'Little Leaf' they sound like they spent their entire lives busking in woods and parks: whatever, these albums conjure up the magical atmosphere of this era of hippy folk perfectly. Digitally remastered and slipcased, with notes by the band and John O Regan.	1972-7	BGO / UK BGOCD 698	Folk Rock UK	15,90 €
NAZARETH CD - Singles A's & B's - (4CD) 80 superb tracks of prime gravel-throated, guitar-slicin', pile drivin' boogie raw'n'rawl from deepest Dunfermline, from their first singles 'Dear John' and 'Morning Dew' in 1971 up to their last hits (Germany and North America only) in 1980. Some of the best hard rock tracks ever written ('Bad Bad Boy' 'Holy Roller' 'May The Sunshine' 'Love Leads To Madness' 'Witch Doctor Woman' 'Cats Eye Apple Pie' 'Miss Misery' 'Kentucky Fried Blues' 'Expect No Mercy' 'Hearts Grown Cold' 'Hair Of The Dog' 'Razamanaz' 'Dream On' 'Ship Of Dreams' 'Pop The Silo' 'Shanghai In Shanghai' 'This Month's Messiah') rub shoulders with some of the most inventive covers ever given the hard rock treatment ('This Flight Tonight' 'My White Bicycle' 'Love Hurts' 'Ruby Tuesday'). NEON PHILHARMONIC CD - Brilliant Colors: The Complete Warner Bros. Recor "The sound of these records must have seemed more than a bit confusing, even in those anything-goes times: Classical musicians duking it out with Nashville cats and Tijuana brass, with a harpsichord-wielding composer serving as ringmaster and referee? What on Earth were they thinking?" -- Andy Zax, from his liner notes to this Rhino Handmade release. Although the boldly eclectic Neon Philharmonic broke into the Billboard Pop Singles chart twice -- with "Morning Girl" in 1969 and "Heighdy-Ho Princess" in 1970 -- the world probably wasn't yet ready for their unique blend of pop and majesty. The group released two albums and five non-LP singles for Warner Bros. between 1969 and 1971, remaining active until 1975 (albeit in diluted form after 1972's "Annie Poor" single, following which songwriter Tupper Saussy and singer Don Gant had little or no involvement). At the heart of the Philharmonic are the sweeping compositions of Tupper Saussy, whose rich pop constructions compare with those of Burt Bacharach, Jimmy Webb, and The Beatles. Classically trained at an early age, the Florida native studied jazz with Oscar Peterson, George Russell, and Jimmy Giuffre at the School of Jazz in Lenox, Massachusetts. In the early '60s he wound up in the advertising business, where he managed accounts and wrote copy and jingles. But he also moonlit as a Nashville jazz player, eventually jamming with Chet Atkins and cutting three albums for Fred Foster's Monument Records. By 1969 he had also composed two major pieces for the Nashville Symphony. Saussy's transition to pop music came by way of The Beatles by way of Leonard Bernstein ("These guys are very important," the famous composer had said). During a period of writing for the fabled Acuff-Rose music publishing firm -- and imbibing large quantities of "Penny Lane" and "Good Vibrations" -- Saussy made a set of demos for what he called a "phonograph opera" with Don Gant. The duo was soon signed by Warner Bros. as the Neon Philharmonic. This two-disc Rhino Handmade release contains everything the Neon Philharmonic recorded for Warner Bros. between 1968 and 1971. Both The Moth Confesses and The Neon Philharmonic albums from 1969 are presented in their entirety. Also included are all of the Warner non-LP singles, three previously unreleased songs recorded in 1970, and five promotional radio spots. Special packaging includes a six-panel digipak and slipcase. The accompanying booklet contains a comprehensive interview with Tupper Saussy and many never-before-seen photographs. Brilliant Colors: The Complete Warner Bros. Recordings is available as an individually numbered limited edition of 2,500 copies. 2 Discs - 38 Tracks - 8 Unreleased.	1968-7	RHINO HANDMADE / RHM2 7844	60's Psych USA	40,00 €

NOUVELLS CD - THAT DID IT!	1968	Radioactive / UK RRCD 128	60's Pop Rock USA	14,90 €
Originally released in 1968 on Mothers Records. The album is a nice blend of pop melodies and heavier rock. There's some tasty fuzz guitar on tracks as "Love" but the band seemed to be unable to decide on exactly what their musical identity was. so what remained is a surprisingly good, though slightly confusing, album. Worth to investigate and featuring distinctly 60s cover artwork ("Revolver"-like).				
NOVA LOCAL CD - NOVA 1	1967	Radioactive / UK RRCD 063	60's Psych Rock USA	14,90 €
An extremely underrated album which originally appeared on Decca in the US in 1967 (DL74977) and has recently become a minor collectable. The band were students at the University Of North Carolina in Chapel Hill, as well as making extra money by playing at frat parties on campus and a few cellar clubs in the local area. The band's break came when they opened for Chad And Jeremy at a campus charity concert and were signed by the William Morris Agency A contract with Decca soon followed, and the band found themselves in the studio almost immediately, creating a little piece of rock history by having the first album to be recorded using the newly-developed Dolby NR system which, due its size, had an entire room to itself! The sound engineer for the album was Fred Cretera, Simon And Garfunkle's engineer. Nova 1 is classic late '60s light-psych album with excellent vocals and harmonies, lots of heavy organ and lots of fuzz guitar. There is a definite British influence at work here, and it is probably due to this that MCA issued the album in the UK in 1969 (MUPS 377) but by this time the band had already parted company although a small part of their legacy survived when the band, Life In General, which coincidentally included original Nova member Bill Levasseur's son Jason, covered the track, If You Only Had The Time on their 2000 album The Lovely, Lovely Singing which featured the proud father on drums!

NOVI SINGERS CD - Torpedo -- Rien Ne Va Plus . . .	1967	Polonia Records / JAP	Jazz easy listening PL	15,90 €
Wonderful wonderful -- and very groovy! The Novi Singers were a hip little vocal jazz ensemble from Poland in the late 60s and early 70s -- and they've got a cool sound that's very much in the style of Lambert, Hendricks, & Ross, but with more of a swinging MPS groove to it. Their recordings are incredibly fresh for the time, with a mix of standard vocalese and other elements of swinging pop and jazz, very much in the best crossover tradition of the Eastern European scene of which they were a part. This long-overdue CD features 20 tracks in all by the group, all apparently recorded in 1967, originally issued on the two albums in the title. Tracks include "Misfit", "Second Sight", "Rien Ne Va Plus", "Canto Triste", "The Look Of Love", "Quartus", "Psychologicznie-fizjologicznie", "Oh Woman", "Szalony Kseizyc", and "Wujek Gucio". Lyrics are in English and Polish, and the set includes a number of great tracks that weren't on the Compost collection of Polish jazz that featured the group.

NOVI SINGERS CD - BOSSA NOVA	1967	Polski Nagrania / JAP	Jazz easy listening PL	15,90 €
A landmark record in the European jazz scene of the 60s -- an incredibly hip batch of tracks from the Novi Singers, a Polish vocal group whose sound was warm, wonderful, and very very groovy! The set took their cue from American and French vocalese combos of earlier years, but worked in a manner that was infused with some of the cooler trends that were moving through Europe's postwar jazz scene -- including modal grooving, free-thinking solos, and even a love of Brazilian rhythms, which shows up clearly in this set! Backing is by a core jazz combo, but also augmented with strings -- which gives the album a shimmer, floating quality that we really love. Titles include "Gogo", "Krol Salomon", "Tanczace Orzechy", "Pyzate Sloneczniki", "Zolty Slon", and "Brownie".				
NOVI SINGERS CD - Novi in Wonderland - (Jap-paper-sleeve)	1968	MPS / JAP	Jazz easy listening PL	29,00 €
One of the earliest records by the legendary Novi Singers -- and a rare MPS set that exposed the group to a larger European audience! Novi hail from Poland, but have a name that's an condensation of the English phrase "new original vocal instruments" -- a great summation of the way the quartet use their voices to recreate the feel of instruments in modern jazz -- a mode first explored by the Lambert Hendricks & Ross group in the US, but taken to a much farther extreme on this set! The group are supported here by a border-crossing small combo of musicians that includes Zbigniew Namyslowski on alto sax, Idrees Sulieaman on trumpet, Adam Makowicz on piano, and Billy Brooks on drums -- and the sound is cool, laidback, and very groovy -- extremely tight, almost even more so than some of the group's Polish albums! Titles include "The Second Side", "Secret Life", "Kulfon", and "Apartment Under The Roof". (Gatefold cover -- just like the original Saba pressing!)

NUEVOS SHAIN'S, Los CD - SINGLES - (1969-1970)	1969-7	RE-PSYCH-LED / GE LED 1003	Psych Rock Peru	20,50 €
After the legendary Peruvian beat-garage group Los Shain's broke up, Enrique "Pico" Ego Aguirre (guitar), formed Los Nuevos Shain's - a short lived band which released one album and some 45 rpms with different line-ups. They played cover versions of Santana, Cream, Hendrix, Strawberry Alarm Clock, Jefferson Airplane, Spirit and many others. The music is characterized by vast use of fuzz, wah-wah guitars, flashing organ and loud drumming, sometimes they use hypnotic dreamin' melodies with freakbeat style and wild vocals, all English lyrics. After Los Nuevos Shain's, Pico played on Apocallypsis album from Gerardo Manuel & el Humo, but then Pico founded his own band that was named PAX, which played rather hard rock music and was heavily influenced by Black Sabbath and Led Zeppelin but with yelling vocals. PAX became the first power rock blues outfit recorded in Peru in 1971, but two years before, Los Nuevos Shains was the beginning in the search of that powerful sound. Now, the Peruvian label Repsychled records makes the official release which contains all their 7" singles and 4 bonus unreleased tracks in a digipack-cover.

ODYSSEY CD - Setting Forth A quintessential dose of New York sixties psychedelia, strong harmonic vocals, heavy swirling organ, and fuzz guitar riffs of the greatest ferocity. Finally, their lone album, one of the ten rarest and most sought after US psychedelic albums is available again: painstakingly remastered, repackaged, and ready for true psych fans to devour. This is truly one of the cornerstones of underground psychedelic music, recorded in 1969, released in an edition of fewer than 100 copies, and impossible to find as it only came in a plain white cardboard sleeve. An album that jumps right out of the speakers at you, from its opening "In-a-gadda-da-vida" riffs right to the very end. Twelve-page booklet has part one of a band history by Odyssey leader Vinny Kusy, as well as rare photos from his own archive.	1969	Lion / US Lion 601	Folk Psych USA	17,50 €
ODYSSEY CD - Live At Levittown Memorial Auditorium: 1974. A live recording that was never really meant to be, recorded by on a portable cassette recorder, this is the only document of Odyssey as they were in their progressive phase, just before Fred Callan and sometime Odyssey keyboardist Tom Doncourt recorded their legendary album as Cathedral. Bonus tracks include three home recordings from the "Setting Forth" era, two untitled originals that never made the album, plus the band's version of "Whiter Shade of Pale". These three tracks have been salvaged as well as possible from the cassette that is the only recorded evidence of these songs. Important note: this disc is not audiophile quality sound! despite our best efforts, it's rough sounding, but we think that you'll find it well worth listening to, despite the source limitations. Twelve-page booklet has a continuation of the Odyssey story by band leader Vinny Kusy, as well as rare photos from his own archive.	1974	Lion / US Lion 602	Folk Psych USA	17,50 €

OKKO CD - SITAR & Electronics Amazing sitar psychedelia from the early 70's!!! Dutch hippie Okko combined his instrument, sitar, with rock and electronic elements. The result was a tremendous album with some cool original tracks like "Ganges delta", "Himalaya highway" or "East Indian Traffic", together with a couple of brilliant Beatles' covers, all of it with great sitar of course, but also moog, tablas, flute, guitars, bass and drums. The album should please anyone into psychedelia, rock, sitar sounds and funky sitaresque stuff ala Ananda Shankar in its most rocking version.	1971	OKKO Records / NL Okko 001 CD	Psych Folk Ambient NL	16,90 €

ONE St. STEPHEN CD - ONE St. STEPHEN Reissue of 1975 private pressing, originally on the Owl label. One of the finest heavy acid albums of its time. Opening and closing with extended, awesome moody pych that will blow you away. Poe, heroin and Jim Morrison all help to shape Stephen's outlook which even results in some more distinct late autumnal moods. Good vocals, some howling fuzz and occasional moog use. (The CD has been issued before but this one contained 2 tracks by a band "St. Stephen" from Boston). OPEN MIND CD - OPEN MIND	1969	Second Battle / GER SB 024	60's Psych UK	17,90 €
Found in a corner a couple of the meanwhile deleted SECOND BATTLE release (in Digipak) of one of UK's finest sixties psychedelic albums. As a defining point of the U.K. psychedelic/progressive rock crossover, the Open Mind's sole album is the perfect specimen. With a singing style rooted in the freakbeat era, rather than the operatic tenor screams hard rock ushered in, and acidic duel guitars, heavier than those of a typical psychedelic act, The Open Mind filled the gap between the beginning of one era and the end of another. "Magic Potion" is unarguably their greatest moment. Its monotonous rhythm guitar anticipates the stoner rock of Hawkwind while double bass drum fills and doom-laden fuzz guitar ragas combine bombastic rock power with Eastern-influenced psychedelia. Added on this CD are both non-LP single tracks.				
OPETH CD - Damnation	2003	Music For Nations / EU CDMFN 294	Prog. S	14,90 €
This 2003 album is something very special. Swedish group OPETH previously more known in the death metal scene made an album which was produced by Steven Wilson of Porcupine Tree without screaming guitars and grunting vocals. This is pure spacey progressive rock with melodic vocals, layers of mellotron and fabulous guitar work. The subdued melancholia of the album is hauntingly beautiful. Comparisons would be Anekdoten / Landberk meets Porcupine Tree or The Moody Blues meets Pink Floyd or this also has strong reminiscences to KING CRIMSON during their „Wake Of Poseidon“ phase. Sheer delight from start to finish.

Orange Bicycle was formed in London in early 1967 and played a sanitized and poppy brand of light psychedelia that featured strong melodic harmonies. Orange Bicycle released a total of 20 singles and one album between 1967 and 1971. Orange Bicycle left Columbia 1969 and signed with Parlophone in the latter part of 1969. As 1970 rolled in, the band was given the opportunity to record an album and in short order put together the aptly titled "Orange Bicycle". The album was largely comprised of covers including several Elton John/ Bernie Taupin numbers, Bob Dylan's "Tonight I'll be Staying Here With You", and the Lennon/ McCartney composition "Carry That Weight".

CD version of the debut album for wild sensation from Holland. This Cd version has 2 non-album bonus tracks. A must have for all into early BLUE CHEER. Obscure primitive sound HEAVY and AGGRESSIVE with lots of wild fuzz, wild freaked-out guitar leads and raw bluesy vocals. Cd comes with booklet showing miniature of total crazed-out 3-D SLEEVE showing a tripped-out photo of the band. Those who have 3-D spectacles should encounter the 3 dimensional effect!

2nd Album by Holland's rawest and wildest PSYCHEDELIC power blues trio. Raw and intense hi-volume PSYCHEDELIC motor-bluesrock with the real original late 60's proto hardrock/acidfuzz sound of Blue Cheer. Quite some HENDRIX style guitar freak-outs with more catchy 60's pop song structures at the same time. Howling and 'singing' guitar solos mixed with heavy garage punk riffs and dirty psychedelic stoner/hardrock outbursts. An explosive and yet soulfull trip through the twisted minds of 3 ACID BLUES freaks from Holland.

ORESUND SPACE COLLECTIVE CD - ORESUND SPACE COLLECTIVE The collective is a group of Danish, Swedish and American musicians that get together as often as possible for free form improvised space rock music. The flavour of the music is different with each session. The jams can often combine complex interplay between guitar and synthesizer as well intense drumming and bass playing. We enter into the genre of funk, jazz, reggae and space rock as they improvise their way along. Featuring 7 tracks in 70 minutes, all completely improvised on the spot. The music is influenced by Krautrock (ala Cosmic Jokers), Ozric Tentacles, and improvised jazz. "absolutely riveting listening pleasure, the sort of space-rock to which you float silently in space rather than power up the engines and go supercharged into the cosmos. A gem, all the same." "a spacerock monster of an album. It contains 7 different tunes in a spacey/rocky/jazzy/psychedelic /zonked-out vein, played superbly... Lots of swirling synthesizers, trippy guitars and pulsating rhythms makes this a very nice chill-out album, but also a very stoned-out rock album". ORIENTAL SUNSHINE CD - DEDICATED TO THE BIRD WE LOVE A sitar-kissed cruise through the gentler side of psychedelia, this flawless gem combines beautiful melodies, thoughtful lyrics and immaculate instrumentation to hypnotic effect. Originally released only in Norway, where it sold in minute numbers in 1970, this is its first official reissue and comes complete with a 12-page, full-colour booklet incorporating rare photographs and detailed liner notes by the band's leaders, Nina Johansen and Rune Walle. "Outstandingly performed and instantly likeable, this is one of the mellowest records you're ever likely to hear" – Mojo - "Rare, dreamy and exotic sitar psych album, full of folksy female vocals, flutes and, of course, sitars... a sound that will fully satisfy any Eastern psych freak" - The Freak Emporium - Mastered from the original tapes.	1970	Sunbeam / UK SBRCD 5013	Psych Rock NOR	16,95 €
ORION EXPRESS CD - ORION EXPRESS Originally released in 1975 on the Round Mound Of Sound label. They deliver rural psyche/rock with acid guitar jamming. Influences of the Allman Brothers are never far away and they come with swirling keyboards, wailing leads and bluesy southern rock. They were playing with the wind in their hair and the west coast sun in their faces, vocals in a Paul Rogers vein. Good time summer boogie.	1975	Radioactive / UK RRCD 132	Rock Psych USA	14,90 €
ORION'S BEETHOVEN CD - Superangel Orion's Beethoven, loosely described as a "symphonic psychedelic group", primarily, it seems, because of the way that they worked classical music themes into a jagged psychedelic wah-wah guitar shaped world of their own making. Here we have a reissue of their debut album (1973), which starts out with a riff that sounds like a schizoid version of the Get Smart theme music, and goes on from there into weird reaches of flanged vocals, hard-edged guitar solos; the second track, a thirteen minute suite, is driven by guitar-first acoustic, then a wiry-wounding electric; track three is stranger still-echo effects, flanged drums sounding like an outer-spatial blues band jam. Im sure those "classical music" themes are there somewhere in track four, but theres no sense of "precious" about this band. Live bonus track is brief-a portion of the suite (track two) from the album-and apparently a rare document of the band on stage.	1973	CFR 402	Prog. Psych ARG	19,50 €

ORPHAN EGG CD - ORPHAN EGG Orphan Egg's only release, this self-titled album which appeared on the Carole label (Carole 8004) in 1968, seems to have suddenly attracted the interest of serious psych fans and collectors: the price of an original has recently increased considerably, probably in recognition of both its scarcity value and musical appeal. The album, which also boasts some strong UK beat/psych influences a la early Status Quo, features lashings of incredible heavy fuzz guitar psych on a number of tracks, several of which were deemed worthy enough to feature in director Maury Dexter's exploitation flick, Born Wild- aka The Young Animals- (which also included a memorable scene of the band strutting their musical stuff at a pool party) The album features several covers including a killer version of the old Everly Brothers ' hit, Bird Dog. Apart from this, the self-penned tunes really are the stand-outs here, with the feisty fuzz guitar, bass, drums, a little recorder and a smattering of harpsichord, combining, along with the beautiful trippy vocals, to produce an ethereal, floating psych sound that makes for a hugely enjoyable listen.	1968	Radioactive / UK RRCD 146	60's Psych Rock USA	14,90 €

OTHER HALF CD - THE OTHER HALF	1968	Radioactive / UK RRCD 025	Psych Rock Hard USA	14,90 €
Hailing from America's West Coast, The Other Half achieved a small amount of fame when The Fall covered their punk-garage single Mr Pharmacist in the '80s. In point of fact, the band's sound was more psychedelic than garage, with the sustain-laden guitar style of Jeff Beck-inspired axeman Randy Holden (who later went on to join Blue Cheer) strongly underpinning the group's musical thrust. Holden's guitar is at its best on a selection of fine original compositions such as Morning Fire and the album's finale, What Can I Do For You?, as well as on a superb re-working of Arthur Lee's Feathered Fish. The band also enjoyed another brief moment of success when they recorded the theme to the '70s alternative-cop show, Mod Squad. However, the pressure of stardom proved too much, and the band parted company almost immediately after the Mod Squad recording, leaving only this eponymous album (and a handful of rare singles) as their epitaph, although one of the band's former girlfriends recently claimed that a second album, The Other Half And How To Get It was recorded but never released. As this is probably more fiction than fact, history will judge The Other Half on the basis of this one album, and the judgement will unanimously be highly favourable.

PANAMA LIMITED JUG BAND CD - Indian Summer Late 60's jugband bluesoutfit led by Denis Parker alongside Gary Compton (harmonica) and Brian Strachan (guitar), the panama limited Jugband, also named after a Bukka White song (from 1930). The band was based in the Richmond area of London, which at the time "was kind of a hotbed for blues (the Crawdaddy Club), especially acoustic style blues." Shortly thereafter, however, Denis became disenchanted with the music business. Thankfully he left us these recordings as an artefact.	1970	Mason records / EU MR	Psych Folk UK	14,50 €
PANCAKE CD - Roxy Elephant NYRVANA PANCAKE was formed in the early 70s in Germany. They released one of the best psychedelic singles of that era and shortened their name in 1975 to PANCAKE. Though "Roxy elephant" doesn't feature keyboards, one can clearly hear symphonic echoes. They went on to produce two more albums: "Out of the ashes" (1978) and "No illusions" (1979)	1975	Garden Of Delights / G GOD CD 089	Prog GER	16,00 €
PANDAMONIUM CD - THOUGHTS AND WORDS 60's Album recorded after they had gained Confidence and songs. The duo's delicate and whistful songs gave producer MIKE BATT an ideal opportunity to hone his talents as arranger and producer. The largely upbeat collection of melodic and upbeat songs is very unlike the angry and disillusioned vibe that had prevailed in their late 60s output.	196	Radioactive / UK RRCD 086	60's Pop Rock USA	14,90 €
PANDAMONIUM CD - NO PRESENTS FOR ME...SINGLES & RARITIES A collection of demos, singles, acetates and other rarities culled from Bob Ponton and Martin Curtis's time spent in various London recording studios between 1966 and 1972. Consistent quality of songwriting.	1966-7	Radioactive / UK RRCD 106	Pop Rock Psych USA	14,90 €
PANDAMONIUM CD - The unreleased album A great lost British psyche pop album from the late 60's early 70's from this act who in 1970 went into the studio, supported by members of Heads Hands & Feet and Fotheringay. Thier only album was actually a bootleg, made in 1970 in an edition of 105 copies. This is different material entirely from that original album, recorded in 1968 in Vancouver's main psychedelic venue, the Retinal Circus. Good soundboard sound and music in the vein of the Doors, Lovin' Spoonful with a touch of old timey music thrown in. A homemade looking CD that will be as rare as rare as the original album, someday.	1967-6	One Shot Records / U	60's Rock Psych USA	23,00 €

Much stronger than his first effort, the album was recorded "live in the studio" with minimum post production.

CD - 5 - EL TRIANGULO - (DIGIPACK)		LEADER 5	ARG	
Argentinian import. His fifth album, the only to have a name (Triángulo), was still good, but much improvised in the studio. The best moments are the great "Malas compañías", "Hubo distancias en un curioso baile matinal (parte 1)" and the psycho-folk "El buzo".

CD - 1 - (DIGIPACK)		LEADER 1	ARG	
Argentinian import. Digipack CD. The first Pappo's Blues album, recorded on a 2-track machine, shows a brilliant skilled rock and blues guitar player. The powerful "Algo ha cambiado", "El hombre suburbano" or the long "Adonde está la libertad" are good examples. Norberto Napolitano, better known as Pappo, was born on March 10th 1950. In 1967, after playing with his teen band Los Buitres, his drummer friend Pomo introduced him to Miguel Abuelo and poet Pipo Lernoud. Pappo then joined Los Abuelos de la Nada. A self taught guitar player, his skill is noticeable even early in his first composition, "La estación", sung by him and recorded by Los Abuelos de la Nada after Miguel left the group. (This song was included on the compilation LP Mandioca Underground [MLP 331] in 1969). Pappo played piano (!) with Manal during a coast tour and later joined beat group Conexión Nro 5 for a brief period of time. Credited as Pappo's he recorded a song ("Nunca lo sabrán") for another compilation: Pidamos peras a Mandioca (MLP 335). In 1969 Los Gatos called him to replace Kay Galiffi. With Pappo on guitar, the pioneer beat combo turned rocker and released their best two albums. He later joined the short-lived groups Engranaje and Pistola, and played on the first two Billy Bond y La Pesada LPs. Pushed by producer Jorge Álvarez, he finally formed his own group, Pappo's Blues, with David Lebón (credited as "Davies") on bass and Black Amaya on drums.

Argentinian import. Pappo -with his friends David Lebón and Black Amaya and La Pesada musicians Alejandro Medina and Isa Portugheis- recorded Pappo's Blues Volúmen 4. (Pomo and Machi played on "Con Elvira es otra cosa", also released on single [Music Hall 40022]). Another great album, Volúmen 4 includes "Fiesta cerveza!" (a tribute to beer drinking), "Gato de la calle negra" and "Abelardo el pollo" (yet another example of his offbeat lyrics).

Argentinian import. Digipack reissue. PAPPO'S BLUES is another very influential band from the Argentinian early 70's scene and made 7 albums in total during '71-'78, the first, second and third album being the best. Excellent HEAVY BLUES ROCK with stunning GUITAR crazyness from PAPPO and influenced by the guitargods of the early 70's THE SABBATHS AND THE ZEPH AND THE GALLAGERS. 1, 2 and 3, are MUST HAVE ALBUMS for sure.

To commemorate this, Patron Saint Records has released a limited-edition CD entitled Proto Bohob, which contains early Patron Saint versions and original demos of all of the songs off of the original Bohob release. Over the years, collectors and Bohob lovers have often asked if there were any other recordings from that period. When Jon left the group unexpectedly in April, the remaining Saints were forced to soldier on as a foursome. At the end of April 1971, after countless hours of work, we finished creating our new "masterpiece." Most of the songs were new, but we also re-recorded versions of Flower, Do You Think About Me?, White Light and Andrea, all of which appeared originally on Fohhoh Bohob. PEDERSEN, Herb CD - Southwest Herb was born in Berkeley, California and formed his first band, The Pine Valley Boys, a bluegrass outfit in his teens. He moved to Nashville in 1961 and performed on Carl Tipton's Bluegrass TV Show and later joined Vern and Ray playing 5 string banjo and singing. In 1967 Earl Scruggs invited Herb to deputize while he (Earl) was recovering from a hip operation and in 1968, Herb replaced Doug Dillard in The Dillards. After leaving The Dillards in 1970, Herb became a session musician and worked with Emmylou Harris, Gram Parsons, Linda Ronstadt and John Prine among others. In 1975 Herb joined Jackson Browne for a tour and the following year released his debut album, "Southwest". From 1977-1980 he was with John Denver's band but continued his session and production work. During the '80's Herb composed music for several TV series, including The Rockford Files, Kojak, The Dukes of Hazzard and The A Team. Herb's friendship with ex-Byrd and Flying Burrito Brothers, Chris Hillman led to the formation of The Desert Rose Band. After the band broke up in 1993, Herb went on to form The Laurel Canyon Ramblers and released two albums before joining up again with Chris Hillman.	1976	Acadia / UK ACA 8039	Country Rock USA	15,90 €
PEEL, David & The Lower Eastside CD - And The Rest Is History David Peel was, and still is, a street musician and political activist from the Lower East Side of New York City. With a collection of friends who became his band, (dubbed The Lower East Side), he recorded two groundbreaking albums of social reflections, urban tales, and hippie mythology for Elektra Records. Both Have A Marijuana (1968) and The American Revolution (1970) were, as you might think from their titles, musical counterculture manifestos presented with guitars and grins. David Peel & The Lower East Side's And The Rest Is History: The Elektra Recordings collects both of these albums, as well as two previously unissued tracks recorded for, but not used on, the second album. It also includes an informative booklet with Mr Peel's recollections of the recording of the albums and track-by-track commentary on his composition of those albums' songs. And, for those who wanna sing along, there are also lyrics for every song. 21 Tracks, 2 Previously Unreleased & 20-Page Booklet. An individually numbered limited edition of 7500 Copies.	1968-7	RHINO HANDMADE / RHM 27713	Rock USA	25,00 €

PEELERS CD - Banished misfortune Early '70's hippie UK folk trio who released this album in 1972. PEGG, Carolanne CD - Carolanne Pegg Quite why people rave about The Trees and Mellow Candle when gems like this are way better and cheaper is a total mystery. Rather than stare at the Emperors new clothes, why not discover a real gem. This little known solo album from 1973 by the female half of Mr Fox hides a wealth of undiscovered prime English electric folk rock blending folk and traditional whilst adding a dash of back-to-the-land mysticism and heavy rock and roll along the way. Electric guitar and acoustic instruments including violin and banjo are used to great effect and the highlight of the album is certainly the lengthy "Fair Fortune's Star" which features some incendiary guitar work by Albert Lee. Carolanne's vocals are earthy and heartfelt and overall this is pretty much a classic recording . Go on...try it!	1973	Pier / UK PIERCD 503	Folk Rock UK	12,90 €

PENNY ARKADE CD - NOT THE FREEZE With a throb of excitement matched only by finding King Tuts OTHER tomb, Sundazed has recently unearthed a long-forgotten treasure from the seminal mid-60s Los Angeles rock scene: the previously unreleased album by the Penny Arkade! Spotlighting singer/songwriters Chris Ducey and Craig Smith along with bassist Don Glut and drummer Bobby Donaho, the Penny Arkade--with its jangley melange of the Byrds, Buffalo Springfield and Moby Grape was a potential pop-rock goldmine in the making. But its only album was inexplicably shelved... Produced by Michael Nesmith, the original, unreleased Penny Arkade album is now expanded to contain extra material from the sessions, revealing demo recordings, and much more. Complete original, unreleased album plus 17 bonus tracks! PENTWATER	1973-7	Synphonic / US	Prog symphonic	17,90 €
CD - PENTWATER		Syn CD	USA	
Out of the abyss of obscure US seventies' bands Syn-Phonic brings to the light of day unreleased music by the Chicago band Pentwater. Pentwater recorded this music from 1973 to 1976 with the final song, Kill the Bunny, recorded live at CBGB's in New York City in November 1976. Pentwater released their self-titled LP with different songs in 1978 and then broke up by the end of that year. The combined talents of Pentwater produced songs that brought to my mind elements of Genesis (Selling England by the Pound), Gentle Giant, Jimi Hendrix, and Italian progressive rock ala Le Orme (Felona E Sorona). It is a true indicator of excellent music when it distracts you from what you are doing. I did not expect much when I first listened to this CD. Much to my surprise and pleasure I had to stop and take notice of Out of the Abyss. Each time I listen to it, the better I like it! The one weak moment on the disk is the song Necropolis, a bland ode to famous dead people, saved only by the instrumental break in the middle. The two longest songs on the CD, "Gwen's Madrigal" and "The Journeys," feature the best of Pentwater: Hammond organ and Mellotron, "Steve Hackett" guitar riffs, and pleasant vocal harmonies. To top off this CD, Syn-Phonic included a short band history, lyrics, and an artistic picture disk with a black sky and sunlit water. Kudos go to Syn-Phonic for releasing this excellent CD.

Beautiful folk-baroque pop with ethereal vocals from the duo who brought you 'Brother And Sister' and 'Next Of Kin'- a duo who influenced the Carpenters. Signed by Irving Azoff to Sunlight in 1971 they cut this, their third album, which, like their previous releases they chose to record in their own home, something which gives the music a lo-fi quality that many have aspired to since- but didn't sell many records. Deleted since 1972, never issued on CD before, with liner notes by Chuck perrin himself, remastered with bonus tracks, and full of photos and interviews, this is one of those hidden gems you'll be eager to tell your friends about.

PHILLIPS, Shawn CD - Contribution/ Second Contribution Two albums on one CD. And two classic albums as well. Probably the two best solo albums from one of the most fascinating and enigmatic muscians to come out of the early 70s singer-songwriter boom. His identity as a musician as much as a singer-songwriter has ment that he has frequently forged new routes into territory ranging from folk-rock to classical and encompassing almost everything between. "Contribution" was the ex-Donovan co-writer's debut and is a heady mix of progressive rock and folk sounds with members of Traffic (Steve Winwood, Jim Capaldi, Chris Wood and Caleb Quayle) on board for the ride. It's an incredibly ambitious debut which was originally intended to fill three LPs!! "Second Contribution" is perhaps even more of a shifting musical landscape, carrying the listener across folk and rock styles, with a heavy R&B feel at times. Accompaniment comes in the form of a band and arranger Paul Buckminster's most restrained orchestrations.	1970-7	Gott Discs / UK GOTTCD 017	Folk Psych Rock UK	15,50 €

The guitar truly doesn't stop, blazing on behind and around the singing, and somehow it all seems to be with a purpose. PLUTO CD - PLUTO +++ A pretty clumsy progressive boogie rock outfit judging by their album. The playing is competent enough but the compositions are well below par with Beauty Queen, Road To Glory and the FREE - like Down And Out. Their best song was a 1972 single, I Really Want It. The See For Miles reissue includes both sides of the 1972 Dawn 45. I Really Want It featured former COCHISE member John Gilbert on vocals and some liken his voice to David Coverdale's.	1972	See For Miles / UK SEECD 265	Prog. UK	12,90 €

POLYPHONY CD - Without Introduction Jaw-dropping album from one the US's earliest progressive rock bands-it is safe to say that dumping an innovative product such as this on an unsuspecting audience, even back in 1972, baffled most listeners, thus a disappearing act which has relegated this gem to the obscurities hall of fame! Their music is dominated by heavy Hammond and an active core of drum play and congo bashing; add to this mix a penchant for surrealistic lyrics and off-center vocals and you get the picture. Try to imagine a band who, upon hearing Emerson, Lake & Palmers Tarkus for the first time, indulged in heavy amounts of mescaline and dropped by the studio. Assume that they are competent musicians and have carefully considered their music before recording. With that I think you have a vague idea of what this seminal progressive act from America were all about. Is it progressive or psychedelic? The answer is both. Extremely so!	1971	Acid Symposium / US AS CD 08	Prog. Psych USA	12,90 €

POLYTOXICOMANE PHILHARMONIE CD - plays "psycho erectus" Very remarkable first sign of life by this German underground psychedelic tribe, living and rehearsing in a secret hideout deep in the woods near Frankfurt. Polyphonic spaced-out soundscapes build of mushroom-fed psychedelia and space rock (not so far away from Pink Floyd, Hawkwind, Tangerine Dream or Gong) fused with jazzrock, Zappa-esque fragments and some oriental vibes. Eccentric here, Curious and wayward there, and a whole dump of clever ideas in all - psycho brainfood, indeed.	2003	Nasoni / GER 858-001	Psych Rock GER	15,00 €
PONTY, Jean-Luc CD - Electric Connection / King Kong - (2CD) These albums originally appeared in 1969 on the Liberty/World Pacific Jazz label and are now for the first time as a double CD. 'Electric Connection' was produced by Richard Bock, who was connected production-wise with many Ravi Shankar recordings. 'King Kong' was produced by Frank Zappa. It has been a long, fascinating odyssey for Jean-Luc ponty, who started out as a straight jazz violinist only to become a pioneer of the electric violin in jazz-rock in the '70s and an inspired manipulator of sequencers and synthesizers in the '80s. At first merely amplifying his violin in order to be heard, he switched over to electric violin and augmented it with devices that were associated with electric guitarists and keyboardists, like Echoplex machines, distortion boxes, phase shifters, and wah-wah pedals.	1969-7	Gott Discs / UK GOTTCD 014	60's Beat Pop USA	16,50 €

POPOL VUH CD - Seligpreisungen Popol vuh's fourth album from 1974. Still as beautiful as previous releases, Seligpreisung carries on the delicate ethnic spaced out feel but has a slightly darker edge, the overall effect perhaps best described as gothic folk. POPOL VUH CD - Aguirre First proper and correct reissue of popol vuh's 6th album which was the sound track to the german film Aguirre (about the famous conquistador's doomed Amazonian expedition) and the music is suitably eerie and primal, loaded with Mellotrons. Housed in a beautiful digipack with an extensive, detailed booklet and the missing 7 minute track "Aguirre III". In many ways this is a soundtrack and film similar to the equally dark Apocalypse Now.	1975	SPV / GER SPV 085-70142	Prog. Electronic GER	17,00 €

PRETTY THINGS CD - Rage before beauty The first new studio album from the legendary "Pretties" in almost 20 years. The album kicks off with "Passion Of Love" which manages to wring enough passion out of 3 minutes and 18 seconds than some bands manage in an entire career. Featuring the classic 1966 line-up, along with guests, David Gilmour, Ronnie Spector and The Bach Chorale. The PTs kick more ... here than all those new hype bands, such as the Strokes, the Vines, or whoever. PRICHARD, Joe & Gibraltar CD - Joe Prichard & Gibraltar Another extremely rare record from Radioactive. Originally only pressed privately in 1974 in a quantity of 500 records, this terrific album has been a collector's favourite for years now and deservedly so! Ranging in style from Jimmy Page-esque power chords and guitar breaks to the dual engine guitars of Z Z Top and also including a wonderful 9 minute jam of jazzy flute and sax a la Jethro Tull or Traffic. A heavy rock and prog delight.	1974	Radioactive / UK RRCD 062	Psych USA	14,90 €

PROCOL HARUM CD - Shine on brightly - (Digipak) Second highly psychedelic album from the UK band whose combinations of surreal lyrics, organ dominated instrumentation and embrace of classical motifs were to be important beginnings for the later progressive rock movement. The lengthy "In Held Twas I" mixes Eastern mysticism with Sergeant Pepper styled psychedelia and depressive poetry to great effect, whilst 'Quite Rightly So' 'Skip Softly' and 'Rambling On' are all examples of their particularly quaint and English, often disturbing and doom-laden, brand of progressive blues'n'soul. This digipak release comes with three bonus tracks, including the stereo mix of "Homburg".	1969	Repertoire / GER Rep 4667	Rock Prog. Psych UK	13,90 €
PROCOL HARUM CD - A Salty Dog - (Digipak) Third album, recorded in 1969, which some consider to be the finest progressive rock album ever made. "Salty Dog" continued in similar vein to previous releases, mixing classical refrains and rock with more theatrical elements and boasted some excellent orchestral arrangements. Digi-pak with 3 bonus tracks.	1969	Repertoire / GER Rep 4668	Rock Prog. UK	13,90 €
PROCOL HARUM CD - Home - (Digipak) 1971 album with a slightly different line-up from previously, but still concentrating on the twin keyboard and mock classical approach, although the wah-wah Hendrix like guitar of Robin Trower was becoming more noticeable, and the lack of a fulltime organist gave the multitalented Chris Copping more room to play bass. On 'Whisky Train' the band actually sound like Blue Cheer or some other heavy-as-lead power trio, except that there were four of them (five including lyricist Keith Reid) More importantly, this was the album on which Reid, after a nervous breakdown, really spilled his guts onto the page, replacing the quaint allegories and Lear/Carroll-influenced acid poetry of the preceding three albums (although 'Whaling Stories' continued the maritime theme of 'A Salty Dog') with a collection of songs about rotting corpses, overdosed girls, executions, sloth and decadence, apocalyptic visions of 'streets awash with blood and pus', Manson, alcoholism, drug dependency, suicide and most worryingly, on 'Still There'll Be More', what sound like actual threats to rape and murder people. This was no longer the twee popsike of 'A Whiter Shade Of Pale' or 'She Wandered Through The Garden Fence', this was the sound of a band coming to terms with the end of a hippy dream that had become a nightmare.	1970	Repertoire / GER Rep 4669	Rock Prog. PROFESSOR WOLFFF CD - PROFESSOR WOLFFF Excellent German progressive rock with German lyrics, comparable to IHRE KINDER to a certain extent, but with appealing classical-inspired instrumental parts. CD contains previous unreleased bonus material. Digipak release. Musikalisch irgendwo zwischen IHRE KINDER und MURPHY BLEND angesiedelt, verbunden Prof. Wolfff deutsch gesungene politische Texte mit Prog-Rock. Auf den langen Tracks dominieren eine Hammond-Orgel und Flötenakrobatik. Dazu gesellt sich hin und wieder ein - gottseidank - relativ diszipliniertes Saxophon. Their self titled debut consist of live recordings from 1970. The band focuses on blues standards like Jr. Wells's "Snatch it back", Jimmy Reed's "Ridin on the L+N" and Dylan's "Highway 61". These classics are masterly transformed into fiery jams. PUBLIC NUISANCE - (2CD) CD - GOTTA SURVIVE USA import. DOUBLE CD worth of incredible material all previously UNRELEASED, produced by TERRY MELCHER. They started off as THE JAGUARS in '64 and made 2 now ultra rare 45's as MOSS & THE ROCKS (both included here) and then became PUBLIC NUISANCE, dressed in black with ultra-long hair, sort of proto Ramones look, and playing a fascinating blend of punky garage-tinged psychedelic rock, with total WHO/SMALL FACES energy and a SEEDS/MUSIC MACHINE monomania, all topped with some of the coolest guitar and lyrics. As heavy as STOOGES, as freaky as AIRPLANE and as direct as CREATION. All cuts are gloriously remastered and the CD has a 28 page booklet packed with mind-blowing graphics and eye-popping pict's of the band. PURPLE IMAGE CD - PURPLE IMAGE Their eponymous and only album merged a strong blend of soul funk and psych rock to considerable effect. Released in 1970 on the obscure Map City label it's a clever use of fuzz and wah wah guitar demonstrating a clear Hendrix influence. The 15-minute "Marching to a different drummer" is full of guitar jam extravaganza. The overall sound is tight and driving, making for an excellent album, coming with nice cover art.	1970	Radioactive / UK RRCD 041	Psych Rock Funk USA	14,90 €

By many considered to be the best Icelandic band ever. A blend of Icelandic folk songs and progressive rock. Most of the songs on this record can be found in Rev. Bjarni Thorsteinson's work "Icelandic folk songs". The songs are reinterpreted in a more progressive way, somewhat in the vein of Gryphon with occasional sparse instrumentation. The booklet has the Icelandic as well as the English lyrics plus an explanation to each song.

QUARTETO 1111 CD - Singles and Eps A band that featured the most legendary musician in Portuguese pop music history (Jose Cid, widely reknowned in mellotron and progressive music circles), and yet this is the first chance we've had to hear anything by his legendary group; what we find is a very nicely packaged fifteen track collection of delicious melodic pop/psychedelia that leads off with Quarteto 1111's striking debut single 'A Lenda De El-Rei D. Sebastiao' from 1967, a song which changed the course of pop music in Portugal; as with any band of quality in that heady time, Quarteto 1111 (Jose Cid in particular) had run-ins with the politicos, which caused some of their output to be suppressed; yet, here are tracks from every year between 1967-1971, including their two English language songs 'Ode to the Beatles' and 'Back to the Country'; the Beatles—and to a certain extent the Moody Blues—were obviously very big influences on Quarteto 1111, which is evident in everything from melodic construction of the songs, to use of backward tape effects, instrumentation, string arrangements, etc.; booklet has some notes on the band's history, empahsizing the importance of 'A Lenda De El-Rei D. Sebastiao', and its mythic theme of the loss of the Portuguese kingdom to Morocco. A poetic band, well-represented.	1967-7	World Psychedelic / K WPC6 8490	Psych Pop POR	17,00 €

QUINTESSENCE CD - IN BLISSFUL COMPANY As pop music made its way into rock in the late sixties, several of its protagonists decided to leave behind the well-trodden paths of the past. Native Australian Ron Rothfield (flute) formed Quintessence, a six-piece outfit based in London's Notting Hill, that blended jazz, folk and meditative sounds. The group's highly sought after debut album, originally released on the legendary Island Records label, produced a cornucopia of Far-Eastern elements, taxing rock improvisations and religious themes – all brilliantly executed by six adventurous soloists. For its Repertoire CD debut, 'In Blissful Company' has the addition of two rare extra A & B-side tracks taken from a rarely found single : „Notting Hill Gate" and B-side „Move Into Light".	1969	Repertoire / GER Rep 1009	Psych Rock UK	14,50 €

QUINTESENCE CD - SELF / INDWELLER	1971-7	Drop Out / UK DOCD 1982	Psych Rock Folk UK	17,90 €
RCA label albums from 1971 and 1972 respectively from a band who were a staple on the alternative/hippy scene in the UK in the 1970's—they played cathedrals, free festivals, you name it, and made a big hit with their mix of flute and very Dead-like guitar jams, all built around a vocal mix of devotional chants and Hindu iconography; there's a real authenticity to the "Self" album: it's a strong blend of folk rock with a cosmic Eastern vibe; "Indweller" is weaker, but still has moments; so, fire up the incense, assume a cross legged posture, and sing along to a band often cited as a mix of George Harrison, Ravi Shankar and Kula Shaker (!). Already out of print - last copies.				
QUINTESENCE - SHIVA'S CD - COSMIC SURFER - (2CD)	2005	Eclectic / UK ECLCD 1024	Prog. Rock UK	15,90 €
Forever remembered for their underground hit "notting hill gate" Shiva Jones, the former lead singer and song writer for the progressive underground english rock band QUINTESENCE (circa. 1969 - 1974), and his new music partner rudra beauvert have come together to create an exciting, eclectic and contemporary style of music on their double cd cosmic surfer. , Jones and Beauvert weave humour, speech and satire into serious topics that affect the balance of our global community today. Impossible to categorise, it incorporates, electronica, rock and ambient/new age. The double cd set has songs like reptilian corporate sign language, that address the corporate greed of our times. But what am i? Is a tongue-in-cheek / monty python view on alien abductions and the eternal question of "Who are we?" in a broader sense. Blue is beautiful and everything is weird are two songs that look at how we are treating the environment. Hollywood guru and new age bread head send up the new age guru circuit. Also, due to popular demand, we've included modern renditions of the most popular classic Quintessence songs such as cosmic surfer, ganga mai and giants. "Cosmic surfer" is fearless ride and will definitely take the listener to musical realms not experienced before!

RÅG I RYGGEN CD - RÅG I RYGGEN	1975	Transubstans / S TS 013	Prog Hard S	14,90 €
One and only album from outstanding band from the Stockholm area. Released in '75, this is nothing less than a milestone in Swedish hardrock history. An album filled with progressive and guitar driven hardrock tunes with over the top fuzz dual guitars and moogs / hammond. Very intense and powerful, and always, when mentioned, described as one of the real jewels from Scandinavia. File next to URIAH HEPP and ZARATHUSTRA. Never on CD before, and adding 3 live bonus tracks, 1 of them; "Land over the rainbow" is never heard before! This is a must for all friends of 70's hardrock from Scandinavia !!

RAIN CD - LIVE, CHRISTMAS NIGHT	1966-7	Radioactive / UK RRCD 110	Pop Rock Psych USA	14,90 €
Another custom-pressed rarity to delight and amaze, this time by this New York outfit which appeared in 1971 on the Whazoo label. The lads assembled a cohort of their chums, clearly awash with Christmas spirit, to cheer them through a selection of Stones (and other's) covers. Sounding like the Rolling Stones on crack, the vocalist has jagger down to a T and the only real difference is that they really crank up the amps to 11. The music is jammy and better than everything the Stones could ever conjure.

RAIN CD - RAIN For those into early seventies U.K. progressive rock ala Yes, Genesis etc., this may interest you. Shades of light and dark, jazzy signatures, oodles of keyboards, the odd guitar solo and harmony vocals. Not many American bands embraced the prog-rock genre - this outfit occasionally bask in it though they tend towards lighter moods rather than heavy pomposity. Their origins are unknown as is any connection to other Rain's, e.g. those from New York and Kansas.	1972	Mason Records / EU MR 56447	Prog Rock USA	14,50 €
RAINBOW BAND CD - RAINBOW BAND Formed in early 70's as Denmark's first supergroup consisting a.o. of YOUNG FLOWERS guitarist and 2 members of BEEFEATERS. Progressive rock in the style of 'BURNING RED IVANHOE' and inspired by 2nd TRAFFIC lp. music is powerfull and indicative of the hippie era. in late 1970 the singer was replaced and the band decided to remake their first album again with lot of changes. The 14 minute 'Living On The Hill' is the highlight on both versions with great guitar playing by Peer Frost. Both albums are on this CD. Over 78 minutes. CD comes with informative booklet. Taken from original masters.	1971-7	Long Hair / GER LHC 018	Prog. Psych DK	17,00 €

RAINBOW PRESS CD - There's A War On For an album that's becoming a minor collectable, remarkably little is known about Rainbow Press, other than the band recorded two late '60s albums (There's A War On - Mr G 9003 and Sunday Funnies - Mr G 9004) for the mysterious Mr G label. Mr G also remains stubbornly elusive, although as Rainbow Press's two releases bear consecutive catalogue numbers, it is more than possible that the "Mr G" in question was none other than the band's vocalist, Joe Groff. The album itself is excellent late '60s soft rock with more than just a touch of psychedelia about it. The ten well-crafted songs are all original, and are delivered smoothly by a tight 6-piece band dominated by Groff's superb vocals. The album's name and the eponymous track are as close as we get to political posturing, which is a great relief as the lack of prosletising let's the strength of the song writing and the band's performance shine through. There are loads of tight vocal harmonies, and plenty of fuzz guitar liberally dispensed throughout this polished and very enjoyable record. Highly recommended.	1969	Radioactive / UK RRCD 094	Psych Rock USA	14,90 €

RAINBOW THEATRE CD - FANTASY OF HORSES Rainbow Theatre was one of the most unique bands to emerge from the mid-1970s Australian rock scene. On a scene dominated by hard rock, blues and commercially minded, Countdown-friendly glam pop, Rainbow Theatre proffered a style of classically influenced jazz rock that could be practically head spinning in its intensity. While at the core was a loud rock band capable of blasting out 'Smoke on the Water' when called upon to do so, other influences as diverse as classical composers Stravinsky and Wagner to King Crimson and the Mahavishnu Orchestra came into play. Fantasy Of Horses was released in 1976 as a follow up to the debut The Armada (also due to be reissued by Aztec Music later this year). Full of symphonic grandeur, the seven-part, 22-minute title suite emerges as the band's crowning achievement - the track weaves its way through complex progressive jazz movements to minor-key classical moments, and naturally there are lashings of mellotron to be heard. Much bootlegged, this is the first authorised reissue. It has been remastered from the original tapes, and also includes a bonus orchestral excerpt from Rainbow Theatre main- man Julian Browning's follow up classical piece: Symphony No. 3. (Performed by the Melbourne Symphony Orchestra) – packaged in Aztec Music's trademark 6 panel digi-pak with a revealing essay by noted Australian rock writer Ian McFarlane.	1976	AZTEC MUSIC / AUS AVSCD 011	Prog Jazz Rock AUS	20,00 €

RAISINS IN THE SUN CD - RAISINS IN THE SUN	2001	Acadia / UK ACA 4018	Rock Country USA	9,95 €
The members of Raisins In The Sun have worked with some of the most influential artists in popular music: Bob Dylan, The Rolling Stones, The Doors, Aretha Franklin, Big Star, Cyndi Lauper, Radiohead, Hole - the list goes on and on. But when bassist Harvey Brooks, producer/keyboardist Jim Dickinson, producers Paul Kolderie and Sean Slade, drummer Winston Watson, and singer-songwriters Jules Shear and Chuck Prophet got together in a Tucson, Arizona recording studio last year, there were no expectations. There were no songs. There were no plans. "We just wanted to see what would happen," said Jules Shear. Maybe it was the lack of expectations; maybe it was something in the desert air. Whatever the reason, these seven industry vets left Tucson with an album of roots-influenced rock and pop that they'd written and recorded in less than two weeks. Raisins in the Sun is remarkable not only for its strong songs and performances, but also for the sound of musicians making music in a spontaneous and uncalculated setting. Produced by Raisins In The Sun. Includes: "All the Way," "Old Times Again," "Candy from a Stranger," "Post Apocalyptic Observations," "You Can Let Go Now," "String Bean," "I Taught Her Everything," "Chicken Fried," "Nobody Loses," "Glenn and Stone"

New York's Ram recorded this masterpiece of heavy prog in 1972 - before mysteriously disappearing from the scene without a trace. The album is composed of 5 complex arrangements, which rely heavily upon the all-essential mellotron, flute and aggressive guitar. The 5th track is a 25 minute long opus, during which the band's full creativity is released. This much sought-after collectible should not be missed!

RAMATAM CD - In April Came The Dawning Of The Red Suns	1973	Wounded Bird / US WOU 7261	Rock Hard USA	13,90 €
Second album (1973) from Hendrix-inspired rockers, featuring the incredible April Lawton on lead guitar (surely an unsung mentor for many a female guitarist at a time when she was one of the very, very few) and produced by Atlantic wizard Geoffrey Haslam (who's name is featured on albums by groups as diverse as The Velvet Underground, J.Geils Band and Bette Midler) this is a great rock album with some awe inspiring guitar work from Ms Lawton. Lavishly orchestrated and at some points lacking some necessary stringent editing but overall a vast improvement on their debut. Psychedelic and heavy with a southern rock edge, some very interesting string orchestration, and sterling guitar work, this is a bit of an unheard gem really. Finally reissued on CD for the very first time. Announced for release : 05/03/2005

RATS CD - The Rise and Fall of Bernie Gripplestone and the R		Angel Air / UK SJPCD 022	Psych Rock UK	16,50 €
If the name of The Rats is vaguely familiar to the more knowledgeable music buff, it is almost certainly to the scribbles of writers eager to document the progress of David Bowie, whose liaison with ex-Rats guitarist Mick Ronson in the early 1970s proved to be the musical springboard for his career (Ronson went on to play in Spiders From Mars, Bowie's backing group during his rise to fame in 1972). However, the recent discovery of 6 previously unreleased tracks, all distinguished by some characteristically excellent Ronson guitar work, proves beyond reasonable doubt that the Rats were an accomplished act in their own right: indeed it could be argued that they showed more promise at this stage than Bowie's pre-Space Oddity recordings from the same period. The 11 tracks on this lp include the band's first two singles along with 6 previously unreleased tracks and 2 tracks recorded in 1994 after Ronson's death. Extensive liner notes.

This is Red Krayola's debut album, originally released on International Artists. When Red Krayola first appeared on the Houston scene in 1966, they were performing almost all cover material. However, the band soon began dedicating portions of their set to unique improvised moments called "The Freedom Freekout" during which they would invite other musicians on stage to play. These improv sessions soon resulted in the formation of a companion group called The Familiar Ugly, which can be heard in between tracks on this album. Aside from these "freakouts", the album includes other very weird material, and features Roky Erikson on at least two tracks. Limited edition of 1500 copies in original LP-look-alike replica sleeve.

"The Experience Sessions" is a collection of rare tracks recorded by Noel Redding during his career as bassist for the Jimi Hendrix Experience. At the time of this recording Redding was on the brink of leaving the group to begin his solo career (he went on to form Fat Mattress in 1969). The tracks presented here were not recorded for release as a Jimi Hendrix Experience album, although almost all tracks feature Hendrix on guitar and Mitch Mitchell on drums. Highlights include: "There Ain't Nothing Wrong", featuring Dave Mason (guitarist of Traffic); a live version of "Red House", recorded in '68 at the Olympia in Paris with Hendrix in top form; a previously unreleased version of "Walking Through The Garden" with Chris Wood of Traffic on flute; an alternate version of "How Can I Live?" and "Noel's Tune" and "Little, Little Girl", two more previously unreleased versions that complete this tribute to the great Noel Redding.				
REFUGEE CD - REFUGEE	1974	I-DISK / UK IDVPCD 2	Prog. Rock UK	16,90 €
The band initially came together in late 1973 and following rehearsals the band recorded their only album the self titled Refugee which generally received excellent reviews. The album was released on the Charisma label who were certainly behind the project as the band departed on a worldwide tour in promotion of the album. All was going well for the band and plans were being laid for a follow up album until rock supergroup Yes came calling looking for a replacement for the recently departed Rick Wakeman. In all honesty there were few candidates who would have been capable of filling Wakeman's shoes in Yes however Patrick Moraz was certainly more than capable and as history has proved accepted the offer he couldn't refuse and Refugee became a one album band when Moraz departed in 1974. The Refugee album has never received an official release on CD in the UK and was briefly available as a costly semi legal release in the Far East. Tracks include the extended pieces "Credo" and "Grand Canyon Suite" and also "Papillon" and "Ritt Micklely". The album has been re-mastered for this release and will certainly be of interest to the large and dedicated Patrick Moraz fan base and also of interest to Yes fans through Patrick's membership of the band and lovers of progressive rock music.

REID, Terry CD - Bang, Bang, you're Terry	1969	Repertoire / GER Rep 4862	Blues Rock USA	11,90 €
Terry Reid could have been the lead singer with Led Zeppelin! Yep, our Terry was offered the gig, before Robert Plant, so the rumour goes. In any case Mr.Reid achieved a great deal under his own steam and this is a fine example of his powerful vocal style let loose on a series of rare and previously unreleased performances.

Upon its original 1973 Atlantic Records release, one journalist said of Terry Reid's classic rock LP River that "his velvet and sandpaper sound is irresistible as Rod Stewart, his delivery as nakedly emotional as Joe Cocker, and his musicianship as fine as Steve Winwood". Aretha Franklin once said that "there are only three things happening in London: The Beatles, The Rolling Stones and Terry Reid." Produced by Tom Dowd and featuring slide guitarist David Lindley. Deluxe packaging 20-page booklet with rare photos and liner notes. First time on CD and remastered from the original master tapes!

This Canadian group released its first - and extremely rare - album in 1969, becoming an essential piece of the American acid psych mosaic. Great sound and awesome vocals provided by the brilliant Lynda Squires, vaguely reminiscent of the Jefferson Airplane. Track listing - 1. Travels Of Blue Paradox (Bob Bryden) 2. Long Day Journey (Bob Bryden) 3. Standing Room Only, Mr. Mars (Bob Bryden) 4. Eyes Knows, So Does Ears And Carolina (Bob Bryden) 5. Curio Shop (Bob Bryden) 6. Black Ode (Dave Hare) 7. This is the second (1970) album of the band with new members after the original line up split right after the first self titled album of 1969 (AK277). Still featuring axeman Bob Bryden and the fabulous Lynda Squires on vocals, this album is even more convincing thanks also to the awesome production. Psychedelic pop at its best.				
REINHARDT, DJANGO CD - SULTAN OF SWING, VOL. 1 - (2CD)	1936-5	Birdland Jazz / EU BLJ	Jazz	14,90 €
Volume 1 in the series celebrating this legendary jazz man, Reinhardt was the first artist of his genre to emerge in Europe, and also the first to front a jazz combo using an acoustic guitar. Reinhardt was a gypsy and self taught musician who transformed his free spirit into the joyful swinging sounds of his guitar, becoming point of reference for other guitarists like Charlie Christian and Les Paul. For years Reinhardt was accompanied by another jazz musician of mythic proportions, Stephane Grappelli. This volume is the first in a series of three. All recordings are of excellent audio quality.

RELATIVELY CLEAN RIVERS	1975	Radioactive / UK	Psych	14,90 €
CD - RELATIVELY CLEAN RIVERS		RRC0 020	USA	
Former Beat Of The Earth leader Phil Pearlman assembled this band in the early seventies and eventually recorded this magnificent rural rock album in 1975. The Relatively Clean Rivers album stands with the very best albums of the era, possessing a purely American sound and walking confidently past the shadow of its previous incarnation. Amazingly well produced for a private pressing, it is the very antithesis of his earlier releases that could be classified as garage (at a stretch, perhaps - they are not without a certain tangible sophistication). No measurable degree of time or expense was spared in the creation of the Relatively Clean Rivers album, which took over a year to assemble and is the most flawless snapshot of the California seventies underground scene you will ever hear. While it should be easy to describe the sound the band produced, it most definitely is not. There are moments where they sound like The Grateful Dead at their most ethereal, for example like Box Of Rain from American Beauty; but other tracks on 'Rivers are utterly psychedelic in the Damin Eih way (although this album smells more like thai stick than acid). The Persian Caravan is as Eastern as the title suggests; Pearlman's collection of ethnic instruments used by the band to good effect. The lyrics are both funny and thought-provoking, especially when addressing religion: "Could I believe if I had nothing to gain? Would I walk away to paradise, Or keep on playin' the game?" Famed poster artist Jim Evans was enlisted for the cover, which must be seen to be believed. Imagine a cross between The Chocolate Watchband's No Way Out and one of those dayglo head shop posters and you'll have some idea. (Some of Evans' other rock-orientated commissions include The Cosmic Travelers LP cover, the movie poster for A Sea For Yourself, and The Allman Brothers' Wipe The Windows LP cover.) There were two pressings of the album (500 each) and Pearlman hand-distributed them throughout California for a couple of years, even leaving copies on college campuses (under trees; on benches, etc!) and used a special technique that he referred to as "reverse shoplifting" to get them into record shops (use your imagination!). Of the (known) private pressings that Phil Pearlman was involved with, Relatively Clean Rivers is the easiest one to acquire and is recommended to anyone even remotely interested in seventies music. None of his albums have been reissued as of yet..

CD - CRONOLOGIA 1		BMG 74321 314302	ARG	
Born in the early 70s, El Reloj was highly influenced by hard rock bands like Deep Purple and Uriah Heep. Their early singles (1973/74) are excellent. Their best work is there: lots of guitars, Hammond organ and high pitched screaming vocals. It was not until 1975 that they managed to release their first album. With bigger production their sound turned more elaborate, more complex, but ultimately not more satisfying. New longer versions of their early hits "Alguien más en quién confiar" and "Blues del atardecer" were included. But the single versions are far much better. Anyway, it is a good album. El Reloj's next recording was another excellent single of harder rock. For the second album they turned somewhat symphonic with heavy keyboards, though still keeping the classic hard rock guitar harmonies.

RISING SUN CD - Born To Be Wild Born To Be Wild, with its fabulously-cheesy cover, duly appeared on Birchmount (Birchmount 515) in 1969. Although the band chose a covered track as the album's title, many of the dozen tracks on this album are self-penned and most of them are pretty good, and the band covers Steppenwolf's opus major effortlessly, but the garage-punk vibe of the first side of the record gives way to a more jazzy sound a la Blood Sweat And Tears on side 2 with plenty of horns in evidence.	1969	Radioactive / UK RRCD 092	Rock Jazz CDN	14,90 €

ROBIN, TEDDY -& THE PLAYBOYS CD - THE IN SOUNDS OF HONG KONG !!!	1965-6	Underground Masters / UM 003	60's Psych Beat Pop Hong Kong	17,00 €
French release. Not unlike all the Occidental places in the world, Hong Kong also experienced the beat boom in the mid 60's. Many groups appeared at that time, and some of them left some great records that still today are very fresh and enjoyable. Names like The Mystics, Danny Diaz and the Checkmates, Joe Jr. and the Side Effects or many others took the Hong Kong youth by storm, but no doubt that the most cool and succesful group was Teddy Robin & the Playboys. They released 4 albums, one double album and a big number of 45s, from 1965 to 1969. The double album was a kind of "greatest hits" and today it's one of the most rare and sought-after collector items from Asia. Their music ranged, during all the time they were active, from 60's pop, beat, garage, fuzz-punk and psychedelia. To our taste, we wouldn't say that their full discography is ace as they (like so many others by then) recorded some pretty lame pop songs as well. But hell how good the rest is!!! None of these albums has been reissued in any format, so here's, for the first time ever, a CD compilation of the coolest tracks by Hong Kong's sensation, Teddy Robin & the Playboys! Great artwork including booklet with lots of great pictures!

ROCK SHOP CD - MR. LEE'S SWINGIN' AFFAIR PRESENTS	1968	Radioactive / UK RRCD 080	60's Psych Rock USA	14,90 €
Hailing from Monterey in northern California, Rock Shop became one of the most popular bands in the area, playing regularly at Mr Lee's Swingin' Affair nightclub in West Covina to packed houses. The band's one and only album, released on the Lee-Mo label, took it's name from the nightclub, and featured 12 self-penned tracks of fuzz-led blues and psych, as well as boasting a spoof cover depicting the band as the next Beatles and hairdresser-cum-rock promoter Mr Lee as God! Despite enjoying a minor level of success including supporting both the Shirelles and Big Joe Turner, the band decided to call it a day in 1969, leaving this lone recording as their epitaph. Although most of the band members departed the music scene, leader Alan Clark went on to work with the likes of Mary Wells, Bobby Day, Al Wilson and Big Joe Turner, as well as enjoying a lengthy stint in Gene Vincent's Blue Caps. This extremely rare album has a strong mix of late '60s sounds that, given the high musical standard and excellent recording quality, still stand up amazingly well today. Highly recommended.

Those who relish his atmospheric tales of Victorian serial killers, mad woman in the attic, Dickensian underworld characters and Edwardian inventors, will know what forbidden pleasures await them, for the occult figures strongly in Roland's fantasy world. At several stages in his career he has taken a break from music and each time he has come back having re-invented himself, more musically eloquent and mature than before. So, pull back the curtain and enter the miasmic atmosphere of the opium den, recline on a pile of plump satin cushions and draw from the hookah as the master of the mystic arts leans languidly like Alice's caterpillar and spins his gaslight tales for your personal entertainment.	2004	Gaslight / UK gascd 804	Psych Pop UK	15,90 €
ROMANOS, George CD - Two little blue horses If you like the thought of Greek ballads overrun by heavy fuzz guitars and mutilated by Revolver-styled studio effects, then this is the album (Zodiac, 1970) for you! Exotic melodies coupled with a full-force fuzz assault, with a nod to the Byrds ("Eight Miles High" riff makes an appearance); bears comparison to the early Erkin Koray albums for Mediterranean psychedelic intensity, but with baroque pop/psych tracks of a Left Banke type thrown in for added space.	1970	ZODIAC / GR GRECD 88010	Prog. RUFUS ZUPHALL CD - PHALLOBST RUFUS ZUPAHL'S next album Phallobst (recorded in the Dierks Studio from July to August 1971) featured new members Thomas Kittel and Manfred Spangenberg. This album was more polished and had a wider dynamic and instrumental range (mellotron, clavinet and acoustic guitars were added) than their debut.. Particularly strong was the album's second side with two fine instrumentals: "Prickel Prit", strongly flavoured by the blues, and "Makrojel" electric folk-rock with flute to the fore. "I'm On My Way" closed the album in a quiet way. This new version has 2 bonus-tracks – the second part of their farewell concert in Aachen live 1972.	1971	Long Hair / GER LHC 030	Prog. GER	15,50 €

SAINT JUST CD - SAINT JUST - (Mini LP-CD) (PAPERSLEEVE) Korean import. Limited edition mini lp cd (papersleeve) + obi. Robert Fix and Toni Verde, with the support of Tony Esposito, formed the Italian progressive folk group Saint Just, who debuted in 1972 with this self-titled album. The resulting work was a kind of folk that dug deep into Italian (and non Italian) culture of past centuries, particularly the middle ages, and was spiritually connected to artists like Pentangle, Third Ear Band and Steeleye Span. Rarified atmospheres meld with the inspired horn playing of Robert Fix and the majestically sweet vocals of Jenny Sorrenti (then known as Jane). Saint Just is, with good reason, considered one of the most interesting Italian musical events of the period.	1972	Si-Wan / KOR C 6417870	Prog Rock Italy	23,00 €
SAINT STEVEN CD - OVER THE HILLS/ THE BASTICH At last this classic of sixties American acid rock makes its official debut on CD. The brainchild of original Ultimate Spinach member Steven Cataldo, the album is a fine example of the "Boston" sound of 1969 and was conceived and recorded against the backdrop of social and political unrest of America in the late 1960s. With the Vietnam War at its height and the assassination of Robert Kennedy a recent memory, this legendary album juxtaposed fine rock music with audio excerpts from US television news and is a true one-off. With master tapes thought to have been lost, an exhaustive search by Eclectic Discs has resulted in the discovery of the master in an archive in England. Remastered from the original tapes and featuring a booklet annotated by Steven Cataldo (with previously unseen photographs), Eclectic Discs is proud to present "Over the Hills / The Bastich" to a new and discerning audience, an album sure to receive attention in the quality music press.	1969	Eclectic / UK ECLCD 1031	Psych Rock USA	14,90 €

SALAMANDER CD - Bent Hemlock "Bent Hemlock" is a leap forward for the Minneapolis psych/improv masters in Salamander. From the beginning there's always been a welcome acid folk edge to their wall of drone, but with their fourth album the folk finally comes to the foreground, and not surprisingly, helps flesh out some of their most dynamic work. The results are a rich, hallucinatory trek through deep waters and darker shadows. Bent Hemlock" is an intense, grim, voyage through the watery depths and your own backyard, all glimpsed through a rather paranoid lens. Despite any suggestions to the contrary, it's an album for our age. It's also one of the best psych folk releases of 2005.	2002-0	camera obscura / AUS CAMO70CD	Folk neo-psych USA	17,90 €

SAN UL LIM CD - SAN UL LIM Debut album by this amazing Korean psychedelic group (some say the nation's first psychedelic group), featuring some of the dirtiest fuzz guitars ever recorded; the booklet has information in English about the history of one of the songs 'Arirang', but does not translate the names of the rest of the songs from the album—maybe this is no surprise, as Korean friends of mine say that the song titles ('Maybe It Was Late Summer', 'The Carpet of My mind' are two rough approximations of titles) and certainly the lyrics of San Ul Lim songs are so poetic and rich in meaning that they are untranslatable; regardless of the language gap, the music is strong, moody and atmospheric, and rewards repeated listening. SAN UL LIM CD - SAN UL LIM 2 Sizzling second album, which according to the liner notes, was released just five months after the band's first album; despite the fact that these early San Ul Lim records were made as late as 1977, they sound as if they could have been cut in the late 60's. San Ul Lim were ostensibly a trio—with the eldest brother on guitar, the youngest on drums and the middle playing bass; they also have their sister Kim Nan Suk playing keyboards—a small oversight maybe for her never to get any credit on the records, as she has as big a role as her eldest brother when it comes to carrying the solos for the group, using a broad array of synths (a harpsichord farfisa patch being popular) and electric pianos. The bass playing of the middle brother is also spirited. Not content to merely playing his role in the rhythm section and keeping harmony going, he has a tendency to keep busy with fast moving scale fragments and melodies. A tougher sounding album than their rightly-lauded debut—the music became more psychedelic and impromptu; and as the notes tell us, "Definitely the second album San Ul Lim made them rock stars in Korea." Korean rock specialists called the first three San Ul Lim albums "the demo tape triple collection". These are regarded as the band's best recordings "because they made most songs on these albums between 1971 and 1975 (before their debut). Therefore the songs had their early originality and creativity.	1977	World Psychedelic / K WPC6 8488	Psych Rock KOR	17,00 €

SAUCEDO, Rick CD - HEAVEN WAS BLUE Now on CD! Vinyl is on the Orange Doubeldome label. Big, and sadly still pretty unknown, is this awesome album by Rick Saucedo, his debut album that was originally released in 1978 on the Reality label in the USA. Most of the tracks here are absolutely exceptional, including the number that gives the title to the album and takes the full B side of the original vinyl. Loner psychedelic, melodic, dreamy most of the time, but also featuring the ferocious fuzz-rocker "Ka mon we're gonna rock all night long". If you like Michael Angelo, Joe Peace or Bob Trimble, don't let this one pass by! Remastered sound and 8-page booklet.	1978	Underground Masters / UM 1002	Psych Rock USA	17,00 €

Well known Swiss band of the 60s, prior to KROKODIL. Energy and routine made them stick together for a lifetime. these are life recordings from 2001. They mix their own songs with Johnny Cash to an italian medley and they cover bands like the Byrds, the Kinks, Searchers and Bob Dylan. Exact harmony vocals make them able to perform tracks like "Lucy in the sky with diamonds" and "Don't let me down" in a timeless style.				
SAVAGE GRACE CD - The Complete Savage Grace - (2CD)	1970-7	33 1/3 RECORDS / US TT 9801	Rock Hard USA	28,00 €
Savage Grace was Detroit's premier progressive/hard rock band of the late 1960's, standing apart from the "high-energy" combos the Motor City is best known for. They began life with Guitarist Ron Koss, keyboardist John Seanor, and drummer Larry Zack as the nucleus of a jazzy trio called Scarlet Letter (with two 7"s on the legendary Mainstream label); but the addition of gravel-voiced bassist Al Jacquez transformed the group into Savage Grace. The band was soon signed to Reprise and released their eponymous debut in 1970, probably best-remembered for its powerful version of "All Along The Watchtower". Upon moving to Los Angeles the following year, the group embarked on a second album, leaving behind most of the progressive elements in exchange for a tougher, snarling, riff-rock attack, best exemplified by the wah-wah-soaked opening track "Mother's Son". By 1972, the trail had ended and the group went their separate ways. Savage Grace never achieved the success that seemed their due; certainly their musicianship was top notch and their songwriting was good enough. This 2CD set, licensed from Warner Brothers and carefully re-mastered, includes both LP's in their entirety plus liner notes by noted rock scribe Ben Edmonds.

First two late '60's albums from the savoy brown Blues Band, aka Savoy Brown, led by guitarist Kim Simmonds, who were - along with Fleetwood Mac, John Mayall and Chicken Shack - the leaders of the British blues boom in the sixties. Savoy Brown went on to long-term success in America, despite some members of the band (guitarist/vocalist 'Lonesome' Dave Peverett, bassist Tony Stevens and drummer Roger Earl) leaving to form Foghat. Digitally remastered, slip-cased and with extensive new notes.

SAVOY BROWN - (2CD) CD - Blue Matter / A Step Further 2fer featuring the Savs' best albums, both originally released on Decca in 1969. 'Blue Matter' features their best known tune 'Train To Nowhere'- an irresistable piledriving R'n'B tour de force filled out with brass which was often extended live to thrice its original length, whilst 'Step Further's star turn is undoubtedly 'Life's One Act Play' proving that the term 'progressive blues' was no misnomer. Essential albums from a band who on their day could make 12 bars turn a hundred unexpected corners. Digitally remastered, slipcased and with new notes.	1969	BGO / UK BGOCD 678	Blues Rock UK	16,90 €

Kim Simmonds still leads the band today to international acclaim- but everyone is agreed this period was their most fruitful, and tracks like "Gypsy" "Needle And Spoon" (not the Skynyrd tune) and "Leavin' Again" still stand up. SAWYER, PHIL CD - CHILDHOOD'S END A magical discovery from the downunder 70s psychedelic scene. Phil Sawyer's 1971 album "Childhood's end", originally released in Australia on the Sweet Peach label, remains pretty unknown yet to most of collectors around. No justice. This is a wonderful album that will please anyone into psychedelia, rock and folk. Totally electric, great production, great songwriting, warm uneducated voice by Phil himself that gives a slight looser feel to it at times. The album contains some fantastic mid-tempo psychedelic folk-rock ballads, and the song that gives name to the album is an incredible slice of pure psychedelia with lots of tasty psychedelic sound effects. This is a very rare and collectable item in original (Hans Pokora gives 5 discs to it in his books). This first ever reissue is licensed from the original label and the sound was taken from the mastertapes. CD comes in a slipcase.	1971	Guerssen / E GUESSCD 06	Psych Folk Rock AUS	17,50 €

SBB CD - NEW CENTURY Limited Digipak edition incl. 2 Bonus Tracks. SBB was the most important progressive rock band in Poland, a trio of keyboards/vocals, guitar, and drums, and they are now active again. They are well-known because they toured Western Europe before the Iron Curtain came down. For New Century (2005), Jozef Skrzek (vocals, bass guitar, Minimoog, Hammond organ, Nord Lead Electro 2, grand piano, harmonica) is joined by original guitarist Apostolis Anthimos. The drums are handled by Paul Wertico, with a couple guests supplying guitar and backing vocals. Most of these tracks were recorded in one take, giving the album a live feel. The first seven tracks are decent progressive rock before the album peters out into a long blues-rock jam, a short harmonica & drums thing and a short rocker. The progressive tracks are recognizably SBB, though one track introduces a modern, ambient feel that is new for them. It isn't up to their best albums but it is quality stuff. The jewel case CD version is 58 minutes long. The digipack and the DVD-Audio add two bonus tracks for an additional 8 minutes.	2005	Metal Mind / EU MMPCDDG 0363	Prog Jazz Rock PL	15,00 €

SCHROEDER, John CD - Dolly Catcher The Dolly Catcher is a highly original little effort from the British answer to Burt Bacharach, this '60s "easy" legend is probably best known for his production work, producing the Eurovision runner-up by Pearl Carr and Teddy Johnson's Sing Little Birdie. After a short stint with Columbia, Schroeder spent 2 productive years at Oriole, at the time the UK's only truly independent label, before departing for Pye, where he wrote for and produced artists such as Status Quo, Geno Washington and renewed his association with Helen Shapiro. In The Dolly Catcher, (the curious title probably has something to do with pulling "dolly birds", or girls) which is widely recognised as an "easy" classic, Schroeder managed to merge fuzz guitar and organ with sweeping strings and brass producing an album that is always interesting, and at times, genuinely ground breaking, particularly in the form of his legendary take on Lucy In The Sky With Diamonds which he covered in such an original way.	197	Radioactive / UK RRCD 107	Psych Rock USA	14,90 €

SCOTT, ROBIN CD - WOMAN FROM THE WARM GRASS When Robin Scott's electro anthem Pop Muzik hit no.1 in the US in 1979, few could have guessed that his debut had appeared on an obscure English underground label a whole decade earlier, with backing from psychedelic legends Mighty Baby. Now, with vinyl copies changing hands for hundreds of pounds, it's finally available on CD for the first time, featuring bonus tracks, rare photographs and comprehensive liner notes and showing itself to be a lost gem of British acid folk. "Tender mood pieces, vast open land, beach and seascapes with all their inherent imagery of desolation and sad loneliness. Soothing, sweet and occasionally really hot" - Rolling Stone "Folk-rock with psychedelic touches that is very rare and much sought-after" - The Tapestry Of Delights. "Thoughtful, earnest, acoustic guitar-led folk ballads - some are beautiful, a few are almost in the Nick Drake league. The Sailor is folk-pop in structure and effortlessly pure pop in its effect, The Purple Cadger is a wonderful world salad of epic, Dylanesque proportions and Penelope is the majestic masterpiece of Robin Scott's early work, seven minutes of bliss" - Sweet Floral Albion.	1969	Sunbeam / UK SBRCD 5009	Psych Folk Rock UK	16,50 €

SECOND LIFE CD - SECOND LIFE I would describe this one and only album by SECOND LIFE (same line-up as TIGER B. Digipak reissue in perfect sound quality. Musikalisch büstete der Vorgänger von Tiger B. Smith vollkommen gegen den Strich. SECRET OYSTER CD - SEA SON	1974	Laser's Edge / US LE 1045	Psych Jazz Rock DK	14,90 €
for the first time on CD, the second album from the legendary Danish progressive jazz-rock supergroup Secret Oyster. "Sea Son" was originally released in 1974 on CBS and is now considered by many to be the pinnacle of the band's catalog. The fiery interplay between alto/soprano sax player Karsten Vogel, guitarist Claus Bohling and keyboardist Kenneth Knudsen parallel the work of their contemporaries Return to Forever and Mahavishnu Orchestra. With a new rhythm section of bassist Jess Staehr (Burnin Red Ivanhoe) and drummer Ole Streenberg (Coronarias Dans) the band found equal footing in the world of rock and jazz. The track "Mind Movie" offers nine minutes of pure psychedelic guitar driven fury from Bohling. In counterpoint a string quartet appears on "Painforest" presenting a mellower side to the band. Perhaps it's the constant tension between the rock and jazz genres and the band's ability to blend both seamless that is the reason for their success. With the co-operation of the band, Sea Son features 3 previously unreleased bonus tracks and new liner notes from Karsten Vogel. Noted mastering engineer Bob Katz revitalized the original master tapes.

SEILER, Peter CD - Klangoase	1996	PSM / GER PSM 120 101-2	New Age GER	13,00 €
Of all PETER SEILER releases, KlangOase is probably the richest in style variation so far. Ambient pieces follow salon music, Irish folk segues into power pop and waltzes. This mix has fascinated listeners at the Luisenpark sound installation and Seiler fans alike, making this album the most successful domestic release. Find out why! SoundOasis is the right record for you play coming home after a busy day or as a soundtrack to a good book you read in the evening. Das Album KlangOase ist das wohl vielseitigste Album Peter Seilers bisher. Ambient-Stücke wechseln sich ab mit Salonmusik, energiegeladenen Pop-Instrumentals, irischem Folk und klassischen Walzern. Zusammen ergibt dies eine faszinierende Mischung, die seit 1996 nicht nur die Hörer zuhause genießen, sondern die auch zwischen Mai und Oktober täglich viele Mannheimer in die Klangoase im eigens dafür umgestalteten Bereich des Mannheimer Luisenparks zieht.				
SEILER, Peter CD - Klangoase 2	1998	PSM / GER PSM 120 104-2	New Age GER	13,00 €
The sequel to KlangOase - the SoundOasis needed more music, so PETER SEILER sat down at his piano to write new tunes based on the same concept. A designated area of Mannheim Luisenpark has been redesigned as a relaxation zone. Every day between May and October this oasis is being visited by businesspeople looking for a quiet hour away from the noise of the working day. Well concealed in trees and bushes this music, soothing and revitalizing, seeps through the leaves, mingling with the sounds of trees, birds and water, giving the SoundOasis its name. Die KlangOase brauchte neue Musik - und so entstand dieses Album unter dem gleichen Konzept: seit 1996 sind in einem speziell dafür umgestalteten Bereich des Mannheimer Luisenparks Peter Seilers Klänge zu hören: in den Bäumen versteckte Lautsprecher sorgen dafür, daß die Musik mit den Naturgeräuschen des Parks zu einem harmonischen Ganzen verschmilzt und eine ideale Oase der Entspannung entstehen läßt.

SEILER, Peter & Michael LORENZ CD - Passage What if ... a spaceship had been sent to Mars on January 26, 1998 when the window occurred? Inspired by this idea Peter Seiler and Michael Lorenz produced this CD together - the fictional voyage of the starship PROPHECY to Mars and back on the sound waves of Seiler's synthies and Lorenz' guitars. Wie wäre es wohl gewesen, wenn... am 26. Januar 1998 tatsächlich eine Rakete zum Mars gestartet wäre? Damals gab es ein ideales Startfenster zum Mars... inspiriert von dieser Idee entstand in der Zusammenarbeit von PETER SEILER mit Michael Lorenz eine CD, die die fiktive Reise des Raumschiffs PROPHECY zum Inhalt hat. SELDA CD - Vurulduk Ey Halkim Unutma Bizi - (Vol. 2) (also known as "Volume 2") It's no wonder that psychedelic crate-diggers, and self-proclaimed vinyl vultures Andy Votel and Dominic Thomas of Finders Keepers both have tracks by Selda included on their list of favorites: her take on Anatolian music is unique. This reissue features the second album (released in 1975) by this much beloved female turkish protest singer, notorious for her clashes with Turkish governments; Selda and her acoustic guitar are accompanied here by a psychedelic rock band which includes members of Mogollar, and the result is is one of the best records we've heard from Turkey, for it includes 'Utan,Utan' (traditional folk sounds spiced with fuzz guitar) and 'Karaoglan'; a track like 'Askerin Türküsü' is interesting for its medieval arrangements, and 'Maden Dagi' is sung with great emotion. This is an album which was forbidden in Turkey, which means it has been hard to find since its release; includes eight early singles as bonus tracks, on which hearing Selda sing is as exhilarating an experience as the first time hearing "les mysteres de voix bulgares" or the manic warble of Liz Fraser. Notes in "English" give some background on Selda and the Anatolian rock sound; nice booklet also includes lyrics.	1975	World Psychedelic / K WPC6 8492	Psych Rock TR	17,00 €

SHADES OF DAWN CD - the dawn of time	1998	early birds / GER eb 003	neo-Prog. GER	14,00 €
Düsseldorf's only progressive rock band is devoted to "fantastic sound fascinations on the edge of reality". Without any big commercial intention, the five SHADES OF DAWN have cultivated artrock influenced by the third division such as YES, PINK FLOYD, CAMEL, KANSAS and STEVE HACKETT. Their music impresses by sure instinct on catchy melodies, atmospheric arrangements and extensive instrumental parts. Accordingly, their debut album "The Dawn Of Time" consists of seven down the line atmospheric works of art of a great musical spectrum: from part singing and impressive keyboards as well as powerful guitars through to fine instrumental work. One thing is sure: These divine tones will take the open-minded listener into great worlds of sound. Fantastische Klangfaszinationen am Rande der Wirklichkeit..." - schreibt sich Düsseldorfs einzige progressive Rockband auf ihre Fahnen. Ohne kommerzielles Kalkül kultivieren die fünf SHADES OF DAWN reinrassigen Artrock in der Tradition klassischer Favoriten: YES, PINK FLOYD, CAMEL, KANSAS und STEVE HACKETT. Die kleinen Rock-Sinfonien der fünf Rheinländer bestechen durch Fingerspitzengefühl auf der Melodieebene, atmosphärische Arrangements und filigran ausgearbeitete Instrumentalauftritte. Genauso serviert "The Dawn Of Time" auf sieben phantasievoll inszenierten Mammutstücken das volle Programm: Von mehrstimmig angelegten Gesangslinien über dichte Keyboardteppiche und kraftvolle Gitarren bis hin zu rasanten Tempowechseln und subtilen Detailfrickeleien, die den Hörer in dauerhaft konsumierbare Soundgefilde entführen - vielleicht sogar bis an den Rand der Wirklichkeit.

SHAPE OF THE RAIN CD - SHAPE OF THE RAIN Known for their one and only album 'Riley, Riley, Wood and Wagget' issued in 1971 on NEON (RCA), but what's generally not known is the fact they originally formed in 1966. This important CD release illustrates a cross section of the band from those early days until their split in 1975. It features album outtakes, studio demos and recordings made during rehearsal sessions. None of these recordings have been released on any format til now! It shows the development of the band from 60's beat & pop via psychedelia to more progressive 70's sound. 19 tracks CD comes with band's original poster artwork, rare live photographs and extensive sleeve notes.	1967	Background / UK HBG 12314	60's Beat Psych Prog. SHIN JUNG HYUN AND THE MEN CD - SHIN JUNG HYUN AND THE MEN It's difficult to unravel the deep historical mystery of these recordings (Korean-only text not helpful), so I don't know exactly when these tracks were recorded, although the date 1972 appears at the start of the booklet; having said that, there's no mystery about the greatness of the three long tracks on this disc! minimal moody vocals don't interfere in the slightest with the incredible fuzz and wah-wah guitar solos, the groovy and weird keyboards, the monster drum solos, or the oboe (yep, the oboe); truly psychedelic songs with all the strangeness that a non-Anglo approach to trippy music seems to engender, with touches of the Doors and early Hawkwind, if you need non-Asian reference points; I now fully comprehend why Koreans call this Shin Jung Hyun's best record, and "a psychedelic gem". SHIVA'S HEAD BAND CD - TAKE ME TO THE MOUNTAINS Shiva's Headband, formed in Texas in 1967 by violinist Spencer Perskin and his wife Susan, soon developed a large cult following thanks in part to numerous live appearances which often found the band opening for more illustrious colleagues. Their recording debut came in 1970 with the beautiful Take Me To The Mountains. Despite the fact that Shiva's Headband was a card-carrying member of the psychedelic movement, they did not allow this to limit their musical style, deftly mixing blues, soul and country to form acoustic tapestries often dominated by Spencer's beautiful and creative violin playing. The album opens with the incisive "My Baby" followed by the country-flavored "Take Me To the Mountains". The remainder of the album is fresh and immediate, flowing through various musical territories without a moment of dullness. Featuring 3 wonderful bonus tracks given to us in person by Spencer Perskin himself, including two previously unreleased live tracks which add an extra 25 minutes to the album.	1970	Akarma / Italy AK 359 CD	Psych Rock USA	15,50 €
SHIVA'S HEAD BAND CD - TAKE ME TO THE MOUNTAINS late 60s US band who released this album originally on Armadillo in an edition of 1000 copies. SHIVA'S HEADBAND CD - Coming to a head From Austin, Texas, Shiva's Headband was formed in 1967 by Spencer Perskin who, after spending time playing in San Francisco, returned to Austin where he soon formed his own band, Shiva's Headband which soon gained notoriety and a strong fan base thanks to their sharing the stage with big names like Spirit, Steppenwolf, Steve Miller and Canned Heat. Only 1,000 copies of Coming To A Head, the band's second album, were originally released (1972, Armadillo Records) making original copies almost impossible to find. Their fluid and delicate psychedelic sound with the ever present violin and vocal parts in perfect harmony makes it the band's best work. Reissued with the original Armadillo sleeve, printed for the first time ever in color! Also includes the live bonus track "Mr. Noname." SIDETRACK CD - BABY The only known effort of this band is this 1969 demo album which originally appeared in a blank sleeve. It was intended as an Elektra release which never happened. It is however tempting to conclude that had the label gone ahead the album, with its classy, late 60s baroque folk/pop style could have been an album of some significance. They manage to combine oddball but accessible pop with far out experimentation and a distinctive keyboard sound, courtesy of various permutations of piano, organ, harpsichord and harmonium. Most songs have no guitar at all. Songwriting is always of the highest order, neatly avoiding the 'ballad type' band musical cul de sac. Production is crisp, clear and professional including up-front bass playing, musicianship is never less than exemplary and the songs are a continuous source of interest.	1969	Radioactive / UK RRCD 154	60's Psych Folk Rock P USA	14,90 €

SIENA ROOT is a Swedish fourpiece that's been filling houses in the stockholm underground scene for years. The classic but original sound is much based on heavy organ, strat leads, bass riffing and big drums. On top of it all, bluesy soulful vocals. The band has been around and touring Sweden since 1997. "...don't expect the usual stonerrock fuzz-a-thon, these guys are all about the 70's... and they know what to do with those influences. Sometimes they sound a little Deep Purple, other times like Pink Floyd... and everything in between..." /Hogfeldt, 2001 stonerrock.com, In 2003, Siena Root signed a deal with the english label "Rage of Achilles". Through the years the music has developed in such a way, that jamming and improvising has become an essential element, always keeping you on the edge of your seat. The concerts are dramatic and exciting, visually, as well as emotionally. It's a dynamic rootrock experience. Comment of the band : „In the sense that blues is blue, hard rock is black, reggae is pan African coloured, our sound has the colour of siena. It is a warm, earthy colour, originally from the muddy roots of Toscana. Because our sound has roots that go deep, we felt it natural to let "root" be a part of our name - This is why we call ourselves Siena Root". Now also released on NASONI records as Digipak CD.

Last year Siena Root played several highly acclaimed performances at big festivals and took the hearts by storm. With this -their second album- the band managed to enhance their honest and natural sound without loosing contact to their musical roots. The amazing and charismatic blues-tinged voice of female singer Sanya gives a real kick to the Siena Root sound. The album is a kaleidoscope with '1970' facets. It's spectrum ranges from tight and bluesy organ-based, psyched heavy rock to beautiful eastern-influenced ragas with sitar and hippiesque flute. Nevertheless there's enough space for some well dosed jamming & improvisational intervals.

SILL, JUDEE CD - Judee SILL	1971	Water / EU water 158	Folk USA	14,90 €
Judee Sill's debut album (as well as the debut of the Asylum label) heralded a major new talent in the airy, contemporary folk world of the early '70s. The album employed the production skills of ex-Turtle, ex-Leaves Jim Pons and Graham Nash (on the album's sole single, "Jesus Was s Crossmaker"). Judee Sill featured all original compositions, many of which relied on Sill's unique cosmological imagery to make their point. By turns spare and lavishly orchestrated, there is a cohesive feel to the album; her lyrics are exceptionally poetic and her smooth voice gives every song a shimmery feel. The essence of the music is folk, the execution pop: the songs feel like a comfort blanket, a statement of hope from a troubled soul. New detailed liner notes by Michael Crumsho.

SINGING END CD - LISTEN TO THE MUSIC Originally released in the beginning of 1971 this extremely rare and terrific album is now available for the first time on CD. The six lads from Cologne/Germany played a fine sort of pop music with psychedelic influences similar to the groups on the "Great British Psychedelic Trip", Vol. 1-3 Compilations. Gentle melodies, excellent harmony vocals and rich instrumentation (including fuzz-guitar, flute, organ and occasionally orchestrations) show the musicians great talent and remind to the wonderful late sixties. After The Singing End called it a day, a few members founded Tanned Leather and recorded two albums and a few 7" on the famous Harvest Label. In the late seventies bandleader and composer Rainer Pietsch did arrangements for Queen an ELO. The CD contains the first non-LP 7" as Bonustracks and comes with comprehensive booklet. SKID ROW CD - LIVE AND ON SONG Skid Row was formed in Ireland in 1967 by bassist & songwriter Brush Shiels. The band also featured Phil Lynott on vocals, the 17 year old Gary Moore on guitar and Noel Bridgeman on drums. Skid Row recorded two ultra-rare singles in 1969. These were only ever released in Ireland, on the independent Song Records label. Phil Lynott was the vocalist on the A side of that first single. It is his earliest and rarest recording. The B side was sung by Gary Moore, who also handled vocal duties on the A side of the second single. All 4 sides of both singles are now released here on CD for the first time. Also included on this CD is the groups powerful live show, recorded in London by the BBC in 1971. SKYRON ORCHESTRA CD - SKYRON ORCHESTRA	2004	Transubstans / S TS 004	Blues Rock Hard S	14,90 €
SKYRON ORCHESTRA is a new fresh band from Gothenburg coming with their debut album. 5 musicians being born far too late, paying their ode to the old psychedelic / progressive scene with this 10 tracker that features both short potential hits, as well as longer instrumental songs. Features lots of retro organ sounds as well as guitars / bass and drums. Also, vocalist sounds at times a bit like Mariska Veres out of SHOCKING BLUE. Guitarrist we used to find in the 90's band called LOTUS handling the 4 string bass guitar, but this time it's guitar. All in all, a very good release that brings the best out of the 60's & 70's psych / progressive scene, adding a heavy touch to it, without being too much hardrock. Fabulous band !!

Three years after their debut album All Mimsy Were the Borogoves (on Colours, Norway) here is the 2nd full length from our favourite outfit from the southern coast of Norway. They shifted their musical direction forward to structures in the vein of early 70's progressive mellotronic space rock, while still keeping their traditional psychedelic influences. On side 1 TSOI take us into a floral fairyland: a 25-min. long conceptual suite in 5 parts, where the music ranges from meditative raga rock bliss with sitar to percussive trance rock elements to a meadow symphony and electronics in both starring and supporting role. Side 2: brilliant and breathtaking, richly instrumented and melodic spacy rock tracks tinged with influences of 60's Beautiful Balloon and the Canterbury Scene, superb vocal harmonies and a progressive/folk feel throughout. All lyrics by fantasy/romantic authors (Lord Dunsany, Mary Cicely Barker, Michael Moorcock etc.). Beautiful artwork by Gunnhilde Langerud (who also did the cover of All Mimsy) and Bumble B. CD comes with 6-page digipack.

And now, with vinyl copies selling for hundreds of pounds, it's finally available on CD for the first time, complete with rare photographs and comprehensive liner notes. "A superb piece of jazz-rock, and almost impossible to find nowadays" - The Tapestry Of Delights "Smith's speed and flow of ideas is such that other musicians have their work cut out just to keep up" - Melody Maker "...the unique fretwork of fleet-fingered guitarist Terry Smith" - allmusic.com

SMOKIN' WILLIE CD - SMOKIN' WILLIE This is probably one of the of the oddest albums we've ever released! As the sleeve notes proudly proclaim: "unbelievable, dynamic, exciting, to say the least, are only a few of the ways to describe the experience of a solid wall of sound that literally jumps out and grabs you" Smokin' Willie and his sidekicks Jim Sarvis and Ron Frye deliver a sound and a take on some hits of the day the likes of which you won't have heard before. The trio blasts its way through two original numbers and its own singular versions of Whiter Shade Of Pale, Evil Ways, Get Ready and the most unbelievable House Of The Rising Sun you're ever likely to hear. There's lots of Hammond, up-front fuzz guitar, a truly thunderous rhythm section and howling vocals and as times it is hard to imagine this much sound being produced by only three musicians. Originally released in 1970 on the Ulrich Studios label (Ulrich Studio 3999) as a private pressing, the biker trio's budget only ran to 500 copies most of which were eagerly snapped up by the good folks of southern Indiana where the band enjoyed considerable local support. Another off-the-wall piece of '70s Americana.	1970	Radioactive / UK RRCD 077	Rock Hard USA	14,90 €
SNAKEGRINDER CD - AND THE SHREDDED FIELD MICE A real stunner from this rural rock outfit from Delaware whose only album was this 1977 private pressing on the Alligator Shoes label. The album features seven original compositions combining acoustic, electric and pedal steel guitars, augmented by some tasty keyboards. There are loads of blistering, well-structured guitar jams, a few Band-style rural funk vocals and some hippy psych interludes thrown in for good measure. The album rocks from start to finish and could have enjoyed great commercial success.	1977	Radioactive / UK RRCD 102	Psych Rock USA	14,90 €
SNOPEK III, Sigmund CD - Virginia Woolf The masterpiece Sgt. Pepperish classic from the former member of the zany and way ahead of its time Bloomsbury People. SNOW CD - SNOW Originally released on Epic in '68. "Where has my old friend Billy Jones gone" is a folk psych effort, featuring female vocals influenced by Grace Slick. The first part builds momentum with melodic harmonies and short, incisive guitar solos. The second part is even better with piercing guitars. It culminates in "Caterpillar" which has a plethora of sound effects, key changes and bold experimentation. This is the first reissue of the whole album in more than 30 years. To our ears a sadly overlooked masterpiece !!	1968	Radioactive / UK RRCD 056	Folk Psych Rock USA	14,90 €

SOFT MACHINE CD - BREDA REACTOR - (2CD) 2-CD. The live recordings on this album come from an important but brief period in the history of soft machine when the band were a five piece made up of Robert Wyatt, Mike Ratledge, Hugh Hopper, Elton Dean and Lyn Dobson. Recorded in the Netherlands in 1971 the performance sees the quintet put a fresh improvised slant on some classic soft machine including "Moustrap" "Facelift" "Moon In June" "Out-Bloody-Rageous" and "Esther's Nose Job". With detailed sleeve notes by Brian Hopper (briefly a member of the band) and remastered sound this is one for the Canterbury archive	1971	Voiceprint / US VP 345 CD	Jazz Rock UK	21,90 €
SOFT MACHINE CD - BBC RADIO 1971-1974 - (2CD) (2CD) UK import. 2nd & Final volume in this set. 2CD including 3 Peel sessions + 1 BBC session for Radio 3. SOFT MACHINE CD - SOFT STAGE - BBC In Concert 1972 Never before released - a fascinating in concert recording made for the Beeb at London's Paris Theatre (a little confusing, we know) premiering material that would turn up on their excellent 'Six' album. Almost like a live rehearsal, there's a jazz spontaneity to this set that the album lacked, and the material from 'Fifth' and earlier tunes like 'Slightly All The Time' are reworked to the point of being unrecognisable- but who wants boring old note for note reproductions anyway? Lineup is Hopper, Jenkins, Marshall and Ratledge (the only original member left by this stage). Includes 8 page booklet with liner notes and photographs.	1972	HUX / UK HUX 070	Rock UK	16,90 €
SOFT MACHINE CD - Live In Paris, May 2nd, 1972 - (2CD) The SOFT MACHINE line-up of ELTON DEAN, HUGH HOPPER,JOHN MARSHALL and MIKE RATLEDGE lasted under half a year and produced only one half of an album (side two of "5"). Despite this small recorded legacy, the band had their own, very jazzy sound. This excellent quality double CD is taken from one of the small number of shows performed by this version of the band.	1972	Cuneiform / US Rune 195/196	Jazz Rock UK	18,90 €
SOFT MACHINE CD - FLOATING WORLD LIVE This CD marks the first release of a live performance by Soft Machine's Bundles line-up featuring Allan Holdsworth on guitar. This concert, recorded for Radio Bremen in January 1975, consists of most of the Bundles material, which hadn't yet come out although in the can since the previous summer, plus a couple of band improvs and solo showcases for Mike Ratledge, Roy Babbington and John Marshall. That era of Soft Machine was unique in that, taking the band's long established tradition of continuous change to an extreme, when Holdsworth joined all the previous repertoire was abandoned, literally at once, in favour of brand new material written by Karl Jenkins and, to a lesser extent, Mike Ratledge. This made the new Soft Machine even more difficult to compare with its predecessors, and gave the band a well-deserved chance for critical reappraisal. At long last, reviewers stopped bemoaning the loss of the band's father figures to judge the new line-up on its own merits. As a consequence, positive reviews again began to pour in, and 1974-75 was to prove Soft Machine's second golden age in many respects. By the release of Bundles in 1975, Mike Ratledge was Soft Machines only original member. With relative newcomer Karl Jenkins, with his increasingly dominant compositional role, there was little tying them to the classic line-up that released albums like Third. But it was guitarist Allan Holdsworth, appearing virtually out of nowhere with a revolutionary melodic and harmonic approach who placed this Softs incarnation on equal footing with earlier line-ups. Recorded for German Radio Bremen months before Bundles was released, Floating World Live is a powerful live performance that, despite Holdsworths dominating presence, provides plenty of space for all proof that they were far looser and interactive in concert than Bundles suggests. An exciting 75-minute set, Floating World Live demonstrates just how well-formed Holdsworth was this early in his career, and proves that critics writing this incarnation off as nothing more than riff-heavy fusion couldn't be more mistaken. Classic Allan Holdsworth, in one of his best performances ever, monster bass and fuzz-bass lines by Roy Babbington, psycho analog synths and an incredible polyrhythmic drumming by John Marshall! Think of a jazz-rock jam band excuting killer riffs, atop attractive Canterbury-style overtones....Soft Machine fans will rejoice!	1975	Musea / F FGBG 4651	Jazz Rock UK	15,90 €

SOFT MACHINE CD - LEGACY LIVE IN ZAANDAM	2004	MUSEA / F FGBG 4617	Prog Jazz UK	15,50 €
"legacy live in zaandam" is a brand new album dedicated to the most legendary band of the canterbury school. Captured in the netherlands on may 1st 2005, this collection of six pieces (in a jazz-rock fusion vein) is performed by a recent reformation, with Elton Dean (saxophone & keyboards), John Etheridge (guitar), Hugh Hopper (bass) and John Marshall (drums). It's interesting to note that, if they were all members of soft machine during the seventies, they never played simultaneously in this band. Apart from the covers of "kings and queens" ("fourth") and john etheridge's "ash", all the others tracks were especially composed for the occasion. Add to this that it's a limited edition cd, released as a joint-venture by the Musea and Moonjune labels, and you'll easily understand that this event goes well beyond the canterbury school lovers.

Live session recorded for the BBC at London's Paris Theatre on March 11th 1971. A very strong performance that features some of the most jazz-oriented music Soft Machine ever produced. The final track is a previously unreleased recording of Slightly All The Time/Noisette, which was performed by the Soft Machine quartet as an encore to this concert.				
SOFTLEY, Mick CD - Sunrise / Street Singer		BGO / UK BGO CD 660	Folk UK	
Two on One CD containing the first two CBS albums from the acclaimed British folk and protest singer. Released in 1970 and 1971 respectively, these albums saw Softley progressing beyond the acoustic folk sound of his celebrated (and stupidly rare) first album. Featuring a virtual who's who of the contemporary English folk scene and beyond (including members of Fotheringay, Soft Machine, Manfred Mann...) it is hardly surprising that there are touches of jazz and indian classical in the mix. What's even better is that these albums have never before been issued on CD and are presented digitally remastered and slipcased with new liner notes! Announced for release : 28/03/2005				
SOFTLEY, Mick CD - Songs For Swinging Survivors	1965	HUX / UK HUX 043	Folk UK	15,50 €
Songs for Swingin' Survivors was first released in autumn 1965. It was never subsequently reissued and original vinyl copies now fetch upwards of £100 on e-bay. This debut is also notable as one of the first UK singer/songwriter folk albums in the contemporary style pioneered earlier in the U.S. by Bob Dylan. Comparisons with early period Donovan are also perhaps inevitable. Donovan cited Mick Softley as a major influence and Softley actually wrote a few songs which were covered by Donovan. Notably 'The War Drags On', which Donovan included on his 'Universal Soldier' EP, and which is featured here in its original version. Also included on this album are Softley's interpretations of the Billie Holiday favourite, 'Strange Fruit', and Woody Guthrie's 'The Plains of the Buffalo'. Rarity value aside, this album also represents an integral piece of the whole UK 60s folk-rock jigsaw. In its way as important as debut albums by Donovan, Bert Jansch and Jackson C Frank. And this album, more than any, conveys the spirit of those first guitar-strumming pioneers. The accompanying 8 page booklet features extensive liner notes, including Mick Softley's own note from the original LP, and rare photographs.

SOUTHERN COMFORT CD - SOUTHERN COMFORT Recorded when legendary Chicago blues harpist Walter 'Shakey' Horton visited the UK in 1968, Southern Comfort is a superb showcase for his talents, as well as those of bassist Jerome Arnold (the Butterfield Blues Band), drummer Jessie C. Though mostly a superb blues set, however, it's best-known today for the epic closing track - one of the most mind-blowing psychedelic workouts ever recorded. "Whilst still with Mighty Baby, Martin Stone recorded a rare album called Southern Comfort with American blues harmonica player Walter 'Shakey' Horton, which is principally notable for Netti Netti, the long psychedelic jam that ends proceedings" - The Tapestry Of Delights - "The playing talent of Shakey Horton is at its outstanding best on these tunes and, as the only axe-man, Martin Stone gets to play bluesy runs and embellishments as well as a 12+ minute showcase on 'Netti Netti', the instrumental final track on the LP, which he co-composed" - popsike.com	1968	Sunbeam / UK SBRCD 5014	Blues Psych Rock UK	16,95 €

The complete works of one of our favorite pop groups ever -- the amazing Spanky & Our Gang, a group with a sound like nobody else! At one level, Spanky had the harmonies of others in the Sunshine Pop generation -- but at another, they worked in a darker space that was completely their own dimension -- an odd territory of nostalgic references, in-jokes, folksy references, and some New York hipness that was a lot darker and edgier than anything going down on the west coast. The group also really had an ear for the studio, and used it to transform simple harmony numbers into weird experiments in sound -- never too trippy, but always inventive in their approach -- and often helped by production talents that included Jerry Ross, Stu Scharf, and Bob Dorough! The 4CD set brings together the group's 3 studio albums -- Spanky & Our Gang, Like To Get To Know You, and Rhyme & Reason -- plus their Greatest Hits album, which featured some alternate versions and different mixes, and the rare Spanky & Our Gang Live, which has the group working in a wild stripped-down, nearly all-acoustic format. Added to this are 7 more rare tunes, and a full disc of mono single mixes -- really important here because even the slightest studio change made for new meaning in each of the group's tunes! The package is great, the booklet is great, and the music is as groovy as groovy can be! (Limited to 5000 copies). Difficult to get.

SPANN, Otis & Fleetwood Mac - (2CD) CD - Complete Blue Horizon sessions Digitally remastered double disc CD that compiles all of the last sessions from 1969 recorded at Chess studios by the late, great keyboardist who played in Muddy Waters' Blues Band. He had finally been able to secure his own deal with Mike Vernon's Blue Horizon label in the UK and left Muddy Waters to pursue his solo fame. These tracks feature Fleetwood Mac members John McVie, Peter Green and Danny Kirwan backing him up. The resulting album, "The Biggest Thing Since Colossus" yielded the hit single "Hungry Country Girl" and the great jam of "Someday Soon Baby". Alas, Spann's solo dreams were short lived and dashed as he developed cancer and passed away in 1970. After Ted Lucas left they went on as 3 piece and recorded some tracks in 1967. Contains detailed bio and photos and great artwork by Sid brown.	1966-6	RD Records / GER RDCD 03	Psych USA	16,50 €

SPIRIT CD - MODEL SHOP - O.S.T. Previously unissued Spirit soundtrack masterpiece, recorded 1968. From the richly-textured analog mono masters, originally assembled for release in 1969. It's mindboggling that something as dazzling as the Model Shop soundtrack -recorded by the classic Spirit lineup- has been languishing unreleased in the vaults for over 35 years! Rescued from obscurity at last by Sundazed, this much rumored film-score gem is now center-stage where it can take a much deserved bow. Liner notes include interviews with Spirit members. TRACKS: The Moving Van / Mellow Fellow* / Now Or Anywhere / Fog* / Green Gorilla* / Model Shop I* / Model Shop II* / The Rehearsal Theme / Song For Lola (Clear) / Eventide* / Coral* / Arent You Glad* All tracks marked * are previously unissued versions, making their first appearance ever on this set!	1968	Sundazed / US SC 6197	60's Psych Rock USA	14,90 €
SPIRIT CD - SPIRIT 1968 debut from the US psychedelic rock band. A dark haunting classic album that contains "Fresh Garbage," "Uncle Jack," "Mechanical World," and "Elijah" all laced with superb guitar work vocal harmonies and production. Randy California's guitar is always in evidence, but it's the band interplay and sense of space that makes this one of the great debut albums of the genre. With 4 bonus tracks (20 minutes worth !)	1968	EPIC / EU Epic 485175 2	Rock Psych Jazz USA	9,90 €
SPIRIT CD - The Family that plays together Brilliant second album from 1968 by this US acid rock band who mixed harmonic melody with biting guitar work and jazzy progressive touches. This album continues to explore unusual time patterns and instrumentation, but takes a somewhat harder approach - culminating in the hit single "I Got A Line On You." There are five bonus tracks also included on this reissue.	1968	Epic / EU Epic 485174 2	Psych Prog Jazz USA	9,90 €
SPIRIT CD - CLEAR Spirit's third album, from 1969, showed a growing sense of maturity. Coupled with the still present sense of outrageousness and melodic acid rock experimentation this produced some great songs like "Dark Eyed Woman," "Give a Life, Take a Life" and "Ice." This reissue also contains four bonus tracks, including the hit single "1984."	1969	EPIC / EU Epic 484416 2	Rock Psych Jazz USA	9,90 €
SPIRIT CD - Feedback This album almost sounds like JO JO GUNNE boogie in places, but with a contemplative jazzy tinge. A definite early 70s rock experience. Including "Ripe and ready", "Chelsea girls", "Cadillac cowboys" etc. Coming a previously unreleased bonus track "New YorkCity" from the same sessions.	1972	Collector's Choice / US CCM 4212	Rock Psych USA	11,90 €
SPIRIT CD - SPIRIT of ' 76 - (2CD) This 1975 release on Mercury has Randy California and Ed Cassidy's names imprinted boldly on the cover as Spirit, and the 26 songs — starting with "America the Beautiful/The Times They Are a Changin'" and concluding with "The Star Spangled Banner" — are more than just a sly tribute to the bicentennial. They are the most fluid and satisfying statement by the California/Cassidy version of the band, who would be together for another 20 years before California's untimely passing. There are all sorts of hidden meanings projected throughout this double-vinyl LP. Randy California gives more than a few nods to his work with Jimi Hendrix — covers of "Like a Rolling Stone" and "Hey Joe" are two of Hendrix's more notable and triumphant revisions — while "The Star Spangled Banner" has a smart vocal, separating it from California's more famous ex-bandmate's Woodstock instrumental rendition. Spirit of '76 remains the key to understanding the group who toured as Spirit for the better part of the three decades that the group existed, the stepdad and the guitar prodigy on their own. It's an offbeat work of art that works just beautifully. — Joe Viglione (AMG)	1976	BGO / UK BGOCD 605	Rock Psych USA	16,50 €

SPIRIT CD - Cosmic Smile Creators of refined and original albums, Spirit are undoubtedly one of the most interesting groups in the panorama of American rock, thanks to drummer Ed Cassidy (ex-jazz drummer) and guitarist Randy California (friend of Jimi Hendrix, from whom he had obviously learned a great number of tricks). This album came to life between '91 and '95, but it is not a collection, it is a real album and of high quality. The guitar of Randy California flies free from the first track, "Shake My Ego," featuring a Hendrix-style intro, while "Compromise" is a track that is 100% Spirit. "Close To You," features Jazz-styled improvisations, while "Mean And Beautiful," is again in the style of a certain well-known lefty from Seattle. The passing of Randy California in January 1997 was a hard blow for all of us who have loved his extraordinary musicianship, but his music lives on and it is with great honor that we propose Cosmic Smile, definitely one of the best releases in recent Akarma history.	1990-9	Akarma / Italy AK 356 CD	Rock Psych Jazz USA	15,50 €

SPRING CD - SPRING To borrow a few words from Vernon Joynson's "The Tapestry of Delights", it's 'difficult not to run out of superlatives' when it comes to this fine UK progressive outfit. It's probably the best 70's era progressive album to come out of the UK and, like Gentle Giant's "In a Glass House", should occupy a spot in the collection of any self-respecting lover of the genre. The band was formed in the early seventies by vocalist/mellotron player Pat Moran, keyboard player Kips Brown, drummer Pique Withers, bassist Adrian Maloney and guitarist/keyboard player Ray Martinez. This band's use of the mellotron, a kind of early sampling machine, was their trademark, and they did it tremendously well. Stunning vocals, unique military-type rhythms and superb guitar playing make this a 'must have' album. The three previously unreleased tracks, destined for release on a mooted second album which never materialized, endorse that fact. Original copies of the album are quite collectable, as are most albums on this very good record label. Drummer Pique Withers went on to Dire Straits, Pat Moran (as producer) and Ray Martinez ended up in Airwaves in the late 80's. Moran was also involved, as producer, with The Jon Butcher Axis, amongst a number of others. Martinez also featured with Alkatraz, Michael Chapman, Gypsy and others. SRC CD - Black Sheep Detroit, Michigan in the late 1960's played host to a rock explosion of talent with at the top of the pile MC5 and their rivals The SRC. The SRC, standing for the Scott Richards Case, began like the MC5 playing their version of UK R&B before supplanting their own take on the music characterising it with doomy organ, anglicised vocals, and searing bursts of stun-guitar drenched in sustained feedback. RPM/Bam Caruso brings you the definitive collection taken from across the SRC catalogue of three albums and six singles as originally recorded for Capitol in 1968 and 1969.	1968-6	RPM / UK RPM BC 201	Psych Rock USA	16,50 €

STALK-FORREST GROUP CD - St. Cecilia	1970	Radioactive / UK RRCD 019	Rock Psych USA	14,90 €
Back in 1970 a five-piece band from Long Island, New York, inexplicably changed its name from Soft White Underbelly to Stalk-Forrest Group and made the journey to Los Angeles and the offices of Elektra Records, then riding high with their two rock-psych bands Love and the Doors. It is widely believed that Elektra viewed the band as a potential East Coast Doors, and the label wasted no time in getting them into the studio to record an album's worth of psychedelic tunes, rich in high harmonies and fluid, accomplished guitar interplay and trippy-hippy lyrics, under the watchful eyes of the co-production team Sandy Pearlman and Jay Lee although Elektra had originally intended for Don Gallucci (formerly of Don And The Goodtimes) to produce the album. Gallucci, however, slipped away without informing the label or the band of his departure! Around the same time bassist Andy Winters was replaced by drummer Albert Bouchard's brother Joe, and sensing the project had all the hallmarks of an ill-fated venture, Elektra promptly dropped the band, but not before releasing a paltry 200 copies of a single taken from the unreleased album session. Obviously not deterred by this setback, the band promptly changed its name to Blue Oyster Cult, signed for Columbia and retuned its musical style to heavy metal. The rest, as they say, is history! This reissue of the unreleased Californian session, bearing the name of the '90s German bootleg, has been re-mastered to a particularly high standard, as befits one of the best West Coast-style psych albums ever made.				
STALK-FORREST GROUP CD - St. Cecilia - The Elektra recordings	1970-7	RHINO HANDMADE / RHM2 7716	Rock Psych USA	25,00 €
Over three decades ago, the band that would become BLUE OYSTER CULT created two albums' worth of recordings for Elektra, using a different name for each album's sessions, first Oaxaca and then The Stalk-Forrest Group, and, after delivery of the finished recordings to Elektra, neither album was ever released. Though they were signed as Soft White Underbelly, and are now known as The Stalk-Forrest Group, they began recording tracks for their first Elektra album using the name Oaxaca. Ten tracks were completed in early 1970. Though recollections are sketchy, it appears that Elektra Records were none too pleased with these recordings, and all of them were shelved. Sandy Pearlman, ever persuasive, convinced Elektra to take yet another chance with this version of the band. Elektra finally agreed, and in early 1970, the band began recording masters for another album. This time the recordings were made as The Stalk-Forrest Group. And this time an album was completed, mixed and mastered. However, Elektra decided again not to release any Stalk-Forrest Group recordings at all. Soon after recording the second unreleased Elektra album, Andrew Winters left the band and soon after that The Stalk-Forrest Group was under no further obligation to Elektra's recording contract. Other than an Elektra MONO promotional single of "What Is Quicksand?" and "Arthur Comics" and other than the appearance of "Arthur Comics" on a 1986 Elektra Records compilation entitled Elektrock (The Sixties), all of these marvelous psychedelic Stalk-Forrest Group recordings have remained unreleased in their original tape boxes on a dusty tape vault shelf. Here are now both albums of the pre BLUE OYSTER CULT band. 18 tracks in all. Official and from mastertapes in a strictly limited edition of 5.000 copies.

Reissue of a private pressing from a band that recorded only 1 album. With its unusual mushroom hippy artwork and 'cosmic folk' groove it has become an extremely collectable album. Recorded in Michican the album appeared on the Montage label in 1976. featuring 8 original compositions by Stark and his brother Ben, and a fine cover of Donovan's "Hey gyp". Instrumentally the album has folky songs, blues and raga with varied instruments applied to accompany Stark's vocals and fluid guitar. Hippie folk? Yes, and a highly enjoyable record.

They began their life as a British blues rock band, but by the time their second album "MK II" was released in 1970 the band had ventured into heavy progressive territory. The critical, favorite 3rd album is their 3rd and definitive work. Originally released in 1970 on B&C label and giving some minor mainstream exposure to a band certainly worth investigating. A treasure for the fans of the British electric blues explosion and progressive rock.				
STEAMHAMMER CD - MK II	1970	Akarma / Italy AK 243 CD	Blues Rock Prog. UK	15,50 €
They began their life as a British blues rock band, but by the time their second album "MK II" was released in 1970 the band had ventured into heavy progressive territory. The presence of sax and harpsichord gives a jazz flavour to several of the tracks and places Steamhammer in a happy league of their own. Including the bonus track "Blues for passing people".				
STEAMHAMMER CD - SPEECH	1971	Akarma / Italy AK 263 CD	Blues Rock Prog. UK	9,90 €
Steamhammer started out as a blues-rock band in Worthing, Sussex, but gradually developed into a more heavy progressive style. They recorded a further album to these listed above, Speech, which was only released in Germany and was their magnum opus full of superb guitar work from a later member Martin Pugh.

STELLE DI MARIO SCHIFANO, Le CD - Dedicato a..... \$2,000+ Italian psych rarity that's quite good. Rarely you can find, in the yet fertile ground of the Italian 60's, a group so innovative and so diverse from all of the other ones from that era. The concept of Le Stelle (The Stars) came about in 1967, and was the work of Mario Schifano, the amazingly talented Italian Pop painter and sculptor, who collected alongside himself four young, unknown musicians. For the recording sessions Dedicated A.... the body of the group was augmented, with the inclusion of vocalist Francesca Camerana and a few more musicians. Super - rich, surreal atmospheres, in line with a contemporary musical performance rather than with psychedelic rock. STEPHENS, Leigh CD - Red weather Originally released in '69 on Philips/Mercury, this is the first solo project from the Blue Cheer's guitarist. After recording Cheer's Outside Inside" (literally recorded standing outside of the studio because of the incredibly high decibels put out by the amplifiers), Stephens returned to the UK and began working with keyboardist Nicky Hopkins and drummer Mick Waller (Jeff Beck group/ Rod Stewart) to produce a work markedly different than the thundering B.C. 'For Ladies Only' was recorded in 1971 and was the band's last studio album for Probe, featuring one of the greatest songtitles ever- 'Jaded Strumpet'. STEVENS, Meic CD - OUTLANDER Meic Stevens may not be a familiar name in much of the world, but in his native Wales the singer-songwriter's stature is often compared to that of Bob Dylan. A local legend whose psych-folk influence can be heard in such contemporary Welsh groups as Super Furry Animals and Gorky's Zygotic Mynci, Stevens also founded his country's first independent record company, the estimable Sain label. Stevens sang mostly in his native language, a political act not unlike speaking Basque in Spain or Cherokee in the U.S. His one English-language album is 1970's Outlander, an outstanding marriage of musicianship and eclecticism. Arising from the same fertile soil as the work of the late-60s icons, Stevens's album nonetheless manages to avoid easy comparisons. Its jazz-Indo-psych ragas merge seamlessly with its acid folksongs and Dylan-esque meditations on relationships and politics. Performed by a remarkable cast of musicians hand-picked by English rock tastemaker Ian Samwell, Outlander was created with a minimum of rehearsal and consists largely of first takes. Greeted with critical acclaim upon Outlander's U.K. release, Stevens traveled Stateside for a two-week tour in the summer of 1970. But the album never crossed the Atlantic; its very first U.S. release is this expanded, remastered Rhino Handmade issue. Copies of the LP have fetched upwards of \$500 on the collectors' market, a testimony to the enduring quality of its songs. Now, fans can enjoy the original album in its entirety, along with nine bonus tracks, including outtakes, alternate versions, and the 1970 B-side "Blue Sleep." 20 Tracks - 9 Previously Unreleased Outlander is available as an individually numbered limited edition of 2,500 copies.	1970	RHINO HANDMADE / RHM 27839	Psych Folk UK	25,00 €

CD - Iggy and the STOOGES		8122-73176-2	USA	
Long before the raw power of punk icon Iggy Pop became legend, his first incarnation as Iggy Stooze of proto-punk trailblazers The Stooges roared into being. The essence of punk years before the genre existed, The Stooges' furious music was a howling, visceral, fuzztone-drenched, and unprecedented vortex of sound, as evidenced on their revolutionary self-titled, John Cale-produced 1969 debut album. This immortal album is now remastered and twice as amazing with a second disc of rarities and previously unreleased tracks.

STORY - (ex-Forest) CD - TALE SPIN Sunbeam is delighted to announce the debut album from The Story, a duo comprising Martin Welham (long-lost leader of psych-folk legends Forest) and his son Tom. Having quietly played together for several years, they recently collaborated with leading US alt-folk act Whysp on a limited edition vinyl LP, The Dawn Is Crowned (which appeared to rapturous reviews in October 2005) and have at last prepared a full-length collection of their material. Tale Spin is a delightfully melodic and nuanced collection of psych-tinged acoustic pop, written and recorded in the depths of the English countryside, and sure to appeal to fans of acts such as Devendra Banhart, Joanna Newsom and Espers as well as older names such as the Incredible String Band, COB and Vashti Bunyan. "Delightful acoustic folk music with a creepy psychedelic air and arcane lyrics, featuring guitars, flutes, churning background instruments, stunning harmony vocals and lyrics. The work of a master" - theunbrokencircle.co.uk "All tracks have a true and honest end of 60s feel - dual vocals, acoustic guitars and beautiful harmonies - without any 'neo'- expression. STRAWBERRY ALARM CLOCK CD - Incense & Peppermints This Glendale, California-based band was originally known as the Iridescent, a surf combo with one 45 in 1963, and later as Thee Sixpence who issued several 45s under this name. The name change came with the release of the 45 Incense And Peppermints because of other similarly-named groups. This was picked up by UNI and the rest is history as they say. Strawberry Alarm Clock were very much a product of their era and their commercial brand of psychedelia was more acceptable to the general public than that of the more interesting underground bands. Like The Seeds they were very much geared to the flower power scene, and both bands were featured in a cult movie of that era, Psych-Out. One advantage they possessed over The Seeds was their catchy name, although later with the demise of flower power, this would prove to be more of a disadvantage. Efforts the band made to tailor themselves a 'psychedelic' image are evident from the apparel they wore on the front cover of their best album Incense and Peppermints, which was released on Pye (28106) in the UK. Aside from the ultra-commercial title track, this contained a number of prominently instrumental quasi-psychedelic jams, with Mark Weitz's organ usually to the fore. STRAWBS CD - RECOLLECTION - From the Witchwood.... media Archives - Vol. 3 - 'Recollection' is a full concert recording from the 1970s. The original 8 track tapes have been remixed by David Cousins. Taking advantage of modern digital technology this new release allows fans to hear the band as though they were at the show. 'Recollection' features classic Strawbs songs that have never been released in a live version. 'The man who called himself Jesus' and 'The battle' became hugely popular through exposure on John Peel's 'Top Gear' show. Furthermore Rick's dazzling organ extravaganza, 'Where is this dream of your youth', sounds heavier than ever before, clearly marking the band's transition from the folk clubs to rock.	197? STRAWBS CD - Blue Angel The project to re-issue The Bridge as Blue Angel has been revived - totally remixed with new tracks and contributions from Dave Lambert, Rod Coombes, Mary Hopkin and Cathryn Craig. The main attraction is, at last, a band version of Cousins' epic "Blue Angel". In addition there is a new version of "Lay Down" guest-starring Mary Hopkin, a band version of "There Will Come The Day" with both Mary AND Cathryn Craig, as well as Chas Cronk, Terry Cassidy and Hud on backing vocals, a duo version of "Sealed With A Traitor's Kiss" with Dave on piano, Brian on guitar and a remixed version of "The King" with Maddy Prior. Dave Lambert and Rod Coombes add their talents to "Heat Of The Street" (now retitled "Rhythm Of The Night") - and "Oh So Sleepy" (first recorded for the Deep Cuts album) - these are therefore the first Strawbs studio tracks (a) to feature both Willoughby and Lambert on guitars and (b) to reunite the Hero and Heroine band apart from John Hawken.	2003	Witchwood Records / WMCD 2008	Folk Rock UK	17,90 €

"Waiting is..." remains as one of the best psychedelic albums ever recorded in Asia: superb musicianship, top sound & production and original songs sung in perfect english. SUBJECT ESQUIRE CD - SUBJECT ESQUIRE Part of the history of, and virtually the same band as the later SAHARA. They played complex progressive music with fusion elements, some classical influences and superb musicianship. Comparable to Alquin, Thirsty Moon, Camel and other bands of that era with a similar type of complexity and inventiveness as the bands of the Canterbury scene. Their unique style was displayed in their unusual use of vocals, time signatures and a wide range of solo instruments, all given plenty of room in the lengthy instrumental sections.	1972	Ohrwaschl / GER OW 010	Prog. SUBWAY CD - SUBWAY Subway was a duo, consisting of an American and an UK-guy, who released their only album in France as 200 vinyls in 1972. There they lived and played both for some time as street musicians, who played their compositions even at Parisien subway, hence the bandname. Unfortunately the album fell through, so the unsold vinyls were melted, as usual in France at this time. The band presented a phantastic psych-folk music with prog-rock-elements. An absolutely top-album, which hopefully now will reach a bigger audience, as the original LP is very rare. Fully remastered sound for this great studio production. This first ever CD reissue is made under license of the musicians, and with the kind help of the guys at Amber Soundroom (run if you want a vinyl copy of their reissue before it's too late!). Comes with jewelcase and outer carton slimcase.	1972	Guerssen / E GUESSCD 07	Psych Folk F	17,50 €

It is diversely and richly arranged with guitars, fiddle, dulcimer, bass, mandolin, congas, saxophone, accordion and tabla. SUGARBEAR CD - SUGARBEAR	197	Radioactive / UK RRCD 059	Rock USA	14,90 €
Originally a private pressing (500 copies) from the '70s, which is a charming chunk of rural rock from Florida. This four-piece managed to produce an album of high originality which defies categorisation. From the rock'n'roll opening track, and the album's two standout tracks, "Season For Love" (reminiscent of Neil Young's Southern Man) and "The Garden", this is a record of real depth and intelligence. 'Rural rock' covers just about everything you'll find here, from rock'n'roll to the blues and plain ol' country rock in the style of The Outlaws or Pure Prairie League.				
SUGARLOAF CD - Sugarloaf & Spaceship Earth	1970-7	Collectables / US COL-5871	Rock USA	15,90 €
Two-on-one reissue of first two albums by Colorado based country-pop-rockers, featuring their biggest hit 'Green Eyed Lady'. Has stood up surprisingly well all things considered. Bonus track added is 1975's 'Don't Call Us, We'll Call You' from the album of the same name, which hints that sugarloaf may have been one of the first acts to experiment with sampling!!!				
SULA BASSANA CD - DREAMER	2002	Elektrohasch / GER EH 106	Psych Rock GER	17,90 €
Now reissued through ELEKTROHASH label the first SULA BASSANA album. This is the solo project of Dave, the bass player in Liquid Visions, Zone Six and the now defunkt, Growing Seeds. He plays all the instruments on this fantastic psychedelic adventure of an LP. What an excellent release. One of the best psychedelic releases of 2002 that I have heard! This is the real space rock deal, gathering together all the best from the past and melding it into a contemporary-sounding document. I can't wait to hear more from Dave's various projects. So if you want to explore the astral realms without invoking the Sabbath you know and love, strap on your oxygen mask and get into stoner's OTHER white meat: Space.

All original songs except 'Baby Blue', which was penned by PINK FLOYD. A must for all today's psych heads! One of the best psychedelic releases of 2002 that I have heard! This is the real space rock deal, gathering together all the best from the past and melding it into a contemporary-sounding document. I can't wait to hear more from Dave's various projects. SULLIVAN, Big Jim CD - Sitar Beat	1966-6	RPM / EEC RPM 242	60's Psych Pop UK	15,50 €
Big Jim Sullivan was the most sought after session sitar player during the 60's. Sitar Beat features some of the most infectious and dance floor-friendly instrumentals. Sounds that are funky, syncopated, psychedelic and mind-expanding but also concise and rhythmic. This was his debut album from 1968 an East meets West a-go-go. Includes covers of then current rock faves like "A Whiter Shade of Pale", "Sunshine Superman" and the Beatles' "She's Leaving Home". All psyched up with tantric sitar vibes. One of the best '60's sitar psych albums ever made and features John McLaughlin and Jimmy Page. Highly recommended!

SUM PEAR CD - SUM PEAR	1971	Radioactive / UK RRCD 067	Psych Rock USA	14,90 €
First and only album by singer songwriter duo. SUM PEAR is not an easy album to categorise. The underlying psych influences are of a quirky British nature and there is also some outstanding heavy fuzz, particularly on A sides "Hey sun". Much excellent acoustic guitars, as well as dreamy and melodic vocals and harmonies. First time on CD.

SUMMER SOUNDS CD - Up and down	1969	Radioactive / UK RRCD 078	60's Psych Rock USA	14,90 €
Mega rare album from the Dartmouth, Massachusetts five-piece outfit which was released originally on the Laurel label. (Laurel 331098) in 1969. Up-Down is an album of largely self-penned material (only 2 covers, one of which is a strong version of The Spencer Davis Group's hit, Gimme Some Lovin') with The Leaves Are Turning Brown, complete with cheesy psych organ and wonderfully-earnest vocals, is the stand out track. Up-Down is a beat-garage concept album detailing the highs and lows of a summer vocation romance, with, as you would expect, loads of moody teenage angst and lashings of self pity. The songs are all catchy, and there's a couple of good ballads. Summer Sounds was one of the best groups of its genre and consequently a number of the band's tunes have been comp'd, although this is the first time that this album, with it's ultra-cool cover, has been reissued on CD.				
SUMMERHILL CD - SUMMERHILL	1969	Synton / EEC T 11404	60's Psych Rock USA	15,50 €
Reissue on CD of the one and only album by late '60's USA psych band Summerhill, which was originally released in 1969. Often compared to HP Lovecraft and sometimes Euphoria (Texas) this is a lush orchestrated, melodic and dynamic album featuring atmospheric 60's psychedelic-pop/rock with diverse influences. The sound get's heavy in places with a dash of acid drenched 60's guitar based rock and weird backward effects whilst elsewhere such as during "The Last Time" there is a laid back country rock vibe. A great undiscovered album!				
SUN ALSO RISES CD - SUN ALSO RISES	1970	Progressive Line / Ger PL 565	Folk Psych UK	14,50 €
CD reissue of lovely sought-after 1970 British acid folk rarity from The Village Thing label master tapes. They were a hippie male and female duo and used instruments like guitars, dulcimer, kazoo, glockenspiel etc. very much in the style of The Incredible String Band, COB, Comus, Forest and Dr. Strangely Strange. Songs about wizards, dragons, love, death, dreams and suicide. There's also a non-album bonus track.

Out of print in the UK for more than 5 years, due to demand, we are making this legendary and astonishing album available again. Recorded in 1990 and originally released on the Tangerine label, this album has since become regarded as an all-time psychedelic classic. Regarded as one of the top 10 releases of the 90s as "one of the greatest psychedelic albums you've never heard". This edition is taken from the original stereo analogue masters and for the first time it is released in it's original running order. This edition comes complete with additional bonus tracks including one previously un-issued track from the period, new sleeve-notes, previously unseen photos and restored sleeve artwork - this is indeed a recommended release!				
SUN DIAL CD - Zen For Sale	2003	Acme Deluxe / UK AC 8029 CD	Psych Prog UK	16,90 €
One of the most long-awaited UK albums. This is their 5th album and a follow-up to 'Acid Yantra' which was released more than 5 years ago. Recorded at Third Eye studios (where the legendary 'Other Way Out' was also recorded) the album was recorded with the same philosophy. Containing their recent 45 'Out of Space out of time', the album is full of the trademark Sun Dial psych sounds. This killer psych album is also available as a strict limited edition coloured vinyl pressing of just 500 copies only. Top notch psychedelia. Highly recommended!!!

SVARTEPAN CD - NATTVANDRING SVARTE PAN is a Swedish band who have earned themselves a good reputation of being a hard working band, who gives everything on stage. This is the 2nd album after the "Sov gott" album from 2002, who received very good response in the press. It's no secret that the band have their roots in the 70's bluesbased hardrock scene, but what differs SVARTE PAN with the others in the stoner rock genre is that SVARTE PAN is far more bluesbased, and also, do not put their trust in walls of distortion. SVARTE PAN delivers some superb melodies instead, and also adds swedish vocals. Their music could be described as a Swedish mixture of old bands like NAZARETH, BLACK SABBATH, a touch of JIMI HENDRIX vibe, and an even bigger slice of NOVEMBER. Together with ABRAMIS BRAMA, SVARTE PAN is another new bands carrying on the swedish bluesy hardrock style of NOVEMBER. A CD holding several potential hits.	2004	Transubstans / S TS 005	Blues Rock Hard S	14,90 €

SWAMPGAS CD - SWAMPGAS The album, which first saw the light of day in 1971, was originally released on the Buddah label (BDS 5102). The production credit goes to Artie Kornfeld (he of Wind In The Willows and The Artie Kornfeld Tree), with engineering by Shelly Yakus. The album is a real mix of musical genres, but the playing is immense, with guitarist Baird Hersey going from strength to strength as the record progresses. Check out the fast numbers, particularly Patato Strut and Don't, where the Hendrix influence is immediately apparent. But Baird just keeps taking it further with superb acoustic and electric work throughout, culminating with some hypnotic sitar on Egg Shell. Acoustic David Crosby keeps springing to mind. Hersey went on to release two further albums. Kim Ornitz's voice, often reminiscent of Tim Hardin, is also especially worthy of mention, and the tight, CSN-like vocal harmonies give the album an early '70s fingerprint. You really can't go wrong with this album as it is a special find indeed. An album that will be loved my mellow West coasters everywhere.	1971	Radioactive / UK RRCD 127	Rock UK	15,90 €

SWEET PANTS CD - Fat Peter Presents The musical style of this album is best described as The Dead meets Merry Butterworth, with its seedy organ and smattering fuzz guitar. The band's only album appeared on the miniscule Barclay records somewhere in the 70s. This musically solid and satisfying album sounds rather on the lo-fi side of the audio spectrum. Another musical curiosity for the first time on CD.	1971	Radioactive / UK RRCD 129	Rock Psych USA	14,90 €

CD - Just a poke & Darkness to light		EMI 7243 5 22641 2	USA	
Sweet Smoke was an American music group living and playing in Europe from 1970 till 1974. Originally from N.Y. the group moved to Germany where they lived as a family commune. Within a year of their arrival they recorded their first L.P. Just a Poke which almost immediately turned them into a sort of cult icon of the underground scene which was beginning to emerge as Europe's response to the American hippy scene. An extremely resourceful and creative group, they took the art of spontaneous improvising to new heights, very often involving their audiences in their music. Words like rock jazz, acid rock, raga rock, hard rock, experimental music are only some of the words used to describe their music. Looking back one can see the early roots of fusion and new age music beginning to manifest through them. Though the basic group consisted of 5 musicians, they came to most of their concerts with their communal family (10-15 of their friends) who helped them on and off stage to create an atmosphere of a musical happening.". Their first LP „Just a poke“ consists of 2 side long tracks „Baby Night (16'24)“ and „Silly Sally (16'22)“ – a true jam experience. 2 LP's remastered on 1 CD.

CD - Live		EMI 7243 5 22683 2	USA	
The original Live album, recorded live in Berlin, December 1973 by this US/German commune band and originally released on Harvest, this CD features two lengthy improvisational jams packed full of trippy psychedelic fusion and exploratory journeys very much in the style of West Coast acid rock bands of the late '60's. An flowing mix of acid rock and jazzy Eastern guitar ragas now with an extra three tracks making up a full half an hour's worth of additional trippiness.

CD - Swordsmen		VSC 011	AUS	
A cover band from Melbourne who played the dance and party circuit between 1964-66. Australian import. Reissue of 1964 album. This album must be rated amongst the rarest and most unusual of the period in terms of Australian rock history. (See Hans Pokora's '1001 Record Collectors Dreams'). It must be remembered that in the mid-60s recording an album was almost unheard of and that the band only paid for and produced 200 copies of the record. This CD represents a genuinely historical document of surf beat dance music from the 60s Australia.

Available again. Symphonic Slam is a fascinating historical testimony of the "guitar-synthesizer"'s invention, as Timo Laine pioneered its technology by recording this album. But it's also a nice bunch of ten songs, very diverse and sophisticated, mixing a wide range of influences, from rhythm and blues to jazz rock and progressive rock. Helped by David Stone (keyboards, backing vocals) and John Lowery (drums, backing vocals), Timo invented new sounds and structures, imitated later by a lot of musicians. An excellent album from the good old seventies...Timo Laine was born in Oulu, Finland. His family immigrated to America in the 50's. Timo began playing guitar after losing interest in the piano at about the age of 12. During his late high school years he got job as guitar teacher at a local music store. He quit college and started to perform in the club scene full time. In Canada, Timo's band was discovered by A&M Records who signed him up for an international release of Symphonic Slam in 1976. What had caught the labels eye was Timo's pioneering work on the new guitar synthesierd technology. After several years, A&M asked Timo to go back to the States to start a new album. After the album was completed, A&M passed on the project, asking Timo if he would record a disco album. To Timo's humiliation this was the ultimate letdown. Timo's been playing live performances with The Rolling Stones, BB King, Gentle Giant, Chuck berry, Tina Turner, Rush, among many others! Since then he has been experimenting with the guitar synth technology, doing film music and albums.

TABACO - (2CD) CD - Desintegracion Red Lounge Records presents here one of the rarest Spanish psychedelic gems ever. For the first time on CD and straight from the master tapes! This legendary, almost impossible to get album was recorded in Barcelona in 1971 in the same studios (GEMA) as the rare and great counterpart PAN Y REGALIZ. The album was released as a local pressing with a few hundred copies only . The music is stunning heavy psychedelic rock with a monstrous wah wah fuzz guitar and mixed with some of the most psychotic spaced out sound effects ever. English vocals! The track DESINTEGRACION is beyond words, a psychedelic RARE GROOVE killer. As bonus RLR included a 2nd CD with the entire album in a complete unheard version. Until now! TALKING TREES CD - TALKING TREES This just so happens to be one of those albums that comes along so rarely these days. A full hours worth of strong melodies and intelligent lyrics. The Jefferson Airplane cover of "Lather" is quite simply breathtaking. The Byrds type harmonies and Rickenbacker 12 string do not detract from the fact that this is basically an extremely well crafted and constructed "Brit/psyche" album. Personal favourites "Steel Plastic Centipede", and the beautifully Mellotron laden "Music of the Spheres". 9 out of 10. 14 Tracks - 60 Minutes.	2002	September Gurls / GE SGCD 32	neo-Psych Folk UK	15,35 €

TANDY, Sharon CD - You Gotta believe it's... South African-born Sharon Tandy is a bona fide 1960s legend, with a story to match. Blue-eyed soul, freakbeat and state-of-the-art Brit-girl pop, she handled it all with consummate ease and one of the best voices of the time. "You Gotta Believe It's Sharon Tandy" is the first ever career retrospective of this unique, and until now somewhat enigmatic, artist. The track-listing includes virtually all her UK singles 1965-69, upon most of which Sharon was accompanied by psychedelic avatars the Fleur De Lys – tracks such as 'Daughter Of The Sun', 'Gotta Get Enough Time' and the in-demand mod anthem 'Hold On' have been sought-after collectors' items for years. Seven tracks, including five previously unissued, derive from Sharon's legendary 1966 session at Stax in Memphis, where she was backed by Booker T & The MGs – the first European to record at that hallowed venue. The package features an in-depth look at Sharon's career, with full co-operation from the lady herself, and is copiously illustrated with many rare photos.	1965-6	Big Beat / UK CDWIKD 233	60's Beat Pop Soul UK	23,00 €

Founder members Barraclough and Baker came via experimental group, Baby Whale, while Cox & Appleton crossed over from the semi acoustic punk band, Duke Duke & the Dukes. Final line up included Tony Shepherd on drums who would go on to form The Bible with Boo Hewardin. TENNENT AND MORRISON CD - TENNENT AND MORRISON Tennent and Morrison's self titled debut album released in 1972 has been on the collectors' want list for over a decade. Like a typical old fairy tale of the early 70s, this unique folk-rock quartet soon disbanded. Typically, they lacked supporting and promotion. I do not know how many copies have been pressed and sold, but one thing for sure is that the sales were poor. Talking about their music style, the album doesn't quite like a typical British folk rock album, but it is way close to the American style in some senses. Overall, it is a hell of an album.	1972	Hugo Montes / KOR HMP CD 031	Folk Rock UK	18,50 €

THEIL, Bob CD - SO FAR Essential folk masterpiece! One of the very best UK private pressing from the last 30 years. Released in 1982 but most songs written in the 70s and sounding like that...in fact the 5 bonus tracks were recorded in the mid 70s. This is surely one of the all-time best folk-psych albums, with amazing songwriting and tremendous Floyd-styled electric leads and backing band. Stunning musicianship, line-up features Jimmy Litherland (COLOSSEUM, JADE) and Mark Brezicki (now with PROCOL HARUM). How this incredible piece of art could have been ignored is something we may never understand. Fortunately, Bob Theil is getting recognition now and gets his album reissued on CD format, including the whole album with original artwork, plus 5 bonus tracks from a very rare EP released a couple of years before the album, all of it perfectly remastered. 12 Page booklet with lyrics, infos and pictures. The lavish fusion of tablas, oboe, viola, minimalism, jazz, classical and folk could be described as world music but the truth is much weirder. THULE CD - NATT Reissue of legendary norwegian progressive album from 1990, originally on the Colours label, but never on CD before. In many ways this is the first of the new wave of experimental progressive rock bands of the 1990's (Anglagard, Anekdoten etc) and is regarded as a gem of the neo-progressive Scandinavian rock scene. Dark moody music with '70's keyboards guitars and plenty of atmospherics. Includes a bonus track.	1990	Pan / NOR PACD 022	Prog. Dark NOR	16,00 €

Thump'n Pig & Puff'n Billy CD - Downunda By 1972, piano player extraordinaire Warren 'Pig' Morgan had performed a key role in the careers of two of Australia's most legendary blues-rock bands, Chain & Billy Thorpe & the Aztecs. He'd been a founder member of Chain in 1968, and had been instrumental in helping Thorpe establish his reputation as one of the wildest and heaviest blues-rockers of the day. Initially a solo project, it soon became a collaborative effort after Warren asked Billy Thorpe to join in. Christening themselves "Thump'n Pig & Puff'n Billy", they then enlisted the talents of another Aztec (Gil Matthews) and 2 members of Chain (Phil Manning and Barry Sullivan) to record the LP they called "Downunda". The single Captain Straightman became a much loved hit. Remastered by Gil Matthews, this deluxe digi-pak version also features 4 bonus live tracks, liner notes by noted Australian rock author Ian McFarlane and a 16 page booklet with rare photos. THUNDERTREE CD - THUNDERTREE Thundertree, whose members hailed from Minneapolis, was formed by Miesen and vocalist/guitarist Bill Hallquist to exploit the former's fortuitous Roulette contract. The band managed only one eponymous album for Roulette (SR-42038) which appeared in 1970, but a combination of psychedelia and progressivism turned a highly-experimental album into an increasingly hard to find collectable.	1970	Radioactive / UK RRCD 096	Psych Rock Prog USA	14,90 €
TICKAWINDA CD - Rosemary Lane Possibly the most collectable album in the world, recorded in 1979. No one had ever been in a recording studio before, then an unknown, Clive Gregson who sometimes sat in with the band at the Rose And Crown Folk Club in Stalybridge, Cheshire came to lend a hand. Clive remembers, " The sessions were great fun. We cut everything pretty much live and I can still see the intense concentration on everybody's faces as we went for a take and the big smiles when we listened to the playbacks. Paul Adshead engineered the sessions with patience, skill and humour and the album was favourably received by fans and critics alike when it was released in 1979."Paul Adshead has been recalled to re-master from the original tapes for this very exciting release. The album has been packaged with the original art work and a sleeve note by Clive Gregson.	1979	Kissing Spell / UK KSCD 916	Folk Psych UK	19,95 €

TIMBERCREEK CD - HELLBOUND HIGHWAY Back in 1975 this bunch of dudes found themselves back in a studio deciding to make a rural rock album sort of Dead meets Eagles variety. It was issued as a private pressing of about 100 copies. Some of the songs are terrific, particularly the opener with its great melody and psychy lead guitar hook. In between there's some mellow country rock in the Outlaws variety with excellent steel guitar and highly appropriate and surprisingly tuneful vocals. For the first time on CD.	1975	Radioactive / UK RRCD 130	Rock Psych USA	14,90 €
TIME CD - BEFORE THERE WAS TIME was recorded 1968 in Canada. Lynn David Newton the founder member is from same class as Jim Cuome of SPOILS OF WAR. Also member of this band was composer and musical pioneer DAVID ROSENBOOM. This is a true masterpiece, well played, touchy but twisted. All original songs in the WEST COAST tradition with many effects and lot's of HEAVY FUZZ outbreaks. Very much influenced by the British underground of the '60's the album is packed with harpsichord, flutes, percussion, heavy fuzz guitar and effects with lysergic vocals. The band moved to New York a year later and evolved into Think Dog (also out on Shadoks).Excellent official remaster.	1968	Shadoks / GER SM 054 CD	60's Psych Rock CAN	14,90 €

Dedicated To You, But You Weren't Listening, recorded in 1971 (with the help of Elton Dean, Robert Wyatt, Gary Boyle and Roy Babbington), gives birth to a personalized avant-garde style that puts Tippet in a class of his own. In the years following the album's release, Tippet became involved in the jazz rock of Centipede and Ovary Lodge with his future wife Julie Driscoll. 7 tracks. TITUS OATES CD - Jungle Lady Named after the 17th Century serial perjurer and Catholic-bater Titus Oates, the eponymous Dallas-based rock combo released a lone psychedelic album on the Lips label in 1974. The material ranges from '60s flower-power pop to hard, roadhouse psychedelia. Rick Jackson wrote all the material on the album on which the keyboards and vocals blend nicely with some melodic guitar work..The album, which is extremely well recorded, has, despite the band's Texan origins, a decidedly West Coast feel, although their Southern roots do occasionally come to the surface in the form of some excellent Allman Brothers/Blue Oyster Cult-style dual guitar interludes and a couple of heavy bass riff-focused power tunes. Originals of this album are extremely rare and change hands for serious money.	1974	Radioactive / UK RRCD 026	Psych Prog USA	14,90 €
TOAD CD - Behind The Wheels This record includes 14 original tracks from various recordings of TOAD, the legendary group to achieve worldwide success at a time when only British and American groups dominated the charts. Most of the songs on this CD have never been released before and tracks like "Tonight" and "Music" feature John Giblin on bass, Mel Gaynor on drums and Tommy Eyre on keyboards. Other tracks feature Mike Fraser on keyboards plus, of course, the three original TOAD members: Vic Vergeat, Cosimo Lampis and Werner Fröhlich. The first five songs feature Bobby Blotzer on drums, Tom Croucier on bass and were recorded in Los Angeles.	197	Akarma / Italy AK 309 CD	Rock Hard CH	12,90 €

TOAD CD - B.U.F.O. A surprise release from the archives of one of the most legendary power-rock bands of the 1970s! This incredibly rare EMI acetate has recently resurfaced, chock full of previously unreleased 1970 recordings of the band! Recorded by EMI and circulated only among a small handful of producers, the acetate was all but forgotten when the band was advised to go back into the studio to re-record everything for their first official album. Guitar virtuoso Vic Vergeat is phenomenal, as usual, and his exceptional talent is really put on display on these 11 excellent tracks. Many of the tracks found here were later released, but in our opinion sound a lot fresher right here. "Karma-book" edition now for nice-price.	1970	Akarma / Italy AK 99268 CD	Rock Hard CH	9,90 €

TOAD CD - TOAD	1971	Second Battle / GER SB 061	Rock Hard CH	15,00 €
It is a well known fact that some reviews are prone to wildest exaggerations. Our free promo sampler, however, makes it absolutely clear why TOAD were once seen as one of the highest hopes in the hard rock field. No wonder - as they had learnt a lot from the most influential acts of the time. Their 1970 debut is absolutely bubbling over with dark reminiscences of Black Sabbath, which were accompanied by magical Heep-like organ sounds and progressive guitar work in the Hendrix vein on top. In short: Anyone who likes the vocal style, the riffs, and the melody lines of early black metal will find this record well worth listening to - not only because of some added single tracks but also because of the careful remastering of the original tapes! New Digipak release of sought after first LP plus 4 (bonus) single tracks (1st and 2nd single a & b sides) & Hendrix's Purple Haze. This digital remastered version matches all previously releases by a far better sound. Es ist bekannt, dass Plattenbesprechungen gern vor Übertreibungen strotzen. Auf unserem kostenlosen Sampler kann man jedoch nachvollziehen, dass TOAD sich einst anschickten, einer der schwersten Hardrock-Brummer überhaupt zu werden. Entsprechend fleißig gingen sie bei den großen Vorbildern jener Jahre in die Lehre. Das Debüt von 1970 quoll nur so über von düsteren Black Sabbath-Anklängen. Dazu ergelte es in magischer Heep-Manier genauso wie die progressive Gitarrenkunst von Jimi Hendrix zelebriert wurde. Kurzum: Wer den Gesangsstil, die Riffs und Melodiebögen des frühen Schwarz-Metalls mag, wird hier bestens bedient - nicht zuletzt auch durch die sorgfältige Klangbearbeitung der Original-Master und extra Single-Tracks! Diese Ausgabe enthält 4 (bonus) single tracks & Hendrix's Purple Haze und ist klanglich allen bisherigen Ausgaben bei weitem überlegen.				
TOAD CD - Tomorrow Blue	1972	Second Battle / GER SB 062	Rock Hard CH	15,00 €
TOAD's second album was produced after singer Benny Jaeger had thrown in the towel. Vic Vergeat took on almost all vocal parts in addition to playing guitar. The result was a much more complex, more mature and at the same time more progressive album, as tracks like "Blind Chapman's Tales" (also featuring a guest violinist) highlight. The addition of a considerable amount of piano parts, also played by Vergeat, helped in making the second LP sound more elaborate, too. Yet "Tomorrow Blue" still retained the typical TOAD-sound. Digitally remastered. Available as Digipak CD + Poster. Das zweite Toad-Album entstand, nachdem Sänger Benny Jäger ausgestiegen war. Vic Vergeat übernahm neben seinem Gitarrenjob selbst fast den ganzen Gesangs-Part. Das Ergebnis klang deutlich komplexer, reifer und zugleich progressiver, wie zum Beispiel auf "Blind Chapman's Tales", wo noch ein Gastviolinist zur Geltung kommt. Auch das Klavier - auch gespielt von Vergeat - trug sehr zur Bereicherung des sounds der zweiten LP bei. Aber dennoch hatte "Tomorrow blue" immer noch den typischen TOAD-Sound. Unsere digital remasterte Digipak-Ausgabe enthält die komplette 2. Original LP „TOMORROW BLUE“, hat ein 6 seitiges Digipak sowie ein Poster

TOAD CD - OPEN FIRE - Live in Basel 1972	1972	Akarma / Italy AK 329 CD	Prog. Hard CH	12,90 €
A previously unreleased live album that captures the full energy of this much loved 70s rock band. Emotions are high thanks to their choice of tracks and excellent live rendition. Vic Vergeat is a force to be reckoned with. He's like Alvin Lee on speed with all the power of a young Angus Young, while the rhythm section is no less than devastating. The set opens with "Tomorrow Blue", the celebrated title track from their second album, and continues with "Thoughts" and "Pig's Walk", a true guitar orgy. This is mellow blues that never loses momentum. Also includes a tribute to the legend Jimi Hendrix with "Red House" and "Who Knows".

TOTTY CD - TOTTY From the blistering Southern rock instrumental opener, "Thus Saith The Lord", to the final chords of "Somebody Help Me", this explosive album by the Oklahoma-based Totty brothers simply rocks from beginning to end. Dennis and Byron Totty rock their way through 9 self-penned tracks as if they're a major headlining act, instead of an obscure duo from Tulsa whose privately-pressed eponymous album from 1977 enjoyed sales of just 50 copies(the number the brothers reportedly pressed!). Influences are in abundance, Led Zeppelin's power R&B and Lynyrd Skynyrd and ZZ Top also spring easily to mind. This is an album of the highest quality that will delight fans of heavy psych and hard rock even more. Highly recommended.	1977	Radioactive / UK RRCD 066	Rock Blues USA	14,90 €
TOUCH CD - TOUCH All five members of this band had previously played in Don And The Goodtimes, a popular club band from Portland, Oregon. Prior to that Gallucci, who later became a staff producer for Elektra, was with The Kingsmen, Newman with The Liberty Party and both John Bordonaro and Hauser with Connecticut's 'Gretschmen'. Their album was a really exploratory effort with touches of psychedelia (Down At Circes Place), jazz, avant-garde and progressive rock. TRAFFIC SOUND CD - Yellow Sea Years: 1968-1971 The FIRST anthology of one of the most important South American bands of the 60's. With some of their albums released like bootlegs, this DOUBLE LP and CD (80 minutes!) recovers the best recordings that the band made from 1968 to 1971 for the legendary labels Sono Radio and Mag. In "Yellow Sea Years" the evolution of the band can be fully appreciated, with their roots on the acid blues-rock born with Hendrix, Cream or Yardbirds, to a solid Latin-Rock filled with psychedelic touches and immensely inspired folk. And finally you get the idea that, had they not been a Peruvian band, Traffic Sound would of course have NOT sounded like this. But it is also CLEAR that if they had come from a more "developed" country, they could have been one of the best known and most admired bands of their time. In fact they ARE! With extensive liner notes by a person who was fully involved in their amazing history. Songs: Lux; El Gusano (Alice In Wormland); La Camita; You Got to Be Sure!; White Deal/Poco/Big Deal; Suavecito; Chicama Way; Those Days Have Gone; Solos; Survival; A Beautiful Day; Marabunta; Yesterday's Game; Sky Pilot; Meshkalina; What You Need and What You Want; Tibet's Suzettes (You Can't Appreciate a Gift from God); Inca Snow.	1968-7	Vampisoul / E VCD061	60's Psych Rock Peru	16,00 €
TRAFFIC SOUND CD - Virgin In January 1970, Traffic Sound's second album called Virgin appears on the market. This is the first Peruvian rock album with 100% original tunes, also was made with an incredible gatefold cover for the first time. This album contains the hit single: "Meshkalina" with trippy sounds and hypnotic Latin rhythms, power rock with hippie lyrics at its best. The uniqueness of the sound made this band to something special, their influences are The Animals, Iron Butterfly, Jimi Hendrix Experience and Pink Floyd. This album includes acoustic tunes like: "Virgin", "Simple" and "Last Song", and also progressive rock like: "Yellow Sea Days" and Jews caboose. The music is wild, freaky and partly weird but also harmonic - one of the best South American albums besides Laghonia, Zapata, Modulo 1000..! - 35 years later, Peruvian label Repsychled Records, has the pleasure to present a reissue of this album, like a mini-LP CD, which includes lot of unseen photos of the band, records and lyrics. This reissue was done using the original master tapes and remastered with tube-amplifiers. A must for 60s fans!	1970	RE-PSYCH-LED / Per REPSYCH 1004	60's Psych Rock Peru	19,90 €

TRAVERS, Pat/ CARMINE APPICE CD - Superstition	2005	Akarma / Italy AK 353 CD	Rock Hard USA	15,50 €
Put first-class guitarist Pat Travers (active since the early seventies) together with an extraordinary drummer like Carmine Appice (whose collaborations are far too numerous to list), bring in the full-bodied bass of Chuck Wright and Tony Franklin, and let them play the music they love (blues rock), and the result is one smokin' album! Featuring studio versions of their hottest tracks (i.e. "Boom Boom" and "Snortin' Whiskey"); new versions of classics like Pat's "Crash & Burn" and Carmine's "Evil" (a track from the Cactus days), plus sizzlin' covers of Stevie Wonder's "Superstition" and "Livin' Alone," which Carmine played back in the days of "Beck, Bogert & Appice". Among the new tracks, "Babylon Baby," "Misfortunate One" and "Disappear" are standouts. As usual the experience and talent of Appice / Travers comes through loud and clear, and this work is definitely among their best.				
TREACLE PEOPLE CD - TREACLE PEOPLE	2005	World in Sound / GER WIS 2001	Psych Prog USA	16,50 €
On their 2005 analogue-recorded debut album the quintet Treacle People. With plenty of passion and attention to detail, revive the spirit, the musicianship and the passion of their British idols from the early 70s. The eight partly epic original compositions have been recorded in 2 sessions 'live' in studio and reflect many-faceted, progressive, psychedelic and classical hard rock. Their wide musical spectrum presents striking vocals ("Cruellest Secret" - "Zero Gravity") atmospheric but also aggressive guitar ("Neptune's Kiss" - "Anschlag") a pulsating, excessive-rocking hammond-organ ("Last Song"). Inspired- as everyone should be- by the roots of the progressive and psychedelic hard rock from 60's and early 70's, this triple-fold digipack with 12-page booklet is one to watch out for. Due In: 20/02/2006				
TREECE, RICHARD CD - DREAM ARENA EAST	2002	Treece / UK TREECE 1	Psych UK	18,00 €
Richard Treece (ex guitarist with Welsh '70's legends Help Yourself and The Green Ray) recorded a great deal of solo material in the early '90's and this CD collects the best of that material together on one disc. Trippy acid guitar work-outs with a weird twisted edge, recorded in Richard's home studio. Fans' of Bevis Frond will love this stuff and for anyone who knows Richard's guitar work on tracks such as the "The All Electric Fur Trapper" on Help Yourself's second album it's pretty much essential stuff.				
TREES CD - GARDEN OF JANE DELAWNEY	1970	Columbia Rewind / EU 506064 2	Folk Prog. Psych UK	10,00 €
Finally back in print is the debut album by The Trees, easily in the top three UK folk rock bands of the 70's, if not all time. Dating from 1970 the album blends trippy, twin lead guitar, West Coast acid rock with lilting English folk. The delicate female vocals of Celia Humphries and a haunting production weave a dark magical Celtic spell over misty musical moorlands. Captivating, beautiful and timeless.

TREMELOES CD - What a state I'm in - the psych-pop sessions	1967	Castle / UK CMRCD 637	60's Psych Pop UK	12,50 €
If this album was credited to some mythical outfit like "The Electric Tangerine" or the "Orange Banana", then it would already change hands for 100,- + UK pounds. Psych cultists would be enchanted by the fuzz guitar of "What a state I'm in", the backwards trickery and vocal experimentation of "Suddenly winter" and the freakbeat imagination of "Gentlemen Of Pleasure". Then there's "Let Your Hair Hang Down", which sounds as if Keith Moon and Jeff Beck had suddenly walked into an IVY LEAGUE session; or "Instant Whip", which is the perfect blend of STAX and Southend-On-Sea. Even their hit : '(Call ME) Number One', sounds, in this company, like a classic peace of 1967 acid-pop. Forget your pride and street cred: this wonderful anthology will rewrite the history books forever (Peter Doggett in RC 03/2003)

TRIGGER BAND, VIC CD - ELECTRONIC WIZARD San Jose Californias Vic Trigger Band released their lone album Electronic Wizard in 1977. Lets hope that this time the Vic Trigger Band finally catch the prize. Their LP sells in the \$250-\$300 range when one happens to come on the market. Fans of druggy, wasted, psychy heavy hard rock will have to have this one. TRIMBLE, Bobb CD - Harvest Of Dreams Unusually for Radioactive, BobbTrimble's Harvest Of Dreams, now receiving its first-ever CD release, is an '80s recording, although it has often been said of this highly personal and unusual album, it is music very much of its own time. Musically, the album flits from '60s-style pop to '80s new wave with psychedelic and folk-rock influences also much in evidence, but it is Trimble's idiosyncratic vocal style (somewhere between Marc Bolan and Sparks, as one critic opined) that really makes this album stand out from the crowd. Trimble, who has been proclaimed by some as the purveyor of the greatest psych folk ever made, revels in sound effects ranging from echo to phasing and flanging, all of which are used to twist and distort his voice to create a trippy, ethereal mood augmented by curious interjections such as telephone dial tones, background talking, bouncing ping-pong balls, and even noises from the '80s video game, Defender. The sum total of these disparate parts is an album that defies description although to conclude that Harvest Of Dreams is solely an attempt by the artist to convey to the listener the often frightening sounds that reside within his soul are misplaced, as there's an up-beat message of hope and optimism running throughout. As one fan wrote "Within two seconds of my first listen to Bobb's music, I was transfixed and had that rare feeling that this was music that could change my life, "Pretentious", possibly, but any album capable of evoking such depth of feeling is ignored at one's peril. TROGGS CD - CELLOPHANE + 12 - (Digipak) Reg Presley's song "Love Is All Around", memorably featured in the hit movie "Four Weddings And A Funeral", is one of the highlights of this CD. First released in 1967, the album brings back memories of one of the best loved British pop groups of the swinging 60s. Presley and The Troggs roar through a dozen rocking numbers, including "Little Red Donkey", "Her Emotion" and "My Lady" which demonstrates their songwriting skill as well as their ability to play with fire. Added are eight bonus tracks, comprising selected A and B sides from 1969-70 plus four special bonus cuts featuring both sides of solo singles from Troggs drummer Ronnie Bond and leader Reg Presley. TROLL CD - Animated Music Reissue of 1968 album by Chicago psychedelic rock quartet. The band is best known for "Animated music" on Smash records. The style is varied, ranging from the power of Werewolf to the psych oriented vibe of Satin City and Everybody's Child via the vaudeville tunes of "Have you seen the Queen" and "professor Potts pornographic projector". Influences of vocal melodies and harmonies are excellent and felt throughout the album just as the outstanding musical performances. There are also some periodic injections of varispeed vocals and strange soundeffects, all the rage on late 60s psych albums. Now regarded as a psych masterpiece and receiving the critical acclaim it deserves.	1968	Radioactive / UK RRCD 064	60's Psych USA	14,90 €

TROWER, Robin - (2CD) CD - Dreaming The Blues 2CD. This compilation shows the talent of the ex-Procol Harum guitarist nicely, but anyone who's anyone will be well acquainted with it all anyway. Comprising the two albums 20th Century Blues from 1994 and 1997's Someday Blues, plus live highlights from the This Was Now set, spanning 1974 and 1998, it's a rather skewed compilation, and certainly not definitive. Many of the tracks highlight not only Robin's guitar and vocal skill, but also his love of power trio blues; think Cream and Hendrix. We do get great live versions of Bridge of Sighs, 20th Century Blues and Crossroads, which will serve as a great introduction, but the less than informative sleeve notes and lack of anything new for fans makes a potentially great package less than fulfilling.	1974-9	Recall / UK SMDCD500	Blues Rock UK	11,90 €

TUCKY BUZZARD CD - WARM SLASH First time official release from mastertapes. Recorded at the Chateau de Herrouville, Paris & Olympic Studios, Barnes, London, 1971. All tracks written by Tucky Buzzard. The band had been touring Europe on a regular basis & this album saw the start of their touring in the States with the likes of Uriah Heep & Deep Purple. As usual, Bill produced the album & flew to the States for the band's debut at 'The Whisky A Go Go' in Los Angeles. Old friends Black Sabbath also flew in from Florida to show support &, of course, join the riotous party after the gig. Tracks: Mistreating Woman; (She's A) Striker; Fill You In; Need Your Love; Which Way, When For Why; Burnin'; Heartbreaker; Sky Balloon; Ain't Too Soon.	1971	Ripple Records / UK RIPCD 105	Rock Hard UK	16,50 €

Ex 'The End' member Hugh Attwool was in Madrid at the time & helped out with some percussion. Production was by Rafael Trabucelli, [Bill was on tour at the time] with Waldo de los Rios conducting most of the Madrid Philharmonic Orchestra who to everyone's surprise wore full evening dress. Quite bizarre! TUCKY BUZZARD CD - Time will be your doctor - (2CD)	1972-7	Castle / UK CMEDD1249	Rock Hard UK	15,90 €
The Anthology (2005 UK 24-track 2-CD album set from the group who were discovered, encouraged & produced by Bill Wyman and comprises a collection of 24 tracks from their 1st three albums [only 1 of which was issued in the UK]). Late 1969 The End (still working with mentor and producer Bill Wyman) decides the name is dated, become Tucky Buzzard and continue in a similar vein as heard on the Tenth Planet Last Word album. Their self-titled '71 debut depicts the band as a boogie rock wannabes (bad) and an excellent diminishing psychedelic rock band resplendent with fine harmonies and some stirring Hammond work. Clearly not quite sure where they were going the two influences are uncomfortably straddled, which is distracting; the first half of the album is superb. On the second naff titled album Warm Slash ('72) the boogie takes over, and for the main part it's a hard task to get through. Further proof of their confusion can be heard on the rather wonderful orch-prog album cut a little later in the same year. Coming On Again almost makes a U-Turn and blends the older whimsical song styling with full on progressive pop/rock and heavy orchestration courtesy of the Madrid Philharmonic Orchestra. Throughout these two CDs much of what made The End so special can still be heard... but there are more than a few embarrassing moments and lyrics to contend with too. Tucky Buzzard never made it and much of their output was relegated to Spain, but they played hard and nearly broke through to the rock hungry US.				
TUDOR LODGE CD - TUDOR LODGE - (Mini-LP-sleeve)	1971	Repertoire / GER RepUK 1046	Folk UK	16,90 €
Strictly limited edition of 2.500 copies (you can receive a certificate via their website). Here at last an official remastered CD reissue of one of the most venerated progressive hippy folk/rock/pop albums of all time, originally released in 1970 on Vertigo. Its striking artwork has made it much sought after by collectors, but the music is the main attraction here. Delicate, rather extravagant, and very original for the time the music of Tudor Lodge is characterized by complex arrangements featuring acoustic instruments with an excellent use of flute, acoustic guitars and impeccable female/male vocal harmonies. Tudor Lodge were a UK act featuring American members, and were fairly well known in the early '70's, thanks to their numerous live appearances, and in particular at the Cambridge Folk Festival in 1971. Comes with the original vinyl artwork in square paper-sleeve format and fold out mini poster like the original sleeve.

UNDERDOGS CD - Wasting our time First time on CD, and with superb sound! Best known for their earlier, bluesier Zodiac-label output ("Sitting In The Rain"), guitarist extraordinaire Harvey Mann re-formed the group as a power trio in 1970, recording what would be the final LP under that bandname. The apples didn't fall far from New Zealand's Hendrix-licked tree - Mann and drummer Glen Absolum would regroup soon afterwards as Space Farm and bassist Neil Edwards joined Human Instinct, who subsequently recorded their own version of the wah-wah-soaked "Duchess Of Montrose" for Pins In It. Furthering its stellar pedigree is production by Bob Gillett, who as leader of The Brew had given Doug Jerebine (aka Jessie Harper) some gainful employ early in his brief career.	1970	SKYF ZOL / US DP 109	Funk Rock NZ	19,50 €
UNDERGROUND SET CD - Underground Set An obscure album which is now quite rare and collectable and came in a wonderful cover. Also issued in U.K on Pantonic records. The cover provides no clues or information about who was behind this swinging London keyboard-driven psych album with distorted fuzz guitar. In fact it appears that this album was the work of the well known Italian maestro Giampiero Reverberi who issued another album "War In The Night Before" in 1971. Music for Groovy people, for Go-Go people and for Swinging people!!! Originally released in 1970.	1970	Shagadelic / KOR SDCD 004	Prog. Psych Italy	20,00 €
UNICORN CD - UPHILL ALL THE WAY A lost British folk rock classic (yes, ANOTHER one!!) beautifully reissued in digipak CD format by Breathless, comprising the debut album from 1971 of this UK band ,originally available on Transatlantic. Produced by Gerry Rafferty's producer Hugh Murphy, this shows their transition from a straightahead 'beat combo' into a Crosby, Stills and Nash- influenced, country-based outfit with occasional leanings towards Lightfoot/Kristofferson/Tom Rush style lyricism and a Music From Big Pink ethos. If it was good enough for Dave Gilmour (who became their producer soon afterwards) then it's definitely good enough for you!! Perfect for those soothing evenings in the company of your stereo.	1971	Breathless / Italy BM 52011	Prog. Folk UK	14,90 €

USE OF ASHES CD - THE CASTLE OF FAIR WELCOME Record Collector: Recorded as Mekanik Kommando and released in 1989 on their private label rosebud, in an edition of just 500 copies, this record remains one of the finest dutch 80s pop-psych releases ever. the history of this highly collectable lp was slightly troubled by the fact that mekanik kommando split up after the lp was pressed. Most copies are therefore stickered with the new name of the band, the use of ashes. ranging from atmospherical instrumentals and fragile love songs to more spaced-out material, incorporating acoustic instruments, electronics and hushed, reverbed vocals, the music has a unique wam character. This most welcome re-release unfortunately includes no additional bonus material. considering the age and recording equipment, the sound is great, even though the new digital format does reveal some hiss. Collectors should note that MK's double cassette, "The wind died down", and lp "Shadow of a rose" will also be re-released by tonefloat in the imminent future.	1989	TONEFLOAT / NL TF 19	Psych Folk Rock NL	13,90 €
USE OF ASHES CD - ICE 67 Ice 67 sees The Use Of Ashes return from a five year stay in no man's land. It is the first CD to be released in the band's home country, The Netherlands, on the Rotterdam based ToneFloat label. The Use Of Ashes remain one of the most elusive bands ever to come out of Holland, but nevertheless admired by many as can be judged from their worldwide releases over the years. Ice 67 is an adventurously produced blend of the band's trademark organic psychedelia, folk and kraut with a growing touch of electro and techno. The album clocks in at about 45 minutes and includes the songs Second Flowerman, North Star, Rainbird, Snowfield, Ride A Unicorn, Table One Two Three, Ice, Fragrance Hill, Flowers Of Evil.	2004	TONEFLOAT / NL TF 16	Psych Folk Rock NL	16,90 €
UTOPIA CD - Utopia Great and little known, late '60's heavy psych rock reminiscent of The Frost. V.A. - ASTRAL DAZE CD - Psychedelic South African Rock 1968-1972	1968-7	Fresh / ZA Fresh CD 148	Psych Rock Blues ZA	18,90 €
This real collectors item features 18 classic, rare and obscure tracks from the heydays of South African Psychedelic Rock. 16 of these tracks have never previously been released on official CD. „Although the South African rock movement of the late sixties and early seventies was not a major commercial success, it's participants heralded an exciting new age in South African rock and started a movement aimed at changing the musical tastes of fans in a spectacular way. Stadium concerts became the vehicle for feeding the youth with heavier rock sounds and behind studio glass were producers like Clive Calder, Billy Forrest, Graham Beggs and Selwyn Miller who acted as change agents to transform conventional pop into heavier 4 to 5 minute songs. The movement's struggle for recognition through airplay remained unanswered and only the true fans of rock knew about their existence. Smashing instruments and 5 minute plus recordings were not everybody's cup of tea and neither did record companies go out of their way to market the rock revolution in South Africa. Clive Calder, one of rock's premier custodians, had this to say in 1971: "Rock is the biggest thing in music today. It's the universal language of the young generation. A handful of bands produced highly creative music and young South Africa welcomed them with open arms. Gullible powers retaliated by banning or restricting their artistic influence and radio stations ignored them! But ROCK accepted them!" - Tertius Louw, June 2005 - TRACKS 1. The Whip – Suck; 2. Astral III - The Invaders; 3. The Boy And The Bee - Omega Limited; 4. Straight Ahead - Otis Waygood; 5. My Back Feels Light/What Can You Say - Abstract Truth; 6. The Eagle Has Landed - Dickie Loader with Freedom's Children; 7. You Keep Me Hanging On - The Flames; 8. Blurry Visions – Buzzard; 9. Fire - The Third Eye; 10. Predictions – Hawk; 11. V.A. - Live at the Wine Cellar CD -	1978	Radioactive / UK RRCD 158	Country Folk Blues USA	14,90 €
A rare and highly listenable compilation about which, in that time-honoured Radioactive tradition, almost nothing is known. Recorded at The Garardelli Wine Cellar in San Francisco in 1978, the album, which appears on the appropriately-named Cabernet Recordings label (GWC101) features 12 different artists and duos strutting their musical stuff. The vibe is country/folk/blues and the array of acoustic instruments deployed here with such competence brings a down-home warmth and richness to the sound of this beautifully-recorded album that only acoustic instruments can. From the Country Joe sound of Billy Roberts and his acoustic guitar, to Tim Dawe's musings on his chances of achieving chart success, Live At The Wine Cellar delivers the goods unerringly. Dawe is undoubtedly the big name here, and as befits his top-of-the-bill status, is encouraged to delight the audience twice with vocalist and collaborator Patricia Pickens and on one further occasion with his previously-mentioned solo excursion. Sandwiched in between are a selection of musical cameos, including a classical guitar piece from Leo Collignon, a wry homage to FM radio courtesy of John Palme, some lovely guitar picking from Jim Nels and a display of harmonica virtuosity from Billy Roberts. Canadian folk singer Skip Henderson delivers a thoughtful rendering of the traditional folk song, The Water Is Wide and singer Dev Singh moistens the eye with a heart-felt version of Amazing Grace. And then we're back to Tim Dawe, whose 144 Boogies (yes, he does actually manage to sing the word "boogie" 144 times) closes the proceedings. All in all, a highly rewarding, entertaining album that sounds absolutely fabulous. Highly recommended Track Listing 1. Billy Roberts - Flat Topped Box, 2. Billy Roberts - The Grip, 3. Leo Collignon - Requerdos de la, Alhambra, 4. Tim Dawe & Patricia Pickens -No More Honey, 5. Tim Dawe & Patricia Pickens -Sad Angels, 6. Joey Lent - Wild Windy Weather, 7. John Palme - Crusin', 8. Good Morning - Ecstasy, 9. Good Morning - Paradise, 10. Jim Nels - Pick 'N' Shovel, 11. Billy Roberts - This Is A Huarp, 12. Wayne Smith - Stolen Love, 13. Skip Henderson - The Water Is Wide, 14. Dev Singh - Amazing Grace, 15. Tim Dawe - 144 Boogies.

V.A. - MAS ROCK & ROLL CD - 26 rare Southamerican 60's teen-punk artifacts!	1965-	Electro Harmonix / EU REF EH 036	60's Beat Garage Southameric	9,90 €
Here it is! You could be tempted to consider "MAS ROCK AND ROLL" a label sampler since most of the artists here have their own record on Electro Harmonix, but this is mucho more! MAS ROCKAND ROLL ("More Rock & Roll") is an incredible compilation of some of the best 60s garage, punk, and rock&roll ever made south of el Rio Grande. And this means not only Mexico, but Southamerica too: Uruguay, Argentina, Chile, Colombia, Peru etc !!!! And for extra oddity added a song from The 5 Torquays (five G.I.s from the US stationed in Germany who later became THE MONKS!) and a band from Madrid, Spain. What you are holding here is the quintessence of what could, with no needed justification, be called some of the coolest moments in the unknown history of rock'n'roll... As told and known, for most of the past century, there has been a kind of "cultural" subculture in which the hippest cats were making the scene.... all over the world. And the scenarios we concentrate on are not in Swingin' London or LA's Sunset Strip... but in places like Lima, Guadalajara, Mar de Plata or Hamburg... We hope this set helps representing such great lost moments in the history of TEEN-music... termed Punk-Rock or Garage Music, as you wish... Thats what Electro Harmonix is all about. We hope you enjoy. TRACKLIST : · LOS SLEEPERS - Zombie (Mejico); · LOS SAICOS - El entierro de los gatos (Perú); · RAUL HITLER - Vivan las mujeres ! V.A. - MINISTRY OF SOUND CD - men from the ministry / midsummer nights dreami	1966-6	RPM / UK RPM D 297	60's Pop Psych UK	17,90 €
2CD. Sunshine-pop supergroup of the late 60s, featuring members of the Flowerpot Men, Fourmost, Ivy League and Tornados. Between 1966 and 1968 they recorded over two LP's worth of material- and here it is (with the exception of one or two which featured female lead vocals and turned up on the 'Sassy And Stonefree' compilation). Although steeped in the production of the day, these are far more 'meaningful' (for want of a better term) than the songs the writers had previously been associated with, and stretch from basic harmony vocal popsike to heavier soul-based rock sounds. Of the 35 tracks making their CD debut here, 31 of them have never been released before, but they sound so fresh they could have been recorded last week!! Remastered from original masters for that sparkling sound quality so beloved of the genre, and the perfect soundtrack to your summer afternoons. Shame it only comes out at the start of the Autumn!!

V.A. - New Rubble - Vol. 2 CD - Speaking My Mind	1968-7	Past & Present / UK PAPRCD 2066	60's Psych UK	14,90 €
Volume 2 is a good collection of 45s from what liner writer Jamie Romer (and many 60s fans) call 'prog-psych'. This a retrospective label for those artists and albums which sought to become more experimental as the 60s faded into the 70s and before the juggernaut that became progressive rock fully took hold. So the time line is c.1968-72. In this period a lot of interesting underground singles were released in the UK. In fact at least half if not more of those featured on Speaking My Mind have made their debut on other ahead of their time comps like the long defunct See For miles comp 'Progressive Pop Inside The 70s' or more recently the Queen Victoria Record label's Here Lies Ebenezer Goode and Space Girl And Star Man. If you have these, then there are only going to be a few titles on this comp to tempt you. Anyway, 18 good and rare underground 45s heard in a row is not a bad thing at all. A thumbs up for both these volumes and I do hope they are indicative of more to come.

V.A. - SIMLA BEAT - (2CD) CD - Simla Beat is an India compilation set up by a "Tobacco company". They might had the idea to catch hippy-non-smokers with cool sounds. If you can imagine to join the Yardbirds or early Velvet Underground in their homestudios you might get an idea how this records sounds like. Great all-english vocals, fuzz-guitars and organ. Totally stoned and rough. We personally think those bands are actually from US. There is not a single sitar/tabla or other India influence music on it. Instead: ROUGH GARAGE-SOUND and FUZZED-OUT MAYHEM. Originals are rare as gold dust. This Double LP was released as 2 single albums. Voted from many dealers and collectors as the BEST RE-ISSUE EVER! VALENTE, Dino CD - DINO A fascinating enigma of the San Francisco psychedelic scene, Valente is most famed as the author of the song Get Together. This definitive '60s love-and-peace anthem was recorded on the Jefferson Airplane's first album, and taken into the Top Ten by the Youngbloods. Valente was an original member of Quicksilver Messenger Service, and his one off solo single in 1964, a folk pop song called Birdses became the inspiration for Gene Clark to name his new band the Birdses, amended of course, to the Byrds, because of his admiration for Valente's single. In 1968, following a spell in jail for drug possession, he got a deal with Epic Records, recording an album produced by Bob Johnston (most famous for overseeing much of Bob Dylan's classic '60s output). It was idiosyncratic even within the psychedelic community. Valente sang elliptical, stream-of-consciousness hippyisms without much in the way of narrative, beginning, or end, but with an evocative lyricism. The accompaniment is mostly stripped down guitar playing pleasingly haunting minor folk-jazz acoustic chords, swelled by wads of studio reverb. In March this year, Mojo's 67 Lost Albums You Must Own article included this album: 'On leaving Quicksilver Messenger Service after changing his name to avoid the taxman, the chemically deranged but incredibly charming Dino Valente.	1968	REV-OLA / UK RPM 289	Psych Folk Rock USA	16,50 €

VALHALLA CD - VALHALLA During the '60s United Artists signed a succession of very good bands (Thunder and Roses, Boffalongo and Pookah, for example) but almost invariably neglected to give them the promotion which commercial success demanded. Led by organist and vocalist Mark Mangold, now a celebrated AOR artist, who also composed their material, Valhalla is another of those forgotten groups whose lone album deserves to be rediscovered, mixing as it does heavy rock, prog and psych with heavy, dominant organ and powerful vocals.	1972	Radioactive / UK RRCD 074	Rock Hard USA	14,90 €

VAN DER GRAAF GENERATOR CD - Present - (2CD) Most fans thought it would never happen. But Guy Evans, David Jackson, Hugh Banton and Peter Hammill have reunited as Van der Graaf Generator. This is not a nostalgic reunion to relive past glories, but a coming together of new experiences and fresh perspectives for the creation of new music as well as new live performances, the rebirth of a phoenix! During the studio sessions the muse was so generous that the result was 16 new Van der Graaf works spread out over a double CD. Present is being released by Virgin/EMI who have resurrected the Charisma label for the occasion. "One CD consists of the songs/structured pieces which we consciously rehearsed - 'Every Bloody Emperor,' 'Boleas Panic,' 'Nutter Alert,' 'Abandon Ship!,' 'In Babelsberg' and 'On the Beach.' The second CD features an hour's worth of improvisations. These have always been a feature of Van der Graaf playing and are quite whacky.... I recommend taking these at about a half an hour at a time-it's really like being locked in the room with us."	2005	Virgin / UK V 8736792 2	Prog. UK	17,00 €

Their musical inspirations and aspirations Bandleader, guitarist, singer/ songwriter Hagen "Vanille" Seitz supplied the initial ideas which he had and his bandmembers collectively transformed into a series of musical arrangements. This, their spectacular debut "Seelenzauber" made the ideas of the 7 bandmembers a reality : a great mix of rock, blues, folk and world music. Combination of German and english lyrics. Hard to classify their music spreads a wide range by using bongos, violin, acoustic and fuzzguitars.	2000	Iguana / GER Iguana 01-00	Psych Rock Ethno Folk GER	14,30 €

VAVOURA BAND CD - Live-The early days. The VAVOURA BAND, formed by JOHN DROLAPAS (guitars) and JOHN VAVOURAS (bass, vocals) in 1976, was a hard rock formation that was very famous for its destructive live shows. Their musical style tended towards Jimi Hendrix, Cream and Golden Earring. With English lyrics and a blues rock edge, -Park House Blues" is a stand-out track, but there are ethnic elements (bouzouki style electric guitar runs from the deft fingers of John Drolapas) and progressive leanings (strange keyboard sounds) that set the Vavoura band apart. Twelve tracks, including their signature song "(I Ain't the) Junkie" recorded live between 1977 and 1981. Includes an eight-page booklet with band photos. 1000 copies.	1977-8	Ikaros Music / GR IM CD 08	Prog. Hard GR	18,00 €
VEGA CD - Andaluza This one is maybe not one of the better known Spanish prog titles, but believe it's such a good one! Tomas Vega, guitarist signed to Movieplay in 1978, was probably the first musician to record an album of what we could call flamenco-jazz-rock, pioneer of fusion. Pedro Ruy Blas joined the sessions as well! Amazing cover art!	1978	Fonomusic / E FM 5046703302	Prog.Folk Jazz E	19,50 €

VELVET OPERA CD - Ride a Hustler's Dream Immediately following their 1967 successfully acclaimed debut as Elmer Gantry's Velvet Opera - thanks to the hit "Flames" - the band lost its front man Elmer Gantry but, after a brief shake, came back in 1969 with a new singer - Paul Brett - and album, Ride A Hustler's Dream, which hinges again on a their distinctive hard psych sound. "Anna Dance Square", "Raga", "Statesboro Blues" (Blind Willie McTell) and the Beatles Eleanor Rigby are certainly the best bits of the record.	1970	Akarma / Italy AK 306 CD	Rock Prog. UK	12,90 €

VERGEAT Band, Vic & Friends CD - No Compromise - (2CD)	2001	Horizons / Italy HZ 011/2 CD	Blues Rock Hard CH	15,50 €
Best known as the amazing guitarist of Toad-the early '60s blues band where the young Vic demonstrated his extraordinary ability and distinguished himself as one of the most talented contemporary guitar players- Vergeat has continued to collaborate with various musicians and experiments in various genres. However, he has never forgotten his first love-the blues-which he has continued to play with great technical ability and soul. The recent Toad reissues have been met with great enthusiasm and spurred Vergeat to release this brand new double live CD, destined to consecrate him as one of the greatest guitar players of our time. In this live recording, Vergeat plays both original tracks and revisits great blues classics (e.g., Parchman Farm, In The Midnight Hour, As The Years Go Passin' By, Like A Rolling Stone, and Hellhound on My Trail) and pays homage to rock greats like Led Zeppelin and Hendrix. Special guests include Roland Van Straaten (harmonica), Steve Lee (vocals), Joe Colombo (slide guitar), Mick Taylor (keyboards) and Jesse James King,, the charismatic keyboardist and vocalist to whom Vergeat has dedicated a large portion of this performance. Vergeat has once again defended his title as guitar heavyweight champion, with over two hours of unbeatable blues rock.

San Jose Californias Vic Trigger Band released their lone album Electronic Wizard in 1977. With its wasted, phased out vocals and wall of heavy guitars, the boys should have been household names. Instead, they sank without a trace. Lets hope that this time the Vic Trigger Band finally catch the prize. Their LP sells in the \$250-\$300 range when one happens to come on the market. Fans of druggy, wasted, psychy heavy hard rock will have to have this one. As one VIC TRIGGER song aptly puts it "Get High And Space Out" Oh yeah, it sports one of the great evil & dark covers of the 70s.

VIOLA CRIOLA CD - Breathing Of Statues A real stunner of an album from Texan band Viola Crayola. Fronted by the Viola brothers, Tony and Ron, the group, whose music is often described as hard guitar prog-psych, looked destined for success until the untimely death of Tony in a auto-train crash in San Antonio, Texas in 1974. Music: Breathing Of Statues is the brother's only known recording, and what a record it is, with its wild prog instrumental power-trio vibe and a strong jazzy fusion sound running throughout. The album, which was recorded in New York in 1974 and released the same year, appeared on the Fautna label, a label so obscure that it doesn't seem to have existed at all. This lack of information suggests that the album was actually a private pressing, a supposition supported by the lack of a catalogue number on either sleeve or record and a thank you to Billy (The Duke) Biggs for putting up the dough! Although the surviving Viola brother Ron attempted to keep his brother's musical memory alive through a series of live performances in the San Antonio area, even adding some local musicians to augment the numbers, his heart clearly wasn't in it, and although the band was extremely popular in the area (one member of the audience reported the group as being "....very heavy. Jazz-rock stuff full of improvisation and industrial sound effects and nice little performance-art touches such as spraying flames around the stage with a cigarette lighter and a can of WD40. Half of the crowd were wildly enthusiastic; the other bewildered and terrified") the group disbanded soon after. WABASH RESURRECTION CD - Get It Off !! Lone album from a band about which virtually nothing is known, other than this power trio effort, which appeared on the Pepperhead label (76294) circa 1974 was privately pressed in extremely small quantities. Probably, given the Wabash connection, the band hailed from Illinois or thereabouts, and it is fair to conclude that the three members learned their craft (and certainly perfected their sound) by listening to LED ZEPPELIN albums, as the legendary band's influence, augmented by a touch of LYNARD SKYNYRD and possibly a smidgen of Johnny Winter, is lurking around every musical corner of this album.	1974	Radioactive / UK RRCD 068	Rock Hard USA	14,90 €
WAILING WALL CD - WAILING WALL CD version of the Rockadelic release by this weird band from El Paso, who recorded this album back in 1970 with the Suemi label guys who were also responsible for the 'I LOVE YOU GORGO', 'SWIFT RAIN', 'LEVIATHAN' and 'IOTA'. This band featured the Adams brothers who later were responsible for the 'Light Rain' middle eastern vibe LP's. This album is very 'out there' with awkward vocals, long tracks and lyrics with desert vibe and insanity as COLD SUN LP has. A demented 4 piece with a pretty hot guitarist.	1970	Shadoks / GER SM 053 CD	Psych USA	14,95 €
WAITE, DAVE & MARIANNE SEGAL CD - PAPER FLOWERS "Like Sandy Denny Marianne Segal's songs mine a rich seam of poetic introspection with cut-glass English restraint and tunes that hang around long after their conclusion.....a forgotten folk rock masterpiece" MOJO UK. Before the legendary '70's UK Folk Rock band Jade, there was a folk duo - Dave Waite and Marianne Segal. Their music was a fusion of English and American contemporary folk artists such as John Renbourn, Bert Jansch Joni Mitchell, Bob Dylan, The Mamas and The Papas and Peter Paul and Mary but it also contained a spark of ever-so-English vocal purity that gave the duo a sound more suited to the label "folk pop". Recorded between 1967 and 1969. In part comparable to Sandy Denny and the Strawbs and with the folk pop sensibilities of US 60's West Coast. Marianne and Dave weave magical harmonies on original and contemporary '60's folk material and fans of '60's psychedelia, pop or folk will find much to enjoy on this timeless release.	1967-6	Lightning Tree / UK LIGHTFL 2	Folk UK	18,90 €

WASHINGTON, Geno & the RAM JAM BAND CD - FOOT STOMPIN' SOUL Superbe double CD 53 track compilation. Initially stationed in England for the Air Force during the early '60s, American soul shouter Geno Washington fronted a British group known as the Ram Jam Band for a series of moderate U.K. chart hits during 1966-1967. Though he was born in Indiana, Washington had the grit of a deep soul testifier like Wilson Pickett or Don Covay. While stationed in East Anglia, Washington became known as a frequent stand-in at gigs around London. When guitarist Pete Gage saw him at a club in 1965, he asked Washington to join his new group with bassist John Roberts, drummer Herb Prestige, organist Jeff Wright, Lionel Kingham on tenor sax, and Buddy Beadle on baritone. Geno Washington stayed in England after his release from the Air Force, and the band earned notice around the Southeast for an infectious live show that packed dozens of up-tempo R&B/soul nuggets into a half-hour. Signed to Piccadilly by early 1966, the group just broke into the Top 40 with "Water." Though it was their highest-charting single, Geno Washington and the Ram Jam Band hit the charts three times in the next year with "Hi-Hi Hazel," a cover of "Que Sera Sera," and "Michael." The band's first two LPs -- Hand Clappin' Foot Stompin' Funky-Butt...Live! and Hipsters, Flipsters, Finger-Poppin' Daddies! -- were much better documents of the band at work, and both hit the British Top Ten. Still, Geno Washington recorded only two more albums with the Ram Jam Band before splitting by 1970. Gage went on to join Vinegar Joe, while Washington returned in 1976 with Geno's Back! Four years later, Washington earned his only number one hit (of a sort), when Dexys Midnight Runners took the tribute track "Geno" to the top of the charts. He recorded another LP (Put Out the Cat) in 1981, and continued to tour sporadically during the '80s and '90s, often incorporating a blues stance as well as a hypnotism act. ~ John Bush, All Music Guide	1966-6	Castle / EU CMDDD1304	60's Soul UK	14,90 €

WATCH, The CD - VACUUM	2004	Lizard / Italy LCD 0035	Prog. Rock Italy	16,00 €
Looking at the huge success the Canadian band The Musical Box has by simply copying vintage Genesis material, one most certainly can't say the few bands who craft their own compositions in the same way Genesis did in the seventies are committing a crime! I very much understand that there are people out there who still feel Trespass, Nursery Crime and Foxtrot were the best albums ever made, so when a young band delivers brand new original material in the same style, I'm sure many, many Genesis fans worldwide will embrace this with open arms. Let's be honest here: without forcing himself, singer Simone Rossetti simply sounds like a very young Peter Gabriel whilst the rest of the band surely have studied the Genesis arrangements and sounds to the fullest in order to create a kind of music that gets ever so close to the "real" Genesis from the seventies. If you listen to the keyboards, it's as if you are listening to Tony Banks; if you listen to the guitar, you see Hackett in front of your eyes; when you hear the drums, you find yourself in Phil Collins territory, whilst the main ingredient remains the fantastic Simone Rossetti, who even plays some flute, making "Damage Mode" sound like an outtake from the aforementioned three albums. His voice even contains that slight harshness that made Gabriel's voice so typical and original. Towards the end, Ettore's guitar briefly sounds a bit like that of Gary Chandler, adding a slightly more direct approach to the whole. Contrary to a lot of contemporary prog acts, The Watch has the power to include catchy melodies within their music, which of course is a very strong point.

WHITE NOISE CD - An Electric Storm The legendary debut White Noise album was released in 1969 by Island Records featuring Delia Derbyshire and Brian Hodgson, who had worked for the BBC Radiophonic Workshop, and David Vorhaus, who had studied classical orchestral bass playing and electronics. The instrumentation had all sorts of early electronic instruments and a huge amount of tape manipulation, the standard techniques of the Workshop in those days. An electric storm is considered to be one of the most (if not the greatest) experimental albums that island ever had, but for a weird reason the company doesn't seem to care as much as the people who try to find it! The songs in "An electric storm" create a peculiar and sometimes dark atmosphere... unfortunately words can say only little about the new musical, aesthetical e.t.c perceptions that this record introduced back in 1969....The album was so ahead of its time then, so today it sounds as fresh as can be...	1968	Island / UK 3D CID 1001	electronic Psych UK	12,90 €

WIGWAM CD - Some Several Moons Another great outing from this 'deep pop' band. If you are not familiar with that term it just means that this is pop rock for adults who have listened to rock, prog and psychedelic music most of their lives. Another reviewer said this picks up where they left in the 70's and even though i agree to a certain extent there are other elements here that started to surface in the Titans Wheels album (another great one by the way). Catchy tunes with prog overtones and good guitar solos here and there. And of course that trademark style that only Wigwam knows how to create. Not the best place to start if you are a prog head (for that go to Fairy Port, Being or Fresh Garbage...and then Tombstone Valentine) but if you are already a fan you'll know what to expect and know there is a lot to be happy about with this new release. WINDOW CD - WINDOW This fabulous folky/psych album from the 70s is yet another example of a great album that fell through the cracks in the musical pavement. Usually described in a christian folk context although there's precious little of this genre present on this lovely, wistful acoustic album. The star of the show is undoubtedly the unnamed singer whose range, poise and delivery are reminiscent of the vocal talents of Linda Perhacs, Vashty Bunyan and even Joni Mitchell. There's lots of trippy psych, particularly in the outstanding "The magician" and "Noah" while the strong, acoustic guitar based accompaniment is tight but understated throughout. An album that will appeal to lovers of folk based female vocalists as well as everyone who loves good music.	197	Radioactive / UK RRCD 144	Folk Psych USA	14,90 €

The band exhibited a fine range of harmonies, and were indeed from Kansas! The album is recommended and is a significant minor collectable. During this period, they also recorded and toured with Sweeney's Men & Dr Strangely Strange. Gay & Terry were ambitious mavericks, at the adventurous end of folk rock, and by the early 1970s, they were well established as a popular duo. Between '74 & '76, they recorded three albums for Polydor Records. 'Lake Songs From Red Waters' was compiled with the help of Gay & Terry and features their personal favourites from this period. WRITING ON THE WALL CD - Power of the Picts Part of the underground progressive movement, Writing On the Wall were formed in Scotland, but they soon moved to London, home of rock, becoming the house band at the Middle Earth club. During that period, a handful of independent labels sprung up, dedicated to progressive rock and ready to sign new talents. Writing On The Wall took advantage of that wave and recorded their debut Power Of The Picts album in 1970. Original copies of the album now fetch high sums, but when it was first released it was shunned by many radio stations, who considered the sound to be too heavy for airplay. YESTER, JERRY & JUDY HENSKE- CD - FAREWELL ALDEBARAN Reissue of late 60s folk/psych album by husband and wife. Yester had enjoyed an element of fame with THE LOVIN' SPOONFUL. "Farewell Aldebran" is often heralded as one of the most proficient and creative album in its genre, with Henskey's incredible range of vocal styles. Her mind blowing vocals on the opening track, the hard-fuzzed "Snowblind", gives an early clue to her talent and range. They attempted to scale the same artistic heights with their next collaboration ROSEBUD, it was not to be. Yester, fearing he already had peaked as a musician turned his attention to production and started working with Tom Waits, Tim Buckley, The Turtles etc.	1969	Radioactive / UK RRCD 133	Psych Folk USA	14,90 €
YESTERDAYS CHILDREN CD - Yesterdays Children Reissue of one and only album by YESTERDAY's CHILDREN, recorded at the time that they entered the HEAVY PSYCH/ACID ROCK scene of late 60's. Heavy PSYCHEDELIC rock with killer dual guitars, over the top vocals, really raw edged. YARDBIRDS/LED ZEPPELIN influenced in cool looking trip-out-sleeve. They progressed from a fuzzed up garage sound on their debut single to a more straight forward hardrock sound. New jewel box edition	1969	Akarma / Italy AK 179 CD	Rock Hard USA	9,90 €
Ym-STAMMEN CD - Enøyd The band once stated that their project was to attempt a blend of folk-music from the entire indo-european area. This excludes country, blues and consequently rock'n'roll, but includes a lot of influences and many lyrical references to the beliefs of the vikings (the album title, Enøyd is a reference to the one-eyed god Odin). The result sometimes sounds norse (for want of a better word), and sometimes positively mediterranean. "Overvintr" and "Soldansen" are energetic without being loud, and may be said to be the album's standout tracks.	199	TAT / NOR TATCD 006	Ethno Folk NOR	15,00 €

YOUNG BEATS, Los CD - The Exciting Sound Of In November 1966, five young men entered the Suramericana de Grabaciones Studios in Bogotá, Colombia. The name of their band was Los Young Beats and they were about to record their "Tiempos, ellos estan cambiando" LP. "Our favourite bands were the Rolling Stones, the Animals, Them and the Small Faces, and we wanted to play THEIR songs," remembers Roberto Fiorilli, the group's drummer. And so they did. Today this album is one of the rarest and most sought-after collectors' items from the South American sixties beat scene, honoured with five circles in Hans Pokora's „1001 RC Dream Book“. The best though, it's available again – 11 cool and wild half english/half spanish vocals tracks incl. snarling covers of „Baby Please Don't Go“, „Train Kept A Rolling“, „Hearts Of Stone“, „For Your Love“, „Not Fade Away“ or „You Really Got Me“. Listen to four additional 1967 bonus cuts by the Time Machine, another Colombian band growing out of the ashes of the Young Beats. Read their history as told by the group's drummer Roberto Fiorilli, enjoy a full coloured cover and watch unseen pics on a glossy 2 page insert. Finally, nearly four decades later, the entire collector-world can enjoy the exciting 1966 sound of Los Young Beats on a profusely remastered reissue on Break-A-Way Records. Get it now, or forget it forever.	1966	Break-A-Way / GER Break 014	60's Beat Colombia	14,90 €

ZERFAS CD - ZERFAS This album, by the Indianapolis outfit featuring the Zerfas brothers David and Herman, is one of the best and probably the best-known self-pressed US psych albums ever to have seen the light of day. All the material is self-penned which comes as a surprise as the tracks are uniformly strong, with lots of keyboards, sound effects, and some great harmonies. The first side is rather Beatlesque, from the superb backward guitar intro of opening track You Never Win to the first class synthesized rock of The Sweetest Part. Another stand-out track from side 1, I Need It Higher, recently found its way onto the CD compilation Love, Peace And Poetry. As a Zerfas fan, discovering the band for the first time, wrote "As the prelude to the first track slowly faded up - a wonderously thick mix of layered backwards and forward voices and sounds - I remember thinking that this might just be the best thing I'd ever heard. Across the two sides you can get some sense of these musicians labouring for hours in the small studio to get just the right blend of harmony, guitar, drums and organ to reach for that fleeting glimpse of something larger than we are. This is a great LP. Enjoy". And really, there's not much more you can add to that, is there?	1973	Radioactive / UK RRCD 050	Psych USA	14,90 €

This "get stoned and play" project, established by ex-members of the famous Berlin-based cult-band LIQUID VISIONS, experiments lightyears away from the usual musical clichés. On their debut album, ZONE SIX invite you to a fantastic sixty-minute psychedelic sound trip which starts as a hazy PinkFloyd- and Hawkwind-inspired jam session and takes you away to nowhere. In addition to the really mind-blowing guitar stuff you will get entranced by both great female vocals and reverberating drums. This psychedelic journey can be immensely addictive of course, because it will lead you to endless space-rock galaxies. Where it ends is our secret, until you find out yourself! Das "Get stoned and play"-Projekt von ex-Musikern der kultigen Berliner Sixties-Band LIQUID VISIONS experimentiert jenseits gängiger Klischees. Auf ihrem Debüt lassen ZONE SIX sogleich alle psychedelischen Register spielen und laden - in bester Pink Floyd-Spiellaune - zu einem völlig durchgeknallten Soundtrip ein. Raffiniert trancige mit Rauchwaren gedopte Gitarrenläufe und hypnotisch-weiblicher Gesang schlängeln sich vorbei an verhallten Drumsäulen und schrauben sich tief in die Gehörgänge, verführen die Sinne und machen süchtig, um dann wieder - scheinbar unhaftend - im endlosen Raum verschwinden zu wollen. Bevor es zum kalten Turkey kommen kann, führt die Reise weiter zu neuen intergalaktischen Klangpfaden, deren Bestimmungsort wir nicht weiter verraten können
